

November 2024 data report

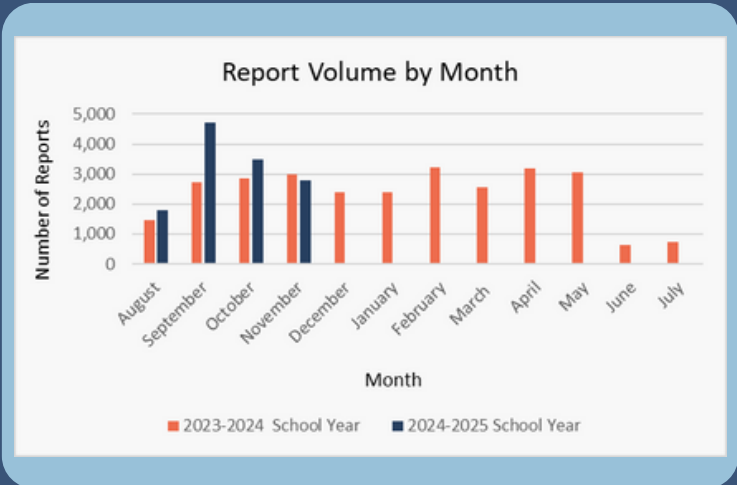

2,790

Reports received in November 2024. This is a 20% decrease in report volume compared to October.

12,818

Reports were received for the 2024-2025 school year.

The information presented in this report is based on preliminary data provided by the Colorado Information Analysis Center, which processes Safe2Tell reports.

221

Duplicate reports

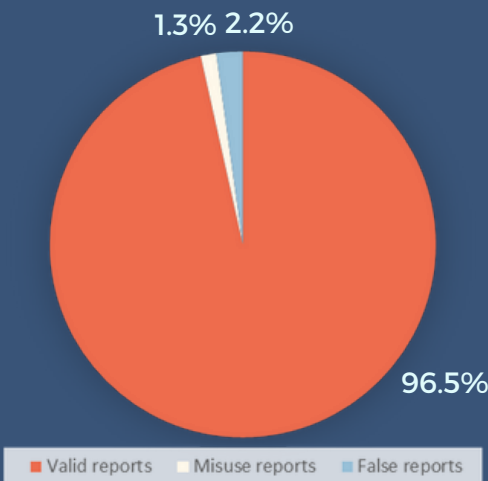

Duplicate reports are those regarding a concern or event that has already been reported, and they indicate a healthy culture of reporting safety concerns in a community. 2,220 duplicate reports have been reported during the current school year; 221 duplicates were reported in November alone—a 44% decrease compared to October.

Top reporting categories in November	Number of reports
Suicide	335
Bullying	289
School Safety Concern: Staff	220

The information presented in this report is based on preliminary data and is subject to change. A routine audit is scheduled as part of our ongoing commitment to maintaining high standards of data integrity and transparency.

96.5% Valid reports

96.5% of reports received during the 2024-2025 school year, which began August 1, 2024, were determined to be valid. Valid reports are those requiring a response, and that are made with the intent to protect, prevent harm, or help.

Sample reports

Correct use of Safe2Tell

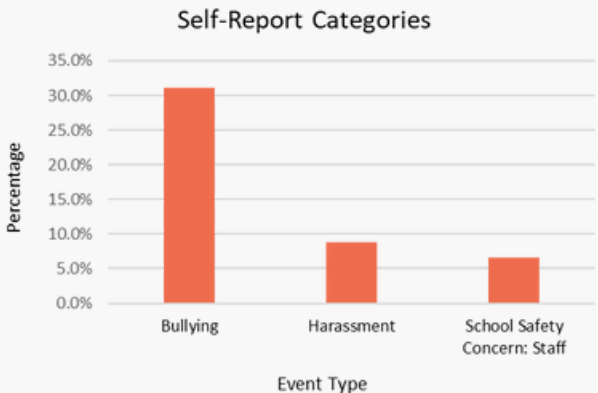

A person reported a student was couch hopping because they were being abused at home. School teams and local law enforcement conducted a welfare check. The student is getting counseling, and the Department of Human Services is involved.

Correct use of Safe2Tell

A person reported a student expressed suicidal ideation. Local law enforcement spoke with the student and their parents, the student confirmed having thoughts of ending their life, and the student is receiving counseling services in and outside of school.

331

Self-reports

Self-reports are made by people who are sharing a concern about themselves.
