

# NATIONAL PARKS AND MONUMENTS

**BENT'S OLD FORT** - Reconstructed, after careful archaeological research, 1820s fur-trading fort, built by the Bent brothers. It was a major commercial stop along the historic Santa Fe Trail. The fort has been refurbished with period reproductions, antiques and artifacts excavated at the fort site. L-23

**BLACK CANYON OF THE GUNNISON NATIONAL MONUMENT** - This is one of the most spectacular, steep-walled canyons in North America with a 2,000-foot chasm cut by the Gunnison River over a span of two million years. J-6

**COLORADO NATIONAL MONUMENT** - The forces of nature have sculpted this land filled with sheer-walled canyons, magnificent monoliths, and uniquely shaped spires and columns. H-2

**CURECANTO NATIONAL RECREATION AREA** - Over 60 miles long, this area includes Blue Mesa Reservoir (the largest body of water in Colorado) and two other lakes. K-8

**DINOSAUR NATIONAL MONUMENT** - The 211,085 acres of the monument offer some of the best sandstone canyon scenery, along with a world-famous fossil quarry. B-1

**FLORISSANT FOSSIL BEDS NATIONAL MONUMENT** - A massive volcanic eruption 35 million years ago buried a large lake and the surrounding countryside, preserving some of America's finest insect, plant and fish fossils. Large fossil tree trunks and stumps have also been preserved here. I-16

**GREAT SAND DUNES NATIONAL MONUMENT** - Covering more than 555 square miles, the monument has towering mountains of sand more than 1,000 feet high. N-14

**HOVENWEEP NATIONAL MONUMENT** - Unique stone masonry towers line canyon heads within the six separate and remote clusters of dwellings built at the climax of the Pueblo Indian culture nine hundred years ago. O-1

**MESA VERDE NATIONAL PARK** - The 52,000 acre park contains over 4,000 archaeological sites, some dating back thousands of years. More than 600 cliff dwellings line the canyon walls. There are five spectacular walking tours open to the public. P-3

**ROCKY MOUNTAIN NATIONAL PARK** - Colorado's largest national park, with streams, valleys and mountain lakes, has 115 peaks more than 10,000 feet above sea level, and 78 peaks over 12,000 feet above sea level. Q-14
