OF THE

'Commissioners and Warden

OF THE

Colorado State Reformatory

Buena Vista, Colorado, November 30, 1906.

To His Excellency, JESSE F. McDONALD, Governor of Colorado.

Sir—We herewith submit to your Excellency our report of the management and condition of the Colorado State Reformatory for the biennial period ending this thirtieth day of November, 1906. The reports of the Warden, Physician, Chaplain and School Teacher are herewith appended and made a part of this report. They give a detailed and comprehensive account of the work accomplished, together with the physical, moral and financial condition of the institution for the period covered. In our opinion these reports are highly creditable in every particular.

POPULATION.

The steady and permanent increase in population has proven one of the most serions problems to contend with. The question of discipline becomes more complicated, while to have such a proportion of the prisoners sleeping outside of proper cells constitutes a standing menace to the institution. It would seem that a mere mention of the situation would be sufficient to guarantee an appropriation by the Legislature of a sum sufficient for all needs.

PAROLES.

The efficiency of the parole system and effectiveness of the institution as a reformatory in the true sense of the word, has been

increased by the installment of a course of securing positions for each inmate before parole is granted. In a majority of instances the term of parole has been served out with credit to themselves and the institution and they have been started in lives of usefulness, sobriety and honesty.

CIVIL SERVICE.

We recommend the enactment of a law placing the employees of the institution under some form of equitable and sensible service and are convinced that such a change would result in permanent benefit of all concerned.

STATE AGENT.

We recommend that a State Agent, whose duties it shall be to look after paroled prisoners, secure them work, etc., be appointed by the Wardens of the Penitentiary, Reformatory and the Board of Commissioners and that such agent shall be under their exclusive control.

RECOMMENDATIONS,

We hereby approve of the recommendations as set forth by the Warden in his report.

FINANCIAL.

Never in the history of the institution has its financial affairs been in so satisfactory a condition.

We recommend the following appropriations, based entirely upon the expenditures of the two past years:

In conclusion we heartily commend the efficient services of Warden Dutcher and attest our sincere appreciation of his faithful services and also those of his officers.

We feel indebted to your Excellency for the unfailing and intelligent interest you have, at all times, manifested in the welfare of the institution and thank you for the co-operation, advice and support you have always given in the management and conduct of its affairs.

> THOS. M. BOWEN, H. L. WHITE, CHAS. MUNN, Commissioners.

WARDEN'S REPORT.

Bnena Vista, Colorado, November 30, 1906.

To the Honorable Board of Commissioners:

Gentlemen—In handing you a report of this institution for the two years just past, I am of necessity compelled to repeat a good deal which has been in former reports.

The very nature of an institution of this character prevents mere print and figures from showing but a small part of the real conditions and results, except in so far as it pertains to the financial and statistical information.

FINANCIAL.

We closed the term in good financial condition, having paid all of our bills and having paid to the State Treasurer the sum of one hundred and forty-four dollars and sixteen cents (\$144.16) as an unexpended balance in the maintenance fund.

The amount expended for maintenance for all purposes was eighty-six thousand, one hundred and sixty-five dollars and sixtyfour cents (\$86,165.64).

The net daily per capita cost was sixty and two-tenths cents (\$.602) and the gross daily per capita cost was seventy-seven and six-tenths cents (\$.776) which is fourteen per cent. (14) lower than any previous term.

For a detailed amount of the receipts and expenditures you are referred to the financial tables following:

SALARIES OF OFFICERS.

The different officers receive salaries as follows:

OFFICER	Amounts
Deputy Warden	\$1,200.00 per annum and sustenance
Yard Master and Steward	840.00 per annum and sustenance
Clerk	. 900.00 per annum and sustenance
Engineer	900.00 per annum and sustenance
Carpenter	. 900.00 per annum and sustenance
Stone Mason	900.00 per annum and sustenance
Blacksmith	• 780.00 per annum and sustenance
Shoemaker	780.00 per annum and sustenance
School Teacher	720.00 per annum and sustenance
Guards	720.00 per annum and sustenance
Chaplain	400.00 per year

The salary of the Physician varies according to the population.

LIVE STOCK.

Our dairy herd was poor and unprofitable, but in the last year we have started to improve it by purchasing twelve (12) pure bred, registered Holstein cattle. This Holstein herd should be added to until it is large enough to supply all the butter and milk for the institution.

We have fifty-one (51) head of pure bred Poland China hogs. This herd should be increased to two hundred and fifty (250) head.

We have seventeen (17) head of very fair horses.

PHYSICAL CONDITION OF PLANT.

Our new building, which will serve as a dining room, kitchen, bakery, hespital, chapel and school room, is about half completed and it will likely take nearly two years to finish.

This building is two hundred and seventeen (217) feet by tifty (50) feet, two stries high, with a one story addition twentyfour (24) feet by sixty (60) feet on each side, built of granite and will afford ample room, when completed, for the different purposes for which it was intended.

As soon as this is done, immediate steps should be taken to extend the present cell house to connect with this building, which will give us about one hundred (100) additional cells, something that is very much needed. Almost every night during the two years we have been compelled to have from four (4) to twentyfour (24) sleeping outside the cell house.

All of the other buildings are in good condition and repair, except the buildings, sheds and corrals for our cattle and poultry. These are old and not at all in keeping with the institution and arrangements should be made at once for new buildings and equipment to replace these.

We have improved the farm materially in the last two years. Our oat crop averaged fifty (50) bushels to the acre, wheat fortytwo (42) bushels and peak forty (40) bushels to the acre this year.

We have planted quite a number of trees and bushes and have otherwise improved and beautified the grounds in the past year.

POPULATION.

At the commencement of the period covered by this report there were one hundred and forty-seven (147) inmates.

We have received under sentence three hundred and five (305); transferred from the penitentiary one (1); returned for violation of parole twenty-two (22); escapes recaptured one (1); making a total of the number of prisoners received four hundred and seventy-six (476).

We have released on parole three hundred and nine (309); discharged three (3); died one (1); pardoned five (5); leaving one hundred and fifty-eight (158) confined in the reformatory at the close of this term.

Of the three hundred and eighteen (318) ont-going prisoners, sixty-two (62) are known to have served previous terms in penal institutions.

The average time detained in the institution by the above outgoing prisoners was three hundred and forty-five (345) days. Our limited capacity has compelled us to release on parole sooner than we otherwise would and but for this condition the population would have been larger.

At no time in the history of the institution have we been so fortunate in the escapes. During the biennial period we have had no escapes that we have not recaptured and we now have one in excess of our regular count, having captured and returned one who escaped five (5) years ago.

SUBSISTENCE AND CLOTHING.

As our ability and opportunity would permit, we have pur chased the supplies to as good an advantage as we could. The farm and garden have been a great help, not only in a financial way, but they have enabled us to have a greater variety of fresh vegetables and have furnished us with milk and butter. We still consume more than we can raise and we should increase our acreage for farming purposes.

I append hereto a copy of the bill of fare for the prisoners' table for the last calendar week in January, July and November of each year.

BILL OF FARE

FOR THE WEEK ENDING JANUARY 28, 1905.

Breakfast.	Dinner.	Supper.
SUNDAY-		
Oat meal, with milk and sugar.	Roast beef. Brown gravy.	Boiled rice.
Bread. Coffee, with milk and sugar.	Mashed potatoes. Bread pudding and sauce.	Gravy. Bread and tea
MONDAY-	Bread and tea.	
Baked hash.	Boiled pork and cabbage.	Boiled potatoes.

Bread.	German fried potatoes.	Corn bread.
Coffee, with milk and sugar.	Bread.	Bread.
sugar.	Tea.	Tea.

Salt, pepper and vinegar on table at all times.

The average daily per capita cost for feeding the prisoners was ten and one-half cents (\$.105) and for clothing three and one-half cents (\$.035.)

The average daily cost for each officer was thirty-four cents (\$.34) for sustenance.

Some time has now elapsed since the stripes were abolished, and we are thoroughly convinced that it was a good change.

HEALTH AND LABOR.

Health and labor are so necessary to each other that we speak of them jointly.

There has been but one death during the time covered by this report. No. 1430 was instantly killed at the stone quarry August 28, 1906, by a falling derrick. The fact that there was no death from disease and sickness speaks well for the general health of the inmates. We are particularly careful about the clothing, cleanliness and food, and this, coupled with our efforts to keep all of the prisoners, who are able, employed every day except Sundays and holidays, has been to a large extent responsible for the very gratifying report of the physician.

The labor has been employed on the farm, garden, grounds, building, shops, and in the erection of the new building.

As a rule the prisoners take an interest in their work and improve their opportunities to learn some useful trade. Quite a number that we have released on parole have been successful in getting and being able to hold positions as carpenters, stone masons, and in other trades with the training they received while here.

SECOND GRADE PICTURE

FIRST GRADE PICTURE

STATE REFORMATORY, COLORADO.

On account of our limited equipment we are necessarily limited in the number of trades we can teach. However, our present plan of building all of our own buildings with our own labor gives us the opportunity to teach such trades as are used in the construction of buildings, and, with these completed and equipped, we can install such industrial training features as opportunity will permit.

We do not lack an opportunity to keep the prisoners employed, and there will be sufficient employment for the prisoners here in the erection of buildings, beautifying the grounds and improving the farm and garden for several years to come.

PAROLED PRISONERS.

When a prisoner has, by his industry in labor, good conduct and diligence in study, reached the standard of the Reformatory, he is at such time as the Board of Commissioners and the Warden deem advisable, released on parole. We furnish him with such clothing as he may need, five dollars (\$5.00) in money and a railroad ticket to the place where he is sent within the State. We endeavor to secure employment for him when he is released and try to place him in such a position that he will have a fair chance to become a respected member of society. If such paroled prisoner faithfully keeps the terms of his parole agreement we formally discharge him one year after being paroled.

INSTRUCTION.

We have competent mechanics in charge of the different in dustrial departments, and the prisoners perform all of the work under the gnidance of these instructors.

Our school of letters is in charge of a competent teacher, and I invite your attention to his report appended hereto.

A number of prominent citizens of the State have very kindly responded to our invitation to give a lecture to the inmates, which were instructive and beneficial in several ways. Also we have arranged for entertainments on several occasions, which are enjoyed and appreciated by the inmates.

We have expended about one hundred dollars (\$100.00) in the purchase of books for our library, but this does not increase the total number of books, for the wear and tear is large. We are indebted to the Traveling Library Association for sending us several boxes to be exchanged, and this, too, provides new and fresh books to a large extent.

REFORMATORY LAWS.

In addition to the necessary legislation for appropriations for maintenance and buildings. I would recommend the enactment of a law authorizing the employment of a suitable and proper person, to be under the control and authority of the management

of this institution, and the necessary appropriation for his salary and expenses, whose duties it shall be to look after prisoners who are on parole and to obtain employment for them.

Sections 4157 and 4158 of Mills' Annotated Statutes provide for the transfer, under certain conditions, of prisoners from the Reformatory to the Penitentiary and vice versa. This law should be so amended that, when a prisoner is so transferred from one institution to the other, the authority to release on parole will be vested in the management of the institution to which such prisoner is so transferred. The reason for this is apparent. When a prisoner from this institution is transferred to the penitentiary we do not see much, if anything, of him after such transfer, and we are thus incompetent to judge when he should be released on parole.

It is not possible for courts to always know the former life of a convicted person, and it frequently occurs that prisoners are sent to this institution who are detrimental to other inmates here and should be sent to the penitentiary, but it is not advisable to transfer from one of these institutions to the other, to the extent that otherwise would be advisable, so long as that law is defective and incomplete.

REFORMATORY DISCIPLINE.

For the practical operation of our merit system, I refer you to our rules governing inmates, a copy of which will be found in the appendix.

At the option of our courts young men between the ages of sixteen (16) and thirty (30) years are sent here, because, in the opinion of such courts, the delinquent can be made, with helpful surroundings and proper discipline, to view the responsibilities of life differently. The mere legal document, or mittimus, conveys but little or no information of value. We are not called upon to deal with the past, except in so far as the defects, weaknesses or inclinations leading up to the crime may be of advantage to us in our dealings with the prisoner in the future.

We know nothing particularly distinctive about the ordinary offender, nor have we discovered any cnre-all or anything different for the treatment of young men than what can be found in any proper home and school.

The particular crime, for which the prisouer was sentenced, is not very important in determining what is best to do with him in a reformatory. The reformatory is but a school where the delinquent receives spiritual, moral, physical, mental and industrial training and learns to have respect for law and authority.

The habit of working, study, reading and cleanliness are important things to cultivate. The delinquent must be in the habit of working or he will fail.

Each prisoner that is received is examined, and, if deficient in education, he is put in school, otherwise, if he is physically able, he is put to work, generally where he can learn some useful trade.

Your active interest and assistance, and that of the Governor, have been of great help and encouragement to me in my efforts here.

I want to express my appreciation of the loyalty and assistance of the officers of the institution in helping me to carry out my methods and to attest to the faithful performance of their duties.

Respectfully submitted,

A. C. DUTCHER, Warden. .

FINANCIAL

REPORT OF CLERK.

FOR THE TWO YEARS ENDING NOVEMBER 30, 1906.

Buena Vista, Colorado, November 30, 1906.

HON. A. C. DUTCHER,

PHYSICIAN'S REPORT.

Buena Vista, Colorado, November 30, 1906.

. .

HON. A. C. DUTCHER,

Warden Colorado State Reformatory.

Sir—I herewith submit my report for the biennial period ending November 30, 1906.

Aside from sickness arising from the overcrowded condition of the institution and disease afflicting members before their arrival here, I am pleased to report but little sickness during the time covered by this report.

One third of all the cases treated had their origin before coming under our observation and this fact, coupled with the inereasing daily average of inmates, will to a great degree account for the appended list of diseases treated.

Although a number of the inmates have been engaged in the construction of the new building, but few accidents have occurred and these, with one exception, have been of a minor nature.

Being fully aware of the value of prophalaxis in our care and treatment of disease, I beg to state that regular inspection is made of the cell house and its contents, the kitchens, bath rooms, closets, laundry and work shops and any unhygienic conditions existing are immediately rectified.

The inmate, who, from the presence of contagious or infectious disease, is a menace to his fellow inmates, is isolated as far as our crowded condition will allow and by careful instruction and eager watchfulness no disease has been contracted by the presence of those unfortunates who are so afflicted.

The types of disease arising among inmates while incarcer ated here have not been of a serious nature. Typhoid fever has been absent from our list. Influenza was somewhat tedious during the past winter. The usual summer diarrhea has been less troublesome than in former years. Both simple and suppurative tonsilitis have been a great source of annoyance and the cause of a large percentage of the sickness that had to be contended with during the past two years. As the disease is frequently induced in institutions by overcrowding and consequent noxious air, we known that here we have sufficient cause for the formidable number of cases of tonsilitis in the appended report. Rheumatism, like the tonsilitis, has also increased owing, no doubt, to the limited amount of cell room at our disposal. The cases of pneumonia treated have been of a severe nature, but none have had a fatal termination.

But one death has occurred during the time covered by this report and that death was due to an accident. On August 28, 1906, No. 1430 was instantly killed by a falling derrick while he and others were at work in the stone quarry.

To all the officers of the institution I wish to tender my thanks for their heavy co-operation and particularly to you for your kind assistance and willingness at all times to render me the aid necessary to produce successful results.

A. A. MACLENNAN, Physician.

SCHOOL TEACHER'S REPORT.

Buena Vista, Colorado, November 30, 1906.

HON. A. C. DUTCHER,

Warden Colorado State Reformatory.

Sir—I have the honor to submit to you a report of my work as teacher in this institution for the biennial period ending November 30, 1906.

Among the many and divers changes indicative of advancement which have taken place in all departments of the institution during the past two years, it may be seen that we have labored to keep those of the school in the front rank.

With the growth and extension of the reformatory system throughout the country, has come a desire to educate the boys under its care. Especially is this true in our own case, and it has been our purpose to send each boy forth with sufficient education to support and protect him in his endeavor to earn an honest livelihood.

Although no claim is made that education is a cure for crime, yet experience teaches that practical education combined with the mastering of some useful trade has a prominent part in restoring criminal defects. To carry ont this idea of industrial development and social amelioration, it has been our aim to harmonize systematic mental training with manual training as represented by other departments of the institution. In order to perfect this idea, those selected for school are divided into two lots and work alternately at opposite intervals, at books and bench or farm. All are encouraged to make the best effort in their particular line, and are given such studies as will be of most use to them in their chosen vocation. It has been said "idleness is the root of all evil," and, "diligence is the mistress of success." To guard against the evil of idleness we propose to adjust the classes in such a manner that each individual may be kept constantly busy. Though some have at first seemed careless and unconcerned as regards their future, yet close observation reveals an innate aspiration, possessed by all to a greater or less extent, to overcome their imperfections. We have designed to stimulate such aspirations and implant in each individual the seed of self-development, and when that is accomplished, already is laid the foundation of an education that will aid in his social and moral betterment, and enable him to rightly interpret life and its duties.

. .

In relation to the school, mention might be made of the library as an estimable support to the pupil in pursuing his duties. The library with its generons supply of good books, to which valuable additions have been made from time to time, can readily be arranged to accommodate the need of a systematic course of reading in connection with school work.

School has been in session six hundred and seventy half days. The forenoon sessions extending over three and three-fourths hours each and the afternoon sessions three and one-half hours each. School is open six days per week. By the above figures it will be seen that the forenoon classes receive twenty-one and the afternoon classes twenty-two and one-half hours schooling per week, which is nearly equal to the all day attendance in our public schools. The average attendance per half day has been twenty-four and fifty six-hundredths, and per day forty-nine and twelve-hundredths, which is thirty-two and two-sevenths per cent. of the total population. In the two years, two hundred and six have received regular instruction an average of eighty-one and one-fourth half days each, and thirty-seven others have during spare moments, made good advancement in studies that will be of use to them in their trades.

Each boy, upon entering the institution, is given an examination in the common English branches, and graded as nearly as practicable in accordance with the system authorized by the state course of study. If he fails to pass the Fourth grade he is retained in school, if room can be made for him at the time. Those passing the Fourth grade are generally exempt from school, not because we think the Fifth grade a standard of mental perfection, but because of our small room which will not accommodate them. With the completion of the new building, however, this defect will be remedied. A carefully kept record of those retained in school disclose their entrance grades as follows:

Grade one, unable to read or write	6
Grade one, can read simple sentences, but not write	5
Grade one, can read and write simple sentences	4
Grade two	36
Grade three	48
Grade four	84
Grade five	13
Grade six	10
Total	206

A fact to cause reflection is that forty per cent. of those entering the institution were in the Fourth grade or under, while sixteen and two-thirds per cent. were close to the state of illiteracy. In addition to the regular grade work, instruction in short hand, typewriting, and book-keeping has been successfully given to some who were further advanced than the average and wished to perfect themselves in office work.

Permit me, sir, in conclusion, to express my gratitude to you for your kind co-operation and advice. The readiness with which you have supplied book and other necessities, together with your discernment in retaining harmony, has been an inspiration, and invaluable help to both myself and pupils.

Respectfully submitted,

S. C. SCRIBNER, Teacher.

CHAPLAIN'S REPORT.

Buena Vista, Colorado, November 30, 1906.

HON. A. C. DUTCHER,

Warden Colorado State Reformatory.

Dear Sir—In submitting my report to you as a chaplain of this institution, I beg to remark at the outset that I have been deeply impressed, in course of our private conversation regarding the reformatory and all that pertains to its interests, with your broad sympathy with and your leniency towards those who have transgressed the laws of the Commonwealth of Colorado, and are now under your superintendency. And not only you profess these qualities and disposition of mind in the abstract, but I believe that you endeavor to the best of your ability to carry the same out into unremitting practice. In proof of this impression and conviction of mind I beg to say, that, having visited all departments of the institution, and having talked freely with the immates found therein, not one of the same has as much as to insinuate that your disposition is harsh, severe, or tyrannical.

The institution highly deserves the designation, which it bears; yea, even more, for I regard it is a school of learning, imparting to its inmates practical knowledge of some trade, or avocation, which will enable them to earn an honest livelihood after the expiration of their respective terms. I beg to bear witness to its school, which is well conducted by an able and efficient professor, whose efforts know no abatement in the execution of his duties. The inmates also enjoy an access to a good library, both stationary and travelling. The master builder, who has the supervision of the large and commodious structure, now in process of construction, has repeatedly told me that some of the men, under his charge, will, on the leaving, be able to compete with skillful artisans in similar occupations in the outside world. This obviously shows that many of them are teachable, and that they improve their opportunities in a high degree. And what is said in favor of this department, may also be said of other departments.

DIVINE SERVICE.

Owing to the constantly varying number of inmates, it is a difficult matter to ascertain to a perfect accuracy the percentage that attend divine service at the chapel on Sunday afternoons. But to the best of our knowledge, not less than eighty per centum present themselves at the public worship; and to their honor be it said, that they attentively listen to the practical expounding of

.

the sacred word. In my sacred ministrations, as well as in my intimate dealings with them, I never harbor the thought, for a moment of distinguishing religiously between them.—they all stand on an equality in my estimation-but, on the contrary, to the best of my ability, I essay to instill into their minds hope and inspiration touching their future career, and to use any endeavor to persuade them to avoid the seductive temptations which have, in the past, led them to their downfall. At the close of, each service, a Sunday school is held, at which the "International Lesson" is read and explained. A goodly number remain and take considerable interest in listening to the comments given, as well as in asking and answering questions, bearing upon the said lessons. In addition to these exercises, I meet the choir Saturday afternoons, with a view of training the members for the Sunday service. By means of prayer, exhortation, conncil, together with exemplification of noble traits in the character of men of probity and sterling worth, described both in sacred as well as in profane history, in ancient and modern times, I foster a hope and confidence that some good may be accomplished that will add materially to their future welfare.

Having travelled more or less extensively in eastern and western hemispheres. I have found by examination and observation that there are certain institutions that inevitably lead men astray from the paths of rectifude whenever they permit themselves to come under the deterious influence of these. Among others, stand pre-eminently the licensed saloons, the gambling dens and the brothels. As long as these exist, menacing and sapping the morals of the nations, so far we shall find millions of young men and women going on the downward road which leads to infamy and shame. It will dawn upon the minds of men some day—if not in the present time, surely in the future-that the transgressor is not wholly responsible for his evil deeds. Owing to corruption and cubidity, flourishing rampantly in modern times. the framers of law and public opinion have made it easy for people to go astray, and in course of time, to become enemies to the established order of society.

Parents of children should be sufficiently alive to the undenied and undeniable fact that the home is the foundation of the State; and whenever the foundation is faulty, the superstructure must be constantly in danger. If the home is not modeled after the divine pattern, the community, as a matter of course, becomes corrupt, and the State, in consequence, resolves itself into a state of depravity. The world-famed historian, Gibbon, says, if my memory serves me right, that the Roman government, which flourished a thousand years, remained safe and sound as long as the family remained pure and unsullied; but that the moment the family became impure, the clan became corrupt; and, consequently, the natives became face to face with imminent danger; hence its tragic downfall. In conclusion, I beg to say a word to the public, by way of improvement. Whenever an inmate of this institution, or like institutions, is let out on parole, the sympathy of the public should go to him, as he endeavors to carve for himself a new path in the field of honesty and uprightness. The Y. M. C. A. and kindred institutions, organized specially in order to give a helping hand to the morally weak and temptable ones, should look out and render assistance to such a man. The police officers and detectives should not pounce upon him without sufficient evidence, as alas! they often do, whenever an evil deed has been perpetrated in the community, and apprehend him solely because he has been an inmate of this, or a like institution. Such conduct on the part of an officer discourages a man, who endeavors to do right, and nullifies the efforts and accomplishments of the institution where he has been under training.

Respectifully yours,

DAVID T. JENKINS, Chaplain.

APPENDIX

4

MANUAL OF THE COLORADO STATE REFORMATORY FOR THE USE OF INMATES.

INTRODUCTORY.

The citizens of Colorado, regardful of the welfare of the young men who have been led by inclination or inadvertence to commit a felony, have established this institution for the confinement of such offenders.

In the legal sense, it is a penal institution, consequently a place of restraint, discipline and deprivation; yet it is not solely a place for punishment, but rather one for the help, uplifting and the upbuilding of each inmate—a place affording advantages to each inmate, and to give yon time to consider, with helpful surroundings, the certain results of wrongdoing and evil associations, and lead you to firmly resolve that you will lead an honest and upright life.

Here you are removed from all contaminating influences and evil surroundings, and are surrounded by friends who earnestly seek your reformation, and by whose aid and that of your own will you can be restored to good citizenship.

It is necessary that we should have proper rules and regulations in order to maintain that which is fair, just and best for the interests of everyone.

To these rules every prisoner must render a strict obedience. A prompt, cheerful obedience will help everyone and enable each prisoner to secure the greatest possible advantages to himself, and all the pleasantness and comfort that can consistently be granted to one here.

The plan of the Reformatory is to put each prisoner on his own merits, and to give him a chance by good conduct and his own efforts to shorten his stay herein, to give proper schooling to those who need it; to give trades to those who have none, and by all available means to advance the material, mental and moral interests of each prisoner.

GRADE RULES.

1. Prisoners in the Reformatory will be classed in three grades, first, being the highest; second, or intermediate; and the third, or lowest.

2. On admission, each prisoner shall enter the second grade.

3. A prisoner will be admitted to the first grade when he shall have 1,000 credit marks.

4. A prisoner shall be allowed for perfct conduct, industry in labor and diligence in study, five credit marks for each day. For bad conduct, negligence, or any justifiable cause, he shall lose such number of marks as the Warden shall decide.

5. A prisoner in any grade who shall obtain five credit marks each day for three consecutive full calendar months shall receive as a bonus 100 additional credit marks.

6. The Warden may, with the approval of the Commissioners, allow special credit marks to any prisoner.

7. Serious breaches of the peace or discipline of the Reformatory will cause a prisoner to be reduced to the lowest grade, and to suffer such punishment as the Warden may direct.

8. Promotions and reductions from one grade to another will be made on the first of each month.

9. The uniforms for the different grades will be as follows: First grade—Pantaloons to be a cadet gray, with black braid running full length of outside seam; coat of cadet gray, with black braid down in front, on each sleeve and around collar; shirt to be made from blue and white shirting, known as "hickory shirting." Second grade—Coat and pantaloons to be a cadet gray, ticking shirt. Third grade—Coat and pantaloons to be a black and gray stripe, ticking shirt.

CONDUCT RULES.

1. Each prisoner must keep his room neat, clean and in order, ready to be inspected, to which it will be subject at all times.

2. It must be swept every day, washed once a week, and oftener if necessary. The beds must be well made, and kept well filled. The wash bowls and night buckets must be kept clean; the doors dusted, tables and all other furniture kept clean and orderly.

3. There must be nothing put in the night bucket that will obstruct the sewer. It must be kept near the ventilator.

4. Each prisoner must take his blankets to the yard to be aired whenever ordered, and will use his night bucket for a cuspidore.

5. At the striking of the first gong in the morning, he will rise, wash, fully dress and strip his bed. Before going to breakfast, he will make his bed and put his room in order.

6 At the sliding of the bar, he will open his door quietly, step out, close it, and march in his proper order from the corridor. When he re-enters his room he will close his door quietly.

7. He will, when in his room, remain quiet and will retire at the proper signal at night.

8. When the count is being taken at night, he will stand with his right hand clasping a bar of his door, and remain in this position until satisfactory to the officer making such count. 9. An inspection of rooms will be made by officers daily, and by the Deputy Warden weekly.

WORK.

10 Each prisoner will perform in an industrious and diligent manner such work as may be assigned to him.

11. He will obey all orders promptly, be quiet and remain in the place designated by the officer in charge.

12. Be industrious, painstaking and not wasteful when at work. Be studions when in school, and try to learn all you can.

13. You must not leave the line or place of your employment without permission or by order. If unable to work, from any cause, make this fact known to the officer in charge and act as he may direct.

GENERAL.

14. At every signal to fall into line for marching you must take your place in the line promptly. Give your attention to the officer in charge, attend to and obey his orders.

15. When in line you must not talk, laugh, or make any disturbance whatever. You must keep your eyes to the front, head erect, hands to the side and shoulders well back. When coat is worn it must be buttoned and all clothing neatly arranged and in proper order.

16. When a prisoner wishes to speak to an officer he will approach him in a respectful manner, salute him by raising his right hand to his forehead, then drop it to his side and remain in a respectful attitude until the conversation is finished.

17. When a prisoner desires to see the Warden, Deputy, Warden or Chaplain, he will so inform the officer in charge.

18. You will not have in your possession, in your room or elsewhere, any knives, tools, articles or materials whatsoever (excepting those which are necessary in the actual performance of your work), without a written permit from the Warden; neither will you write, convey notes to, or receive notes from any other prisoner.

19. A prisoner will not, without the consent of the Warden or Deputy Warden, hold conversation with any person from outside the prison, nor will be receive or give anything whatsoever from or to any such person, or through the mail or other carriers. Neither will be turn from his work to gaze at visitors.

LIST OF OFFENSES.

Attempt to escape. Altering clothing. Bed not properly made.

Carelessness about work, clothing or person.

Clothing not in proper order.

Communicating to other prisoners by writing, signs or otherwise, only as authorized.

Crookedness.

Destroying or injuring property.

Dilatory.

Dirty room or furnishings.

Disobedience of orders.

Disorderly room.

Disturbance.

Eating before signal.

Face, hands or person not clean.

Fighting.

Hair not combed.

Injuring clothing, tools or property.

Idleness.

Insolence.

Inattention.

Immoral conversations or acts of any nature.

Laziness.

Laughing or fooling.

Loud talking.

Lying.

Malicious mischief.

Neglect.

Not at door for count.

Not promptly out of door when brake is drawn.

Not promptly in door when brake is drawn.

Out of place.

Out of step in line from carelessness.

Profanity.

Quarreling.

Refusal to obey.

Shirking.

Slovenliness in dress.

Spitting on floor.

Staring at visitors.

Stealing.

Talking in chapel.

Talking in corridor.

Talking in dining room except when necessary.

Talking in line.

Talking in school.

Talking from room to room.

Talking while at work, except by permission from officer in charge.

Vulgarity.

Wastefulness.

Wearing clothing or underwear not his own.

WRITING; VISITING; LIBRARY PRIVILEGES.

1. Prisoners of the first grade will be permitted to write once each week; those of the second grade once every two weeks; those in the third grade not at all.

2. Stationery and stamps will be furnished from the office, and can not be received from friends.

3. Prisoners will sign their letters with their full names and number, and address them plainly.

4. Letters can be received from friends at any time, and should be addressed to Box R, Buena Vista, Colorado.

5. All letters to and from prisoners will be carefully read by the Warden, or his duly authorized agent, and anything objectionable will not be received or sent out.

6. Prisoners can receive visits from relatives and friends only by permission of the Warden.

7. Each prisoner will be furnished with a library catalogue and card.

8. Books may be received from the library in the proper manner twice a week.

9. Books to be exchanged, must be left upon the chairs near the doors of the rooms.

10. No books shall be kept longer than two weeks at a time.

11. All persons who deface their books, or exchange with others, will be deprived of library privileges.

12. All periodicals, magazines and weekly newspapers which may be approved may be admitted. Sunday and daily papers will not be admitted, except by special permission.

PAROLE AND RELEASE.

1. As the laws provide sentences to this Reformatory to be absolutely indefinite, with certain maximum limits, prisoners will be released only when it appears to the satisfaction of the Board of Commissioners and Warden that the prisoner has reformed.

2. By this plan the intent of the law will be carried out more thoroughly than by any other. It is inevitable that under any system, the prisoners who remain will criticise the release of some of their companions, on account of their not knowing all of the facts upon which the management may make their decision.

3. The Board of Commissioners meets every three months, to consider, among other things, the applications of prisoners to be placed on the parole list.

4. The Warden presents the prisoner's name to the Commissioners, and in doing this he is governed by the conduct and apparent character of the prisoner while he is in the Reformatory. The Commissioners determine the question of placing such prisoner on the parole list, after considering all the facts and conditions and circumstances.

5. Each prisoner will stand on his own individual merits, and no ontside influence will affect the decision of the question.

6. No application will be considered except from prisoners in the first grade.

7. When a prisoner is allowed to go upon parole, it will be upon the conditions set forth in the following parole contract, which he will be required to sign. Should he fail in any way to keep his part of this contract he will be returned to this institution.

PAROLE AGREEMENT.

Know all Men by these Presents:

That the Board of Commissioners of the Colorado State Reformatory, desiring to test the ability of....., a prisoner of said Reformatory, to abstain from crime and lead an honorable life, do, by virtue of the authority conferred upon them by law, hereby parole the said....., and allow him to go ontside the said buildings and enclosure of the Reformatory, subject to the following rules and regulations:

1. He shall proceed at once to....., and there remain, if practicable, for a period of at least...... months from this date.

2. In case he finds it desirable to change his residence, he shall first obtain the written consent of the said Board of Commissioners, through the Warden of said Reformatory.

3. He shall, on the first day of each month, until final release, forward by mail to the Warden of said Reformatory a report of himself, stating whether he has been constantly under pay during the last month, and if not, why not? How much he has earned, and how much he has expended, together with a general statement of his surroundings and prospects.

4. He shall in all respects conduct himself honestly, avoid evil associations, obey the law, and abstain from the use of intoxicating liquors.

5. He shall, while on parole, remain in the legal custody and under the control of said Board.

6. He shall be liable to be re-taken and again confined within the enclosure of said Reformatory for any reason that shall be satisfactory to the Board of Commissioners, and at their sole discretion, until he receives written notice from the Warden that his final release has been ordered.

7. The management of said Reformatory has a lively interest in the subject of this parole, and he need not fear or hesitate to freely communicate with the Warden in case he loses his situation or becomes unable to labor by reason of sickness or otherwise.

Given in duplicate, this......day of19....

Commissioners.

Warden.

I,, a prisoner in the Colorado State Reformatory, hereby declare that I have carefully read and do clearly understand the contents and conditions of the above parole, and I hereby accept the same, and do pledge myself to honestly comply with said conditions.

Signed in duplicate, this......day of......19...

If the prisoner fulfills all the requirements of this contract he will, at the expiration thereof, receive his "Absolute Release," of which the following is a copy:

COLORADO STATE REFORMATORY.

BUENA VISTA, COLO.

Absolute Release.

Know all men by these presents: That the Board of Commissioners of the Colorado State Reformatory, have this day issued to..... an Absolute Release from imprisonment in said institution. It appearing to the satisfaction of said Board that said......has complied with the terms of his parole, and that he will remain at liberty without violating the law.

. Warden.

Each prisoner will bear in mind that he is still a prisoner of this institution, under the control of its management until he receives his Absolute Release, which restores him to citizenship.

REMARKS.

It will be the constant and earnest endeavor of the management of this institution to assist the personal efforts of its inmates to a wiser, higher, better and more proper life.

The standard of the Reformatory, which must be reached prior to the presentation of a prisoner to be placed on the parole list, is not unnecessarily high or difficult to obtain; nor are the conditions of release severe requirements. They are such as to promote the personal welfare, and will aid each one fulfilling them.

As individuals, promise yourselves that you will make all possible progress toward intellectual improvement, and to that high plane of morality which will secure the confidence of those who have you in charge.

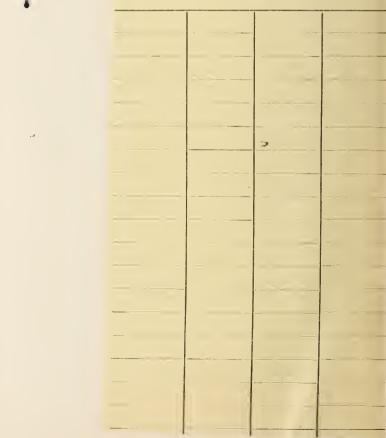

> A. C. DUTCHER, Warden.
