EXECUTIVE LETTER

## Message from Cris White, Executive Director and CEO March 28, 2013

In 2012, CHFA's work played an important role in strengthening Colorado's economy while fulfilling our mission of affordable housing and economic development finance. The estimated economic benefit resulting from our efforts during the past year exceeded $\$ 970$ million and supported over 5,000 jobs.

Specifically, CHFA supported:

- 2,535 households with home mortgage loans or CHFA Statewide Mortgage Credit Certificates;
- Homebuyer education classes for 6,888 households;
- The construction or preservation of 22 affordable rental housing developments consisting of a total of 1,659 units;
- 278 small and medium sized businesses in accessing capital, impacting 3,227 jobs; and
- 31 Colorado nonprofit organizations with missions related to CHFA's work in affordable housing or economic development through sponsorships and donations totaling over $\$ 166$ thousand.

These accomplishments are the result of our continued efforts to better understand and address our partners' and customers' needs. Through strategic outreach, CHFA gained input and formed new relationships that were instrumental in allowing us to increase the number of Coloradans we serve.

Among CHFA's expanded product offerings were three new home finance programs designed to maximize borrower benefit, while improving the overall asset quality of the single family portfolio. CHFA SmartStep blended CHFA's most popular programs - our lowest interest rate loan, down payment assistance, and an expanded Mortgage Credit Certificate - into one easy to use resource for lenders and customers. CHFA Advantage utilizes Fannie Mae's Risk Share loan program to serve borrowers who have maintained a strong credit history. Our new Federal Housing Administration (FHA) Streamline Refinance provides a refinance option for existing borrowers to take advantage of the low interest rate environment, while still allowing CHFA to maintain a positive relationship with our customers who've demonstrated a strong payment history.

Additionally, CHFA was pleased to reemerge in the multi-family arena after three years of inactivity in our 4 percent bond and direct lending programs due to ongoing market hurdles resulting from the 2008 economic decline. In 2012, CHFA supported 10 affordable housing developments with 4 percent Low Income Housing Tax Credit (LIHTC) allocations, and also provided financing for two of the ten transactions. In total, these developments will support the preservation of 600 affordable rental housing units and the construction of 324 new units. CHFA's ability to contribute resources toward affordable rental housing helped meet a critical need for Colorado, as rental vacancies decreased statewide.

CHFA's business finance team partnered with the Colorado Office of Economic Development and International Trade to launch the Colorado Capital Access and Cash Collateral Support programs. Utilizing resources made available through the Small Business Jobs Act of 2010, these programs will help small and medium sized businesses access capital by using a small amount of public-sector resources to leverage private-sector resources that otherwise might not be available.

In another example of CHFA's commitment to innovation and operational enhancement, CHFA embarked on a new partnership with Dovenmuehle Mortgage, Inc. (DMI) for the servicing of CHFA's single family loan portfolio. By forming an alliance with DMI, CHFA expects to achieve a number of benefits over time including improved asset performance, enhanced customer service, and greater control over indirect costs and technology investment. The financial and operational savings generated will allow CHFA to remain focused on investing as many resources as possible back into its mission of affordable housing and economic development.

Throughout the year ahead, CHFA will continue to remain focused on strengthening our financial and operational framework so we may further our mission of affordable housing and economic development finance on behalf of Colorado.

## Sincerely,

## Cis a. utate

Cris A. White
Executive Director and CEO

MANAGEMENT'S DISCUSSION AND ANALYSIS
(UNAUDITED)

## Management's Discussion and Analysis (unaudited)

chfa.

This section of the Colorado Housing and Finance Authority's (the Authority) annual financial report presents management's discussion and analysis of the financial position and results of operations at and for the years ended December 31, 2012 and 2011. This information is being presented to provide additional information regarding the activities of the Authority and to meet the disclosure requirements of Government Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments (GASB No. 34).

The Authority is a public enterprise that finances affordable housing, business and economic growth opportunities for residents and businesses of Colorado. Its dual mission is to increase the availability of affordable, decent and accessible housing for lower- and moderate-income Coloradans, and to strengthen the state's development by providing financial assistance to businesses.

Established by the Colorado General Assembly in 1973, the Authority raises funds through the public and private sale of bonds and notes, which are not obligations of the State of Colorado. The proceeds are loaned to eligible borrowers, primarily through private lending institutions across the state under sound fiscal practices established by the Authority. As a selfsustaining organization, the Authority's operating revenues come from loan and investment income, program administration fees, loan servicing and gains on sales of loans. The Authority receives no tax appropriations, and its net revenues are reinvested in its programs and used to support bond ratings.

In addition, the Authority participates in the Government National Mortgage Association (Ginnie Mae or GNMA) Mortgage Backed Securities (MBS) Programs. Through the MBS Programs, Ginnie Mae guarantees securities that are issued by the Authority and backed by pools of mortgage loans. Holders of the securities receive a "pass-through" of the principal and interest payments on a pool of mortgage loans, less amounts required to cover servicing costs and Ginnie Mae guaranty fees. The Ginnie Mae guaranty ensures that the holder of the security issued by the Authority receives the timely payment of scheduled monthly principal and any unscheduled recoveries of principal on the underlying mortgage loans, plus interest at the rate provided for in the securities. All loans pooled under the Ginnie Mae MBS Programs are either insured by the Federal Housing Administration or United States Department of Agriculture Rural Development, or are guaranteed by the Veterans Administration.

## Overview of the Financial Statements

The basic financial statements consist of a Statement of Net Position, a Statement of Revenues, Expenses and Changes in Net Position, a Statement of Cash Flows and the notes thereto. The Authority, a body corporate and political subdivision of the State of Colorado, is a public purpose financial enterprise and therefore follows enterprise fund accounting. The financial statements offer information about the Authority's activities and operations.

The Statement of Net Position includes all of the Authority's assets and liabilities, presented in order of liquidity, along with deferred outflows and deferred inflows. The resulting net position presented in these statements is displayed as invested in capital assets, restricted or unrestricted. Net position is restricted when its use is subject to external limits such as bond indentures, legal agreements or statutes. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial assets of the Authority are improving or deteriorating.

All of the Authority's current year revenues and expenses are recorded in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the activities of the Authority's operations over the past year and presents the resulting change in net position - calculated as revenues less expenses.

The final required financial statement is the Statement of Cash Flows. The primary purpose of this statement is to provide information about the Authority's cash receipts and cash payments during the reporting period. This statement reports cash receipts, cash payments and net changes in cash resulting from operating, noncapital financing, capital and related

## Management's Discussion and Analysis

chfa.
financing and investing activities. The statement provides information regarding the sources and uses of cash and the change in the cash balance during the reporting period.

The notes to the financial statements provide additional information that is essential for a full understanding of the information provided in the financial statements. The notes follow the Statement of Cash Flows.

## Debt Activity

The Authority issued $\$ 10.5$ million in Multi-Family/Project 2012 Series A and $\$ 17.5$ million in Multi-Family/Project 2012 Series B bonds during the third quarter of 2012 to finance different multi-family projects.

In an effort to reduce liquidity facility needs, the Authority refunded or converted $\$ 335.8$ million in outstanding single family variable rate demand obligations (VRDOs) into floating rate notes (FRNs) during 2012. Refunding or converting VRDOs requiring liquidity facilities into FRNs has proven to be an effective means for the Authority to reduce costs related to the indenture and we will continue to seek these opportunities in 2013.

During 2012, the Authority put in place a new $\$ 58.9$ million liquidity facility and renewed $\$ 245.1$ million in expiring liquidity agreements. The Authority also entered into a number of replacement liquidity facility agreements with high quality banks in order to eliminate exposure from existing facility providers that were facing declining credit ratings. To this end, the Authority put in place $\$ 147.8$ million in replacement liquidity agreements.

The Authority novated (transferred) $\$ 275.8$ million in swap agreements from AIG to Wells Fargo in December 2012. The novation was undertaken to eliminate the weaker credit counterparty, AIG, in favor of a stronger one, Wells Fargo, and the floating rate calculation was changed to be based on LIBOR in the new agreements. The Authority will evaluate additional novation and replacement opportunities that may arise in 2013.

Programs - The financial statements present the activities of the Authority's housing and lending programs. Combining schedules for these programs are provided in the supplemental schedules.

## Financial Highlights

- Total net loans receivable as of December 31, 2012 were $\$ 1.9$ billion, a decrease of $\$ 357.2$ million, or $15.5 \%$, compared to the amount outstanding as of December 31, 2011. Loan repayments occurred without a corresponding increase in new loans retained as the Authority continued to issue and sell Ginnie Mae securities during the year. During 2012, $\$ 365.5$ million in loans were sold through the issuance of Ginnie Mae securities.
- Total investments as of December 31, 2012 were $\$ 800.9$ million, a decrease of $\$ 83.7$ million, or $9.5 \%$, compared to the amount outstanding as of December 31, 2011. The decrease in investments was due to scheduled bond payments and additional unscheduled redemptions.

■ Total deferred outflows as of December 31, 2012 were $\$ 233.5$ million, a decrease of $\$ 33.9$ million, or $12.7 \%$, compared to the amount outstanding as of December 31, 2011, which reflects market expectations of future interest rate increases (increase in forward yield curve).

- As of December 31, 2012, total debt outstanding was $\$ 2.5$ billion, a decrease of $\$ 426.3$ million, or $14.5 \%$, compared to the balance at December 31, 2011. Payments of loans have been used to reduce bond balances.

## Management's Discussion and Analysis

chfa.

- Net position as of December 31, 2012 was $\$ 312.2$ million, an increase of $\$ 41.7$ million, or $15.4 \%$, compared to the balance at December 31, 2011, increasing the Authority's capital position. Net position as a percent of total assets increased from 8.0\% as of December 31, 2011 to 10.5\% as of December 31, 2012.
- As reflected in the Statement of Revenues, Expenses and Changes in Net Position, the change in net position increased by $\$ 24.7$ million, or $145.9 \%$, compared to December 31, 2011. The increase in the change in net position compared to prior year was primarily composed of the following:
- A $\$ 6.6$ million decrease in net interest income as a result of lower investment rates and higher bond expenses.
- A $\$ 30.2$ million decrease in other operating revenues is a result of the following:
- $\$ 6.1$ million decrease in real estate owned (REO) rental income.
- $\$ 8.3$ million increase in gain on sale of loans.
- $\quad \$ 12.1$ million increase in investment derivative activity loss.
- $\quad \$ 22.3$ million decrease in fair value of investments.
- $\$ 2.0$ million increase in loan servicing and other revenues.
- A $\$ 22.3$ million decrease in operating expenses due primarily to a decrease in costs related to the Lehman swap termination settlement.
- A $\$ 39.2$ million increase in gain on sale of capital assets due to the sale of the four Rental Acquisition Program (RAP) properties during the first quarter of 2012.

| Total liabilities |  | 2,891,835 |  | 3,368,427 |  | 3,646,771 |
| Deferred Inflows |  |  |  |  |  |  |
| Accumulated increase in fair value of hedging derivatives |  | 1,489 |  | - |  | - |
| Net position: |  |  |  |  |  |  |
| Invested in capital assets |  | 8,110 |  | 24,160 |  | 26,741 |
| Restricted by bond indentures |  | 129,758 |  | 137,096 |  | 113,252 |
| Unrestricted |  | 174,311 |  | 109,266 |  | 113,586 |
| $\underline{\text { Total net position }}$ | \$ | 312,179 | \$ | 270,522 | \$ | 253,579 |

## Comparison of Years Ended December 31, 2012 and 2011

Total assets decreased $\$ 399.6$ million, or $11.9 \%$, from the prior year. Cash and investments, combined, decreased $\$ 16.6$ million, or $1.7 \%$. Loans receivable decreased by $\$ 357.2$ million, or $15.5 \%$, as a result of loan repayments occurring without a corresponding increase in new loans retained as the Authority continued to issue and sell Ginnie Mae securities during the year. Deferred outflows decreased $\$ 33.9$ million, or $12.7 \%$, from the prior year, due to market expectations of future interest rate increases (increase in the forward yield curve).

Total liabilities decreased $\$ 476.6$ million, or $14.1 \%$, from the prior year. Bonds and notes payable decreased $\$ 426.3$ million, or $14.5 \%$, primarily due to scheduled bond payments and additional unscheduled redemptions. Derivative instruments and related borrowings decreased $\$ 23.0$ million, or $6.9 \%$, from prior year due to a slight increase in market interest rates.

## Comparison of Years Ended December 31, 2011 and 2010

Total assets decreased $\$ 348.6$ million, or $9.4 \%$, from the prior year. Cash and investments, combined, increased $\$ 9.1$ million, or $1.0 \%$. Loans receivable decreased by $\$ 346.4$ million, or $13.1 \%$, as a result of loan repayments occurring without a corresponding increase in new loans retained as the Authority continued to issue Ginnie Mae securities during the year. Deferred oufflows increased $\$ 87.2$ million, or $48.4 \%$, from the prior year, due to a decline in market expectations of future interest rates (decline in the forward yield curve).

Total liabilities decreased $\$ 278.3$ million, or $7.6 \%$, from the prior year. Bonds and notes payable decreased $\$ 368.2$ million, or $11.1 \%$, primarily due to scheduled bond payments and additional unscheduled redemptions. Derivative instruments and related borrowings increased $\$ 92.0$ million, or $37.8 \%$, from prior year due to declining market interest rates.

## Subsequent Events

In 2012, the Authority established a contractual, sub-servicing relationship with Dovenmuehle Mortgage, Inc. (DMI) for its single family portfolio beginning March 1, 2013.

This approach will allow the Authority and its customers to benefit from the established infrastructure, technology, and economies of scale that a sub-servicer can provide. At the same time, it will reduce the Authority's long-term costs, allowing the organization to remain focused on investing as much of its resources as possible back into its mission of affordable housing and business finance.

The Authority will retain its mortgage servicing rights, which ensures that its ongoing vested and proactive relationship with its customers, investors, mortgage insurance providers, and guarantors will be actively maintained. Additionally, the Authority will retain key components of its internal loan servicing operation to help oversee DMI and to ensure that the Authority maintains an active and productive role in shaping the quality of loan servicing provided.

## Management's Discussion and Analysis

chfa.

## Comparison of Years Ended December 31, 2012 and 2011

Total operating income decreased by $\$ 36.8$ million in 2012, or $41.5 \%$, compared to 2011. The following contributed to the decrease:

- Interest income decreased by $\$ 21.5$ million in 2012 as a result of higher prepayments without a corresponding increase in new loan production retained.
- Interest expense related to debt decreased by $\$ 14.9$ million due to lower outstanding balances.
- Gain on sale of loans increased by $\$ 8.3$ million in 2012 related primarily to the increased amount of issuance of GNMA securities.
- The fair value of investments decreased by $\$ 22.3$ million due primarily to stable market interest rates during 2012.

Total operating expenses decreased $\$ 22.3$ million in 2012 , or $31.1 \%$, compared to 2011 . The decrease was primarily due to a decrease in general operating costs related to the Lehman swap termination settlement.

Total nonoperating revenues and expenses, net, increased by $\$ 39.1$ million, or $100 \%$, compared to 2011. The increase is due to the gain on sale of RAP properties. The federal grant receipts/payments consist primarily of pass-through amounts related to the Authority's role as a contract administrator of the U.S. Department of Housing and Urban Development's Section 8 subsidy program. Under the Section 8 subsidy program, tenants pay $30 \%$ of their income toward rent and the balance is paid by federal subsidy.

## Comparison of Years Ended December 31, 2011 and 2010

Total operating income increased by $\$ 5.4$ million in 2011, or $6.4 \%$, compared to 2010. The following contributed to the increase:

- Interest income decreased by $\$ 11.4$ million in 2011 as a result of higher prepayments without a corresponding new loan investment.
- Interest expense related to debt decreased by $\$ 2.9$ million due to lower outstanding balances.
- Gain on sale of loans decreased by $\$ 3.0$ million in 2011 related primarily to the reduced amount of issuance of GNMA securities.
- The fair value of investments increased by $\$ 18.6$ million due primarily to a decrease in market interest rates during 2011.

Total operating expenses decreased $\$ 12.0$ million in 2011, or $14.4 \%$, compared to 2010. The decrease was primarily due to an increase in salaries and related benefits due to increased staffing, merit increases and health insurance costs, a decrease in general operating costs related to swap terminations, a decrease in depreciation expense due to assets becoming fully depreciated and an increase in provision for loan losses due to increasing delinquencies and foreclosures.

Total nonoperating revenues and expenses, net, consist primarily of pass-through amounts related to the Authority's role as a contract administrator of the U.S. Department of Housing and Urban Development's Section 8 subsidy program. Under the Section 8 subsidy program, tenants pay $30 \%$ of their income toward rent and the balance is paid by federal subsidy.

financing the places where people live and work

INDEPENDENT AUDITORS' REPORT

## Independent Auditors’ Report

The Board of Directors
Colorado Housing and Finance Authority
Denver, Colorado

## Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the Colorado Housing and Finance Authority (the Authority) as of and for the years ended December 31, 2012 and 2011, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the Colorado Housing and Finance Authority as of December 31, 2012 and 2011, and the changes in financial position and cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

## Other Matters

## Required Supplementary Information

U.S. generally accepted accounting principles require that the management's discussion and analysis on pages $4-11$ be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audits of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary and Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority's basic financial statements as a whole. The supplementary information included in Schedules 1 through 7 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The supplementary information included in Schedules 1 through 7 is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information included in Schedules 1 through 7 is fairly stated in all material respects in relation to the basic financial statements as a whole.

The executive letter has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

## Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated March 28, 2013 on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Authority's internal control over financial reporting and compliance.

## colorado housing and finance authority

NOTES TO BASIC FINANCIAL STATEMENTS

## Notes to Basic Financial Statements

chfa

## 1) Organization and Summary of Significant Accounting Policies

## (a) Authorizing Legislation and Reporting Entity

Authorizing Legislation - The Colorado Housing and Finance Authority (the Authority) is a body corporate and a political subdivision of the State of Colorado (the State) established pursuant to the Colorado Housing and Finance Authority Act, Title 29, Article 4, Part 7 of the Colorado Revised Statutes, as amended (the Act). The Authority is not a state agency and is not subject to administrative direction by the State. The governing body of the Authority is its board of directors (the Board). Operations of the Authority commenced in 1974. The Authority is not a component unit of the State or any other entity.

The Authority was created for the purpose of making funds available to assist private enterprise and governmental entities in providing housing facilities for lower- and moderate-income families. Under the Act, the Authority is also authorized to finance projects and working capital loans to industrial and commercial enterprises (both for-profit and nonprofit) of small and moderate size.

In 1992, Colorado voters approved an amendment to the State Constitution, Article X, Section 20, which, among other things, imposes restrictions on increases in revenue and expenditures of state and local governments. In the opinion of its bond counsel, the Authority qualifies as an enterprise under the amendment and therefore is exempt from its provisions.

In 2001, the Colorado state legislature repealed the limitation on the amount of debt that the Authority can issue as well as removed the moral obligation of the State on future debt issues of the Authority. The bonds, notes and other obligations of the Authority do not constitute debt of the State.

Blended Component Units - Rental Acquisition Program (RAP) - Hyland Park Centre Corporation (Hyland Park), Tanglewood Oaks Apartments Corporation (Tanglewood), and Village of Yorkshire Corporation (Yorkshire) have been designated as blended component units and included in the Authority's financial statements. Hyland Park, Tanglewood and Yorkshire were public, nonprofit instrumentalities of the Authority, each of which owns and operates a single, separate multifamily rental housing project.

In March 2012, the Authority completed the sale of the real estate for all Blended Component Units. In addition, the Authority completed the sale of real estate for Maple Tree Settlement, which is not a Blended Component Unit, but is part of the RAP. Each of these properties was sold at a gain. The gain on sale is reported in nonoperating revenues and expenses, net.

Lending and Housing Programs - The Authority accounts for its lending and operating activities in the following groups:
General Program - The General Program is the Authority's primary operating program. It accounts for assets, liabilities, revenues and expenses not directly attributable to a bond program. Most of the bond resolutions of the programs permit the Authority to make cash transfers to the general accounts after establishing reserves required by the bond resolutions. The general accounts financially support the bond programs when necessary. The general accounts include proprietary loan programs developed by the Authority to meet the needs of low- and moderate-income borrowers not served by traditional lending programs. The general accounts also include administrative activities related to the federal government's Section 8 housing assistance payments program.

Single Family Program - The Single Family Program includes bonds issued and assets pledged for payment of the bonds under the related indentures. Loans acquired under this program with the proceeds of single family bond issues include Federal Housing Administration (FHA), conventional, United States Department of Agriculture (USDA) Rural Development, Rural Economic and Community Development Department (RD), and Veterans Administration (VA) loans made under various loan programs.

## Notes to Basic Financial Statements

chfa
Multi-Family/Business Program - The Multi-Family/Business Program includes bonds issued and assets pledged for payment of the bonds under the related indentures. Loans acquired under this program with the proceeds of multi-family and business (sometimes referred to as project) bond issues include loans made for the purchase, construction or rehabilitation of multi-family rental housing. In addition, business loans are made to both for-profit and nonprofit organizations primarily for the purpose of acquisition or expansion of their facilities or for the purchase of equipment.

## (b) Basis of Accounting

The Authority presents its financial statements in accordance with United States Generally Accepted Accounting Principles (U.S. GAAP) as established by the Governmental Accounting Standards Board (GASB). For financial purposes, the Authority is considered a special-purpose government engaged in business-type activities. The financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Under the accrual basis, revenues are recognized when earned, and expenses are recorded when incurred. All significant intra-entity transactions have been eliminated.

## (c) Summary of Significant Accounting Policies

Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Significant estimates to the Authority's financial statements include the allowance for loan losses and fair value estimates. Actual results could differ from those estimates.

Cash and Restricted Cash - The Authority's cash and cash equivalents are represented by cash on hand and demand deposits held in banks. Restricted cash includes payments received on pledged assets and used for the payment of bonds under the related indenture agreements. Also included in restricted cash are escrow balances, payments in process and various government deposits.

Restricted Assets - Essentially all investments and loans receivable are restricted assets. Restricted assets are held for the benefit of respective bondholders and accounted for by program. Certain other assets are held on behalf of various governmental housing initiatives or regulations.

Investments - Noncurrent investments of the Authority, representing those investments which are held as reserves under indenture or other restrictions, are reported at fair value based on values obtained from third-party pricing services. The values are based on quoted market prices when available or on adjusted value in relation to observable prices on similar investments. All other investments are reported at amortized cost. Virtually all investments are restricted.

Loans Receivable - Mortgage loans receivable are reported at their unpaid principal balance net of deferred down payment assistance expense, deferred fee income, loan origination costs and an allowance for estimated loan losses. Deferred down payment assistance expense, deferred fee income and loan origination costs are capitalized and amortized over the contractual life of the loan using the effective interest method. Virtually all mortgage loans receivable are serviced by the Authority and are restricted.

Loans Receivable Held for Sale - Loans originated or acquired and intended for sale in the secondary market are carried at the lower of cost or fair value. Gains and losses on loan sales (sales proceeds minus carrying value) are reported as other operating income.

Allowance for Loan Losses - The allowance for loan losses is a reserve against current operations based on management's estimate of expected loan losses. Management's estimate considers such factors as the payment history of the loans, the projected cash flows of the borrowers, estimated value of the collateral, subsidies, guarantees, mortgage

## Notes to Basic Financial Statements

chfa. (tabular dollar amounts are in thousands)
insurance, historical loss experience for each loan type, additional guarantees provided by the borrowers and economic conditions. Based on the review of these factors, a total reserve amount is calculated and a provision is made against current operations to reflect the estimated balance.

Troubled Debt Restructuring - A restructuring of a debt constitutes a troubled debt restructuring if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. Whatever the form of concession granted by the creditor to the debtor in a troubled debt restructuring, the creditor's objective is to make the best of a difficult situation. That is, the creditor expects to obtain more cash or other value from the debtor, or to increase the probability of receipt, by granting the concession than by not granting it.

Interest income is recognized using the new interest rate after restructuring, which approximates the effective interest rate. Additional information is disclosed in the loans receivable note. See note 3.

Capital Assets - The Authority's capital assets consist of two groups. Corporate capital assets include those capital assets other than those used in its RAP activities. The RAP properties were sold in 2012 at a gain.

Capital assets are defined by the Authority as assets with an initial, individual cost of $\$ 2,500$. Capital assets are depreciated or amortized using the straight-line method over their estimated useful lives, which are 30 years for buildings and from 3 to 10 years for furniture and equipment.

Other Assets - The major other assets are as follows:

- Mortgage servicing rights (servicing release premiums): amortized over the life of the related loans using the effective interest method. Unamortized costs totaling $\$ 18.9$ million and $\$ 21.5$ million were outstanding at December 31, 2012 and 2011, respectively. Included in these amounts are mortgage servicing rights of $\$ 9.5$ million and $\$ 9.5$ million as of December 31, 2012 and 2011, respectively, related to loans sold by the Authority for which the Authority retained the mortgage servicing rights. These mortgage servicing rights are reported at the lower of cost or fair value. In 2012, the Authority recognized an impairment loss of $\$ 2.4$ million due to a decrease in the current Ginnie Mae security interest rate compared to the Authority's Ginnie Mae portfolio weighted rate. The impairment loss is reported in general operating expense on the Statement of Revenues, Expenses and Changes in Net Position. In 2011, the Authority recognized an impairment loss of $\$ 635$ thousand.
- Other real estate owned (REO): represents real estate acquired through foreclosure and in-substance foreclosures. Other real estate owned is recorded at the lower of the investment in the loan or the estimated net realizable value, which equals estimated fair value minus closing costs.
- Bond and note issuance costs: costs of debt issuance are deferred and amortized to interest expense over the lives of the bond issues using the effective interest method.

Bonds - Bonds payable are limited obligations of the Authority, and are not a debt or liability of the State or any subdivisions thereof. Each bond issue is secured, as described in the applicable trust indenture, by all revenues, moneys, investments, mortgage loans, and other assets in the accounts of the program. Substantially all of the Authority's loans and investments are pledged as security for the bonds. The provisions of the applicable trust indentures require or allow for redemption of bonds through the use of unexpended bond proceeds and excess funds accumulated primarily through prepayment of mortgage loans and program certificates. All outstanding bonds are subject to redemption at the option of the Authority, in whole or in part at any time after certain dates, as specified in the respective series indentures.

The Authority issues fixed rate and variable rate bonds. The rate on the fixed rate bonds is set at bond closing. The variable rate bonds bear interest at either a monthly or a weekly rate until maturity or earlier redemption. For bonds that pay weekly rates, the remarketing agent for each bond issue establishes the weekly rate according to each indenture's remarketing agreement. The weekly rates are communicated to the various bond trustees for preparation of debt service payments. The weekly rate, as set by the remarketing agent, allows the bonds to trade in the secondary market at a price

## Notes to Basic Financial Statements

chfa
equal to $100 \%$ of the principal amount of the bonds outstanding, with each rate not exceeding maximum rates permitted by law. The variable rate bonds that bear interest monthly are based on the one-month London Interbank Offered Rate (LIBOR).

Variable rate bonds have an assumed Stand-by Purchase Agreement (SBPA), which states that the issuer of the SBPA will purchase the bonds in the event the remarketing agent is unsuccessful in marketing the bonds. In this event, the interest rate paid by the Authority will be calculated using a defined rate from the SBPA. If the bonds remain unsold for a period of 90 days, they are deemed to be "bank bonds" and the Authority is required to repurchase the bonds from the SBPA issuer. The timing of this repurchase, or term out, will vary by issuer from two years to ten years.

Bond Discounts and Premiums - Discounts and premiums on bonds payable are amortized to interest expense over the lives of the respective bond issues using the effective interest method.

Debt Refundings - For current refundings and advance refundings resulting in defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense over the remaining life of the old or new debt, whichever is shorter. The difference is amortized using the effective interest method, with the exception of the amount relating to deferred loss on interest rate swap hedging relationship termination, which is amortized on a straight-line basis. The deferred refunding amounts are classified as a component of bonds payable in the statement of net position.

Derivative Instruments - Derivative instruments, as defined in GASB No. 53, Accounting and Financial Reporting for Derivative Instruments, are measured on the Statement of Net Position at fair value. Changes in fair value for those derivative instruments that meet the criteria for hedging instruments under GASB No. 53 are reported as deferred inflows and outflows. Changes in fair value of investment derivative instruments, which are ineffective derivative instruments, are reported within investment derivative activity loss in the period of change.

Derivative Instruments - Interest Rate Swap Agreements - The Authority enters into interest rate swap agreements (Swap) with rated swap counterparties in order to (1) provide lower cost fixed rate financing for its loan production needs through synthetic fixed rate structures and (2) utilize synthetic fixed rate structures with refunding bonds in order to generate cash flow savings. The interest differentials to be paid or received under such swaps are recognized as an increase or decrease in interest expense of the related bond liability. The Authority enters into fixed payor swaps, where it pays a fixed interest rate in exchange for receiving a variable interest rate from the counterparty. The variable interest rate may be based on either a taxable or tax-exempt index. By entering into a swap agreement, the Authority hedges its interest rate exposure on the associated variable rate bonds. With the exception of one swap, at December 31, 2012 and 2011, all of the swaps are considered hedging derivatives. Additional information about the swap agreements is provided in note 8 .

Derivative Instruments - Forward Sales Contracts - Forward sales securities commitments and private investor sales commitments are utilized to hedge changes in fair value of mortgage loan inventory and commitments to originate mortgage loans. At December 31, 2012, the Authority had executed 31 forward sales transactions with an $\$ 88.0$ million notional amount with five counterparties with concentrations and ratings (Standard and Poor's/Moody's Investors Service) as shown in note 8. The forward sales will all settle by March 19, 2013. These contracts are considered investment derivative instruments.

Hybrid Instrument Borrowings - Hybrid instrument borrowings represent cash premiums received on interest rate swaps that had a fair value other than zero at the date of execution, generally because the fixed rates were different from market rates at that date. Interest expense is imputed on these borrowings, which are reported at amortized cost.

## Notes to Basic Financial Statements

chfa.
Other Liabilities - The major other liabilities are as follows:

- Servicing escrow: The net amount of collected escrow funds currently being held on behalf of borrowers to pay future obligations of property taxes and insurance premiums due on real properties. The Authority has a corresponding asset that is recorded in restricted cash.
- Deferred Low Income Housing Tax Credit (LIHTC) Income: Compliance monitoring fees collected in advance on multi-family properties that have been awarded low-income housing tax credits to be used over a 15 -year period. These fees cover the ongoing cost the Authority incurs to certify that these properties remain low-income compliant during the 15 -year period and continue to be eligible to use the tax credits awarded.
- Compensated Absences: Employees accrue paid time off at a rate based on length of service. Employees may accrue and carry over a maximum of $150 \%$ of their annual paid time off benefit. The liability for compensated absences is based on current salary rates and is reported in the Statement of Net Position.
- Capital lease: The Authority includes as capital assets the present value of noncancelable lease payments for leases that qualify as a capital lease. Capital lease payments of principal and interest total $\$ 66$ thousand per year through 2016.

Classification of Revenues and Expenses - The Authority distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with the Authority's ongoing operations. The principal operating revenues of the Authority are interest income on loans and investment income. The Authority also recognizes revenues from rental operations and other revenues, which include loan servicing fees and other administrative fees. Operating expenses include interest expense, administrative expenses, depreciation, and the provision for loan losses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The Authority's nonoperating revenues and expenses consist primarily of pass-through amounts related to the Authority's role as a contract administrator of the U.S. Department of Housing and Urban Development's Section 8 subsidy program. Under the Section 8 subsidy program, tenants pay $30 \%$ of their income toward rent and the balance is paid to the Authority by federal subsidy.

In addition, under the federal government's American Recovery and Reinvestment Act (ARRA), passed in February 2009, the Authority became the allocator of the Tax Credit Assistance Program (TCAP) and the Tax Credit Exchange Program (TCEP). The two programs were created to assist developers holding allocations of federal LIHTC. In 2009, the Authority received an allocation of over $\$ 60$ million in federal funds to distribute to projects already underway across the State. As of December 31, 2011, all TCEP and TCAP funds have been distributed, and the Authority has no remaining obligations under the programs.

Future Accounting Principles - GASB issued Statement No. 65, Items Previously Reported as Assets and Liabilities, which is effective for financial statements for periods beginning after December 15, 2012. The standard includes new requirements related to the proper classification of certain items that were previously reported as assets or liabilities as deferred outflows/inflows of deferred resources or the recognition of certain items that were previously reported as assets and liabilities as outflows (expenses)/inflows (revenues) of resources. These determinations are based on the definitions of those elements in GASB Concepts Statement No. 4, Elements of Financial Statements. This will be applicable to the Authority in 2013 as the Authority has a number of accounts that were previously recognized as assets or liabilities that will now be considered an outflow or inflow of resources, related to the purchase of loans and the issuing of bonds.

In addition, GASB issued Statement No. 66, Technical Corrections - 2012, which is effective for financial statements for periods beginning after December 15, 2012. The standard is designed to improve accounting and financial reporting by resolving conflicting guidance that resulted from the issuance of two pronouncements - Statements No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, and No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November, 1989 FASB and AICPA Pronouncements. This standard will be applicable to the

## Notes to Basic Financial Statements

## chfa

Authority in 2013, since the standard amends previous accounting rules related to the Authority's activity of purchasing loans and the transfer of service fees when loans are sold. The Authority has determined that this will not impact the presentation of the financial statements.

Reclassifications - Certain prior year amounts have been reclassified to conform to current year presentation.

## (2) Cash and Investments

The Authority is authorized by means of a Board-approved investment policy to invest in notes, bonds and other obligations issued or guaranteed by the U.S. government and certain governmental agencies. Additionally, the Authority is permitted to invest, with certain restrictions as to concentration of risk, collateralization levels, maximum periods to maturity, and/or underlying rating levels applied, in revenue or general obligations of states and their agencies, certificates of deposits, U.S. dollar denominated corporate or bank debt, commercial paper, repurchase agreements backed by U.S. government or agency securities, money market mutual funds and investment agreements. The Authority is also subject to permissible investments as authorized by Title 24, Article 75, Part 6 of the Colorado Revised Statutes (CRS). Permissible investments pursuant to the CRS are either identical to or less restrictive than the Authority's investment policy. In addition, each of the trust indentures established under the Authority's bond programs contains requirements as to permitted investments of bond fund proceeds, which may be more or less restrictive than the Authority's investment policy. These investments are included in the disclosures below under State and political subdivision obligations.

## Interest Rate Risk

As of December 31, 2012, the Authority had the following investment maturities:

## Notes to Basic Financial Statements

(tabular dollar amounts are in thousands)
chfa
As of December 31, 2011, the Authority had the following investment maturities:

| Investment Type | Investment Maturities (In Years) |  |  |  |  |  |  |  | Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| State \& political subdivision obligations |  | - |  | - |  | - |  | 2,587 |  | 2,587 |
| U.S. government agencies |  | 1,283 |  | 17,727 |  | 56,212 |  | 221,474 |  | 296,696 |
| U.S. Treasury |  | 658 |  | - |  | - |  | - |  | 658 |
| Total | \$ | 538,082 | \$ | 17,727 | \$ | 56,212 | \$ | 272,649 | \$ | 884,670 |

General Program investments of $\$ 45.9$ million include investments pledged as of December 31, 2012 as follows: a $\$ 39.9$ million certificate of deposit pledged to the Federal Home Loan Bank (FHLB) line of credit and COLOTRUST investments of Rural Development Loan Program (RDLP), RDLP II and RDLP V in the amounts of $\$ 313$ thousand, $\$ 329$ thousand and $\$ 22$ thousand, respectively; each pledged as collateral for the RDLP notes payable and $\$ 688$ thousand of investments pledged as collateral for private placement bonds.

General Program investments of $\$ 9.7$ million include investments pledged as of December 31, 2011 as follows: a $\$ 2.7$ million certificate of deposit pledged to the FHLB line of credit and COLOTRUST investments of RDLP, RDLP II and RDLP $V$ in the amounts of $\$ 152$ thousand, $\$ 511$ thousand and $\$ 18$ thousand, respectively; each pledged as collateral for the RDLP notes payable and $\$ 2.0$ million of investments pledged as collateral for private placement bonds.

All Single Family and Multi-Family/Business Program investments, which total $\$ 755.0$ million and $\$ 875.0$ million as of December 31, 2012 and 2011, respectively, are restricted under bond indentures or other debt agreements, or otherwise pledged as collateral for borrowings.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The Authority's investment policy requires 1 ) staggered maturities to avoid undue concentrations of assets in a specific maturity sector, 2) stable income, 3) adequate liquidity to meet operations and debt service obligations, and 4) diversification to avoid overweighting in any one type of security.

## Notes to Basic Financial Statements

 (tabular dollar amounts are in thousands)chfa.
Credit Risk - The following table provides credit ratings of the Authority's investments as determined by Standard and Poor's and/or Moody's Investors Service.

| Investment Type | 2012 |  |  | 2011 |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Rating | Total |  | Rating | Total |  |

| State and political subdivision obligations | AAA/Aaa/AA/Baa |  | 2,325 | AAA/Aaa/AA |  | 2,587 |
| U.S. government agencies | AA/Aaa |  | 289,729 | AA/Aaa |  | 296,696 |
| U.S. Treasury | AA/Aaa |  | 765 | AA/Aaa |  | 658 |
| Total |  | \$ | 800,929 |  | \$ | 884,670 |

Of the investments in securities issued by state and political subdivisions, $40.4 \%$ and $46.6 \%$ as of December 31, 2012 and 2011, respectively, are rated AAA. Investment agreements meet the requirements of the rating agency providing the rating on the related debt issue and of the Board's investment policy. The Board's investment policy states that the Authority is empowered to invest in any security that is a revenue or general obligation of any political subdivision. The credit rating at the time of purchase must be rated in one of its two highest rating categories by one or more nationally recognized organizations which regularly rate such obligations and concentration limits may not exceed more than $20 \%$ of the investment portfolio.

As of December 31, 2012 and 2011, the Authority had invested in the Colorado Local Government Liquid Asset Trust (COLOTRUST), an investment vehicle established for local governmental entities in Colorado to pool funds available for investment. COLOTRUST is reflected in the above tables as an external investment pool. The State Securities Commissioner administers and enforces all State statutes governing COLOTRUST. COLOTRUST operates similarly to a money market fund and each share's fair value is $\$ 1.00$.

Concentration of Credit Risk - The Authority has various maximum investment limits both by type of investment and by issuer to prevent inappropriate concentration of credit risk. The following table provides information on issuers in which the Authority has investments representing more than 5\% of its total investments as of December 31, 2012 and 2011.

| Issuer | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 1}$ |
| :--- | :---: | :---: |
| External investment pool - COLOTRUST | $12.11 \%$ | $11.34 \%$ |
| Investment agreements - uncollateralized - IXIS | $12.55 \%$ | $8.31 \%$ |
| Investment agreements - uncollateralized - Trinity | $6.14 \%$ | $4.74 \%$ |
| Money market fund - Fidelity | $7.56 \%$ | $0.11 \%$ |
| Money market fund - Heritage | $6.02 \%$ | $6.02 \%$ |
| Repurchase agreements - IXIS | $8.21 \%$ | $5.70 \%$ |
| U.S. government agencies - FHLB | $5.45 \%$ | $2.48 \%$ |
| U.S. government agencies - FHLMC | $4.97 \%$ | $6.76 \%$ |
| U.S. government agencies - FNMA | $6.62 \%$ | $5.93 \%$ |
| U.S. government agencies - GNMA | $19.13 \%$ | $18.35 \%$ |

## Notes to Basic Financial Statements

(tabular dollar amounts are in thousands)

## chfa

Custodial Credit Risk - Investments - Custodial credit risk is the risk that, in the event of the failure of the custodian, the Authority will not be able to recover the value of its investment or collateral securities that are in the possession of the custodian. All securities owned by the Authority are either in the custody of the related bond indenture trustees or held in the name of the Authority by a party other than the issuer of the security.

Custodial Credit Risk - Cash Deposits - In the case of cash deposits, custodial credit risk is the risk that in the event of a bank failure, the Authority's deposits may not be returned to it. All deposit accounts were either covered by the Federal Deposit Insurance Corporation or collateralized in accordance with the State of Colorado's Division of Banking's Public Deposit Protection Act.

Included in cash deposits are escrow deposits in the amount of $\$ 37.8$ million and $\$ 24.7$ million held in a fiduciary capacity as of December 31, 2012 and 2011, respectively. These escrow deposits are primarily held for the payment of property taxes and insurance on behalf of the mortgagors whose loans are owned or serviced by the Authority.

## (3) Loans Receivable, Related Allowances and Troubled Debt Restructuring

Loans receivable and loans receivable held for sale at December 31, 2012 and 2011 consist of the following:

|  | 2012 | $\mathbf{2 0 1 1}$ |
| :--- | ---: | ---: |
| General Fund | $\$ 191,864$ | $\$$ |
| Single Family Fund: |  |  |
| $\quad$ Program Senior and Subordinate | 20,640 | 54,300 |
| Mortgage | $1,050,852$ | $1,285,980$ |
| Total Single Family Fund loans | $1,071,492$ | $\mathbf{1 , 3 4 0 , 2 8 0}$ |
| Multi-Family/Business Fund: |  |  |
| $\quad$ Insured Mortgage Revenue | 42,815 | 49,697 |
| $\quad$ Multi-Family/Project | 667,360 | 727,057 |
| $\quad$ Total Multi-Family/Business Fund loans | 710,175 | 776,754 |
| Less intercompany loans, included in Multi-Family/Project above | $(2,726)$ | $(16,852)$ |
| $\quad$ Total loans receivable | $1,970,805$ | $2,322,431$ |
| Payments in process | $(5,024)$ | 112 |
| Deferred cash assistance expense | 5,387 | 6,082 |
| Deferred fee income | $(7,497)$ | $(8,150)$ |
| Allowance for loan losses | $(17,818)$ | $(17,423)$ |
| Total loans receivable, net | $\$ 1,945,853$ | $\$ 2,303,052$ |

Substantially all loans are restricted by bond indentures or other debt agreements.
Loans in the Single Family Program and the Multi-Family/Business Program in the table above are grouped based on the related bond type (see note 6 for additional information).

General Program loans include single family, multi-family and business finance loans acquired under various programs of the General Program, loans to be sold through the issuance of GNMA securities, loans held as investments, and loans

## Notes to Basic Financial Statements

 (tabular dollar amounts are in thousands)
## chfa

backed by bonds within the General Program. These loans are typically collateralized by mortgages on real property and improvements. Certain of these loans are also guaranteed by agencies of the U.S. government.

Single family bond program loans are collateralized by mortgages on applicable real property and, in the case of loans with an initial loan-to-value ratio of $80 \%$ or more, are generally either insured by the FHA or guaranteed by the VA or RD or insured by private mortgage insurance.

The single family loan portfolio included in the general and single family programs as of December 31, 2012 comprised of $\$ 746.9$ million of FHA insured loans, $\$ 58.9$ million of VA guaranteed loans, $\$ 33.2$ million of RD loans and $\$ 195.2$ million of conventional insured loans with the balance of $\$ 143.6$ million made up of uninsured conventional and second mortgage loans.

The single family loan porffolio included in the general and single family programs as of December 31, 2011 comprised of $\$ 926.5$ million of FHA insured loans, $\$ 84.4$ million of VA guaranteed loans, $\$ 38.9$ million of RD loans and $\$ 249.2$ million of conventional insured loans with the balance of $\$ 168.0$ million made up of uninsured conventional and second mortgage loans.

The Authority is exposed to operational risk, which makes it subject to loss or repurchase of insured FHA loans if specific guidelines are not met. As of December 31, 2012 and 2011, the Authority recorded a reserve of $\$ 353$ thousand and $\$ 458$ thousand for claim refunds to be paid to the U.S. Department of Housing and Urban Development (HUD), respectively.

As of December 31, 2012 and 2011, single family mortgage loans with pending foreclosure actions have aggregate principal balances of approximately $\$ 28.1$ million and $\$ 63.1$ million, respectively. As of December 31, 2012 and 2011, the aggregate principal balance of single family mortgage loans delinquent 91 days or greater was approximately $\$ 75.3$ million and $\$ 117.0$ million, respectively.

The Multi-Family/Business Program loans and a portion of General Program loans are commercial loans. Commercial loans are collateralized by mortgages on applicable real estate and, in some cases, are insured by an agency of the U.S. government, which reduces the credit risk exposure for that type of insured loan.

As of December 31, 2012, approximately $\$ 447.7$ million, or $69.0 \%$, of the commercial loan balances are not covered by insurance. The insured loans comprised of $\$ 214.8$ million of Section 542(c) risk share loans, which are $50 \%$ insured, and $\$ 38.2$ million of Sections 221 (d) and 223(f) new construction and rehabilitation loans, which are $99 \%$ insured.

As of December 31, 2011, approximately $\$ 526.4$ million, or $74.4 \%$, of the commercial loan balances are not covered by insurance. The insured loans comprised of $\$ 240.0$ million of Section 542 (c) risk share loans, which are $50 \%$ insured, and $\$ 39.5$ million of Sections 221 (d) and 223(f) new construction and rehabilitation loans, which are $99 \%$ insured.

As of December 31, 2012, commercial loans with pending foreclosure actions had an aggregate principal balance of approximately $\$ 5.2$ million, of which $\$ 2.5$ million was insured. A reserve amount of $\$ 714$ thousand has been established for the uninsured portion of these loans. There were no commercial loans with pending foreclosure actions as of December 31, 2011. As of December 31, 2012 and 2011, commercial loans delinquent 91 days or greater aggregate principal balances were approximately $\$ 6.1$ million and $\$ 804$ thousand, respectively.

## Notes to Basic Financial Statements

chfa.

## (tabular dollar amounts are in thousands)

Activity in the allowance for loan loss for the years ended December 31, 2012 and 2011 was as follows:

The Authority services loans on the behalf of others, primarily for Ginnie Mae, which are not reported on the Statement of Net Position. As of December 31, 2012 and 2011, these outstanding loan balances were $\$ 1.2$ billion and $\$ 1.0$ billion, respectively.

Under the Ginnie Mae program, the Authority must use its own funds if a borrower fails to make a timely payment on a mortgage loan. The Authority must also assess the overall performance of the portfolio and will repurchase certain loans as necessary to maintain required delinquent thresholds. All Ginnie Mae loans are either insured by the FHA or RD, or are guaranteed by the VA.

## (5) Short-Term Debt

The Authority has agreements with the FHLB of Topeka for collateralized borrowings in an amount not to exceed the lending limit internally established by the FHLB, which is $40 \%$ of the Authority's total assets, or $\$ 1.2$ billion. As of December 31, 2012 and 2011, the Authority had $\$ 71.5$ million and $\$ 46.1$ million of short-term debt outstanding with the FHLB, respectively. Borrowings under these agreements are used to support the Authority's various lending programs, to purchase loans to be sold through the issuance of GNMA securities and activities related to the Authority's private activity bond volume cap preservation program. Amounts drawn under the agreements bear interest at the same rates charged by the FHLB to its member banks and are collateralized by certain mortgage loans and investments. There are no commitment fees associated with these agreements.

The Authority also has a revolving, unsecured, commercial bank line of credit agreement for borrowings of up to $\$ 30.0$ million. Amounts drawn under the agreement bear interest fixed at $1.95 \%$ per annum above the daily one-month LIBOR. This line of credit agreement terminates on September 30, 2013. The Authority pays an unused line fee at the rate of $0.25 \%$ per annum, payable in arrears on the first business day after each calendar quarter. The fee is based upon the amount by which the daily average of the aggregate principal amount of the borrowings outstanding is less than the line of credit.

## Notes to Basic Financial Statements

chfa.
Short-term debt activity for the years ended December 31, 2012 and 2011 was as follows:

|  | 2012 |  | 2011 |  |
| :---: | :---: | :---: | :---: | :---: |
| Beginning balance | \$ | 46,100 | \$ | 87,900 |
| Additions |  | 125,105 |  | 5,228,735 |
| Reductions |  | 99,730) |  | $(5,270,535)$ |
| Ending balance | \$ | 71,475 | \$ | 46,100 |

## (6) Bonds, Notes Payable and Other Liabilities

The Authority issues bonds and notes payable to finance its lending programs. Proceeds from long-term debt of the Single Family and Multi-Family/Business bonds are used for funding of single family, multi-family and business loans. Long-term debt of the General Programs (including notes payable) is used to finance single family and business loans related to various private placements, the Authority's RAP activities and general corporate purposes. The aggregate principal amounts of bonds and notes payable outstanding as of December 31, 2012 and 2011 are shown in the table on the following pages. Interest is payable semiannually unless otherwise noted. Interest rates on variable rate debt reset on a weekly or monthly basis. At December 31, 2012, these rates ranged from $0.12 \%$ to $1.12 \%$. At December 31, 2011, these rates ranged from $0.08 \%$ to $1.85 \%$. Nineteen of the bond series reset on a monthly basis based on LIBOR, and one bond sub-series resets monthly based on the Securities Industry Financial Markets Association Municipal Swap Index (SIFMA).

The Authority issued $\$ 10.5$ million in Multi-Family/Project 2012 Series A and $\$ 17.5$ million in Multi-Family/Project 2012 Series B bonds during the third quarter of 2012 to finance different multi-family projects.

During 2012, the Authority put in place a new $\$ 58.9$ million liquidity facility and renewed $\$ 151.2$ million in expiring liquidity agreements with Barclays Capital. The Authority also renewed $\$ 93.9$ million in expiring liquidity facilities with FHLB of Topeka during the course of 2012. The Authority entered into several replacement liquidity facility agreements with high quality banks in order to eliminate exposure to banks providing existing facilities and facing declining credit ratings. To this end, the Authority put in place $\$ 50$ million in new liquidity facilities with the Royal Bank of Canada as a replacement bank for facilities provided by KBC and $\$ 73.9$ million in new liquidity agreements with JPMorgan Chase as a replacement bank for facilities provided by Credit Agricole. JPMorgan Chase also provided a liquidity agreement of $\$ 23.9$ million to replace facilities provided by the TCLP.

## Notes to Basic Financial Statements

(tabular dollar amounts are in thousands)

## chfa

A breakdown of bonds payable as of December 31, 2012 and 2011, by fixed and variable interest rates, follows in the table below. Certain of the Authority's variable rate debt has been hedged by entering into pay fixed/receive variable rate interest rate swap agreements as further described in note 8 . Such debt is referred to in the table as synthetic fixed rate debt.

| Description | 2012 | $\mathbf{2 0 1 1}$ |  |
| :--- | ---: | ---: | ---: |
| Fixed rate debt | $\$$ | 451,432 | $\$ 552,332$ |
| Synthetic fixed rate debt |  | $1,820,834$ | $1,944,459$ |
| Unhedged variable rate debt |  | 175,356 | 396,955 |
| Total | $\$$ | $2,447,622$ | $\$ 2,893,746$ |

Included in certain of the bond issues shown in the previous table are capital appreciation term bonds. The principal amounts of these bonds appreciate based on semiannual compounding of the original principal balances at the interest rates specified. The capital appreciation term bonds were called on July 1, 2012. The appreciated balances of these bonds at maturity, and as reflected in the accompanying Statement of Net Position as of December 31, 2012 and 2011, are as follows:

| Description and due date | 2012 |  |  | 2011 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Interest Rate | Maturity | Appreciated Balances | Interest Rate | Maturity | Appreciated Balances |  |
| Single Family Program Senior and Subordinate Bonds: |  |  |  |  |  |  |  |
| 1998 Series B - 2025-2029 | 0.00\% | \$ | \$ | 5.50\% | \$ 5,046 | \$ | 2,198 |
| 1998 Series C - 2020-2029 | 0.00\% | - | - | 5.63\% | 7,459 |  | 3,698 |
|  |  |  | \$ |  |  | \$ | 5,896 |

Also included in the table of bonds and notes payable outstanding are certain Single Family and Multi-Family/Project bonds, which carry the Authority's general obligation pledge. These general obligation bonds are presented in the following table as of December 31, 2012 and 2011:

| Description | 2012 | 2011 |  |
| :--- | ---: | ---: | ---: |
| General Fund Program Bonds | $\$$ | 50,781 | $\$$ |
| Single Family Program Subordinate Bonds | 120 | 607 |  |
| Single Family Mortgage Bonds, Class III | 47,200 | 310 |  |
| Multi-Family/Project Bonds, Class I | 248,565 | 265,480 |  |
| Multi-Family/Project Bonds, Class II | 21,820 | 22,095 |  |
| Multi-Family/Project Bonds, Class III | - | 1,700 |  |
| Total | $\mathbf{\$}$ | 368,486 | $\$$ |

## Notes to Basic Financial Statements (tabular dollar amounts are in thousands)

Standby Purchase Agreements provide liquidity support on variable rate bonds that are remarketed weekly. The liquidity/commitment fees vary by agreement and are based on a percentage of the outstanding bond balance, payable monthly or quarterly. Liquidity fees for the years ended December 31, 2012 and 2011 were $\$ 10.8$ million and $\$ 10.2$ million, respectively. A schedule of providers and maturities is presented below, as of December 31, 2012:

| Liquidity Expiration | Barclays Bank PLC. (1) |  | FHLB (2) |  | JP Morgan (3) |  | Royal Bank of Canada (4) |  | TCLP (5) |  | Grand Total |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2013 | \$ | 98,610 | \$ | 501,600 | \$ | - | \$ | - | \$ | - | \$ | 600,210 |
| 2014 |  | - |  | 442,785 |  | 96,425 |  | 190,930 |  | 71,840 |  | 801,980 |
| 2015 |  | 58,870 |  | - |  | - |  | 50,000 |  | - |  | 108,870 |
| Total | \$ | 157,480 | \$ | 944,385 | \$ | 96,425 | \$ | 240,930 | \$ | 71,840 | \$ | 1,511,060 |

The following provides the terms of the debt service requirements that would result if the SBPA commitments were to be exercised (bank bond rate, accelerated payment schedule, and lien):
(1) (a) Bank Rate: for the first 30 days following the purchase date, the "Base Rate" which equals the highest of the Fed funds plus $5 \%$, prime rate plus $5 \%$ and Three-Month LIBOR plus 5\%; then for the period 31-90 days following the purchase date, the Base Rate plus $2.00 \%$; then for the period 91 days and higher following the purchase date, $12 \%$.
(b) Term out provisions: accelerated principal payment due in full on the date, which is three years following the purchase date. Class III lien/General Obligation.
(2) (a) Bank Rate: One-Month LIBOR plus $2.00 \%$ ( $1.50 \%$ for 2003 Series B-3 Bonds).
(b) Term out provisions: repayments due 90 days following purchase date in equal semiannual installments until fifth anniversary of the purchase date. Class III lien/General Obligation.
(3) (a) Bank Rate: for the first 90 days following the purchase date, the "Base Rate" which equals the highest of (i) the prime rate plus $1.50 \%$, (ii) the Fed funds rate plus $2.00 \%$ and (iii) $7.50 \%$; then for the period 91 days and higher following the purchase date, the Base Rate plus $1.00 \%$.
(b) Term out provisions: repayments due on the first business day of April and October on or following 90 days following purchase date and thereafter on each such dates in equal installments to the fifth anniversary of such purchase date. Class I lien.
(4) (a) Bank Rate: for the first 90 days following the purchase date, the "Base Rate" which equals the highest of (i) the prime rate plus $2.50 \%$, (ii) the Fed funds rate plus $3.00 \%$ and (iii) $8.00 \%$; then for the period $91-180$ days following the purchase date, the Base Rate plus $1.00 \%$; then for the period 181 days and higher following the purchase date, the Base Rate plus $2.00 \%$.
(b) Term out provisions: repayments due on the first business day of February, May, August or November on or following 90 days following purchase date and thereafter quarterly on each such dates in equal installments to the third anniversary of such purchase date. Class I lien.
(5) (a) Bank Rate: prime rate (based on JPMorgan Prime Rate) plus $1.00 \%$.
(b) Term out provisions: accelerated principal payment due in full on tenth anniversary of the purchase date. Class I lien.

In response to capital market disruptions nationally, in late 2009, the U.S. Department of the Treasury (the Treasury) announced a plan to assist Housing and Finance Authorities (HFAs) through a two-part initiative: a new bond purchase program called the New Issue Bond Program (NIBP) to support new lending by HFAs and a temporary credit and liquidity program (TCLP) to improve the access of HFAs to liquidity for outstanding HFA bonds.

The NIBP provided financing for HFAs to issue new mortgage revenue bonds no later than December 31, 2011. Pursuant to the NIBP, the Authority issued its Single Family Program Class I Bonds in the amount of $\$ 275.2$ million on January 12, 2010. Using authority under the Housing and Economic Recovery Act of 2008 (HERA), the Treasury purchased securities of Fannie Mae and Freddie Mac backed by these mortgage revenue bonds. The bonds initially carried variable interest rates that approximate the investment interest rates earned from the investment of bond proceeds. The bonds must be converted to fixed rate debt, concurrent with the issuance of other mortgage revenue bonds by the Authority or redeemed no later than December 31, 2015. As of December 31, 2011, $\$ 216.4$ million in NIBP bonds had not been converted. As of December 31, 2012, all bonds related to the NIBP had been redeemed or converted to fixed rate debt.

The TCLP allows Fannie Mae and Freddie Mac to provide replacement credit and liquidity facilities to HFAs. The Treasury will backstop the replacement credit and liquidity facilities for the HFAs by purchasing an interest in them using HERA authority. The TCLP was set to expire December 31, 2012 but was extended to December 31, 2015 subject to submission and acceptance of a plan submitted by the Authority to extinguish TCLP facilities by the new expiration date. Pursuant to the TCLP, the Authority utilized $\$ 903.7$ million to replace Standby Purchase Agreements on its variable rate bonds that are remarketed weekly, of which $\$ 71.8$ million and $\$ 492.3$ million was outstanding as of December 31, 2012 and 2011, respectively. The Authority plans to replace the TCLP facility with liquidity facilities provided by other banks or convert the underlying variable rate bonds to fixed rate bonds or to variable-rate debt that does not require standby liquidity.

## (7) Conduit Debt Obligation

The Authority has issued certain conduit bonds, the proceeds of which were made available to various developers and corporations for rental housing and commercial purposes. Other conduit proceeds were made available to the State of

## Notes to Basic Financial Statements

## chfa

Colorado for the Colorado Unemployment Insurance Trust Fund. The bonds are payable solely from amounts received by the trustees from the revenue earned by the developers and corporations. Loan and corresponding debt service payments are generally guaranteed by third-party irrevocable direct-pay letters of credit or other credit enhancement arrangements. The faith and credit of the Authority is not pledged for the payment of the principal or interest on the bonds. Accordingly, these obligations are excluded from the Authority's financial statements.

As of December 31, 2012, there were 53 series of conduit bonds outstanding, with an aggregate principal amount outstanding of $\$ 963.8$ million. As of December 31, 2011, there were 68 series of bonds outstanding, with an aggregate principal amount outstanding of $\$ 407.3$ million.

## (8) Derivative Instruments

The Authority reports derivative instruments at fair value. The fair value of all derivatives is reported on the Statement of Net Position as a derivative instrument at the end of the year. If the interest rate hedge is considered ineffective, an investment derivative, the change in fair value is reported on the Statement of Revenues, Expenses and Changes in Net Position as investment derivative activity loss. The annual changes in the fair value of effective hedging derivative instruments are reported as deferred inflows and outflows, as appropriate, on the Statement of Net Position.

Swaps Transactions - The Authority has entered into pay fixed, receive variable interest rate swaps in order to (1) provide lower cost fixed rate financing for its production needs through synthetic fixed rate structures and (2) utilize synthetic fixed rate structures with refunding bonds in order to generate cash flow savings. The objective of the swaps is to hedge interest rate risk.

The fair values take into consideration the prevailing interest rate environment and the specific terms and conditions of each swap. All fair values were estimated using the zero-coupon discounting method. This method calculates the future payments required by the swap, assuming that the current forward rates implied by the yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero coupon rate bonds due on the date of each future net settlement payment on the swaps.
(a) The Authority's interest rate swaps, which were used to hedge interest rate risk, are considered to be hedging derivative instruments under GASB No. 53, with the exception of Single Family Swap 2001-AA, which is considered to be an investment derivative instrument.
(b) On September 19, 2012, the Authority refunded certain single family bonds that were subject to existing interest rate swap agreements that were considered effective interest rate hedges. As a result of the partial refunding, deferred outflows related to those hedges in the amount of $\$ 10.4$ million has been reclassified to deferred refunding loss, which is presented as part of bonds and notes payable in the basic financial statements. The deferred refunding loss is amortized to interest expense over the life of the new debt using the straight line method. The interest expense is offset by an equal amount that is accreted to deferred outflows over the remaining life of the respective swap.
(c) On December 28, 2012, the Authority novated (transferred) $\$ 275.8$ million in swap agreements from AIG to Wells Fargo. The novation was undertaken to eliminate the weaker credit counterparty, AIG, in favor of a stronger one, Wells Fargo and the floating rate calculation was changed to be based on LIBOR in the new agreements.

chfa
A summary of interest rate swaps for the years ended December 31, 2012, and 2011 was as follows:

|  | $\mathbf{2 0 1 2}$ |
| :--- | ---: | ---: |
| Summary of Interest Rate Swaps | Fair Value | | 2011 |
| ---: |
| Fair Value |

Trigger: The variable rate received on these swaps is $68 \%$ of the one-month LIBOR, if LIBOR is equal to or greater than $3.5 \%$. The variable rate received on these swaps is SIFMA plus a spread if the one-month LIBOR is less than $3.5 \%$. See further discussion in the basis risk section below.

Par optional termination right: Certain swaps contain a cancellation clause that provides the Authority the option to cancel a certain amount of the swaps on certain dates. The Authority may cancel the optional termination amount for no payment (callable at par). The optional termination dates coincide with the debt service dates on the associated hedged bonds payable. These dates and amounts are provided in the table below.

Detail of Outstanding Interest Rate Swaps - The key terms, including the fair values and counterparty credit ratings of the outstanding swaps as of December 31, 2012, are shown in the table below. The notional amounts of the swaps approximate the principal amounts of the associated debt. Except as discussed under amortization risk below, the Authority's swap agreements contain scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or anticipated reductions in the associated bonds payable. Based on the standard swap agreement, payments are settled on a net basis.

The Authority enters into master netting arrangements with each of its swap counterparties. All of the agreements provide for the netting of the value of assets and liability positions of all transactions with the respective counterparty. There are no other significant transactions with these counterparties outside of these swap agreements, such that the aggregate amount of liabilities included in the master netting arrangements is equal to the net fair value of the swaps.

${ }^{* * * *)}$ Swaps for which cash premiums were received in 2008. The outstanding unamortized balance of the premium is reported on the Statement of Net Position as hybrid instrument borrowings.
(SPV) Counterparty operates as a special purpose vehicle.

## Risk Disclosure

Credit Risk: All of the Authority's swaps rely upon the performance of the third parties who serve as swap counterparties, and as a result, the Authority is exposed to credit risk - that is, the risk that a swap counterparty fails to perform according to its contractual obligations. The appropriate measurement of this risk at the reporting date is the fair value of the swaps, as shown in the column labeled "Fair Value" in the outstanding swaps table above. The Authority is exposed to credit risk in the amount of any positive net fair value exposure to each counterparty. As of December 31, 2012, the Authority was exposed to minimal credit risk to any of its counterparties. To mitigate credit risk, the Authority maintains strict credit

$\qquad$
standards for swap counterparties. All swap counterparties must be rated in the AA/Aa or higher category by either Standard \& Poor's (S\&P) or Moody's Investors Service (Moody's), respectively, at the time the contract is executed.

At December 31, 2012, the Authority had executed 71 swap transactions with nine counterparties with concentrations and ratings (Standard and Poor's/ Moody's Investors Service) as shown in the following table:

| Swap <br> Count |  | Notional <br> Amount | Concentration | Counterparty Rating <br> (S\&P / Moody's) |
| :---: | :---: | :---: | :---: | :---: |
| 1 | \$ | 2,170 | 0.1\% | A/A2 |
| 14 |  | 370,930 | 20.4\% | A/A3 |
| 8 |  | 95,965 | 5.3\% | A-/Baa1 |
| 31 |  | 674,204 | 37.0\% | A+/A2 |
| 6 |  | 140,805 | 7.7\% | A+/Aa3 |
| 1 |  | 67,385 | 3.7\% | AA / Aa 1 |
| 9 |  | 464,690 | 25.5\% | AA / Aa3 |
| 1 |  | 4,685 | 0.3\% | AAA/NR |
| 71 | \$ | 1,820,834 | 100\% |  |

At December 31, 2011, the Authority had executed 74 swap transactions with nine counterparties with concentrations and ratings (Standard and Poor's/ Moody's Investors Service) as shown in the following table:

| Swap <br> Count | Notional <br> Amount |  | Concentration | Counterparty Rating <br> (S\&P / Moody's) |
| :---: | :---: | :---: | :---: | :---: |
| 14 | \$ | 384,215 | 19.8\% | A/ A2 |
| 2 |  | 8,880 | 0.5\% | A/Aa3 |
| 13 |  | 385,250 | 19.8\% | A/WR |
| 6 |  | 179,240 | 9.2\% | A+/Aa1 |
| 31 |  | 701,674 | 36.0\% | A+/Aa3 |
| 4 |  | 193,600 | 10.0\% | AA- / Aa 1 |
| 1 |  | 80,100 | 4.1\% | AA- / Aaa |
| 1 |  | 5,095 | 0.3\% | AAA/NR |
| 2 |  | 6,405 | 0.3\% | NR/Baa1 |
| 74 | \$ | 1,944,459 | 100\% |  |

Interest Rate Risk: The Authority is exposed to interest rate risk in that as the variable rates on the swaps agreements decrease, the Authority's net payment on the swap agreement could increase.

Basis Risk: The Authority is exposed to basis risk when the variable interest rate paid to the holders of its variable rate demand obligations (VRDOs) is not equivalent to the variable interest rate received from its counterparties on the related swap agreements. When exposed to basis risk, the net interest expense incurred on the combination of the swap agreement and the associated variable rate debt may be higher or lower than anticipated.

## Notes to Basic Financial Statements

chfa. (tabular dollar amounts are in thousands)

The Authority's tax-exempt variable-rate bond interest payments are substantially equivalent to the SIFMA rate (plus a trading spread). Certain tax-exempt swaps, as indicated in the table above, contain a trigger feature in which the Authority receives a rate indexed on SIFMA should LIBOR be less than a predetermined level (the trigger level, 3.5\%), or a rate pegged at a percentage of LIBOR should LIBOR be equal to or greater than the predetermined trigger level. For these swaps, the Authority would be negatively exposed to basis risk during the time period it is receiving the rate based on a percentage of LIBOR should the relationship between LIBOR and SIFMA converge.

The Authority's taxable variable-rate bond interest payments are substantially equivalent to LIBOR (plus a trading spread). The Authority is receiving LIBOR (plus a trading spread) or LIBOR flat for all of its taxable swaps and therefore is only exposed to basis risk to the extent that the Authority's bonds diverge from their historic trading relationship with LIBOR.

Termination Risk: The Authority's swap agreements do not contain any out-of-the-ordinary termination events that would expose it to significant termination risk. In keeping with market standards, the Authority or the counterparty may terminate each swap if the other party fails to perform under the terms of the contract. In addition, the swap documents allow either party to terminate in the event of a significant loss of creditworthiness. If at the time of the termination a swap has a negative value, the Authority would be liable to the counterparty for a payment equal to the fair value of such swap.

There are certain termination provisions relevant to the Authority's counterparties operating as special purpose vehicles (SPV) with a terminating structure. In the case of certain events, including the credit downgrade of the SPV or the failure of the parent company to maintain certain collateral levels, the SPV would be required to wind up its business and terminate all of its outstanding transactions with all clients, including the Authority. All such terminations would be at mid-market pricing. In the event of such termination, the Authority would be exposed to the risk of market re-entry and the cost differential between the mid-market termination and the offered price upon re-entry.

Rollover Risk: The Authority is exposed to rollover risk only on swaps that mature or may be terminated at the counterparty's option prior to the maturity of the associated debt. As of December 31, 2012 and 2011, the Authority was not exposed to rollover risk.

Amortization Risk: The Authority is exposed to amortization risk in the event that the swap amortization schedules fail to match the actual amortization of the underlying bonds as a result of loan prepayments, which significantly deviate from expectations. If prepayments are significantly higher than anticipated, the Authority would have the option of reinvesting or recycling the prepayments, or calling unhedged bonds. Alternatively, if the Authority chose to call bonds associated with the swap, the Authority could elect an early termination of the related portions of the swap at a potential cost to the Authority. If prepayments are significantly lower than anticipated and the associated bonds remained outstanding longer than the relevant portion of the swap, the Authority could experience an increase in its exposure to unhedged variable rate bonds. Alternatively, the Authority could choose to enter into a new swap or an extension of the existing swap. If interest rates are higher at the time of entering into a new swap or swap extension, such action would result in an increased cost to the Authority.

Collateral Requirements: The Authority is subject to a contingency feature that would require the Authority to post collateral on swap agreements if the Class I obligations credit rating falls to a Moody's A1, or equivalent ratings by S\&P and Fitch, and is greater than the established thresholds. As of December 31, 2012 and 2011, all agreements were rated higher than the Moody's A1 and did not require collateral.

The majority of the class 1 bonds are rated AAA by both rating agencies. The bond indentures for these swaps are over collateralized and the underlying assets are insured. The likelihood that the bonds would be downgraded by four categories is considered remote, but if it were to occur, it would require the Authority to post collateral approximately equal to the fair value of the interest rate swap.

## Notes to Basic Financial Statements (tabular dollar amounts are in thousands)

chfa
Swap Payments - Using interest rates as of December 31, 2012, debt service requirements of the Authority's outstanding variable-rate debt and net swap payments were as follows. As rates vary, variable rate interest rate payments on the bonds and net swap payments will change.

| Years Ending <br> December 31, | Principal | Interest | Swaps, Net | Total |  |
| :--- | ---: | ---: | ---: | ---: | ---: |
| 2013 | $\$ 113,329$ | $\$$ | 5,837 | $\$$ | 80,863 |

Hybrid Instrument Borrowings - Certain interest rate swaps, as identified on the detailed swap table above, include fixed rates that were off-market at the execution of the interest rate swaps. For financial reporting purposes, these interest rate swaps are considered hybrid instruments and are bifurcated between borrowings, with an aggregate original amount of $\$ 98.5$ million reflecting the fair value of the instrument at its execution, and an interest rate swap with a fixed rate that was considered at-the-market at execution. Activity for the hybrid instrument borrowings for the years ended December 31, 2012 and 2011 was as follows:

|  |  |  |  |  |
| :--- | ---: | ---: | ---: | ---: |
|  | $\mathbf{2 0 1 2}$ |  | $\mathbf{2 0 1 1}$ |  |
| Beginning balance | $\$$ | 53,607 | $\$$ | 59,972 |
| Additions |  | 25,018 |  |  |
| Reductions |  |  | - |  |
| Ending balance | $\$$ | 73,233 | $\$$ |  |

## Notes to Basic Financial Statements

(tabular dollar amounts are in thousands)
chfa. $\qquad$

The following table sets forth as of December 31, 2012, payments of principal and interest on the hybrid instrument borrowings for the next five years and thereafter. The total payments generally reflect the difference between the stated fixed rate of the hybrid instrument and the at-the-market fixed rate at the execution of the instrument.

| Years Ending <br> December 31, | Principal <br> and Interest |  |
| :--- | ---: | ---: |
| 2013 | $\$$ | 15,079 |
| 2014 | 14,146 |  |

| 2017 | 5,658 |  |
| $2018-2022$ | 13,880 |  |
| $2023-2027$ | 6,056 |  |
| $2028-2032$ | 1,969 |  |
| $2033-2037$ | 468 |  |
| $2038-2042$ | 111 |  |
| $2043-2047$ | $\$$ | 73,233 |
| Total |  |  |

Forward Sales Contracts - The Authority has entered into forward sales contracts for the delivery of Ginnie Mae securities in order to lock in the sales price for the securitization of certain taxable single family loans. The contracts offset changes in interest rates between the time of the loan reservations and the securitization of such loans into Ginnie Mae securities. These contracts are considered investment derivative instruments, such that their change in fair value is reported as investment derivative activity losses on the Statement of Revenues, Expenses and Changes in Net Position.

The outstanding forward contracts, summarized by counterparty as of December 31, 2012, were as follows:

| Count | Par |  | Exposure | Original Sales Price |  | 12/31/12 |  | Fair Value |  | Counterparty Rating |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  | mium |  |  |  |
| 2 | \$ | 1,000 |  | 1.2\% | \$ | 1,063 | \$ | 1,064 | \$ | 1 | BBB-/n/a |
| 2 |  | 8,000 | 9.8\% |  | 8,648 |  | 8,661 |  | 13 | A2/P2 |

## (9) Debt Refundings

On September 19, 2012, the Authority issued its Single Family Bonds 2012 Series A and B in the aggregate principal amount of $\$ 99.1$ million. The entire proceeds of the bonds were used to refund a portion of various single family mortgage bonds. The refunding resulted in a decrease in the aggregate future debt service requirement, including related fees, of approximately $\$ 3.9$ million based on the change in variable interest rates at the time of refunding and an approximate economic gain to the Authority of $\$ 2.6$ million. In accordance with GASB Statement No. 23, Accounting and Financial Reporting for Refundings of Debt Reported by Proprietary Activities, $\$ 10.9$ million was deferred and is being amortized over the contractual life of the new debt.

In addition, the Authority converted $\$ 236.7$ million in outstanding VRDOs into FRNs through a direct placement transaction with Federal Home Loan Bank (FHLB) of Seattle. Refunding or converting VRDOs requiring liquidity facilities into FRNs has proven to be an effective means for the Authority to reduce costs related to the indenture and we will continue to seek these opportunities in 2013.

On November 10, 2011, the Authority issued its Single Family Bonds 2011 Series B, C and D, in the aggregate principal amount of $\$ 227.2$ million. The entire proceeds of the bonds were used to refund a portion of various single family mortgage bonds. The refunding resulted in a decrease in the aggregate future debt service requirement of approximately $\$ 1.4$ million, based on the change in variable interest rates at the time of refunding and an approximate economic gain to the Authority of $\$ 468$ thousand. In accordance with GASB Statement No. $23, \$ 11.5$ million was deferred and is being amortized over the contractual life of the new debt.

## Notes to Basic Financial Statements

(tabular dollar amounts are in thousands)

## chfa

Economic gain or loss is calculated as the difference between the present value of the old debt service requirements, including related fees, and the present value of the new debt service requirements less related upfront costs of issuance, bond call premiums and bond insurance premiums, discounted at the effective interest rate.

In prior years, the Authority defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Authority's financial statements. On December 31, 2012, $\$ 58.9$ million of bonds outstanding are considered defeased.

## (10) Restricted and Unrestricted Net Position

The amounts restricted for the Single Family bond programs and the Multi-Family/Business bond programs are for the payment of principal, redemption premium, if any, and interest, including net swap payments, on all outstanding single family and multi-family/business bond issues, in the event that no other funds are legally available for such payments. Such assets are segregated within the Single Family and Multi-Family/Business bond programs and are held in cash, loans receivable and investments.

The Board may authorize the withdraw of all or part of this restricted balance if (1) updated cash flow projections indicate that adequate resources will exist after any withdrawal to service the outstanding debt, subject to approval by the bond trustee and the rating agency review; (2) the Authority determines that such funds are needed for the implementation or maintenance of any duly adopted program of the Authority; and (3) no default exists in the payment of the principal, redemption premium, if any, or interest on such bonds.

The Board has designated certain amounts of the unrestricted net position of the General Programs as of December 31, 2012 and 2011, for various purposes, as indicated in the following table. These designations of net position are not binding, and can be changed by the Board.

## Unrestricted Net Position for the years ended December 31, 2012 and 2011:

|  | 2012 | 2011 |  |  |
| :--- | ---: | ---: | ---: | ---: |
| Designations: | $\$$ | 70,874 | $\$$ | 76,786 |
| $\quad$ Housing loans | 15,079 |  | 17,757 |  |
| Commerical loans | 11,496 | 14,723 |  |  |
| General operating and working capital | 23,189 |  | - |  |
| Rating agency reserves | 31,321 |  | - |  |
| General obligation bonds | 22,352 |  | - |  |
| $\quad$ Nongeneral obligation bonds | $\$$ | 174,311 | $\$$ | 109,266 |
| Total general programs unrestricted net position |  |  |  |  |

## (11) Retirement Plans

The Authority contributes to the Local Government Division Trust fund (Trust) a cost-sharing multiple-employer public defined benefit plan administered by the Public Employees' Retirement Association of Colorado (PERA). The Trust provides retirement, disability and death benefits for members or their beneficiaries. Generally, all employees of the Authority are members of the Trust.

## Notes to Basic Financial Statements

 (tabular dollar amounts are in thousands)
## chfa

The Authority contributes to the Health Care Trust Fund (Health Fund), a cost-sharing multiple-employer postemployment health care plan administered by PERA. The Health Fund provides a health care premium subsidy to PERA participating benefit recipients and their eligible beneficiaries.

Colorado Revised Statutes assign the authority to establish Trust and Health Fund benefit provisions to the State Legislature. PERA issues a publicly available annual financial report that includes financial statements and required supplementary information for the Trust and the Health Fund. That report may be obtained by writing to PERA at P.O. Box 5800 Denver, Colorado 80217-5800, by calling PERA at 303-832-9550 or 1-800-759-PERA (7372) or from PERA's website at www.copera.org.

Plan members and the Authority are required to contribute to the Trust at rates set by Colorado Statutes. A portion of the Authority's contribution is allocated for the Health Fund. Member contributions to the Health Fund are not required.

The contribution rate for members and the Authority's contributions to the Trust and Health Fund, which equaled the Authority's required contributions for each year, were as follows:

|  | $\mathbf{2 0 1 2}$ | $\mathbf{2 0 1 1}$ |
| :--- | ---: | ---: |
| Contribution rate of covered salary: |  |  |
| Members | $\mathbf{8 . 0 0 \%}$ | $8.00 \%$ |
| Authority: |  |  |
| Trust | $12.68 \%$ | $12.68 \%$ |
| Health Fund | $1.02 \%$ | $1.02 \%$ |
| Total Authority contribution rate | $13.70 \%$ | $13.70 \%$ |
| Contributions by the Authority: |  |  |
|  |  |  |
| Trust | $\$ 1,637$ | $\$ 1,730$ |
| Health Fund | 132 | 139 |
| Total Authority contributions | $\$$ | 1,769 |

An additional benefit offered to eligible Authority employees through PERA is a Voluntary Investment Program, established under Section 401 (k) of the Internal Revenue Code. Participants invest a percentage of their annual gross salary up to the annual Internal Revenue Service limit of their gross salaries. The Authority contributed $1 \%$ of each participating employee's salary as part of the $401(\mathrm{k})$ match, and in addition to the $1 \%$ contribution, the Authority matched half of the employee's 401 (k) contribution up to $5 \%$ of the participating employee's gross salary for a maximum Authority match of $3.5 \%$. Starting in 2012, employees are required to invest a percentage of their annual gross salary to participate in the plan and receive the Authority's $1 \%$ contribution and match.

Contributions by the Authority for the years ended December 31, 2012 and 2011 were $\$ 389$ thousand and $\$ 396$ thousand, respectively. Contributions by participating employees for the years ended December 31, 2012 and 2011 were $\$ 951$ thousand and $\$ 902$ thousand, respectively. All required contributions are paid in full annually.

## (12) Risk Management

The Authority has an Enterprise Risk Management program under which various risks of loss associated with its business operations are identified and managed. The ERM program includes Internal Audit, Compliance and Security/Privacy. The risk management techniques utilized include a combination of standard policies and procedures and purchased insurance.

## Notes to Basic Financial Statements

(tabular dollar amounts are in thousands)

## chfa

Commercial general liability, property losses, business automobile liability, workers' compensation, Crime, Executive Risk Package with Directors' and Officer and Employed Lawyers Professional Liability, Network Security and Privacy coverage and public officials' liability are all managed through purchased insurance. There were no significant reductions or changes in insurance coverage from the prior year. Settled claims did not exceed insurance coverage in any of the past three years.

## (13) Related-Party Transactions

The Authority has three outstanding loans with the Housing Authority of the City of Loveland, Colorado, the Executive Director of which is a member of the Authority's Board. The unpaid principal balance for the years ended December 31, 2012 and 2011 were $\$ 2.6$ million and $\$ 2.7$ million, respectively.

## (14) Commitments and Contingencies

The Authority had outstanding commitments to make or acquire single family and multi-family/business loans of $\$ 66.9$ million and $\$ 6.4$ million, respectively, as of December 31, 2012. The Authority had outstanding commitments to make or acquire single family and multi-family/business loans of $\$ 62.1$ million and $\$ 3.0$ million, respectively, as of December 31, 2011.

There are a limited number of claims or suits pending against the Authority arising in the Authority's ordinary course of business. In the opinion of the Authority's management and counsel, any losses that might result from these claims and suits are either covered by insurance or, to the extent not covered by insurance, would not have a material adverse effect on the Authority's financial position.

The Authority participates in the Ginnie Mae Mortgage-Backed Securities (MBS) Programs. Through the MBS Programs, Ginnie Mae guarantees securities that are issued by the Authority and backed by pools of mortgage loans. If a borrower fails to make a timely payment on a mortgage loan, the Authority must use its own funds to ensure that the security holders receive timely payment. All loans pooled under the Ginnie Mae MBS Program are either insured by the FHA or RD, or are guaranteed by the VA. The Authority assesses the overall risk of loss on loans that it may be required to repurchase and repurchases the loans as necessary. The Authority repurchased $\$ 48.0$ million and $\$ 21.3$ million of these loans in 2012 and 2011, respectively.

## 15) Subsequent Events

In 2012, the Authority established a contractual, sub-servicing relationship with Dovenmuehle Mortgage, Inc. (DMI) for its single family portfolio beginning March 1, 2013.

This approach will allow the Authority and its customers to benefit from the established infrastructure, technology, and economies of scale that a sub-servicer can provide. At the same time, it will reduce the Authority's long-term costs, allowing the organization to remain focused on investing as much of its resources as possible back into its mission of affordable housing and business finance.

The Authority will retain its mortgage servicing rights, which ensures that its ongoing vested and proactive relationship with its customers, investors, mortgage insurance providers, and guarantors will be actively maintained. Additionally, the Authority will retain key components of its internal loan servicing operation to help oversee DMI and to ensure that the Authority maintains an active and productive role in shaping the quality of loan servicing provided.
