95.1% Valid reports

3.7% | 1.2% | 95.1%

Legend: Valid reports | Misuse reports | False reports

95.1% of reports received during the 2023-2024 school year, which began August 1, 2023, were determined to be valid. Valid reports are those requiring a response, and that are made with the intent to protect, prevent harm, or help.

Sample reports

Correct use of Safe2Tell

A person reported a student researching the Columbine tragedy and wanting to commit a school shooting. School teams immediately conducted a threat assessment and transferred the student to a facility where they were placed on a hold. The student's parents were contacted, and a safety plan was created upon the student's arrival after winter break.

Correct use of Safe2Tell

A person reported their peers were making racial slurs and comments about planned school attacks. School teams investigated and spoke with the students mentioned in the report, who admitted to making the comments. The students' parents were contacted, school disciplinary action was taken, the students were placed on safety plans, and are receiving counseling.
