SURVEY METHODS

During a three-week period, consumers were asked to fill out the survey before a scheduled appointment. Participants were asked to rate on a scale of 1 to 5 whether they agreed or disagreed with 36 statements. The statements were then combined to create the domains above. All surveys were confidential.

Example statements from the survey are:

"I am better able to deal with crisis."

"I felt free to complain."

"I like the services I received here."

Consumer Comments

I LIKE THE RESPECT AND PRIVACY I GET AND THE TREATMENT I RECEIVE. I REALLY LIKE THAT I HAVE SUPPORT AND MY THERAPIST GIVES ME IMPORTANT AND MEANINGFUL ADVICE. I HAVE A PLACE TO TALK OPENLY AND HONESTLY ABOUT MY FEELINGS.

SOMEONE IS ALWAYS
THERE WHEN I NEED
THEM. I NEVER FEEL
RUSHED DURING MY
APPOINTMENT —
I MATTER!

My symptoms have dramatically decreased since my diagnosis and the start of treatment.

I DON'T UNDERSTAND WHY I HAVE BEEN DIAGNOSED WITH MY CONDITION OR WHAT IT TRULY IS. I WOULD LIKE MORE INFORMATION ON WHY.

What it Means

The Division of Behavioral Health strives to ensure high quality, accessible behavioral health services for Colorado residents, by reviewing community mental health programs; adopting standards, rules and regulations; providing training and technical assistance; and responding to complaints from non-Medicaid consumers.

Consumer perceptions are one measure of how well services measure up to these expectations.

This survey demonstrated that 7 out of 8 consumers reported being satisfied with their services.

3 of 5 people agreed that they functioned better as a result of services.

1 of 4 persons indicated a need to participate more in their treatment.

The data can be used in the Division's mission towards improving the services it funds.
