Annual Report

OF THE

Colorado Soldiers' and Sailors' Home

Monte Vista, Colo., December 15, 1901.

HIS EXCELLENCY,

JAMES B. ORMAN,

The Governor, Denver, Colorado.

Sir: I have the honor to submit the annual report, required by the statutes, of the Soldiers' and Sailors' Home for the year ending November 30, 1901.

At the commencement of this fiscal year the Soldiers' and Sailors' Home Commission was constituted as follows: T. C. Graden, of Durango, president; H. M. Orahod, of Denver, department commander G. A. R., ex-officio Commissioner, vice-president; H. V. Smith, of Monte Vista, secretary and treasurer; M. J. Hogarty, of Greeley. Six meetings of the commission have been held during the year.

Early in April the terms of office of T. C. Graden, M. J. Hogarty and H. M. Orahod, as Commissioners, expired. At the board meeting, held April 12th, R. J. McNutt, of Silverton, T. D. Heiskell, of Fort Morgan, and L. E. Sherman, of Colorado Springs, the newly-elected department commander G. A. R., appeared and presented credentials as Commissioners, but it appearing that T. D. Heiskell was not an ex-Union soldier, sailor or marine, his eligibility as a Commissioner being therefore in doubt, under the statutes, the organization of the board was deferred until the Attorney General could be consulted.

At the next meeting, held May 9th at the home, the board organized as follows:

H. V. Smith, of Monte Vista, president.

L. E. Sherman, Colorado Springs, vice-president.

George West, Golden, secretary.

R. J. McNutt, Silverton, treasurer.

At a meeting of the board on the 10th of July, Hon. John H. Shaw, commander, Capt. Samuel West, adjutant, book-keeper and clerk of the board, and Dr. R. W. Cary, surgeon, were re-elected to their respective offices for one year from the date of the organization of the present board; also, J. M. Blakey, a member of the home, was elected quartermaster and commissary for the same period, in place of H. W. Green, resigned.

These officers have attended with faithfulness to their duties, and Commander Shaw has proved himself to be an industrious, efficient officer, especially showing himself to be capable in the care of the grounds, farm and extensive garden of the home, which he has improved greatly and brought into a much higher state of cultivation than has ever been accomplished before.

For the record of the work done—of the state and accounts of the finances and of the records of the population, of the attendance and record of the hospital and sick and of the supplies of the home—I respectfully refer you to the detailed and full reports of the commander, adjutant, book-keeper, surgeon, quartermaster and commissary.

Much embarrassment was experienced in regard to the finances of the home, from the uncertainty about the revenues of the state, until October the appropriation of the last general assembly of \$20,000 for maintenance for this year being entirely unavailable. However, supply dealers were reasonably accommodating, and no suffering for lack of necessary provisions, clothing or general supplies resulted. Confidence in the willingness and ability of your Excellency and of your coadjutors to somehow secure the necessary funds was almost universal, which confidence was not misplaced, for on October 3d, while the board was in session in Denver, you invited the Commissioners and officers to an audience, at which time you introduced Hon. Charles W. Crouter, Auditor of State, and at your instance he announced that the \$20,000 would be immediately placed on his books to the credit of the home. We afterwards learned that through careful and judicious

financiering on your part and that of the state officers, the warrants drawn against this credit were cashed by the State Treasurer. This freed the home from debt and gave us the long hoped-for opportunity of purchasing more cots, mattresses, blankets and other greatly needed supplies.

I know that I am only expressing the sentiment of the Commissioners when I say that we are deeply grateful for your earnest and well-directed efforts in behalf of the old "Boys in Blue."

We are hoping to obtain the use of the \$10,000 appropriated for improvements at an early date in the coming year. The hospital sorely needs enlargement and increased facilities. It is so crowded now that we are compelled to delay the admittance of some who greatly need to be cared for in hospital, and the need is steadily growing more pressing as "age creeps on." We need an assembly room, or chapel, and offices for headquarters. Our present accommodations in those regards are very inadequate and disgracefully shabby. There are many other permanent improvements needed to make this institution worthy of this great state.

I am, very respectfully yours,

H. V. SMITH,

President Board of Commissioners.

REPORT OF THE COMMANDER.

Soldiers' and Sailors' Home,
Monte Vista, Colorado, December 14, 1901.

H. V. SMITH,

President Soldiers' and Sailors' Home Commission:

Dear Sir—I herewith hand you the reports of my adjutant and quartermaster, for the fiscal year ending November 30, 1901, from which you may get a comprehensive idea of receipts and expenditures and general condition of the Home during the year just closed. That there has been no increase in the population of the Home is not for the reason that all eligible and worthy comrades in the state are cared for, but simply for the reason that we lack the facilities to properly care for a greater number. This state of affairs will be remedied to some extent should the appropriations voted last winter become available, when I would earnestly urge that some provision should be made for destitute wives of some of the old comrades, who are forced to find a refuge in the Home, and the widows of those deceased, left destitute.

The general health of the Home has been good and will bear favorable comparison with other Homes throughout the country. Nearly all our mortality has been of long-standing, chronic cases; the number of deaths has been less than for two years past. The medical care has been as good as could be obtained, or expected under the circumstances. In this connection I would urge upon your consideration the proposition of providing, what in any event must soon be done, a resident physician for the Home. The additional cost would be slight; the additional benefit could hardly be computed.

The improvements by way of repairs authorized at your last meeting have been completed and, I trust, will prove satisfactory to the board.

The general contentment and behavior of the members of the Home I attribute largely to the generous and faithful co-operation of my subordinate officers and to their constant care and interest of the general welfare of the Home.

The farm and garden have paid all help in garden, farm, teamsters for the year, feed for stock, etc., leaving a surplus of over \$400.00, besides contributing to the reduction of cost of maintenance, as shown by the quartermaster's report.

As to recommendations for further improvements, I will state my views personally at the next meeting of the board.

Thanking you and the members of the board for their courteous treatment of me and their evident and manifested interest of the welfare of all under my charge, I am,

Very respectfully yours,

JOHN H. SHAW,

Commander.

REPORT OF THE SURGEON.

Soldiers' and Sailors' Home,
Monte Vista, Colorado, December 14, 1901.

H. V. SMITH, ESQ.,

President Board of Commissioners:

Dear Sir—I have the honor to submit the following report as surgeon of the Soldiers' and Sailors' Home for the fiscal year ending November 30, 1901.

I took charge of the medical department of the institution on the 1st of December, 1900. At that date there were 172 members on the roll of the Home, and nineteen patients in the hospital. During that month I made twenty-five visits and examined and prescribed for twenty-five patients, on an average, each visit. There were no deaths that month.

In January, 1901, I visited the Home twenty-five times, and, owing to an epidemic of la grippe, I examined and prescribed for about fifty patients each time. The hospital building was so crowded that we were unable to accommodate all of those who were sick, therefore, had to visit and prescribe for patients in the general quarters, as well as in hospital. One death occurred in January—L. W. Chandler, aged fifty-eight, committed suicide by taking cyanide of potassium and aconite. This man was addicted to the immoderate use of narcotics; was melancholy and despairing because he could not stop the habit, which resulted in the desperate act.

In February the epidemic of la grippe continued, and I made twenty-four visits and examined and prescribed for about as many patients during each visit as in January. One death occurred in February—William Drening, aged sixty-eight years. This man had suffered from chronic albuminuria for some time before, and a bad attack of la grippe in addition to the chronic trouble ended his life.

In March I made twenty-two visits and examined and prescribed for about thirty patients at each visit. No deaths in March.

In April I made fifteen visits and examined and prescribed for about thirty patients each visit. One death occurred in April—William Fihling, aged sixty-eight years, a chronic paralytic, and quite helpless for many months.

In May I made twenty-one visits, examined and prescribed for an average of twenty-five patients at each visit. Quite a goodly number of the members went away on furlough this month, some for only a short time and some for all summer. No deaths during May.

In June I made nineteen visits and examined and prescribed for about twenty-four patients at each visit. One death occurred in June—John Shike, aged seventy-six years, from strangulated hernia. He had right and left inguinal hernia. Several times much trouble had been experienced in reducing the strangulated hernias; sometimes both would get down at the same time, and I had been very particular to keep on his double truss, but it had to be drawn so tightly to keep the contents of the rupture up, that he would displace the truss at times. On June 22 he did so and the strangulation took place. The taxis was employed, with and without chloroform, as the anaesthetic, and utterly failed. I then called in Dr. H. H. Abbott in consultation, and he tried the taxis with the same result. Then we deemed it best to operate, but with little hope, but it held out the only hope. The operation was performed successfully, but owing to the advanced age of the patient, he died from collapse twenty-two hours after the operation.

During the month of July I made eighteen visits and examined and prescribed for an average of twenty-six patients each time. On the morning of the 15th of July, Matthew Clune was stricken down with the rupture of a blood vessel at the base of the brain, in close proximity to the origin of the pneumo-gastric nerve and paralysis of the heart, lungs and stomach was the result. He died the next day, July 16, thirty-five hours after the accident, aged sixty-one years.

In August I made sixteen visits and examined and prescribed for twenty-seven patients, on the average, at each visit. No deaths in August. During this month many of the members returned from furlough.

In September I made fifteen visits and examined and prescribed for twenty-five patients each time. One death occurred at the hospital in September; a man by the name of Arthur Dunlap, who had been heartlessly shipped here from Trinidad in a dying condition, from consumption; without credentials he was admitted into the hospital for humanity's sake. Evidence received later on showed that he was not eligible to membership in the Home. He died the second day after his arrival.

In October I made twenty-three visits and examined and prescribed for twenty-seven patients each visit. During October I performed the operation of dilatation of the urethra and partial destruction of the prostate gland. There was complete retention of urine and it was almost impossible to introduce any kind of a catheter; but since the operation there has been no trouble; the patient is apparently well. Two deaths occurred in October. J. R. McCoy, aged seventy-two years, died of pneumonia; Isaac H. Rhoads, aged eighty-seven, a chronic paralytic, died of general paralysis.

In November I made twenty-one visits and examined and prescribed for twenty-eight patients, on the average, at each visit. One death occurred in November, Ezra Jackson, aged sixty-one years, from cirrhosis of the liver.

On the 1st day of March, 1901, I performed the operation of removal of caries from both femurs. The patient was considerably benefited, but not cured. On November 11th I operated again on the same patient for the same trouble, assisted by Dr. C. M. McGuire, of Walsenburg. The patient is doing well at this time.

In May, 1901, I operated for hydrocele and removed nearly one quart of H^2O . The patient is apparently cured.

As time advances the veterans grow older and feebler, and the need of more hospital room is very evident. At the present time the hospital is well filled, and should we have any kind of an epidemic, we should be unable to accommodate all the sick ones from lack of room, as was the case last winter. I will urge emphatically that the hospital capacity of this institution be increased.

Very respectfully yours,

RALPH W. CARY, M. D.
Surgeon and Physician in Charge.

Annual Report
OF
H. V. SMITH
PRESIDENT OF BOARD OF COMMISSIONERS
OF THE
Colorado
Soldiers' and Sailors'
Home

AT MONTE VISTA

For the Fiscal Year Ending November 30
1902

Annual Report
OF THE
Colorado Soldiers' and Sailors' Home

Monte Vista, Colorado, December 1, 1902.

HIS EXCELLENCY,

JAMES B. ORMAN,

Governor of the State, Denver, Colorado.

Sir—I have the honor to submit the annual report of the Soldiers' and Sailors' Home Commission for the fiscal year ending November 30, 1902.

The Commission is composed and organized as follows:

H. V. Smith, of Monte Vista, President.

J. W. Huff, Department Commander G. A. R., of Victor, Vice-President.

George West, of Golden, Secretary.

R. J. McNutt, of Colorado Springs, late of Silverton, Treasurer.

The officers of the Home are:

John H. Shaw, of Del Norte, Commander.

Samuel West, of Boulder, Adjutant and Accountant.

R. W. Cary, M. D., of Monte Vista, Surgeon.

Wm. Keiry, of Monte Vista, Chaplain.

Leroy Beard, a member of the Home, Quartermaster and Commissary.

Through your thoughtful provision, and with the co-operation of the Auditor of State, the appropriation of \$20,000 by the last general assembly, for this fiscal year, was made

available and has been carefully and economically expended. With the aid of the \$100 per man per annum contributed by the general government, it has furnished sufficient supplies for the physical welfare and comfort of the membership.

A letter, dated March 27, 1902, from the Auditor of State, Chas. W. Crouter, brought the welcome intelligence that the appropriation of \$10,000 for improvements was available. A meeting of the board was promptly called and plans and specifications secured. After due advertisement, contracts were let for a one-story stone addition to the hospital, 24 feet 6 inches by 40 feet, for \$2,307; for a stone assembly hall or auditorium, 36 feet by 80 feet, with commodious rooms in rear, the auditorium part being 33 feet by 55 feet, for \$6,693.45; and a large frame barn, large enough to accommodate ten horses, for \$675. The hospital addition and barn are completed and occupied and the assembly hall will be at an early date ready for our use. In addition, three artesian wells have been bored, to be used for irrigation purposes, and these wells will supply enough water to care for our shade trees, orchard and large garden. A substantial and ornamental wire fence is being built, and is almost completed, along the south front and east side of the Home premises, along the county road. An ice house, capable of storing fifty tons of ice, and much needed coal houses and outhouse have been built, and many repairs made to the older buildings.

Commander John H. Shaw has shown much energy and good judgment in forwarding these improvements and repairs and in the care of the farm and garden operations, and has had cordial co-operation from his subordinate officers in the administration of the Home affairs.

For the details of the affairs of the Home, its finances and population, I beg to refer you to the Commander's, Adjutant's and Accountant's, Surgeon's and Quartermaster's reports, hereto attached and made a part of this report.

I beg to call your attention to what Commander Shaw has to say in his subjoined report, reinforced by the report of the United States Assistant Inspector-General, in regard to the menacing conditions arising from the stagnant water in the Home lake. It is of the utmost importance that an appropriation be secured from the next general assembly for enlarging and strengthening the embankment of the lake and for securing an independent water supply.

Additional room is greatly needed for the increasing applications for membership, and the board is preparing to memorialize you specifically and in detail in regard to the foregoing matters and other needs of the Home.

I have the honor to be

Very respectfully yours,

H. V. SMITH,

President Soldiers' and Sailors' Home Commission.

REPORT OF THE COMMANDER.

Soldiers' and Sailors' Home.

Monte Vista, Colorado, December 1, 1902.

PRESIDENT H. V. SMITH,

Soldiers' and Sailors' Home Commission.

Dear Sir—I have the honor to state that since my last annual report the general affairs of the Home have been quite as satisfactory as at any time during my administration. I believe that there is a more general feeling of good fellowship existing among the members, due largely, I think, to the fact that by the improvements being carried on for their comfort they can plainly see that the Commissioners of the Home are taking a generous interest in their welfare, and are doing all in their power to make this what it should be—a home indeed for all worthy to come here.

The general health, especially of those who have been here for a long time, has been good, but in connection with this fact I can not forbear from again calling the attention of the Board to the necessity of improving the condition of the lake, so close to our doors, which, by reason of low water, at times seriously threatens the health of the whole community. As bearing on this and some other matters connected with the Home, I take the liberty to insert at this point some portions of the report of an inspection of the Home made by United States Assistant Inspector General A. L. Smith on the second of November, 1902, which are as follows:

BUILDINGS AND GROUNDS.

* * * There is, and made a part of the grounds, a lake, which in its present condition is a menace to the health of the members of the Home. Typhoid has already made its appearance; several cases were noted, and in the opinion of your Inspector, were entirely due to the fact of the low water and decaying organic matter. This should be immediately remedied by increasing the depth of the water. This will necessitate the raising of the bank of the lake.

CLOTHING.

The clothing is good, ample in quality; it was noted, however, that the cloth was dyed with aniline instead of indigo dyes. A limited exposure to the sun fades them to a wine color. They soon look shabby. The men in consequence did not present so neat an appearance at muster.

SUBSISTENCE.

The quantity and quality of the ration is sufficient and of good quality, well cooked and served. The members live well. Mess Hall is ample to accommodate the membership, is in good order and condition, clean and orderly.

BEDSTEADS, BEDDING.

The bedsteads are of iron, of good pattern, quantity of bedding is ample and of good quality, and is neat and clean. * * *

A hospital is maintained. Medical care is furnished by a non-resident physician. Hospital is in good condition; special diet is furnished for the sick.

Many repairs, in the way of fencing, painting, boring of wells, etc., have been made, and are open for your inspection. There is urgent need for money for further repairs for the coming season, but what is needed most of all is money to improve the lake, which can be made one of the finest bodies of water in the state and a source of pleasure and revenue.

In the orchard, of 285 trees planted by your order this year, 280 are living, and will soon be pleasant to the view and profitable for the Home.

This year's garden, the finest and best ever raised in the San Luis Valley, has been the pride of the members of the Home and a source of considerable profit, for, after paying all expenses, it has left us a nice margin on the right side of the balance sheet.

The statistics of the Home will be fully set forth in the accompanying reports of Adjutant Samuel West, who is one of the most efficient and conscientious officers in the state's employ.

In view of my somewhat serious indisposition at this time, I respectfully ask your indulgence for this imperfect and, to me, unsatisfactory report, and that you extend to the Board my sincere thanks for its uniform courtesy and kindness to me.

Very respectfully,

JOHN H. SHAW,

Commander.

REPORT OF THE SURGEON.

Soldiers' and Sailors' Home,
Monte Vista, Colorado, November 30, 1902.

PRESIDENT H. V. SMITH:

Dear Sir—Herewith is a report of my second year's service as surgeon, ending November 30, 1902. Although during the last year there has been much more sickness and death, and the work more laborious and attended with more anxiety, yet my services have been rendered with even more care, interest and thought because of the attachment formed for "the boys" by coming in close contact with them by longer acquaintance.

During the year I have made, on an average, from twenty-two to twenty-three visits monthly, and covering from five to six hours' time each visit; examined and prescribed for from twenty to fifty patients each time. One cause of more sickness and death during the last year was so many hopelessly ill coming in from the outside.

During the month of December, 1901, we had an unusual amount of sickness and death. December 7, Eaton T. Blairsdell, who had long been afflicted with epilepsy and organic heart disease, died as a result of the above, aged nearly sixty years. December 17, Clark B. Sidan died, aged fifty-seven years; consumption of long standing, but died of acute gastric fever. December 23, George Barger died, aged sixty-one years; chronic bronchitis and paresis. During the first part of the month of January the health of the inmates was some better, but January 30, 1902, John Barret, a chronic invalid who had been in the hospital some years, died, aged about seventy; acute catarrh of stomach. During February and March, health of institution fairly good; no deaths. In April there was much more sickness. April 5, Udalrich Michgels died, aged seventy-seven years; a chronic invalid, having been in hospital since his arrival at the institution; cause of death, apoplexy and general paralysis. April 14, Peter Brekkan

died, aged sixty-eight years, a chronic paralytic; cause of death, acute bronchitis and rheumatism. April 15, C. Terry Highshew died, aged sixty-nine years; cause of death, cystitis, paresis and general debility. For the next month the health was very good; no deaths until May 16, Robert Smith died, age eighty-six, after having suffered nearly eleven months with malignant cancer of tongue and jaw. The next death occurred July 4—Reuben H. Brownell died, age seventy-one years; entered the institution about ten days before death, a chronic asthmatic; cause of death, bronchitis and cerebral hemorrhage. July 7, William Johnson died, age sixty-seven years; cause of death, crebritis and paresis; entered the Home about three weeks before death, in a most serious condition. July 24, Robert Gronan died, age sixty-three; cause of death, pneumonia and organic heart disease; he also entered the Home two or three weeks before death in a fatal condition. About the same time William R. Scott came into the Home in a most serious condition. He died August 24, age seventy; cause of death, general catarrh and cystitis. No deaths, and health fairly good until October 4, Joseph M. Laughlin died, age fifty-nine years; cause of death, paresis, having entered the Home six weeks before in dying condition. October 5, Eugene L. Knight died, aged seventy-seven and one-half years; cause of death, paralysis; had been in the hospital some years, being a chronic paralytic. October 16, George Golden died, age sixty-eight years; cause of death, bronchitis and organic heart disease; entered Home about three weeks before death in serious shape. October 23, John J. Wright died, age seventy-two years; cause of death, inflammation of liver and paralysis.

From last date to the present no deaths, and, with the exception of a few, the health is quite good. I failed to mention the death of David E. Straight, which occurred August 20, age seventy years; cause of death, acute orchitis and congestion of bowels and brain; came into Home about two months prior to death in delicate condition. The outlook for the coming year is certainly more favorable, especially for those in the hospital. The enlarging of the building has rectified the crowded condition we have had to contend with, handicapping both inmates and physician in our work.

Respectfully submitted,

R. W. CARY, M. D.
