CHICAGO BOARD OF COMMERCE

RESOLUTIONS
PASSED AT THE MEETING OF THE BOARD
Held at Chicago, Ill., on the 1st day of January, 1901.

REPORT

OF THE
CHICAGO BOARD OF COMMERCE
FOR THE YEAR 1900
AND THE FIRST SIX MONTHS OF 1901
TO THE CHICAGO BOARD OF COMMERCE
Held at Chicago, Ill., on the 1st day of January, 1901.

THE CHICAGO BOARD OF COMMERCE
Held at Chicago, Ill., on the 1st day of January, 1901.

WARDEN'S REPORT

I herewith submit my report as Warden for the two years ending November 30, 1930.

The past two years have been very trying. First, we had the riot of October 3, 1929, in which several faithful guards and a few convicts lost their lives.

Later, on February 1, 1930, the Tailor Shop was set afire, causing practically a total loss of the contents of same. This fire, together with the October riot, created a loss of several thousand dollars, and the cost of immediate improvements and repairs which were needed amounted to a great deal.

Our per capita cost you will note has been high. On account of the immense amount of rough work and construction, the wear and tear has been extremely hard and our clothing and shoe costs have mounted as a result.

The prison fare was increased during this period of activity and it too had its effect on our per capita cost.

A survey of the various items of maintenance shows the extraordinary expenditures to be better than \$65,000.00. Then, too, on account of the inadequate facilities pending the completion of our buildings, it has been necessary to increase the number of guards, which has been reflected in our salary fund. At the present time we are out of funds and cannot avoid having a considerable deficit.

HONOR ROLL

The following men lost their lives in the line of duty during the riot of October 3, 1929:

Raymond Brown
John J. Eeles
E. G. Erwin
M. H. Goodwin
J. W. McClelland
C. W. Rinker
C. G. Shepard
R. A. Wiggins

I wish at this time to commend them for their bravery, loyalty and the supreme sacrifice they made. Their memories will always be held in the deepest reverence and respect by the officials and remaining co-workers of this institution. I trust we will never have a recurrence of what we passed through the last two years.

IMPROVEMENTS AND REPAIRS

Among the various improvements and repairs made immediately following the riot were the following:

New bake shop ovens had to be installed at a cost of around \$1,000.00. The bakery also had to be painted inside at a cost of approximately \$125.00.

We built a lime kiln at a cost of \$1,200.00.

We also did considerable painting. The interior of the deputy warden's residence was entirely painted, redecorated and furnished.

The buildings at the chicken ranch, Cell-House No. 3, the hospital building, garage roof and outside garage were all painted.

The hydro plant was repaired.

A new rifle range was constructed.

Repairs were made to Cell-House No. 5.

A new tower for the horse guard was built.

The tailor shop was repaired after the fire.

Replastering was necessary in Cell-Houses Nos. 1 and 2 and the cells in these were repaired. The cost of this work alone amounted to approximately \$3,000.00.

RANCHES AND GARDENS

Our farming operations in Fremont County have been very successful. Our greatest need here now is a suitable dairy farm, mention of which was made in my report of last biennium. Two years ago we could have purchased a tract of land suitable for the above purpose for about twenty-five thousand dollars (\$25,000.00), and I believe that this land can still be obtained at a very low figure. It is located close to the institution where operations could be carried on very successfully and a good road, which would greatly shorten the distance to it, could be built at a very little cost with convict labor. I call this to your attention and hope that an effort will be made to obtain this land.

Products of the ranches and gardens, raised, consumed and on hand, amount to \$53,861.91. In addition to the above figure the sales amounted to \$4,162.73. This does not include the earnings on the Broadacre Farm nor Ranch No. 5.

DAIRY HERD

At the present time our dairy herd consists of one hundred twenty (120) head of grade and purebred Holstein stock.

We are averaging a little better than 189 gallons of milk per day from an average of 52 milking cows. The rest of the herd consists of young stock that we are developing.

We are making an effort to eventually have purebred stock entirely and have at the present time a small start in that direction, about nine head.

The milk, produced for \$0.183 per gallon, is furnished to the inmates four or five times a week with the prison fare and contributes very much to the diet.

RANCH NO. 5

The profit derived from the sale of products from Ranch No. 5 was not up to what we had expected. Prospects, however, looked very bright, and a fine crop from the cherry and apple trees seemed certain until we had a bad freeze and hail storms, which practically ruined everything. Had we not had this early freeze and storms we would have shown a very nice profit from this ranch.

CANNING FACTORY

Our canning factory is entirely paid for. It is now an asset to the State, and we have derived a handsome profit from it this biennium. Had not the cherry crop in Fremont County been practically ruined by the early freeze, the amount of profit from this plant would have been practically doubled.

If the crops the coming season in Fremont County are as large as we anticipate we will show a very nice profit again from operations of the canning factory next year.

BROADACRE FARM

Our operations at Broadacre during the year 1929 were not as successful as they were during 1930. We fed quite a number of sheep in 1929 jointly with Mr. Ingersoll, the owner of the ranch, but the price received for these sheep was considerably off with the result that our profit did not amount to anything.

However, during 1930, we did very well. We did not take any interest in sheep feeding during this year, but are selling our products to Mr. Ingersoll, who is feeding about 25,000 lambs.

The figures are not all obtainable but from present indications we will net between twenty and twenty-five thousand dollars (\$25,000.00), besides keeping an average of one hundred forty-nine (149) inmates there for which no credit has been taken in our figures.

If we had shown no profit at all we would still be ahead as it would have been physically impossible to keep these men at the institution with the crowded conditions. It may be necessary for us to send down many more prisoners there in order to give some relief here, as we are becoming very crowded again.

POULTRY FARM

The results from our poultry farm have not been satisfactory. We spent some money in the purchase of new breeding stock and better results should be obtained now. However, in the event that improvement is not rapid we will discontinue this department.

NEW CENTRAL BUILDING.

The new central building is practically completed. It is a very fine appearing building, entirely fireproof. Great care has been given this building with the view of increasing safety.

It contains two separate dining rooms, which will enable us to segregate the inmates at their meals.

There is a tower located between the two dining rooms in order that guards can have a view of both rooms at the same time.

Located in the rear dining room is another gun tower. Both of these towers can be reached from the Deputy Warden's office. In the event of a disturbance help could be immediately sent in.

This building also contains the Deputy Warden's offices, guards' barber shop, library, identification bureau and chapel, which is located above both dining rooms.

The cost of this building up to date is approximately sixty-seven thousand (\$67,000.00) dollars, and this money was paid out of the State Fire Loss Fund. There will be some additional expenditures for furnishings and finishing of this building, although this should not be large.

NEW CELL-HOUSE

The new cell-house will be ready for occupation in about sixty days. We were given an appropriation of \$113,533.79. We had asked for \$155,000.00. The cost of building this new cell-house will run a little over the amount appropriated, and an additional appropriation will be required. The plans were changed so that the men would be housed in single cells instead of double cells and in that way a start at segregation will be effected.

This new cell-house will take care of 232 men. On account of crowded conditions at this time we will have to build another new cell-house, reference to which is made later in this report.

There was a purchase made of an old building from the Continental Refinery at Florence, Colo., at a cost of \$2,200.00. We wrecked this building and brought the salvage to Canon City. At the present time the brick taken from this building is stored in the vicinity of our canning factory. There are approximately half a million of these which could be used for building a ranch house on some ground that should be acquired for a permanent

farm by this institution. There were also 131,000 feet of lumber, a portion of which is of large dimensions, procured from the wrecked building. In the repairing and construction of both the central building and new cell-house a major portion of this lumber was used, thereby effecting a saving of several thousand dollars to the State.

HOSPITAL

Two years ago we asked an appropriation of \$12,000.00 for the hospital so that an addition could be constructed. This appropriation was not given. This addition is needed very badly and would give us a new dining room and kitchen, a new operating room, and make the hospital up-to-date and sufficiently large to accommodate the needs of this institution. The necessity of this new addition is more urgent than ever before on account of the increasing population of the institution.

DISCIPLINARY EXERCISE YARD

There is still a need for a disciplinary exercise yard. We have the room to create this ground at a cost of approximately \$10,000.00. We would have to cover with concrete a large irrigation ditch, which runs through this ground, and remove a large hill. This could be done at the cost mentioned above and we would then have one of the finest exercise yards in the country. This ground could be used in an emergency for more buildings. In fact, the new cell-house, now under construction, is located in it.

I recommend that the appropriation be granted so that this plan can be carried out.

PER DIEM FOR PRISONERS

Another recommendation I would like to make is that a per diem stipulation be established at this institution, for the purpose of allowing inmates who are confined here to earn a small amount each day to be held for them until their release from this institution. This should be done in order to give men a chance to maintain themselves until they find some work after leaving here. This would tide them over until they could find employment and there would be less re-commission of crime.

AUTO LICENSE PLATES

I strongly recommend the re-establishment of the auto license plate plant. Our former plant was completely destroyed by fire during the riot. If this plant was re-established, it would give us additional work for inmates and a considerable sum would be earned from its operation toward the upkeep of the institution.

PENSION FUND

I would like to suggest that an effort be made to procure or establish a pension fund for the benefit of the guards who have grown old in the service, giving the best part of their lives to this work.

I would also urge that the salaries of the different employes here be substantially raised, as under the present rate it is utterly impossible for them to maintain themselves comfortably. This request is shown in the delineation of our salary account elsewhere in this report.

NEEDED IMPROVEMENTS AT PRISON

I would suggest:

That a new, modern and up-to-date west gate be built. This is a very strategic position in this institution, as it is the main inlet and outlet for all traffic of the institution. It was at this point, during the riot, that inmates concentrated every effort to effect an escape. The one we have is obsolete and worn out. The cost of this improvement would not be very great and if this entrance was equipped with a thoroughly modern, operated, locking gate a great hazard would be removed from this institution.

That the roofs of the bakery and Cell-House No. 3 be concreted and made fireproof.

That the carpenter and tailor shop buildings be repaired and that the roof and two floors of same be made of concrete. This building is our worst fire trap and should be given immediate attention.

The blacksmith shop, wash house and laundry all need concrete roofs. As they now stand they too are fire traps.

It will not be long until Cell-House No. 1 will have to be torn down and rebuilt. Since the new central building has been under construction, Cell-House No. 1 has settled considerably.

New runways for the tiers in Cell-Houses Nos. 1, 2 and 3 should be installed. Concrete and iron should be used.

The roof of the hospital should be made of concrete, which would lessen the chance for fire damage.

The towers should be rebuilt and the location of some changed to meet the requirements of the institution. Bullet-proof glass should be installed in all windows of the towers.

New water mains should be added. The inadequacy of the present main is evident by reason of the fact that we are continually having trouble with water pressure in the cell-houses, and it was shown that they were worthless during the riot of last year when we could not get pressure enough to get the water to the tops of the cell-houses during the fire.

We have partially completed a tunnel, which we were com-

pelled to temporarily abandon on account of lack of funds. The original idea was to complete this tunnel on down to the Administration Building so it could be used for the purpose of having officers or men enter from the administration building without going in the yard proper. It would also be equipped with piping so that gas could be injected to any part of the prison under pressure from the administration building. This cost would not be so great and in my mind it is very essential.

Our heating system needs revamping. A great deal of the piping is in very bad condition and a plan could be worked out by repairing the present system, whereby its cost could in four or five years be saved in fuel.

At the present time Cell-House No. 6 is housing quite a number of men. I would suggest that this be abolished for the purpose and that this building be remodeled and repaired and be made into a warehouse. This could be used for the purpose of storing various articles and a better record could be kept as we would have more floor space in this building for storage. It would also be better for protection against loss of articles by theft or fire. However, this building would have to be reroofed with concrete and the second floor made of concrete.

The last legislature gave us an appropriation of \$3,000.00 for the installation of a much needed sewer line. At a cost of about \$2,900.00 we completed twelve hundred and fifty (1250) feet of twenty-one inch sewer. The sewage from the prison proper is discharged out of two twelve-inch mains into this twenty-one inch main. Eventually we are going to be required to build a sewage disposal plant between the institution and the river. At the present time this sewage goes directly into the river. The cost of this would not be great and I would like to see this done.

There should be provisions made for the immediate erection of another cell-house larger than the one now nearing completion. This should also be built along the single-cell plan with thoroughly modern locking devices.

At the present time I am unable to give the cost of these various improvements and cannot do so until some one is authorized to make a survey for that purpose.

STATE-OWNED FARM

I would like to see the State own a ranch of four to six thousand acres. This ranch should be located in Fremont County and as close to the institution as possible. There are some sites here for which I feel sure water can be obtained at a reasonable figure, and I believe that this should be done.

Also the State would get the benefit of all products raised on this ranch. The immediate cost of equipping and placing

water on such a ranch would, of course, be pretty large, but I feel that within a very few years the State would be ahead and would own the property free of cost.

Proper farm buildings for housing of the men employed on such a ranch could be built on the land so owned by the State. I strongly urge that this be gone into carefully, as beside the profit that might accrue to the State, it is of great benefit to the inmates.

TELEPHONE SYSTEM

An entirely new telephone system was inaugurated here and is working out very satisfactorily. The telephone company took a great interest in this and the only reflection as to cost is a slight increase in our rates.

CAPITAL PUNISHMENT

If capital punishment is to remain on our statute books, I most earnestly request that some other method of execution be installed. Our old system, still in use, is barbarous and inhuman. There should be either an electric chair or lethal gas, preferably gas. I understand Nevada has used this very successfully.

To His Excellency, William H. Adams, Governor of the State of Colorado, I wish to express my thanks for his splendid and helpful co-operation furthering the plans and works of this institution during the past two years.

To the Honorable Board, Hon. Charles J. Moynihan, President, Hon. Frank S. Hoag, Secretary, and Mrs. Helen L. Grenfell, Vice-Chairman, of the Colorado State Board of Corrections, I desire to extend my sincere appreciation of your hearty co-operation and willingness at all times to counsel and advise with me.

Respectfully submitted,

F. E. CRAWFORD,
Warden.

REPORT OF THE CHIEF CLERK ---

HON. F. E. CRAWFORD, Warden,
Colorado State Penitentiary,
Canon City, Colo.

Dear Sir:

I desire to submit herewith, for your consideration and approval, the financial and statistical report of the Chief Clerk's office of the Colorado State Penitentiary, together with tabulated statements and other data, for the two years ending November 30, 1930.

Respectfully submitted,

J. P. ALLEN,
Chief Clerk.

FINANCIAL STATEMENT**Table No. 1****FOR THE TWO YEARS ENDING NOVEMBER 30, 1930**

The total expense of maintenance for the Biennial Period ending November 30, 1930, including Cash Earned and Expended, and Food Products produced and consumed, was \$879,695.21, made up as follows:

Appropriation disbursed, Maintenance.....	\$387,438.32
Appropriation disbursed, Salary.....	329,549.67
Cash received from the Convict Labor Fund and expended for Maintenance	10,134.33
Accounts Payable	98,710.98

REPORT OF THE MATRON

HON. F. E. CRAWFORD, Warden,
Colorado State Penitentiary,
Canon City, Colorado.

Dear Sir:

I desire to submit herewith for your consideration, the Biennial Report as Matron for the two years ending November 30, 1930.

During this period we have received thirty-nine prisoners—twenty-three from the State of Colorado, two from the State of Wyoming, and fourteen from the United States Government—five of whom were transferred to Alderson, West Virginia; one to Salem, Oregon, and eight released from here upon expiration of sentence. Four Wyoming prisoners were also transferred to Lansing, Kansas.

I wish to express my sincere appreciation for the co-operation and assistance rendered me at all times by the officials of the institution.

Respectfully submitted,

MARY FITZGERALD,
Matron.

REPORT OF PRISON PHYSICIAN

HON. F. E. CRAWFORD, Warden,
The Colorado State Penitentiary,
Canon City, Colo.

Dear Sir:

I have the honor to submit the following report as Prison Physician for the Biennial Period ending November 30, 1930.

The general health of the inmates of the institution has been uniformly good, with no epidemics; just the normal amount of medical and surgical work incident to such a large prison population. Our death rate was thirty for the period, five as a result of the riot of October 3, 1929, and the remainder from natural and legal causes.

The Wasserman blood test, vaccination and a thorough physical examination are given all prisoners upon entrance, and all cases of syphilis, as well as other venereal diseases are given prompt attention and treatment.

Our drug expense (medicines and sundries) for the biennial period was in excess of the previous biennium by about four hundred dollars (\$400.00), due to the increase in the number of inmates.

I wish to again urge the need of more room in the hospital, with additional equipment for the same, as has been previously urged in the three preceding reports. The twenty-four foot addition to the west end of the hospital building is again recommended with the basement fitted up for the kitchen and dining room purposes. This would provide a large surgical ward on the second floor, which is urgently needed for the purpose of segregating the surgical and medical cases, and giving us a physical laboratory, treatment room, and an X-ray laboratory on the first floor.

Our need for X-ray for diagnosis and treatment is urgent. As during the present biennial period, approximately one hundred and twenty-five cases were taken up town to a private X-ray laboratory, for diagnosis.

The State of Colorado has never provided adequate care for the criminal insane, who are housed on the lower floor of the hospital building.

This is a most important problem in our hospital program,

and much improvement should be worked out in this department as we are now able to give no treatment, mental or occupational, other than general cell-house care to these unfortunate inmates. I cannot urge too strongly, the development of a program for their relief. There is an average of thirty inmates in the Insane Department, some of whom should be transferred to the Insane Hospital.

We trust that these few suggestions may soon have favorable consideration.

Respectfully submitted,

R. E. HOLMES,
Prison Physician.

SUMMARY OF DIAGNOSIS OF CASES ADMITTED TO THE HOSPITAL

CHAPLAIN'S REPORT

HON. F. E. CRAWFORD, Warden,
Colorado State Penitentiary,
Canon City, Colorado.

Dear Sir:

It is my privilege to submit the following brief report as Chaplain of the Colorado State Penitentiary since September, 1929.

During the period which this present biennial report covers the work of Chaplain was performed by the Rev. J. Willis Hamblin prior to the above mentioned date. The activities of Reverend Hamblin followed the usual prescribed course as outlined in previous reports submitted by him. Too much cannot be said of the fine way in which he served the institution in his capacity as Chaplain.

In succeeding him an effort was made to follow along the lines already laid down and this effort was begun with a fair show of success. Then came the disastrous riot early in October of that year and the whole institution was temporarily thrown into chaos. With the destruction of the chapel and the demoralization of the inmates, it was impossible for some time to carry on the work along traditional lines.

The first general service of worship was held at Christmas time in the old tag shop. The attendance and morale was good and since that date regular services have been conducted each Sunday. A small organ was given by Christ Episcopal Church of Canon City and despite very real handicaps, the work was maintained.

In addition to this regular service a special service for the women has been held in the Female Department once each month. Too much cannot be said for the splendid work and co-operation given by members in both departments toward providing music and other special features from time to time.

Pastors of local churches and others from adjacent points in the state have made valuable contributions by way of inspirational sermons and addresses. Some few have also contributed of their talents in the way of music and recitations.

Once each month the chapel service is under the direction of the Reverend Regis Barrett, Roman Catholic Chaplain, whose work among the men has been of notable mention.

In addition to public services the work of the Chaplain has been mainly occupied with visiting among the men and extending

such help and encouragement as is suited to their individual needs. A good deal of correspondence is carried on by the Chaplain and oftentimes a real service of reconciliation between prisoner and some loved one can be effected. Several baptisms have been performed and in many cases a marked interest for better things has been manifested. The work of Reverend Regis Barrett, especially among the condemned men, should here be mentioned.

Athletic sports and games continue to occupy a popular place in the lives of the men. The Chaplain feels that every encouragement and assistance should be given these events. The interest of Colonel Hamrock and others in these affairs is a hopeful sign.

No accurate report of the band or prison school can be here included. At the time of the riot the books and band instruments were entirely destroyed so that the work of Prof. George E. Colgate, School Superintendent, and Sergeant Earl A. Stowe, Bandmaster, has been completely interrupted.

LIBRARY

Books

Over twenty-five hundred volumes have gone to make up the temporary library, which is now located in the trusty cell house, known as Cell House No. 4. Some of these books were purchased from State funds while others were contributions from numerous sources, such as colleges, municipal libraries, publishing houses and private libraries. Magazines and newspapers are being received in the library daily, and are issued in the same manner as books.

A word of appreciation should be given here to the various service clubs, private individuals, and publishers who have contributed books. These donations have all been received and have been or will be placed in circulation among the men as soon as proper facilities can be provided.

The circulation of books among the inmates has shown, as naturally will be expected, a slight decrease. This decrease may be attributed to the small number of books now in the library from which to choose, and a very small selection of educational books along technical lines.

Books are issued to the inmates three times per week. The average circulation daily for the biennial period was approximately fifty books, and comprised the following:

Fiction	80%
Educational	6%
History, Biography	8%
Religion	2%
Miscellaneous	4%

TABLE SHOWING NUMBER OF BOOKS IN THE LIBRARY,
NOVEMBER 30, 1930

Fiction	1,200
Humor	25

Books condemned	70

MAGAZINES AND NEWSPAPERS RECEIVED

Saturday Evening Post	World's Work
Red Book	Review of Reviews
Hearst's International Cosmopolitan	National Republic
Science and Invention	Field and Stream
Scientific American	Adventure
American	Liberty
Photoplay	Literary Digest
Kansas Farmer	Physical Culture
Good Housekeeping	Christian Science Monitor
Popular Mechanics	Catholic Register
Aviation	Golden Book Magazine
Motor Boating	Salvation Army War Cry
Science Wonder Stories	Popular Science Monthly
National Geographic	Hunting and Fishing

In conclusion we append this word of optimism. In the very near future it is anticipated that all activities can be resumed. The new and better Central Building is rapidly nearing completion and with the new chapel available a more efficient work can be performed.

Respectfully submitted,

L. A. CRITTENTON,
Chaplain.

REPORT OF PAROLE OFFICER

HON. F. E. CRAWFORD, Warden,
Colorado State Penitentiary,
Canon City, Colorado.

Dear Sir:

Herewith I submit my biennial report for the period ending November 30, 1930, as Parole Officer of the Colorado State Penitentiary:

Prisoners on parole December 1, 1930.....	2,268
Prisoners paroled during the term ending November 30, 1930.....	867
Prisoners discharged from parole during the term ending November 30, 1930	788
Deaths before expiration of paroles.....	9
Returned for violation of parole.....	45
Convicted and committed for other crimes while on parole.....	26
Violations of parole by not reporting.....	173

I desire to state that, during the two years ending November 30, 1930, with the unemployment conditions as they have been, and the fact that many of the paroled men leave the institution with only a suit of clothes, railroad ticket and five (\$5.00) dollars cash, the number of those returned for violation of parole has been very small compared with the number released on parole.

After investigation, when it is found that employment may be secured, or the desire to return to their families, where they can have the benefits of home life and better environment, permission to change their locations, even to the extent of leaving the State, has been granted to paroled men. During the last period we have experienced no great trouble with our paroled prisoners. It is the hope that conditions generally will improve during the next period and that we will meet with better success in this department.

Respectfully submitted,

THOS. H. HARRIGAN,
Parole Officer.
