MOVEMENT OF POPULATION

During the fiscal year ending June 30, 1957, 1387 patients (821 males and 566 females) were admitted. Patients discharged totaled 725 (482 males and 243 females) while 556 patients (278 males and 278 females) died in the hospital. Seventeen patients (14 men and 3 women) who were still on the books died while absent from the hospital. The net gain in patients on the books was 197; whereas, there was a net gain of 91 patients in the hospital at the end of the period. 1616 patients (669 males and 947 females) were paroled during the year; whereas, 1310 patients (514 males and 796 females) were returned. In addition 1910 patients (730 males and 1180 females) were granted trial visits, of whom 1859 patients (710 males and 1149 females) were returned. 264 patients (230 males and 34 females) escaped from the hospital, and 206 patients (179 males and 27 females) were returned from escape. 5646 patients (2911 males and 2738 females) were in residence at the hospital on June 30, 1957, and 8 male patients were still being held for safe keeping at the Colorado State Penitentiary, Canon City, Colorado.

MEDICAL REPORT

The general health of the patients has been good and no epidemics have developed during the past fiscal year, despite the fact that the hospital has continued to be "under-staffed" and "over-crowded". The medical and surgical care for the patients has been improved by the addition of local

and out-of-town specialists to the Attending Staff. Unfortunately, it has not been possible to obtain such help in Psychiatry as there is a shortage of Psychiatrists in the community. Consequently, the need for staff psychiatrists becomes more and more acute.

Towards the end of the fiscal year ending June 30, 1954, the use of the new "tranquilizing" drugs was begun. Preliminary results appeared so promising that a more extensive use seemed indicated. The drugs used were, Chlorpromazine and the Rauwolfia alkaloids. At the end of the fiscal year 1957, approximately 4,000 patients had received, or were receiving, these drugs. As stated in the Annual Report dated June 30, 1956 - "As a result there has been a marked change in the atmosphere of the hospital. Many patients have been relieved of their distressing symptoms with a decline in restraint, electro-shock, insulin, and hydrotherapy. There is less destruction of property and fewer injuries. There is more opportunity and need for personal contact by competent psychiatrists and psychiatric nursing personnel. There is increasing need for occupational and recreational therapists, and properly staffed social service and rehabilitation departments."

It is obvious from the above that, "tranquilizing" drugs have a definite place in the treatment of mental patients in this hospital. Further, the need for trained personnel becomes more and more necessary as more patients are accessible to psychotherapy and other forms of psychiatric treatment.

NEEDS OF THE HOSPITAL

Most critical is the need for trained professional personnel, such as, Psychiatrists, Psychologists, Occupational Therapists, Recreational Therapists, Vocational Rehabilitation Counselors, psychiatrically trained Social Service Workers and Nurses. To obtain and retain such trained people a "realistic" salary scale must be established, whereby, qualified personnel will be attracted to hospital work.

Almost "equally" critical is the need for adequate physical facilities, such as, a new General Hospital, an Administration Building, a unit for infirm-chronic bed patients, a new admission unit, a new occupational therapy unit, an out-patient and in-patient clinic, additional recreational facilities and utility service units. Some of these are in the planning stage, but the amount of money appropriated by the Legislature for a five-year building program is totally inadequate to provide the facilities needed.

RECOMMENDATIONS

The Colorado State Hospital has become "big business". The need for trained personnel in all "key" positions in management is vital to its conduct and operation. It is, therefore, recommended that a serious and comprehensive study be made of the salary schedule necessary to obtain and retain trained personnel. Certain facts should be considered in evaluating the problem:

1. Not only is a competent and well-trained medical staff needed, but also the same is true for the associated departments essential to the operation of the entire hospital.
2. To obtain such personnel a realistic salary scale must be developed.
3. The starting salary must be sufficient to attract qualified people and substantial increases must be granted at regular intervals.
4. The maximum salary must be generous enough to interest competent individuals to remain in hospital service.
5. Opportunities for advancement must be made available to those who wish to qualify for more responsible positions.

ACKNOWLEDGMENTS

In conclusion, I wish to thank the officers and employees of the Colorado State Hospital, the physicians and surgeons on the attending and consulting staffs, the various state officials and the many private citizens for their interest, cooperation and assistance in conducting the hospital during the fiscal year just ended.

F. H. ZIMMERMAN, M. D.
Superintendent

July 1, 1957

Dr. F. H. Zimmerman, Superintendent,
Colorado State Hospital.

Dear Sir:

I herewith present to you a report of the business department of this institution, covering the fiscal period beginning July 1, 1956 and ending June 30, 1957.

Tables numbers 1 to 9, inclusive, relate to finances. Tables numbers 10 to 14, inclusive, relate to operations of the Production Department. Table number 15 deals with merchandise allotted this institution through government surplus.

Respectfully submitted,

C. G. Dowling,
Business Manager,
Colorado State Hospital.

PROJECT NO. 455 - Survey in Preparation of
Major Building Program

Surveying \$ 175.00

Total-Project No. 455 \$ 175.00

ACTUAL TOTAL EXPENDED - NINE YEAR PROGRAM \$5,991,387.51

** Contract Payment on Project No. 256 has been reduced \$5,234.40 due to Refunds on
Sales Tax paid by Contractor:

June 26, 1956 - \$3,057.32

Nov. 5, 1956 - \$2,177.08

Contract Payment on Project No. 296 has been reduced \$1,249.67 due to Refund on
Sales Tax paid by Contractor.

Since each refund was not received until after full payment to the Contractors, these
refunds appear in the totals as additional income rather than a reduction of expenses.

NOTE: All projects are complete except Project Number 164, Number 380 and Number
455. These three have been transferred to the new Five Year Program.
