Data Source: Patient Reporting Investigating Surveillance Manager (PRISM). All percents are column percents and may not equal 100% due to rounding. These data are preliminary and subject to change. <sup>1</sup>For events reported by January 1, 2026. <sup>2</sup>Includes primary and secondary syphilis. <sup>3</sup>May include primary, secondary, early latent, late latent, and unknown latent syphilis. <sup>4</sup>Sex at birth used when gender identity was unknown. <sup>5</sup>Race/ethnicity is not collected for all cases due to resources and staffing. NH=Non-Hispanic. <sup>6</sup>Age at diagnosis. <sup>7</sup>Based on residence at time of diagnosis. <sup>8</sup>Includes Adams, Arapahoe, Broomfield, Denver, Douglas, and Jefferson counties. <sup>9</sup>Includes Boulder, El Paso, Larimer, Mesa, Pueblo, and Weld counties. The Colorado Department of Public Health and Environment acknowledges that social, economic and environmental inequities result in adverse health outcomes and have a greater impact than individual choices. Reducing health disparities through systems change can help improve opportunities for all Coloradans.
