SECOND ANNUAL REPORT
OF THE
COLORADO
STATE REFORMATORY

BUENA VISTA, COLORADO

FOR THE
FISCAL YEAR ENDING NOVEMBER 30,
1892

TO THE GOVERNOR

DENVER, COLORADO :
THE SMITH-BROOKS PRINTING CO., STATE PRINTERS.
1893.

STATE OF NEW YORK

IN SENATE

LETTER OF TRANSMITTAL.

STATE REFORMATORY,
BUENA VISTA, COLO., Nov. 30, 1892. }

TO HIS EXCELLENCY

JOHN L. ROUNTT,

Governor of Colorado:

SIR—The Board of Commissioners of the Colorado State Reformatory have the honor to submit this, their second annual report of said Reformatory, together with that of the Warden and Physician, covering the period from December 1, 1891, to November 30, 1892.

The report of the Warden is comprehensive, showing in full the entire workings of the institution. The Physician's report is also very satisfactory, showing that there has been but little sickness and no deaths among the inmates of the institution during the past year.

In the matter of permanent buildings nothing has been attempted, as the lack of funds for other than maintenance most effectually prevented a start in that direction.

By the completion of our irrigating ditches, for farm purposes, and by other work necessary, we have placed the farm in a productive condition.

We would most earnestly recommend the appropriating of a sum sufficient to enable us to erect suitable buildings for cell-houses and work-shops to carry out the reformatory idea, as provided for in the act under which this institution was established.

The approximate sum necessary for buildings, tools, machinery, etc., also for maintenance of the Reformatory for the ensuing term of two years, we find by careful estimate to be as follows :

Cell-house.....	\$ 20,000 00
Work-shop.....	15,000 00
Maintenance.....	60,000 00
Tools, etc.....	10,000 00
Warden's residence.....	5,000 00
Total	<u>\$ 110,000 00</u>

We have an excellent quarry of stone, and good brick clay belonging to the Reformatory, from which we can erect the necessary buildings for this institution. To carry on the work of building it would be necessary to provide for the maintenance of 100 inmates.

We must respectfully call your attention to the fact that, after our two years' experience, we find it is utterly impossible to carry out the reformatory measures contemplated, without these buildings asked for.

In conclusion the Commissioners desire to attest their appreciation of the services of Warden W. A. Smith, and his efficient corps of officers. The many obstacles necessarily encountered in establishing an institution of this character, have been handled with rare good judgment and management.

D. H. NICHOLS,
 F. A. RAYNOLDS,
 C. BOETTCHER.
Board of Commissioners.

WARDEN'S REPORT.

COLORADO STATE REFORMATORY, }
 BUENA VISTA, COLO., Nov. 30, 1892. }

TO THE HONORABLE
 BOARD OF COMMISSIONERS
Colorado State Reformatory :

GENTLEMEN—I have the honor to submit herewith my second annual report of the Colorado State Reformatory, for the year ending November 30, 1892, intended more for an annual record than for your own information :

PRISON POPULATION.

Count, December 1, 1891.....	37	
Received from Colorado State Penitentiary.....	39	
Sentenced direct from courts.....	3	
Discharged by expiration of sentence.....	14	
Discharged by parole.....	30	
Pardoned by Governor Jno. L. Routt.....	2	
Commutd by Governor Story.....	1	
Escaped.....	2	
Recaptured.....	2	
Count November 30, 1892.....	32	
Totals.....	81	81

In addition to the above mentioned recaptures, one Richard Sullivan, escaped last year, was captured in Boston, Mass., and returned to Colorado State Penitentiary to serve the remainder of his sentence.

PAROLES.

Of the thirty inmates paroled from this institution, all save six have reported regularly and lived up to the rules and are doing well, with this exception. Many of the prisoners formerly lived in distant States, and when they have earned money enough to reach home they violate their parole by leaving the State without permission. Fully three-fourths of the violated paroles are broken in this way and for this reason.

The four inmates sentenced direct from the courts with an intermediate sentence, who have been released on parole and taken in charge by their parents or friends, are, without exception, doing well, and compare favorably with other boys in the same walks of life.

The parole is the keystone of the reformatory system, and I most earnestly recommend it, both as a reformatory measure as well as subserving to the interest of good discipline. The prisoner feels that he has something to strive for and deports himself accordingly. I do not think that any system will make angels of any men, let alone criminals, but I do firmly believe the parole system is the means of reforming many who would otherwise become confirmed criminals.

LABOR.

As shown in Schedule "B," we have raised all the vegetables used at this institution, as well as hay, grain and peas for our live stock. Schedule "F" shows the labor performed on the irrigating ditch from which we draw our water supply. This large ditch, which takes its water from the Arkansas River, is 10,200 feet long, and will carry thirty cubic feet of water when finished; is completed now, except two flumes, the lumber for which was not purchased, owing to the lack of funds. The timbers for their support, which we haul from the mountains, are in readiness. In addition to the above a large amount of work has been done which cannot be tabulated, such as removing bowlders, repairing roads and ditches, which our mountain storms make necessary and for which little can be shown.

RELIGIOUS SERVICES

are held every Sunday by the Rev. Mr. Chickner. They are entirely unsectarian and attended by the inmates in full. The pastor of the Catholic church at Salida has made visits for the purpose of catechising

and hearing confession, from inmates of that faith, as often as his duties would permit. We are sadly in need of a suitable place in which to hold divine service. At present we use the dining room for that purpose.

LIBRARY.

I am happy to report that we have started a library for the use of the inmates, known as the "Reformatory Library," through the kindness of the Hon. David H. Nichols, of Boulder, Colorado, who has presented us with a complete set of Bancroft's History (thirty-nine volumes), which forms a nucleus upon which we expect to build. We have received a number of volumes from the Colorado State Penitentiary as a gift, also a large number of magazines from the Hon. F. A. Reynolds, of Canon City, besides some books received from friends of the institution at Buena Vista, all of which the management, as well as the inmates, are very thankful for.

PRISONERS' CASH.

When prisoners are received at this institution, what money they may have, and also that sent to them during their incarceration, is credited to them in a ledger kept for that purpose. They are permitted to purchase certain articles, such as tobacco, fruit, handkerchiefs, toilet articles and such other articles as are allowed under the rules. When a prisoner is discharged, what remains to his credit is paid over to him.

The following is a statement of cash received and paid out to and for prisoners, for the fiscal year ending November 30, 1892, with the balance on hand:

To cash on hand December 1, 1891.....	\$ 109 60	
To cash received during term.....	1,501 31	
By cash disbursed.....		\$ 903 11
By cash on hand November 30, 1892.....		707 80
	<u>\$1,610 91</u>	<u>\$1,610 91</u>

PRISONERS' DIET.

As will be seen by reference to Schedule "B," a large quantity of beef, pork, flour, corn-meal, potatoes, beans, rice, tea, coffee, syrup, dried fruit, wheat bread, milk and green vegetables, have been fed during the year. Each inmate is allowed to eat all he cares for, but no waste is permitted.

DISCIPLINE.

The behavior of the inmates has been exceedingly good, and with the exception of the two mentioned attempts to escape, who were compelled to wear a ball and chain, one for thirty and one for sixty days, no severer punishment than the loss of privileges, such as tobacco, writing, etc., has been found necessary. It has been my experience in dealing with the criminal class, that it is not the severity but the surety of punishment that is most effectual, and that if the inmates know for a certainty that punishment, no matter how slight, will surely follow a violation of the rules, they are more careful about observing them.

ATTEMPTS TO ESCAPE.

On March 27, at 2:30 P. M., Frank Stone, No. 65, while at work on the ditch near the head-gate, went to the rear for water and forgot to come back; was captured the same evening by E. H. Cook and returned to the Reformatory.

May 7, at 4 P. M., Henry Newell, No. 86, while working on the ditch, went to the spring for water and from there ran away. He was captured and returned to the Reformatory at 6 o'clock the same day by Frank Keyes.

Attached hereto, and made a part hereof, is a complete list of vouchers drawn for the year, amounting to \$14,829.20, and Schedule "A" shows the distribution thereof. Schedule "B" is an itemized list of all supplies purchased during the year. Schedule "C" is a list of all paroled prisoners. Schedule "D" is a list of all prisoners discharged by expiration of sentence. Schedule "E" is a list of all prisoners of the Reformatory at the present date. Schedule "F" shows the amount of labor performed. Schedule "G" is an inventory of property belonging to the State at the Reformatory, November 30, 1892. Schedule "H" shows the garden and farm products raised during the year. Schedule "I" is the roster of officers and employees, as now constituted.

The usefulness and good reputation of the Reformatory has been maintained at the present date with prospects of future advancement, for which I am indebted to my officers and guard, who, by their close attention to duty, and evident desire for the welfare of the institution, have contributed greatly to its success

To Benjamin Harrison, the Deputy Warden, I am particularly indebted. Owing to my duties as Warden of the Colorado State Penitentiary, I have been unable to give that personal attention to the management of the Reformatory which seemed desirable, and to Mr. Harrison lies the credit of our successful management for the past year.

In conclusion, gentlemen, I wish to thank you for that courteous consideration and hearty co-operation I have uniformly met with at your hands.

Your obedient servant,

WILLIAM A. SMITH,

Warden.

PHYSICIAN'S REPORT.

COLORADO STATE REFORMATORY,
BUENA VISTA, COLO., Nov. 30, 1892. }

To The Honorable Board of Commissioners:

GENTLEMEN—I have the honor to present the second annual report of the Colorado State Reformatory.

The general health of the inmates has been good. No epidemic or contagious disease from the beginning to the present date; some very acute cases, but none of a serious character, due principally to change in climate, living, etc. The general good health of the inmates is due chiefly to out-door work, good, clean, wholesome food, and an abundance of pure water. But few inmates have been confined to their cells; deaths, none.

In conclusion I beg to return thanks to the honorable Board of Commissioners, Warden and other officers, for their hearty support given me in the discharge of my duties.

Yours respectfully,

J. H. COLE,
Reformatory Physician.
