**DIVISION OF CHILD CARE**

# **Provider Reimbursement Rates**

Notes for Use of Document -

Counties determine Provider Reimbursement Rates

Counties determine definition of Rate Type (ex. - Evening may mean different periods of time or type of care for different counties)

Rate Sub-Type (0,1,2,3,4,5) is determined by counties and does not indicate tiered reimbursement related to quality improvement.

Rate Sub-Type (Tier0,Tier1,Tier2,Tier3,Tier4,Tier5) is determined by counties and indicates tiered reimbursement related to quality improvement.

For counties using tiered-reimbursement, the county defines what constitutes levels of quality for each tier.
