TOTAL PATIENTS ON BOOKS JUNE 30, 1945							
Male patients being held at Colorado State Penitentiary for sale keeping							
GRAND TOTAL							

In analyzing the above tables it will be noted that the net gain in patients on the books for the biennial period was only 18 whereas the net gain in patients actually resident in the hospital was 88. Further, it will be seen that the number of male patients, both on the books and residing in the hospital, has decreased during the period, whereas the number of female patients, both on the books and residing in the hospital, has increased. During the biennium 1524 patients were admitted of whom 844 were males and 680 were females. Separations from the hospital totaled 1506 patients of whom 929 were males and 577 were females. The separations consisted of 743 discharges and 763 deaths, 18 of the latter occurred when the patients were absent from the hospital. Of the patients discharged, 464 were males and 279 were females, while of those who died, 465 were males and 298 were females. In the same period the number of patients paroled was 948, while those returned from parole numbered 541. Escapes amounted to 179 while those returned from escape were 105. The number of persons who entered the hospital voluntarily for care and treatment was 110.

MEDICAL REPORT

The problem of providing adequate care and proper treatment for the patients during the past biennium has been very difficult, due to the continual loss of trained personnel and a constant shortage of employees. Despite this, however, the major functions of the hospital have been performed, although in many instances upon a restricted scale. As a result it must be admitted that the standard of care and treatment given the individual patient has been lowered. Fortunately, no epidemics occurred and the general health of both the patients and the employees has been fairly good.

One phase of the problem which was especially hard to solve was how to care for the ever increasing number of aged patients admitted to the hospital. During the past few years the percentage of patients over the age of 70 committed here has shown a definite increase: for the period ending June 30, 1941, 17% of the admissions were in this age group; for the period ending June 30, 1943, 24%; and for the period ending June 30, 1945, 30%. Naturally these patients are much more difficult to care for than are those of a younger age group. Not only do they need psychiatric treatment but also many of them require special medical, dental, nursing and dietetic attention. Thus with a greatly depleted staff of employees this situation has at times been very distressing.

While some activities of the hospital have had to be discontinued and others curtailed for the duration, a few have been expanded. The Clinical and Pathological Laboratory has been enlarged, its personnel increased and a full time pathologist has been placed in charge of the department. During the biennium, 246 autopsies were performed and complete pathological studies

were made in each case. The clinic for the treatment of syphilis has been reorganized and the method of procedure as well as the follow-up system for each case has been improved. Another worker has been added to the social service unit and the activities of this department have been widened. Closer cooperation with the State Department of Public Welfare has been established and the statutes concerning non-residents have been changed by legislative action so now that organization handles such cases.

TEACHING ACTIVITIES

Residencies in psychiatry have been continued but the number of applications for such training has been greatly reduced owing to the fact that nearly all young physicians have been taken into the armed forces. The unit for teaching psychiatric nursing in cooperation with the University of Colorado has remained in operation and 516 students have been trained during the past biennial period. Schools of nursing from which students were received are as follows: In Colorado—Beth-El School of Nursing, Colorado Springs; Boulder Sanitarium, Boulder; Children's Hospital, Denver; Colorado Training School, Denver; Mennonite School of Nursing, La Junta; Mercy Hospital School of Nursing, Denver and Durango; Minnequa School of Nursing, Pueblo; Parkview School of Nursing, Pueblo; Presbyterian Hospital School of Nursing, Denver; Seton School of Nursing, Colorado Springs; St. Anthony's Hospital School of Nursing, Denver; St. Luke's Hospital School of Nursing, Denver; University of Colorado School of Nursing, Denver. In Wyoming—Sheridan County Memorial Hospital, Sheridan; Wyoming General Hospital, Rock Springs. In Kansas—Susan B. Allen Memorial Hospital, El Dorado; Newman Memorial Hospital, Emporia.

The program for providing a twelve month dietetic internship was put into operation on July 1, 1944. Six students who had graduated in Home Economics were accepted at that time, coming from the following schools: The Colorado State College of Agriculture and Mechanic Arts, Fort Collins, Colorado; the University of California, Berkeley, California; the Alabama Polytechnic Institute, Auburn, Alabama; the Kansas State College of Agriculture and Applied Science, Manhattan, Kansas; and the College of St. Catherine, St. Paul, Minnesota. On February 1, 1945, three more internes were accepted who came from the Kansas State College of Agriculture and Mechanical Arts, Manhattan, Kansas; the Iowa State College, Ames, Iowa; and the State University of Iowa, Iowa City, Iowa. The training course was approved by the American Dietetic Association and is the only one established in a State Mental Hospital. The first class graduated on June 30, 1945, and the members thereof, immediately secured responsible positions in various parts of the country. In addition to the above students, eight dietary internes from the Colorado General Hospital in Denver spent periods ranging from three to fourteen weeks in this hospital so that they

might obtain supplementary administrative training and experience. This educational program has two objectives: first, to provide better and more adequate food service within the hospital; and second, to train dietitians for institutional work.

Plans have been made to establish residencies in the Department of Pathology and the approval of the American Medical Association has been requested. A program for a closer affiliation for teaching purposes with the University of Colorado School of Medicine is now being formulated. Plans are also being considered with other teaching institutions whereby a broad program for the training of employees throughout every department of the hospital may be established.

BUILDING PROGRAM

Plans and specifications for a new building to house female patients and for a new hospital unit are now being prepared so that when materials are available construction can begin. A definite program is also being outlined for major repairs throughout the institution as well as for the replacement of various units which have outlived their usefulness or have become obsolete.

SPECIAL APPROPRIATIONS RECEIVED

Maintenance Appropriation for the Fiscal Period 1943-1945, \$2,100,000. This was not adequate to cover operating costs, therefore, it was necessary for the legislature to make a deficiency appropriation of \$180,000 to pay the expenses of the institution. The total amount appropriated for the period was thus \$2,280,000.

Maintenance Appropriation for the Fiscal Period 1945-1947, \$2,700,000. This amount will be insufficient to cover the costs of operation of the hospital. Commodity prices have continued to rise and there is no indication that they will decline during the next two years. This is likewise true of labor costs and there is every indication that the salary schedule for employees will have to be revised upward. It is obvious, therefore, the next legislature will have to make another deficiency appropriation, the amount of which cannot be estimated until the beginning of 1947.

PURCHASE OF LAND—\$19,500

This appropriation was used to purchase two farms which had been leased by the hospital for several years. Over 4,000 acres of pasture and irrigated land with water rights and the improvements on the two properties were acquired in the transactions.

LEGISLATURE RECOMMENDED

First, it is again being recommended that the various statutes relating to the criminal insane "be clarified" and that legis-

lation be enacted concerning the discharge of this class of patients who are absent from the hospital either on parole or escape. Second, it is recommended that legislation be passed whereby the revolving fund of the institution be increased from \$1,000 to \$25,000. Third, it is recommended that the present budget system be revised provided the legislature wishes to discontinue the customary procedure of financing the operation of this institution by recurrent deficiency appropriations.

ACKNOWLEDGMENTS

At this time I wish to thank Governor John C. Vivian, the physicians and surgeons of the consulting staff and the officers and employees of the Colorado State Hospital for their assistance and cooperation in the management of the hospital during these past trying years.

F. H. ZIMMERMAN, M.D.
Superintendent.

PSYCHOSES OF ADMISSIONS DURING THE PERIOD

Psychoses	Men	Women	Total	Men	Women	Total
1. Psychoses with syphilitic meningo-encephalitis (general paresis)				68	23	91
2. Psychoses with other forms of syphilis of the central nervous system				7	1	8
(a) Meningo-vascular type ..	2	0	2			
(b) With intracranial gumma ..	0	0	0			
(c) Other types	5	1	6			
3. Psychoses with epidemic encephalitis				3	4	7
4. Psychoses with other infectious diseases				0	2	2
(a) With tuberculous meningitis ..	0	0	0			
(b) With meningitis	0	0	0			
(c) With acute chorea	0	1	1			
(d) With other infectious disease ..	0	1	1			
(e) Post-infectious psychoses ..	0	0	0			
5. Psychoses due to alcohol				23	7	30
(a) Pathological intoxication ..	0	0	0			
(b) Delirium tremens	3	0	3			
(c) Korsakoff's psychosis	4	3	7			
(d) Acute hallucinosis	9	1	10			
(e) Other types	7	3	10			
6. Psychoses due to a drug or other exogenous poison				1	2	3
(a) Due to metal	0	0	0			
(b) Due to a gas	0	0	0			
(c) Due to opium or a derivative ..	0	0	0			
(d) Due to another drug	1	2	3			
7. Psychoses due to trauma				6	1	7
(a) Delirium due to trauma ..	1	0	1			
(b) Personality disorder due to trauma ..	0	0	0			
(c) Mental deterioration due to trauma ..	5	1	6			
(d) Other types	0	0	0			
8. Psychoses with cerebral arteriosclerosis				147	110	257
9. Psychoses with other disturbances of circulation				2	0	2
(a) With cerebral embolism ..	1	0	1			
(b) With cardio-renal disease ..	1	0	1			
(c) Other types	0	0	0			
10. Psychoses due to convulsive disorder				25	17	42
(a) Epileptic deterioration ..	17	8	25			
(b) Epileptic clouded states ..	5	8	13			
(c) Other epileptic types	3	1	4

DR. F. H. ZIMMERMAN, Superintendent,
Colorado State Hospital,
Pueblo, Colorado.

Dear Sir:

I herewith present to you a report of the business department of this institution, for the biennium beginning July 1, 1943, and ending June 30, 1945.

Tables numbers 1 to 8, inclusive relate to finances. Tables numbers 9 to 14, inclusive, cover the operation of various departments of the institution.

Respectfully submitted,

CHARLES G. DOWLING, Steward,
Colorado State Hospital.

Table No. 1

APPROXIMATE VALUE OF THE COLORADO STATE HOSPITAL INCLUDING HOSPITAL ANNEX AND HOSPITAL FARM ON JUNE 30, 1945.

Land	\$ 227,300.00
Buildings and Improvements	3,761,478.00
Machinery	293,834.00
Tools and Equipment	229,433.00
Furniture, Bedding and Linen, and Office Equipment	151,682.00
Libraries	2,222.00
Automobiles and Trucks, etc.	11,194.00
Supplies in Store Room, Drug Room, cans, feed, and coal on hand ..	147,915.00
Livestock	124,602.00
Water Rights	20,625.00
Cash	1,000.00
Grand Total	\$4,971,285.00

Table No. 2

SHOWING THE TOTAL INCOME FOR THE BIENNIAL PERIOD BEGINNING JULY 1, 1943, AND ENDING JUNE 30, 1945; FROM TAXES; EARNINGS OF THE INSTITUTION; MAINTENANCE APPROPRIATION; DEFICIENCY APPROPRIATION; TOTAL DISBURSEMENTS; AND BALANCE ON JUNE 30, 1945.

Balance in the Tax Fund July 1, 1943	\$ 64,410.74	
Income from Taxes	670,955.48	
Income from Cash Earnings	315,330.06	
Income from Maintenance Appropriation	2,100,000.00	
Income from Deficiency Appropriation	180,000.00	
Total Income for Maintenance		\$3,330,696.28
Total Disbursements for Maintenance		3,316,119.21
Balance June 30, 1945		\$ 14,577.07
Tax Fund Balance	\$ 14,577.07	

Note: The Deficiency Appropriation was combined with the Maintenance Appropriation by the State Treasurer's Office.

Table No. 2-A

SHOWING INCOME FROM THE BUILDING FUND; LAND PURCHASE APPROPRIATION; DISBURSEMENTS THEREOF, AND BALANCES FOR THE BIENNIUM BEGINNING JULY 1, 1943, AND ENDING JUNE 30, 1945.

INCOME:

Colorado State Hospital Building Fund (Tax Levy)	
Balance in Fund July 1, 1943.....	\$339,801.30
Income During Biennium.....	282,316.84
Total Income	\$622,118.14
DISBURSEMENTS	6,000.00
Balance June 30, 1945.....	\$616,118.14
Colorado State Hospital Land Purchase Appropriation:	
Appropriation	\$ 19,500.00
Disbursements	6,000.00
Balance June 30, 1945.....	\$ 13,500.00
(See Table No. 8 for itemized account of each Fund.)	

Table No. 3
