TO THE HONORABLE WILLIAM H. ADAMS,
Governor of Colorado,
Denver, Colorado.

SIR:

On behalf of the Board of Control of the State Industrial School for Girls, I have the honor to submit to you, herewith, the report of the Board of Control and the Superintendent for the thirty-one months' period, beginning December 1, 1928, and ending June 30, 1931.

As a matter of special interest, may I call your attention to pages twelve and thirteen, which show work done by girls in the sewing room, amount of produce preserved, and farm and garden products gathered—the total value of which substantially reduced the cost of school operation.

Respectfully,

E. S. KASSLER,
President.

SUPERINTENDENT'S REPORT

To the Board of Control:

I have the honor to submit herewith the eighteenth biennial report of the State Industrial School for Girls, for the period beginning December 1, 1928, and ending June 30, 1931. Because of an alteration in the fiscal year made by the 27th General Assembly, this report must cover a period of thirty-one months instead of twenty-four months as heretofore.

I am pleased to report that we have closed this period without a deficit and also made some progress.

At the beginning of the biennium there were 226 girls under the care of the school, since then there were 182 new admissions, making a total of 408 girls cared for by the school.

Each girl received medical care, religious, educational and industrial training while in the school and an opportunity to earn her own living or to continue her training when placed on parole.

Physical examination by our medical officers and mental tests by our high school teacher are given each girl at the time of her admittance, and her capacity for work and study is largely gauged by the result of these examinations.

The number of staff replacements has been small. We have been able to retain a group of people, who because they are acquainted with the girls and their problems, are more interested and more efficient than they otherwise would be.

In addition to our regular repairs and replacements the following improvements have been made:

Ramona Cottage—Replastered, insulated, roof and outside wood work painted, new electric light fixtures, new fruit room built, additional bath tub installed.

Rudgers Cottage—New floor laid in kitchen, additional wash room made.

Clara Barton Cottage—Interior painted.

Executive Cottage—Interior painted.

School rooms (three)—Painted, electric light fixtures, new blackboards and masonite.

Road—Graded and graveled, new wire fence set up on front boundary line, cattle guard built at front entrance.

A new six-car frame garage built, gasoline tank and pump installed.

New sewage plant constructed.

Gifts to the school have been received as follows, and we wish to express our appreciation to the donors:

A beautiful bird bath in memory of Mrs. Henry Van Kleeck, by the Tuesday Club and the Garden Club, Denver.

Christmas gifts to the girls, Victrola records, donations to education fund and clothing for paroled girls, books and magazines for our library, individual prizes and gifts to the girls, by the Woman's Club, Denver.

Respectfully submitted,

ANNA L. COOLEY,

REPORT OF PHYSICIAN

The report herewith presented covers a period of over two years, from December 1, 1928, to July 1, 1931, during which time the school has been free from any epidemic, serious accident or death. Five girls were transferred to the Denver General Hospital for abdominal surgery and all made good convalescence. Much credit is due to the nurse for the general good health of the school.

The appended table shows routine prophylactic and treatment work as carried out during this period.
