To the Board of Directors Regional Air Quality Council Denver, Colorado

#### INDEPENDENT AUDITORS' REPORT

#### Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities and each major fund of the Regional Air Quality Council (the "Council"), as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Regional Air Quality Council, as of December 31, 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Council's basic financial statements. The budgetary comparison schedule and the schedule of expenditures of federal awards, as required by the and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, budgetary comparison schedule and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

John Luther & Associates, LLC

In accordance with *Government Auditing Standards*, we have also issued our report dated September 4, 2019 on our consideration of the Regional Air Quality Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Regional Air Quality Council's internal control over financial reporting and compliance.

# Regional Air Quality Council Management's Discussion and Analysis December 31, 2019

#### Introduction

The management's discussion and analysis of the financial performance of the Regional Air Quality Council (the "Council") provides an overview of the Council's financial activities for the year ended December 31, 2019. The Council considers each fiscal year separately. Although 2018 financial information is included in the audit and parts of this discussion and analysis, there is not a direct relationship to income or expenses from year to year, as the programs the Council provides can vary significantly from year to year. This should be read in conjunction with the accompanying financial statements of the Council.

# Financial Highlights

- The Council continues to have a strong financial position. The Council has a solid cash position and significant contract funding to fund its programs.
- The Council has been successful in securing grant funding to support its activities. As of December 31, 2019, the Council has entered into multi-year contracts with state and federal agencies that total \$51,920,777. Of this amount, \$25,460,543 has been spent by Council and reimbursed by various agencies and \$26,460,031, is remaining on the contracts.
- In 2019, the Council's overall local government funding level remains consistent from 2018. In 2019 Council updated its funding formula for 2020 requests, included requests to all municipalities within the ozone nonattainment areas, and developed a plan to inform local governments of the work of the RAQC as well as to encourage engagement in RAQC programs. Council continues to work to sustain and increase its local government funding levels and to maintain strong partnerships with local governments.
- Council has been successful in securing in-kind match contributions from partners to match federal grant funds. The collected in-kind match was sufficient to meet contractual requirements.
- General and administrative costs increased by \$214,543 or 17.19% from 2018. This increase is due to anticipated salary changes, increased costs related to health care, and planned technical updates which included additional monitors, laptops, accounting system software update, conversion to electronic time tracking, and equipment to conduct allow remote access to meetings. The administrative costs remain under the 2019 overall budgeted amount.

#### Using this Annual Report

The Council's financial statements consist of three statements— Net Position; Revenue, Expenses and Changes in Net Position; and Cash Flows Proprietary Fund Type. These statements provide information about the activities of the Council, including resources held by the Council, but restricted for specific purposes. The Council is accounted for as an enterprise fund, which records activity in a manner similar to private business and uses the accrual basis of accounting.

The Statement of Net Position and Statement of Revenues, Expenses and Changes in Net Position

The Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position report information about the Council's resources and its activities. These statements include all restricted and unrestricted assets and all liabilities using the accrual basis of accounting. Using the accrual basis of accounting means that all of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Council's net position and changes in them. The Council's net position—the difference between assets and liabilities—is one measure of the Council's financial health or financial position.

# The Statement of Cash Flows Proprietary Fund Type

The Statement of Cash Flows Proprietary Fund Type reports cash receipts, cash payments and net changes in cash and cash equivalents resulting from four defined types of activities. It provides answers to such questions as where did cash come from, what was cash used for and what was the change in cash and cash equivalents during the reporting period.

#### The Council's Net Position

The Council's net position is the difference between its assets and liabilities reported in the Statement of Net Position.

Table 1: Assets, Liabilities and Net Position

|   |    | 2019                |    | 2018             |

| Total noncurrent assets                         |    |                     |    |                  |
| Capital assets, net of accumulated depreciation |    | 56,807              |    | 72,712           |
| Other   |    | 1,653               |    | 1,653            |
| Total noncurrent Assets                         |    | 58,460              |    | 74,365           |
| Total Honouriem (1880)                          |    | 30,100              |    | 7 1,505          |
| Total assets                                    | \$ | <u>3,313,307</u>    | \$ | <u>2,152,335</u> |
| Liabilities                                     |    |                     |    |                  |
| Current liabilities                             |    |                     |    |                  |
| Accounts payable                                | \$ | 2,240,862           | \$ | 1,359,367        |
| Accrued expenses                                | Ψ  | 18,620              | Ψ  | 18,620           |
| Total current liabilities                       |    | 2,259,482           |    | 1,377,987        |
| Noncurrent liabilities                          |    |                     |    |                  |
| Accrued compensated absences                    |    | 53,905              |    | 65,690           |
| Total Liabilities                               | \$ | <u>2,313,387</u>    | \$ | <u>1,443,677</u> |
| Net Position                                    |    |                     |    |                  |
| Invested in capital assets                      |    | 56,807              |    | 72,712           |
| Unrestricted                                    |    | 943,113             |    | 635,946          |
| Omesuicted                                      |    | <del>74</del> 5,115 |    | 033,740          |
| Total Net Position                              | \$ | <u>999,920</u>      | \$ | <u>708,658</u>   |

As shown in Table 1 above, the Council's net position increased in 2019. The increase in net position reflects the annual fluctuation in recovery of indirect costs through contracts.

The change in accounts receivable from 2018 to 2019 is due to the nature of the Council's income contracts for programs and the timing of contract reimbursements. December and fourth quarter 2019 invoices for contract reimbursements were submitted for payment in early 2020. The year-end accounts receivable balance is based on the amount of work completed on each contracted project.

# Operating Results and Changes in the Council's Net Position

In 2019, the Council's changes in net position increased to \$999,920 as shown in Table 2. This increase is due to several different components and the reasons for this change are discussed under the "Operating Losses/Gains" section below.

Table 2: Operating Results and Changes in Net Position

|  | 2019             | 2018             |
|--|------------------|------------------|
| Operating Revenues                                 |                  |                  |
| Project Service Charges                            | 7,157,444        | 3,852,485        |
| Contributions to Programs (local governments)      | 199,078          | 208,350          |
| Contributions to Programs (in-kind project income) | 833,015          | 820,389          |
| Other income                                       | 48,931           | 49,622           |
| Total operating revenues                           | \$ 8,238,468     | \$ 4,930,846     |
| Operating Expenses                                 |                  |                  |
| Direct contract costs                              | 6,775,920        | 4,042,673        |
| General and administrative                         | <u>1,248,200</u> | <u>1,033,661</u> |
| Total operating expenses                           | 8,024,120        | 5,076,334        |
| Operating Income (Loss)                            | 214,348          | (145,488)        |
| Nonoperating Revenues                              |                  |                  |
| Interest Income                                    | 58               | 125              |
| Income (loss) before Contributions                 | 214,406          | (145,363)        |
| Contributions                                      | 76,856           | 112,050          |
| Net Income (Loss)                                  | 291,62           | (33,313)         |
| NET POSITION, Beginning                            | 708,658          | 741,971          |
| NET POSITION, Ending                               | \$999,920        | \$               |

#### Operating Loss/Gain

The first component of the overall change in the Council's net position is its income or loss/gain—generally, the difference between revenues and expenses. In 2019, the Council has reported a net income gain of \$291,262. The increase in net position in 2019 reflects the annual fluctuation in recovery of indirect costs through contracts. Council submits indirect cost rates for approval to its cognizant agency and/or state agencies annually to assure that indirect costs are recovered equitably between all funding sources.

The Council's operating revenue was used to pay for the direct contract costs and a portion of the general and administrative costs.

The Council's financial statements conform to the requirements of GASB 34, which divide income by definition into two categories, operating and non-operating.

#### Non-Operating Revenues

Non-operating revenues consist primarily of interest income.

#### The Council's Cash Flow

Changes in the Council's cash flows are consistent with changes in operating losses and operating revenues and expenses, discussed earlier.

#### Capital Assets and Debt Administration

At the end of 2019, the Council had \$56,807 invested in capital assets, net of accumulated depreciation, as detailed in Note 4 to the financial statements. Capital assets include an infrared camera, a phone system with voicemail and leasehold improvements.

#### Other Economic Factors

The Regional Air Quality Council was established by an executive order and exists at the discretion of the governor of the state of Colorado. The Council is considered a political subdivision of the state of Colorado. The Council's current executive order remains in full force until modified or rescinded by future executive order of the Governor. The Council has existed as a nonprofit corporation since 1990.

The Council is not subject to the requirements of TABOR amendments because it has no taxing or bonding authority.

The Council relies on local governments in the nine-county metro Denver/North Front Range ozone nonattainment area for significant funding. This funding is voluntary and can change annually. However, Council management proactively works with the local government partners to help ensure funding levels remain consistent.

Grant funding varies annually based on awards received and project contract periods.

#### **Council Contact Information**

This financial report is designed to provide our contributors, suppliers and taxpayers with a general overview of the Council's finances and to show the Council's accountability for the money it receives. Questions about this report and requests for additional financial information should be directed to the Council by telephone at (303) 629-5450 or by email at raqc@raqc.org

# STATEMENT OF NET POSITION As of December 31, 2019

# NOTES TO FINANCIAL STATEMENTS December 31, 2019

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Regional Air Quality Council (the "Council") was established by an executive order of the governor of the State of Colorado. In March 2009, the Governor recreated and reauthorized the Council. On May 5, 2011 and July 19, 2013, the Governor extended and reauthorized the Council. In 2019, the Governor extended and amended the Council's executive order as the lead air quality planning agency for the Denver metropolitan area and the Denver Metro/North Front Range Ozone Non-Attainment Area. The Council exists at the discretion of the governor of the State of Colorado with no specific expiration date.

The mission of the Regional Air Quality Council is to develop and propose effective and cost-efficient air quality planning initiatives with input from government agencies, the private sector, stakeholder groups, and citizens of the Denver metropolitan/North Front Range region. Its primary task is to prepare state implementation elements that demonstrate and ensure long-term compliance with state and federal air quality standards and provide acceptable public health and environmental protections to those residing in the Denver metropolitan and the North Front Range areas, as appropriate. The Council shall identify bold, cost-effective strategies and measures that reduce greenhouse gas emissions and consider co-benefits in its analyses and deliberations. The Governor directed Council to work with relevant State, agencies, DRCOG, NFRMPO, municipal and county governments, business and industry representatives, advocacy groups and citizens to achieve its goals. Council shall coordinate its assessments and strategy development efforts with other air quality initiatives to determine strategies and measures for ozone- and climate change- causing emissions.

The accounting policies of the Council conform to generally accepted accounting principles as applicable to governments. Following is a summary of the more significant policies.

# **Reporting Entity**

In accordance with governmental accounting standards, the Regional Air Quality Council has considered the possibility of inclusion of additional entities in its basic financial statements.

The definition of the reporting entity is based primarily on financial accountability. The Council is financially accountable for organizations that make up its legal entity. It is also financially accountable for legally separate organizations if Council officials appoint a voting majority of the organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the Council. The Council may also be financially accountable for governmental organizations that are fiscally dependent upon it. Based on the application of these criteria, the Council includes the Clean Air Fund, a separate not-for-profit corporation, in this report. This information is included in the activity of the enterprise fund.

# NOTES TO FINANCIAL STATEMENTS December 31, 2019

# NOTE 1: <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

The Council financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, are recorded only when payment is due.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Council's practice to use restricted resources first, then unrestricted resources as they are needed.

The Council reports all activity in one enterprise fund which is a proprietary fund type. This fund is considered a major fund.

#### Cash and Investments

Cash equivalents include investments with original maturities of three months or less.

#### Receivables

Receivables consist of amounts that are owed from various granting agencies.

# NOTES TO FINANCIAL STATEMENTS December 31, 2019

# NOTE 1: <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

# **Capital Assets**

Capital assets, which include property and equipment, are reported in the proprietary fund financial statements. Capital assets are defined by the Council as assets with an estimated useful life in excess of one year and an initial cost of \$1,000 or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property and equipment of the Council is depreciated using the straight-line method over the following estimated useful lives:

Furniture, fixtures and equipment

5-10 years

## **Accrued Compensated Absences**

Council policies permit most employees to accumulate vacation and sick leave benefits that may be realized as paid time off, or in limited circumstances, as a cash payment. Accumulated vacation expense is recorded when time off occurs. Upon termination employees are paid for accumulated vacation time. Sick leave benefits are recognized as expense when the time off occurs. Sick leave benefits can be accumulated but are not payable in cash at time of termination. Compensated absence liabilities are computed using the regular pay and termination pay rates in effect at time of termination.

#### **Net Position**

The government-wide and business-type fund financial statements utilize a net position presentation. Net position is categorized as investment in capital assets, restricted, and unrestricted.

Investment in Capital Assets is intended to reflect the portion of net position which are associated with non-liquid, capital assets less outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets and any associated unamortized cost.

Restricted Net Position consist of liquid assets, which have third party limitations on their use.

# NOTES TO FINANCIAL STATEMENTS December 31, 2019

# NOTE 1: <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u> (Continued)

#### **Net Position** (Continued)

*Unrestricted Net Position* represents assets that do not have any third-party limitation on their use. While Council management may have categorized and segmented portion for various purposes, the Council has the unrestricted authority to revisit or alter these managerial decisions.

#### Comparative Data

Comparative total data for the prior year has been presented in the accompanying financial statements in order to provide an understanding of changes in the Council's financial position and operations. However, complete comparative data in accordance with generally accepted accounting principles has not been presented since its inclusion would make the financial statements unduly complex and difficult to read.

#### NOTE 2: STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

# **Budgets and Budgetary Accounting**

The Council is not legally required to prepare a budget under the Colorado Budget Law; however, they approve a budget as a management control device. The budget has been presented in these financial statements for presentation purposes. The following procedures are followed in establishing the budgetary data reflected in the financial statements.

In the last quarter of the preceding year, the Council staff submits to the Board of Directors a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.

# NOTES TO FINANCIAL STATEMENTS December 31, 2019

#### NOTE 3: DEPOSITS AND INVESTMENTS

#### **Deposits**

# Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The Colorado Public Deposit Protection Act (PDPA) requires that all units of local government deposit cash in eligible public depositories. Eligibility is determined by state regulations. At December 31, 2019, State regulatory commissioners have indicated that all financial institutions holding deposits for the Council are eligible public depositories. Amounts on deposit in excess of federal insurance levels must be collateralized by eligible collateral as determined by the PDPA. PDPA allows the financial institution to create a single collateral pool for all public funds held.

The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the uninsured deposits.

The Council has no policy regarding custodial credit risk for deposits.

At December 31, 2019, the Council had deposits with financial institutions with a carrying amount of \$656,684. The bank balances with the financial institutions were \$726,148. Of these balances, \$250,000 was covered by federal depository insurance and \$476,148 was covered by collateral held by authorized escrow agents in the financial institutions name (PDPA).

#### Investments

#### Interest Rate Risk

The Council does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

#### Credit Risk

Colorado statutes specify in which instruments the units of local government may invest which includes:

- Obligations of the United States and certain U.S. government agency securities
- General obligation and revenue bonds of U.S. local government entities
- Bankers' acceptances of certain banks
- Local government investment pools
- Written repurchase agreements collateralized by certain authorized securities
- Certain money market funds
- Guaranteed investment contracts

# NOTES TO FINANCIAL STATEMENTS December 31, 2019

# **NOTE 3: DEPOSITS AND INVESTMENTS** (Continued)

#### **Investments** (Continued)

The above investments are authorized for all funds and fund types used by Colorado municipalities.

#### Fair Value

The Council categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant observable inputs.

The Council does not have any investments requiring categorization as of December 31, 2019.

#### NOTE 4: CAPITAL ASSETS

Capital assets activity for the year ended December 31, 2019 is summarized below:

|  | Balances 12/31/18 | Additions          | Deletions | Balances 12/31/19 |
|--|-------------------|--------------------|-----------|-------------------|
| Business-type Activities Capital Assets, depreciated Furniture, Fixtures and Equipment | \$ 145,407        | \$ -               | \$ -      | \$ 145,407        |
| Less Accumulated Depreciation  | 72,695            | 15,905             |           | 88,600            |
| Total Capital Assets, depreciated, Net   | \$ 72,712         | <b>\$</b> (15,905) | \$ -      | <b>\$</b> 56,807  |

#### NOTE 5: OPERATING LEASE

The Council has entered into a non-cancellable operating lease for its office space and a proportionate amount of the buildings operating expenses. This lease expires on April 30, 2027. Future minimum lease payments are as follows:

| 2020       | \$       | 76,110  |
|------------|----------|---------|
| 2021       |          | 78,410  |
| 2022       |          | 79,975  |
| 2023       |          | 81,581  |
| 2024       |          | 83,205  |
| Thereafter | <u> </u> | 200,482 |
|            |          |         |
| Total      | \$       | 599,763 |

# NOTES TO FINANCIAL STATEMENTS December 31, 2019

#### NOTE 6: CONTRACTS

The Council has entered into various contracts with state and federal agencies to provide services related to the Council's programs. As of December 31, 2019, the Council has entered into contracts with a total amount of \$51,920,777. Of this amount \$25,460,543 has been spent by the Council and subsequently reimbursed by the various agencies and \$26,460,031, is remaining on the contracts.

#### NOTE 7: RISK MANAGEMENT

The Council is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. Commercial insurance coverage is purchased to handle these risks of loss. Settled claims have not exceeded insured amounts in the last three years.

# NOTE 8: <u>DEFINED CONTRIBUTION PLAN</u>

The Council contributes to a defined contribution pension plan (the Regional Air Quality Council Money Purchase Plan) covering substantially all employees. The Plan is administered by the Regional Air Quality Council through Nationwide Retirement Solutions. The plan is administered by a trustee appointed by the Council's governing body. The plan provided retirement and death benefits to plan members and their beneficiaries. Benefit provisions are contained in the plan document and were established and can be amended by action of the Council's governing body.

For year ended December 31, 2019 and prior years, the Council contributed 3% of the employee's compensation to the Plan. Employees are not required to match the contribution. Effective January 1, 2018, employees have the option to contribute to the Plan up to an additional 2.5 percent for a total of 5.5 percent of the employee's compensation which will be matched by the Council.

All employees are 100 percent vested in the Plan. Employees may receive distributions from the Plan from certain accounts prior to termination of employment provided they satisfy the conditions of attaining age 70 ½ and are 100% vested in accounts. In addition, employees may receive a distribution of the vested portion of some or all accounts in the Plan for the following reasons: termination of employment for reasons other than death, disability or retirement; early retirement; normal retirement; disability, and death. The plan will pay the employee's beneficiary a death benefit upon death of employee. If the death benefit payable to the beneficiary does not exceed \$5,000, then the benefit may be paid as a lump-sum. If death benefit exceeds \$5,000, the beneficiary may elect to have the death benefit in the same forms of payment that were available to the employee.

# NOTES TO FINANCIAL STATEMENTS December 31, 2019

#### NOTE 8: <u>DEFINED CONTRIBUTION PLAN</u> (Continued)

Pension expense is recorded for the amount of the Council's contributions, determined in accordance with the terms of the plan. For the year ended December 31, 2019, there were no forfeitures reported by the Plan. Contributions in the amount of \$40,827 were made to the plan for the year ended December 31, 2019, equal to the Council's required contributions for the year.

#### NOTE 9: <u>COMMITMENTS AND CONTINGENCIES</u>

#### Claims and Judgments

The Council participates in a number of federal and state programs that are fully or partially funded by grants received from other governmental units. Expenditures financed by grants are subject to audit by the appropriate grantor government. If expenditures are disallowed due to noncompliance with grant program regulations, the Council may be required to reimburse the grantor government. As of December 31, 2019, significant amounts of grant expenditures have not been audited but the Council believes that disallowed expenditures, if any, based on subsequent audits will not have a material effect on the overall financial position of the Council.

#### **Tabor Amendment**

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, which has several limitations, including revenue raising, spending abilities, and other specific requirements of state and local government. The Council believes that it is not subject to the requirements of this amendment because it has no taxing or bonding authority.

#### NOTE 10: SUBSEQUENT EVENTS

Potential subsequent events were considered through September 2, 2020. It was determined that the following event is required to be disclosed through this date.

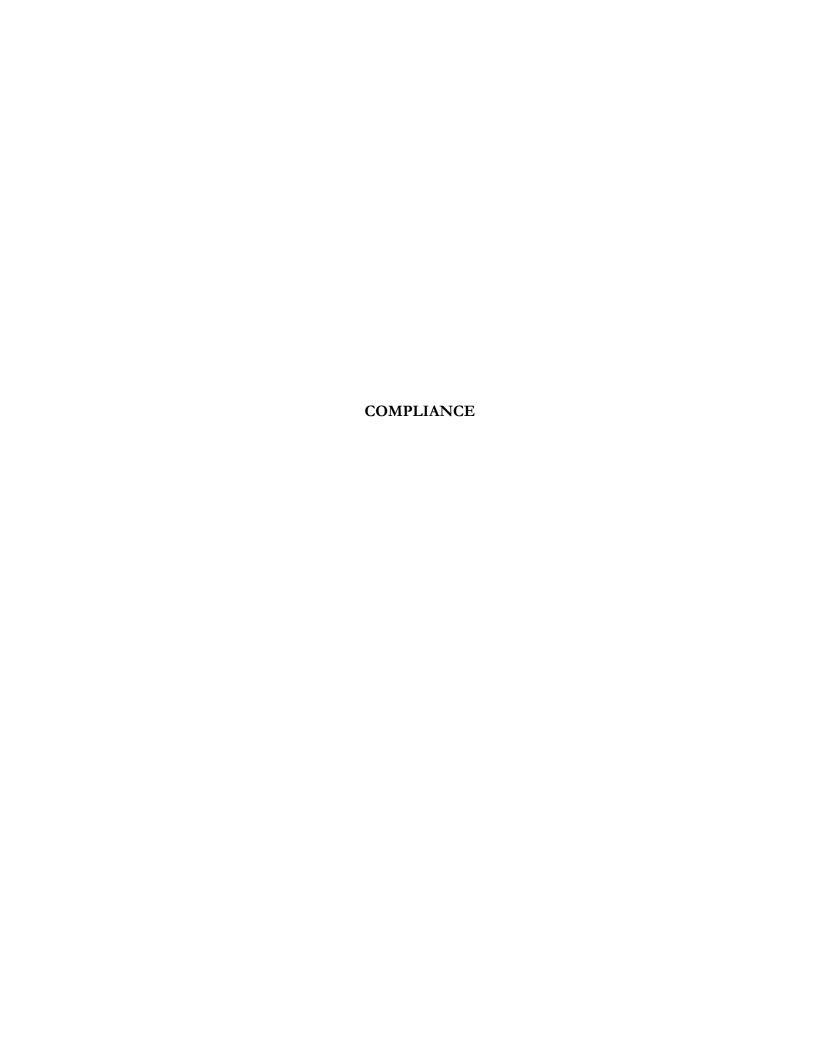

#### Covid-19

As a result of the coronavirus pandemic (COVID-19), economic uncertainties may have economic implications on the financial position, results of operations and cash flows of the Council. The duration of these uncertainties and the ultimate financial effects cannot be estimated at this time.

To the Board of Directors Regional Air Quality Council Denver, Colorado

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and each major fund of the Regional Air Quality Council as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise Regional Air Quality Council's basic financial statements, and have issued our report thereon dated September 2, 2020.

#### Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Regional Air Quality Council's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Regional Air Quality Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Regional Air Quality Council's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Regional Air Quality Council's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM, REPORT ON INTERNAL CONTROL OVER COMPLIANCE AS REQUIRED BY THE UNIFORM GUIDANCE

#### Report on Compliance for Each Major Federal Program

We have audited the Regional Air Quality Council's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Regional Air Quality Council's major federal programs for the year ended December 31, 2019. The Regional Air Quality Council's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Regional Air Quality Council's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Regional Air Quality Council's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Regional Air Quality Council's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the Regional Air Quality Council complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2019.

#### Report on Internal Control Over Compliance

Management of the Regional Air Quality Council is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Regional Air Quality Council's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Regional Air Quality Council's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose

# Findings Related to Financial Statements

The audit of the financial statements did not disclose any significant deficiencies in internal control that would be considered a material weakness, and did not disclose any instances of noncompliance with requirements of certain provisions of laws, regulations, and grants that were material to those financial statements.

#### Findings and Questioned Costs for Federal Awards

The audit of federal awards did not disclose any significant deficiencies in internal control that would be considered a material weakness, and did not disclose any instances of noncompliance with requirements of certain provisions of laws, regulations, and grants that were material to those federal awards.

# SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS For the Year Ended December 31, 2019

|   | Major    |        | Total        |
|---|----------|--------|--------------|
|   | Program? | CDFA#  | Expenditures |
| <b>U.S. DEPARTMENT OF TRANSPORTATION</b>              |          |        |              |
| Passed through the State Department Of Transportation |          |        |              |
| Highway Planning and Construction                     | Yes      | 20.205 | \$ 4,158,932 |
|   |          |        |              |
| Total Federal Financial Assistance                    |          |        | \$ 4,158,932 |

#### **NOTES**

#### 1. Basis of Presentation

The Schedule of Expenditures of Federal Awards includes the federal grant activity of the Council and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the purpose financial statements.

#### 2. Sub-recipients

In relation to the federal expenditures presented in this schedule, \$2,725,385 in federal awards was passed through to subrecipients during 2019.

3. The Council did not use the 10% de minimus cost rate.
