# **Provider Reimbursement Rates**

Notes for Use of Document -

Counties determine Provider Reimbursement Rates

Counties determine definition of Rate Type (ex. - Evening may mean different periods of time or type of care for different counties)  
Rate Sub-Type (0, 1, 2, 3, 4, 5) is determined by counties and does not indicate tiered reimbursement related to quality improvement.

Rate Sub-Type (Tier0, Tier1, Tier2, Tier3, Tier4, Tier5) is determined by counties and indicates tiered reimbursement related to quality improvement.  
For counties using tiered-reimbursement, the county defines what constitutes levels of quality for each tier.
