## **Market Rate Survey of Child Care Providers**

(Conducted Nov 2006, Adopted April 2007)  
(for use in FFY 2008 and 2009 CCDF State Plan)

### **Introduction**

Qualistar Early Learning developed a market rate survey of licensed child care centers, family child care providers, and school-age child care facilities in the fall of 2006 for the Colorado Department of Human Services, Division of Child Care. Qualistar Early Learning manages a network of child care resource and referral (CCR&R) partners that serve all 64 Colorado counties. CCR&R's collect costs of child care on a semi-annual basis in a networked database called NACCRRAware. Data from Colorado's NACCRRAware databases was utilized to complete this survey.

### **Methodology**

The rate information collected from the NACCRRAware database was full-time monthly, weekly, daily, and hourly rates. The type of age groups pulled were infants (0-12 months), toddlers (1-2 years), 3-4 years, 5-6 years, before and after school (6+ years), and full day out of school (6+ years). We then merged this data into four age groups: 0-2 Years, 2-6 Years, School Age (Full Day), and School Age (Before/After School). After the data was compiled from NACCRRAware, all of the records that had incomplete data were taken out of the survey. The total number of child care centers/Preschool Programs surveyed was 1131 of 1931 licensed. The total number of family child care providers surveyed was 3283 of 3540 licensed, and the total number of school-age child care facilities surveyed was 482 of 632 licensed. Full-time weekly rates were then collected with standardized formulas:

If a monthly rate was given, it was divided by 4.33 to obtain a weekly rate

If a daily rate was given, it was multiplied by 5 to get a weekly rate

If an hourly rate was given, it was multiplied by 45 hours per week for a weekly rate

For before and after school programs only, if an hourly rate was given, it was multiplied by 17.5 hours per week for a weekly rate. Also, if a part time hourly weekly rate was given, we used that rate as the full time weekly rate.

If a rate was given for both 0-12 months AND 1-2 Years, the data was averaged to get the 0-2 Year Rate.

If a rate was given for both 2-5 Years, and 5-6 Years, the data was averaged to get the 2-6 Year Rate.

After full-time weekly rates were calculated, the average, median, range, 75<sup>th</sup> percentile, and mode were calculated for each county according to type of care and age group. Additionally, counties were color-coded to further define how the Colorado Department of Human Services designates counties (see page 2, Chart 1.1).

**Summary**

The rate information collected from the NACCRRAware database represented 80% of all licensed providers at the time of the survey. As is expected in a state where there are so many varying rates based on provider type, age of child, and county designation, there is a wide range in the rate variance from the 2005 MRS. In 32 rate categories for the state recommended rates (which counties may or may not use when setting their reimbursement schedule) the range was from a decrease of 24.83% (Child Care Centers School Age Before & After - County Designation D) to an increase of 39.40% (Child Care Centers School Age Before & After - County Designation C). These two county designation can have wide swings in rates over a two year period because of being low-population counties where the addition or loss of a facility can change the rate structure more dramatically than in large counties. The average for all Child Care Center rates was an increase of 2.19%. The average for all Family Child Care Homes rates was an increase of 3.04%.

**State Recommended Provider Reimbursement Rates**

The State Recommended Provider Reimbursement Rates are determined to address the federal recommendations of paying providers at or above the 75<sup>th</sup> percentile of each provider type by age of child served. The methodology used is the following –

In each county designation category (see information below regarding county designation categories of A, B, C, D), the 75<sup>th</sup> percentile of every county in that category is averaged to reach the State Recommended Provider Reimbursement Rates.

Under Colorado’s welfare reform legislation, county departments of social services/human services have the flexibility to set their own rates. Therefore, the State Recommended Provider Reimbursement Rates are for informational and reference purposes. However, federal CCDF regulations require states to certify that the payment rates funded by CCDF for eligible families (CCCAP) are sufficient to ensure the same access to child care services that non-eligible families have.

State Recommended Provider Reimbursement Rates				
Child Care Centers				
	0-2 Years	2-6 Years	School Age (All Day)	School Age (Before and After School)
Designation A	\$41.76	33.53	\$32.66	\$21.34
Designation B	\$31.25	\$22.25	\$18.62	\$13.35
Designation C	\$36.24	\$30.06	\$32.85	\$19.95
Designation D	\$22.26	\$17.76	\$18.83	\$11.52

State Recommended Provider Reimbursement Rates				
Family Child Care Homes				
	0-2 Years	2-6 Years	School Age (Full Day)	School Age (Before and After School)
Designation A	\$32.68	\$30.19	\$28.82	\$16.89
Designation B	\$28.00	\$22.00	\$20.00	\$16.00
Designation C	\$29.10	\$28.24	\$27.39	\$18.59
Designation D	\$19.43	\$18.14	\$17.74	\$14.51

**County Designation Procedure or Information:**

Market Rate Survey results were aggregated into four market areas utilizing the approved criteria as follows –

- County Designation is determined by the following Criteria:
  - (1) Population (over 35,000 and under 35,000) as determined by census reporting;
  - (a) County combined average child care provider market rate;
  - (b) Household income as determined by census reporting; and,
  - (c) The Basic Industries Group Tourism Commuter Index.

Each county fits into a designation by applying the following standards:

- A:** County has population greater than 35,000 and is higher than the median in two of three categories (a - c).
- B:** County has population greater than 35,000 and is NOT higher than the median in two of three categories (a - c).
- C:** County has population below 35,000 and is higher than the median in two of three categories (a - c).
- D:** County has population below 35,000 and is NOT higher than the median in two of three categories (a - c).

*COLORADO DEPARTMENT OF HUMAN SERVICES*  
**DIVISION OF CHILD CARE**

**MARKET RATE SURVEY**

**County Designation Section**

- County designation is determined by the following criteria:
  - (a) Population (over 35,000 or under 35,000) as determined by census reporting,
  - (b) Combined average child care provider market rate,
  - (c) Household income as determined by census reporting, and
  - (d) The Basic Industries Group Tourism Commuter Index.

Each county fits into a designation by applying the following standards:

**Designation A:** Population over 35,000 and meets or exceeds the median of at least two of the three criteria b, c and d.

**Designation B:** Population over 35,000 and does not meet or exceed the median of at least two of the three criteria b, c and d.

**Designation C:** Population below 35,000 and meets or exceeds the median of at least two of the three criteria b, c and d.

**Designation D:** Population below 35,000 and does not meet or exceed the median of at least two of the three criteria b, c and d.
