Health & Environment

Dedicated to protecting and improving the health and environment of the people of Colorado

November 10, 2016

Colorado Legislative Council  
029 State Capitol Building  
200 East Colfax  
Denver, Colorado 80203

**Subject:** Anticipated Changes to the Colorado State Implementation Plan for Air Quality for Calendar Year 2017

Pursuant to § 25-7-133(4)(b), the Colorado Air Quality Control Commission (AQCC) is directed to provide Legislative Council with a list of anticipated changes to Colorado's federally-approved State Implementation Plan (SIP) for the upcoming year. Based on its current Long Term Calendar, the AQCC will consider the following SIP change during calendar year 2017:

**Revisions to Regulation Number 4, Concerning the Sale and Installation of Woodburning Appliances**

The Commission will consider revisions to Regulation Number 4 that revise requirements for wood stove certification that are consistent with EPA's 2015 revised Standards of Performance for New Residential Wood Heaters. Minor administrative revisions will also be considered. It is anticipated that the AQCC will consider these revisions to Regulation Number 4 during March 2017.

This and any other SIP revision adopted by the AQCC in 2017 will be provided to the Legislative Council for consideration in January 2018, prior to submittal to the U.S. Environmental Protection Agency. This scheduled SIP revision, along with the AQCC's other anticipated air quality-related regulatory activity not intended to become part of the federally-approved SIP, have been included in the AQCC's Long Term Calendar and CDPHE's 2017 Regulatory Agenda at:
