COLORADO TITLE X FAMILY PLANNING AGENCIES

FAMILY PLANNING SERVICES

Colorado Title X Family Planning (FP) clinics provide a range of preventive health services, including reproductive health exams; contraceptive supplies; pregnancy testing; screening for cancer and STIs, including HIV; basic infertility services; and referrals to other health and social services. In addition, clients receive education and counseling about contraception (including abstinence), sexually transmitted infections, and general preventive health practices. Family planning clinics often are an entry point into the health care system for women and families who otherwise lack access to health care services.

Family Planning services are confidential. Clinic charges are based on the patient's ability to pay. It is not necessary to live in the county where services are received.

For more information about this program please visit
the state Family Planning website at:

www.cdphe.state.co.us/pp/womens/famplan.html
