Pueblo, Colo., December 18, 1928.

To WILLIAM H. ADAMS, Governor, State Capitol Building, Denver, Colorado.

Dear Sir:

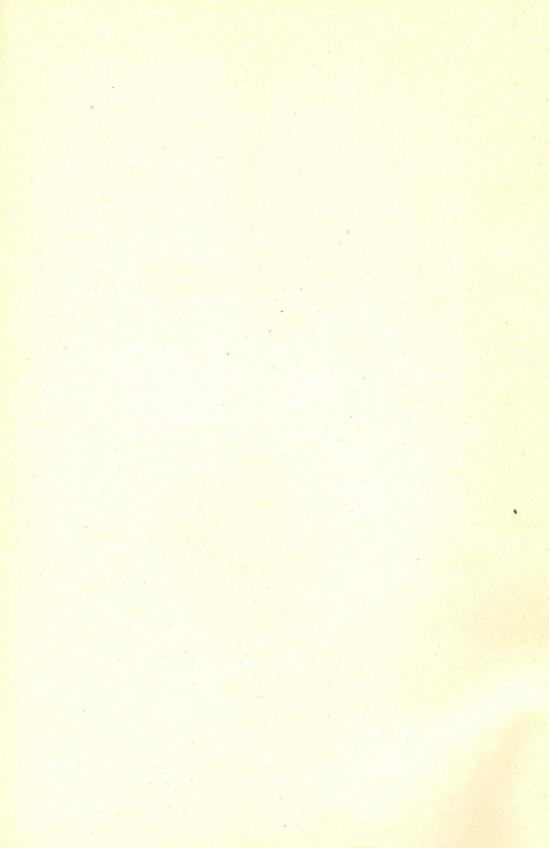

Herewith we submit for your information the report of the Warden of the Colorado State Penitentiary, together with the reports of other departments of this institution, for the biennial period ending November 30, 1928.

While it has been possible to close the period without a deficit at this institution, this could not have been accomplished without the earnings of the various farming operations and other activities at and near the institution, nor without the necessity of foregoing many needed repairs which should have been made.

We therefore urge you to give favorable consideration to the requests and recommendations of the Warden of this institution, believing that they will be found to be in the best interests of the inmates and for the welfare of the institution as a whole.

Yours respectfully,

C. J. MOYNIHAN, FRANK S. HOAG, MRS. H. L. GRENFELL, Colorado Board of Corrections.

WARDEN'S REPORT

In submitting the report for the two years ending November 30, 1928, I am confronted with the fact that I have been in active management only since the first day of December, 1927.

When the period first opened, we had the Honorable Thomas J. Tynan, as Warden of this institution. Upon his resignation, he was succeeded by the Honorable Boon Best, who had the misfortune to meet with an accident, which ultimately resulted in his death. I think the loss to the institution was greater than was realized at the time, as he took a keen interest in its affairs, and showed evidence of being whole-hearted in his work.

Mr. Best was later succeeded by the Honorable S. J. Burris, who capably looked after the affairs of the institution during his incumbency.

On December 1, 1927, I assumed the duties of this office, and have the following report to make to you.

BROADACRE FARM

While we have had no road work, we have succeeded in developing a farm program, which, I believe, will meet with the approval of your Honorable Board, and the state in general.

We have successfully farmed a considerable acreage of land in Pueblo county, which is known as the "Broadacre Farm." This is in addition to about sixteen hundred acres of land farmed in Fremont county where the penitentiary is located; and while our receipts from Broadacre Farm have been about twenty-one thousand dollars (\$21,000.00), it does not represent the work that has been accomplished in a financial way toward the development of the same acreage during the next three years of our operation.

We did not take this farm over until late in March, 1928, and necessarily could not expect to obtain the maximum results this year. A great deal of the work done there this year has resulted in the accumulation of crops that will be used in the ensuing year.

Our contract with the owners of Broadacre Farm calls for three (3) more years; and under the terms of this contract we will farm approximately fifty-two hundred (5,200) acres of land in three (3) different units; and I have every reason to believe that the financial returns from these operations will be very satisfactory.

In addition to raising considerable corn, barley, and alfalfa at the Broadacre Farm, we raised eight hundred and sixteen (816) acres of sugar beets, from which we received most of the revenue that has been derived from the operations there. We also raised approximately one thousand (1,000) hogs and are feeding about seven hundred (700) head of cows and calves for the market.

It is our intention, under the new arrangement for the coming season, to try and put in about fifteen hundred (1,500) acres of sugar beets along with our other crops, as the beet tops alone are considered worth ten dollars (\$10.00) per acre, and will be very beneficial in the feeding of stock which we contemplate raising on this ranch. We plan on feeding both cattle and sheep; and the financial returns from this branch should be very gratifying.

RANCHES AND GARDENS

The farming operations in Fremont county have been more than satisfactory; but I believe that with the advent of the acquisition of the additional acreage in Pueblo county, our activities in Fremont county will be more or less curtailed, on account of the shortage of desirable man-power.

Our greatest need here will be the development of a dairy farm. We have two propositions under consideration at this time. One is a rental proposition, and the other contemplates the purchase of sufficient land with an investment of about twenty-five thousand dollars (\$25,000.00), for the land, and an additional fifteen thousand dollars (\$15,000.00) for the erection of suitable buildings. This would permanently belong to the institution. The property in question was, at one time, held at a figure close to one hundred thousand dollars (\$100,000.00).

In addition to the dairy farm, we will need sufficient acreage to supply our canning factory with the necessary fruit and vegetables to keep it operating. This, I think, can be very easily accomplished by retaining some of the acreage we now have under lease adjacent to the institution. Our gardens, I believe, will produce enough vegetables to supply the requirements of the institution during the coming two years.

DAIRY HERD

Our dairy herd has now been developed to the point where we get one hundred and ninety (190) gallons of milk per day, at an average cost of \$0.128 per gallon. Had this milk been sold on the open market, it would have netted us about four thousand dollars (\$4,000.00) per year, and we hope to increase this production very materially during the coming period. By using the milk in the steward's department during the past two years, the diet has been considerably improved at a minimum cost.

The value of our dairy herd from an investment standpoint will show an increase in value of from five to six thousand dollars, and we recommend the purchase of a dairy farm in order that it might be worked up to a standard dairy with sufficient equipment to take care of the coming needs of both the herd and the institution. We estimate that an appropriation of forty thousand dollars (\$40,000.00) would meet this requirement, and the state would then be in possession of a farm site for the development, betterment and increase of this herd.

COLORADO STATE PENITENTIARY

anthritica , topics onlines of SAW, MILL

A saw mill was operated on one of our ranches during the last year, which shows a net profit of about nine hundred dollars (\$900.00) in addition to the large saving in sawed rough lumber which we were able to utilize at the institution. It is our intention to continue the operation of this mill as it can be operated at a nominal cost.

We maintain from two to four hundred head of hogs on the ranches and at the prison. Those maintained at the prison are kept for the purpose of taking care of whatever garbage we might have here. We have sold close to four thousand dollars (\$4,000.00) worth of hogs during the last biennial period.

RANCH No. 5

Some very extensive improvements were made on Ranch No. 5 during the last two years. Three thousand (3,000) cherry trees were set out, under the direction of a former warden, and a mess and bunk house was built within the last year. These improvements, costing about three thousand three hundred dollars (\$3,300.00) have enhanced the value of this ranch ten thousand dollars (\$10,000.00) or more. This ranch, as you know, was purchased under contract, and we do not expect to be able to complete the payment on it until after the expiration of the 1929-1930 period. I believe that the amount of apples we still have on hand at this ranch will permit us to reduce the indebtedness of the ranch about five thousand dollars (\$5,000.00).

CANNING FACTORY

From the operation of our canning factory we have paid, besides interest, the sum of twenty thousand five hundred dollars (\$20,500.00) to apply on the purchase price, and when we have completed the sale of merchandise now on hand I believe we will be able to pay at least fifteen thousand dollars (\$15,000.00) additional, thereby cutting down the entire indebtedness on the factory to four thousand five hundred dollars (\$4,500.00.) Had the cherry crop in Fremont county been as large this year as it has been in former years, we could have easily paid off the entire indebtedness this year. However, this will be paid off as soon as the canning season commences next year.

On account of the crowded condition of this institution, it has been necessary to use a large barn and convert it into a dormitory. While we did not have an appropriation for improvements and repairs in the last period we went ahead and did this work, installed plumbing and water, made new iron beds, and placed a steel ceiling in it which makes it both fireproof and warm.

The following is a list of the improvements made at this institution during the last two years: Laid a new floor, and replastered the entire chapel, including the ceiling.

Considerable plastering and repairing in and about the instituton, including the Warden's and the Deputy Warden's residences.

Constructed a new garage, thirty-two (32) by one hundred (100) feet.

Built new hotbeds for the prison garden.

Built about two thousand (2,000) perches of wall.

Repaired the bake ovens.

Constructed a large derrick to use in connection with the building of the east wall.

Stuccoed cell-house four, the tailor shop and the carpenter shop buildings.

Constructed a new execution house and built a new addition to the boiler house.

Built new headgates for the hydro plant intake, which necessitated the building of a dam in the river.

Built a new milk house on Ranch No. 2; also stanchions for our dairy herd.

Installed a new set of lever-operated gates at the entrance to the penitentiary in the administration building. This last we deemed exceptionally necessary, and while the cost of same was in the neighborhood of one thousand six hundred and seventy-five dollars (\$1,675.00) we feel that this has been a much-needed improvement, and will add greatly to the safety and protection of the institution.

In addition to the above work, we constructed two bridges for the county of Fremont, one at First street and one across Grape Creek.

We also did a great deal of work on the Manufacturers' and Merchants' building at the State Fair grounds in Pueblo, thereby saving a considerable sum for the state. In addition to this work for the State Fair Association, we furnished a gang of men to keep the buildings and grounds cleaned up, and at the present time have two men there for the purpose of keeping the buildings and grounds in shape. We have also given the city of Canon City assistance in keeping its streets and alleys clean.

Our men were also furnished to assist in fighting the fire in the San Isabel Forest and did very good work.

NEW CELL HOUSE

I would recommend the construction of a new cell house here, consisting of four hundred (400) single cells. From the figures available, we estimate the cost of such a cell house at about \$155,-000.00, which would permit its construction of steel and cement.

A cell house large enough to accommodate four hundred prisoners in double cells could be built for approximately \$95,-

COLORADO STATE PENITENTIARY

000.00. However, I would strongly recommend that for moral and sanitary reasons we put single cells in this cell house.

AN APPROPRIATION FOR IMPROVEMENTS AND REPAIRS

Although we did not receive an appropriation for improvements and repairs from the last legislature we found it necessary to spend about thirteen thousand dollars (\$13,000.00) on repairs, and I would strongly urge that an appropriation of fifteen thousand dollars (\$15,000.00) be made for this purpose this period.

HOSPITAL ADDITION

We are very much in need of more room in our hospital building and to that end I would like to see constructed an addition of a two-story building with a basement which will permit the segregation of the surgical cases from other cases. This addition would give us a new dining room and kitchen, a new operating room and a new bath room, and would make the hospital up-to-date and sufficiently large to accommodate the needs of this institution for many years to come. The estimated cost of such an addition is given me as about twelve thousand dollars (\$12,000.00.)

NEW PLAYGROUND

Considerable work has been done toward the creation of a new recreation ground for the inmates. A great deal of earth and rock has already been removed and in order to complete this work we need an appropriation of ten thousand dollars (\$10,000.00) to cover with a concrete shell the large irrigation ditch which runs through this ground. A good part of the wall has already been constructed around this plot and when it is all completed we will have a large tract for recreation and space for the erection of the new cell-house. I would recommend that the appropriation be granted for the completion of this work.

Another recommendation I would like to make is that a per diem stipulation be established at this institution, for the purpose of allowing inmates who are confined here to earn a small amount each day to be held for them until their release from this institution. This should be done in order to give the men a chance to maintain themselves until they find some work after leaving here. Under the present arrangement an inmate gets five dollars (\$5.00) in cash, a suit of clothing, and a railroad ticket to the point of his committment. I feel that if we had an arrangement whereby the man would have sufficient funds to keep himself decently and comfortably after his release until such time as he could secure employment there would be less recommission of crime.

STATE BUREAU OF IDENTIFICATION

I would like to see a State Bureau of Identification established at this institution. The need for such a bureau is great as it would assist the various sheriffs and district attorneys, as well as the officials of this institution, in determining whether or not a person on trial, or an inmate received here, has ever been in some other institution. While we have a very good identification department at the penitentiary at present I believe if it were separately maintained the results would be far more beneficial to us and to the state in general. To this end I would suggest that an appropriation of seven thousand five hundred dollars (\$7,500.00) be made.

PROPOSED HABITUAL CRIMINAL LAW

It is my understanding that there will be presented to the incoming legislature an Habitual Criminal Bill, which, I think, is a very good thing. I believe that the provisions of this bill should be drawn with great care in order that its purpose may not be misconstrued. It would have the effect of keeping out of Colorado a lot of undesirable citizens who have been convicted a number of times in other states. I understand that the states in which such laws are in force are deriving a great deal of benefit from them, and for that reason Colorado should have such a law on its statutes.

ADDITIONAL TRUSTY TIME

Your action in granting the five days' additional good time to prisoners who are doing ranch and other work that is of direct value to the state has been a great factor in the morale and discipline of the institution.

You will notice in the statistical part of this report that the net loss from escapes during the two-year period under consideration is nothing. In other words, the number returned and located in other prisons offsets the number of escapes during the period.

Since the first of December, 1927, there have been five hundred and ninety-six (596) inmates placed on trusty and put on the various ranches to work, and I attribute the small loss from escaping to the fact that the men were given this additional good time and to no other reason.

AUTO LICENSE PLATE DEPARTMENT

Our automobile license plate plant has been a source of considerable revenue to the state during the last biennial period, and is now being conducted under the management of a very efficient superintendent.

Some little difficulty was encountered in the manufacture of the 1928 license tags but I believe this has been entirely overcome in the 1929 issue.

In its operations for the manufacture of plates for 1927, 1928 and 1929 this department has contributed about thirty seven thousand dollars (\$37,000.00) toward the upkeep of the institution. We look for it to contribute at least thirty thousand dollars (\$30,-000.00) in the ensuing two years.

POULTRY DEPARTMENT

While the results from our poultry department have not given complete satisfaction thus far, we believe we have the nucleus of a very good poultry industry and for that purpose have an ideal location. The housing facilities have been materially increased during the past year and good results should be very apparent during the coming period.

GENERAL STATEMENT

The health of the inmates has been very satisfactory with the exception of a slight epidemic of influenza which has been materially checked with no fatalities resulting.

You will note from the hospital report that we have had a good number of operations, several of them being major.

AUTO TRUCK REQUIREMENTS

The large automobile trucks purchased from the government and furnished us by the highway department are about worn out and we will be obliged to purchase at least two (2) two-and-onehalf-ton trucks, and one (1) one-ton truck during the early part of the coming period.

PENSION FUND

I would like to suggest that an effort be made to procure or to establish a pension fund for the benefit of guards who have grown old in the service, giving the best part of their lives to this work.

I would further urge that the salaries of the different employes here be substantially raised, as under the present rate it is utterly impossible for them to maintain themselves comfortably. This request is shown in the delineation of our salary account elsewhere in this report.

CONCLUSION

To His Excellency, William H. Adams, Governor of the State of Colorado, I wish to express my thanks for his splendid and helpful co-operation furthering the plans and works of this institution during the past two years.

And to your Honorable Board, Hon. Charles J. Moynihan, President, Hon. Frank S. Hoag, Secretary, and Mrs. Helen L. Grenfell, Vice-Chairman, of the Colorado State Board of Corrections, I desire to extend my sincere appreciation of your hearty co-operation and your willingness at all times to counsel and advise with me; and I feel that as a result of this co-operation the approaching period of 1929 and 1930 will see great accomplishments, both for the institution and for its inmates.

Respectfully submitted,

F. E. CRAWFORD,

Warden.

REPORT OF THE CHIEF CLERK

HON. F. E. CRAWFORD, Warden, Colorado State Penitentiary, Canon City, Colorado.

Dear Sir:

I desire to submit herewith, for your consideration and approval, the financial and statistical report of the Chief Clerk's office of the Colorado State Penitentiary, together with tabulated statements and other data, for the two years ending November 30, 1928.

Respectfully submitted,

J. P. ALLEN, Chief Clerk.

REPORT OF THE MATRON

HON. F. E. CRAWFORD, Warden, Colorado State Penitentiary, Canon City, Colorado.

Dear Sir:

I desire to submit herewith for your consideration, the Biennial Report as Matron for the two years ending November 30, 1928.

During this period we have received seventy-three prisoners —twenty-four from the State of Colorado, five from the State of Wyoming; and forty-four from the United States Government, thirty-six of which have been transferred to the new Women's Prison at Alderson, West Virginia during the past year. The general health of the inmates has been exceptionally good.

I wish to state here that the granting of trusty time to the prisoners has been extremely helpful in maintaining discipline and good feeling among the inmates.

I wish to express my sincere appreciation for the co-operation and assistance rendered me at all times by the officials of this institution.

Respectfully submitted,

MARY FITZGERALD,

Matron.

REPORT OF PRISON PHYSICIAN

HON. F. E. CRAWFORD, Warden, The Colorado State Penitentiary,

Canon City, Colorado.

Dear Sir:

I have the honor to submit the following report as Prison Physician for the Biennial Period ending November 30, 1928:

The general health of the inmates of the institution has been uniformly good with the exception of a moderate epidemic of influenza in November of this year which affected two-fifths of the inmates, with no deaths resulting from the epidemic. Our death rate was thirteen for the period, all of which were from natural or legal causes.

The Wasserman blood test and vaccination are given all prisoners upon entrance, and all syphilitic patients, as well as other venereal disease patients are given prompt attention and treatment.

Our drug expense for the biennial period was about five hundred dollars in excess of the previous biennium, but this is moderate considering the number of cases treated.

We are very much in need of more room in the hospital, with additional equipment for same, as suggested in the last biennial report. The twenty-four foot addition to the west end of the hospital building is again recommended, with basement which might be fitted up for kitchen and dining room purposes. This would provide a large surgical ward on the second floor, which is urgently needed for the purpose of segregating the surgical and medical cases, and would give two large treatment rooms on the first floor, and a three-shower bath room, and an X-ray room. Our need for X-ray apparatus for diagnosing and treatment is urgent with the increasing number of inmates in the institution.

We are able to give very inadequate care to the criminal insane who are housed in the hospital building. I consider this the most important problem in our hospital program as we are now able to give scarcely no treatment to these unfortunate inmates other than general cell-house care, and I cannot urge too strongly the development of this program. We trust that these few suggestions may soon be favorably considered.

Respectfully submitted,

R. E. HOLMES, Prison Physician.

CHAPLAIN'S REPORT

HON. F. E. CRAWFORD, Warden,

Colorado State Penitentiary,

Canon City, Colorado.

Dear Sir:

I take great pleasure in submitting herewith my report as Chaplain of the Colorado State Penitentiary for the past two years.

It is the duty of the Chaplain to conduct the Protestant services in the Chapel every Sunday in the month, except the third Sunday, on which day a Priest delegated from the Catholic Parish in Canon City comes and officiates at mass.

A slight change has been made in the time given over to the Christian Science services. It has been the custom in the past to hold this service in the afternoon of the first Sunday in the month and because such an arrangement deprived the rest of the inmates of the yard privilege, the Christian Science Readers agreed to change the hours of their service to ten o'clock in the morning of the first Sunday of the month, and their service now follows the regular Protestant services.

The Chapel has been completely remodeled and repainted during the last biennial period, greatly enhancing the appearance of the entire room. Different denominations in Canon City have assisted in the conduct of our services lately, and I wish to take this opportunity of thanking them very kindly for the messages of hope and cheer they bring.

The work of the Chaplain has not been changed either in its intent or purpose from that shown in the last biennial report. All new inmates are interviewed soon after their reception here, and a kindly word and friendly handshake, with a little bit of encouragement thrown in sometimes go a long way toward straightening out a wayward soul.

A new motion picture screen has been installed and some repairs were made to our projecting machine and the pictures now shown, selected as to their subjects very carefully, are among the latest releases and are very much enjoyed. These shows not only serve the purpose of entertaining the men, but keep them in touch with current events in the outside world.

The baseball and other athletic events are still being held on the old playground which is very much too small a place to properly accommodate the large number of men now confined here. There is at the present time work being prosecuted for the completion of a new recreation ground for which an appropriation was asked last period, which appropriation was not received and I would heartily recommend that this be given consideration at this time.

Library

Over five hundred volumes have been added to the library through purchase and gifts during the biennial period. New shelves have been added in the library, which make possible a better display of the books and at the same time facilitate the handling of volumes called for. A new desk has also been added with special compartments for cards, which makes it much more convenient and a more accurate record of the books is kept thereby. A number of popular magazines and papers received at the library are issued to the inmates in practically the same manner as books, thus enabling prisoners to keep abreast of the news of the day.

The circulation of books among the inmates has shown a large increase which may be accounted for not only because there has been more reading by prison inmates, but also because of the large increase in the prison population during the past two years. The following figures indicate a steady increase over four biennial periods:

Books	distributed	to	prisoners,	period	1921-1922	.23,304
Books	distributed	to	prisoners,	period	1923-1924	.24,678
Books	distributed	to	prisoners,	period 1	925-1926	.32,850
Books	distributed	'to	prisoners,	period	1927-1928	.46,128

Books are issued to the prisoners three times per week. The average circulation daily for the biennial period was approximately sixty-five books and comprised the following:

Fiction																									
Educatio	onal					 					 					 			 		 				10%
History.	Biog	gra	ph	y							 								 		 				3%
Religion

School Report

The prison school has been carried on during the past two years under the able direction of Mr. George E. Colgate, in the same manner as heretofore, and in addition to the regular classes, a class in Spanish has been organized during the last year, in which a goodly number of inmates are very much interested. Attendance at school is optional, and quite a number of the inmates confined here have taken advantage of the facilities offered to improve their education. The subjects taught are grammar school subjects since the real purpose of our school is to convey to the students a knowledge of reading, writing and arithmetic. Quite a number of those in attendance are foreigners who have not had the advantages of English speaking schools, and these men are taught to read and write English, which will be of benefit to them upon their release from this institution.

Band and Orchestra Report

In regard to the band and orchestra, I wish to state it is being carried on under the supervision of Mr. Earl A. Stowe in the same efficient manner as heretofore. The band has increased in number to thirty-seven pieces and the concerts and vocal selections rendered each Sunday during the summer months from the front veranda of the administration building is enjoyed by a large number of people, both local and tourist, and the success of these programs is best attested to by the large attendance each Sunday.

Respectfully submitted,

(Signed) J. WILLIS HAMBLIN, Chaplin.

REPORT OF PAROLE OFFICER

HON. F. E. CRAWFORD, Warden,

Colorado State Penitentiary, Canon City, Colorado.

Dear Sir:

I have the honor of submitting the report of the Parole Officer of the Colorado State Penitentiary for the last Biennial period, although I have only held the office since November 30th, 1928, having succeeded Mr. Samuel Carter, deceased, who passed away November 25th, 1928, after a brief illness.

Mr. Carter was Parole Officer from March 1st, 1927, to November 25th, 1928; and the success attained by him in his work is best manifested in the figures following, which we have taken from the records. Mr. Carter succeeded Mr. P. Prendergast as Parole Officer, the latter having passed away at Chicago, Illinois, while on leave of absence, during September, 1927.

We notice from the records that the number of men on parole from this institution has increased considerably during the last two years, due, I presume, to the increased population of the prison, and it is gratifying to notice that with a greater number of men on parole during the last two years, we have had fewer violations than for the preceding period.

The following statistics gleaned from records, show the results accomplished by the Parole Officers during the last two years:

Prisoners on parole December 1, 1928	2,262
Prisoners paroled during the term ending November 30, 1928	857
Prisoners discharged from parole during the term ending November 30, 1928	664
Deaths before expiration of parole	8
Parolees pardoned	0
Returned for violation of parole	34
Convicted and committed for other crimes while on parole	20
Violations of parole by not reporting	115

In conclusion, I wish to say, that in entering upon the coming Biennial Period we do not anticipate any material changes in the handling of prisoners on parole.

Respectfully submitted,

THOS. H. HORRIGAN, Parole Officer.
