The Colorado Department of Human Services, Division of Youth Corrections (DYC) is pleased to distribute its annual Judicial District Profile Report.

The *Judicial District Profile Report* is designed to provide 'frequently requested' population information on youth served by the twenty-two (22) judicial districts during the previous fiscal year. This report contains detailed information on Senate Bill 94 youth (including placement and outcomes), detained youth, committed youth, youth released to the community on parole, as well as youth discharged from the Division. In addition, the report contains statewide, regional, and district-specific population and demographic data, as well as information related to juvenile probation and the Youthful Offender System.

Thank you for your interest in the Division of Youth Corrections. Additional information is available on the Division's web site at:
