The Denver Metro Region Survey

The Fall 2005 Denver Metro Job Vacancy Survey (JVS) was conducted from October 6th through December 13th, 2005. The goal of the survey is to provide current information on the demand for workers. This information can serve as input into the decision making process for employers, job seekers, economic developers, educators, and workforce centers in the region.

Over the survey period, all large and government employers as well as a random sample of private employers with five or more employees were contacted. Employers were asked if they were actively hiring, and the number of positions they were seeking to fill.

The Denver Metro Job Vacancy Survey is conducted twice a year to provide frequent and timely analysis of the demand for labor. Previous surveys collected occupational and wage information. Beginning with this survey, the JVS will not be reporting at this level of detail but will still give the estimate of total job vacancies in the region to the same degree of accuracy as before, only quicker.

A total of 6,008 employers, representing 35% of the region's total employment, responded to the survey. Of these, 311 are Government agencies, 324 are large employers and 5,373 are small to mid-size entities. The survey has a response rate of 93%. The margin of sampling error for the overall vacancy estimate is plus or minus .03%, or approximately 9 vacancies.

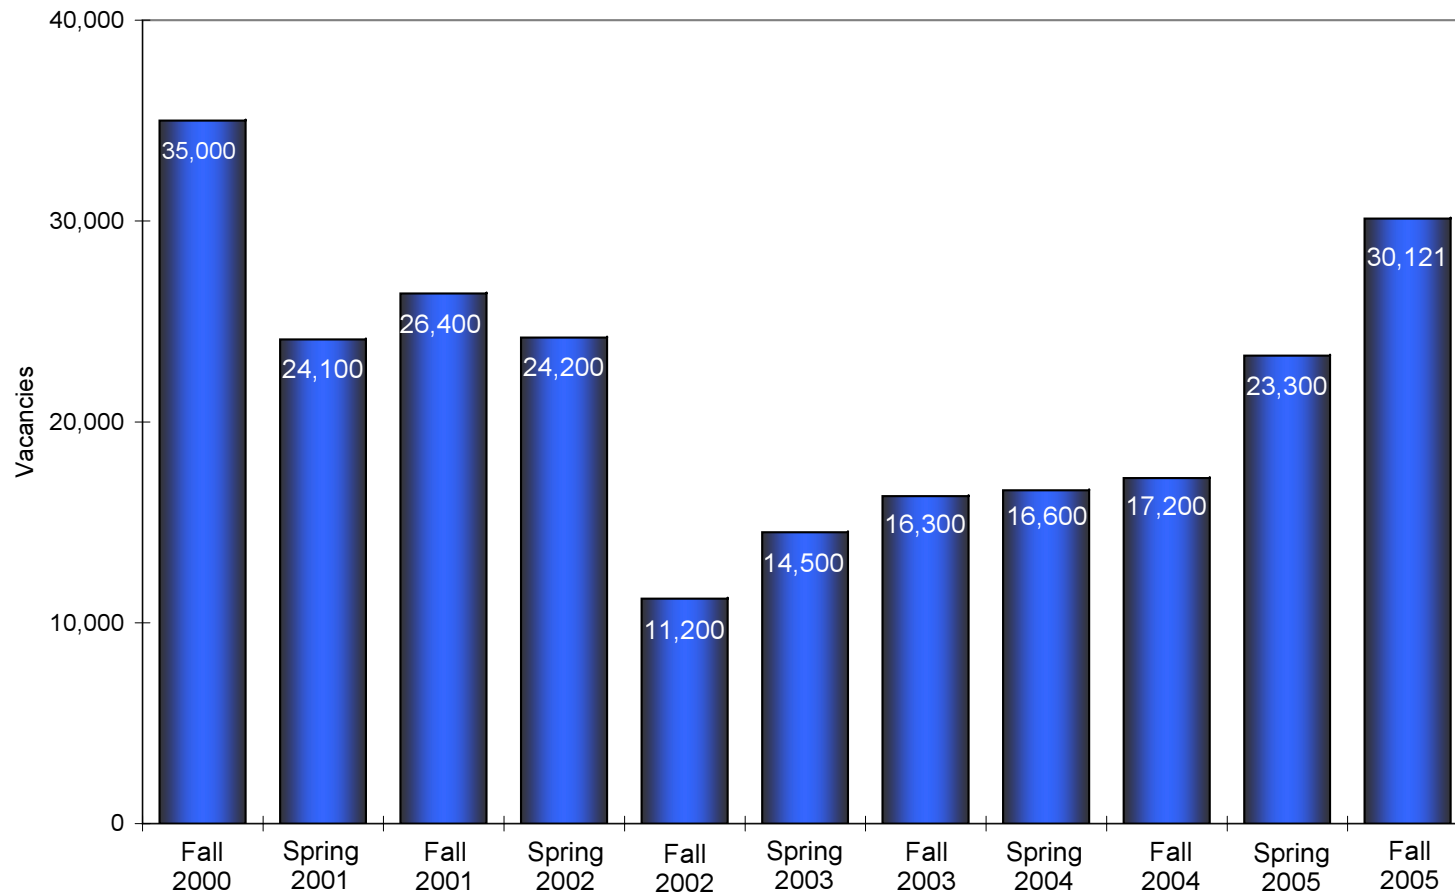

Job Vacancy Survey Regions

Findings of the Survey:

- ◆ An estimated 30,121 jobs were available for hire during the survey period, almost double the 17,200 vacancies found last fall.
- ◆ Accommodation & Food Services has the highest number of estimated vacancies (5,238), followed by Health Care & Social Assistance (4,225) and last year's leader, Retail Trade (3,542).
- ◆ Small to mid-size companies provide the most vacancies with 21,002. However, since more small to mid-size firms are surveyed, there are actually fewer vacancies per employer than with large employers. There are on average 16 vacancies per large private employer compared to an average of about 4 vacancies per small to mid-size employer and 3 vacancies per Government entity.
- ◆ Twenty-five percent of surveyed employers reported at least one job vacancy.

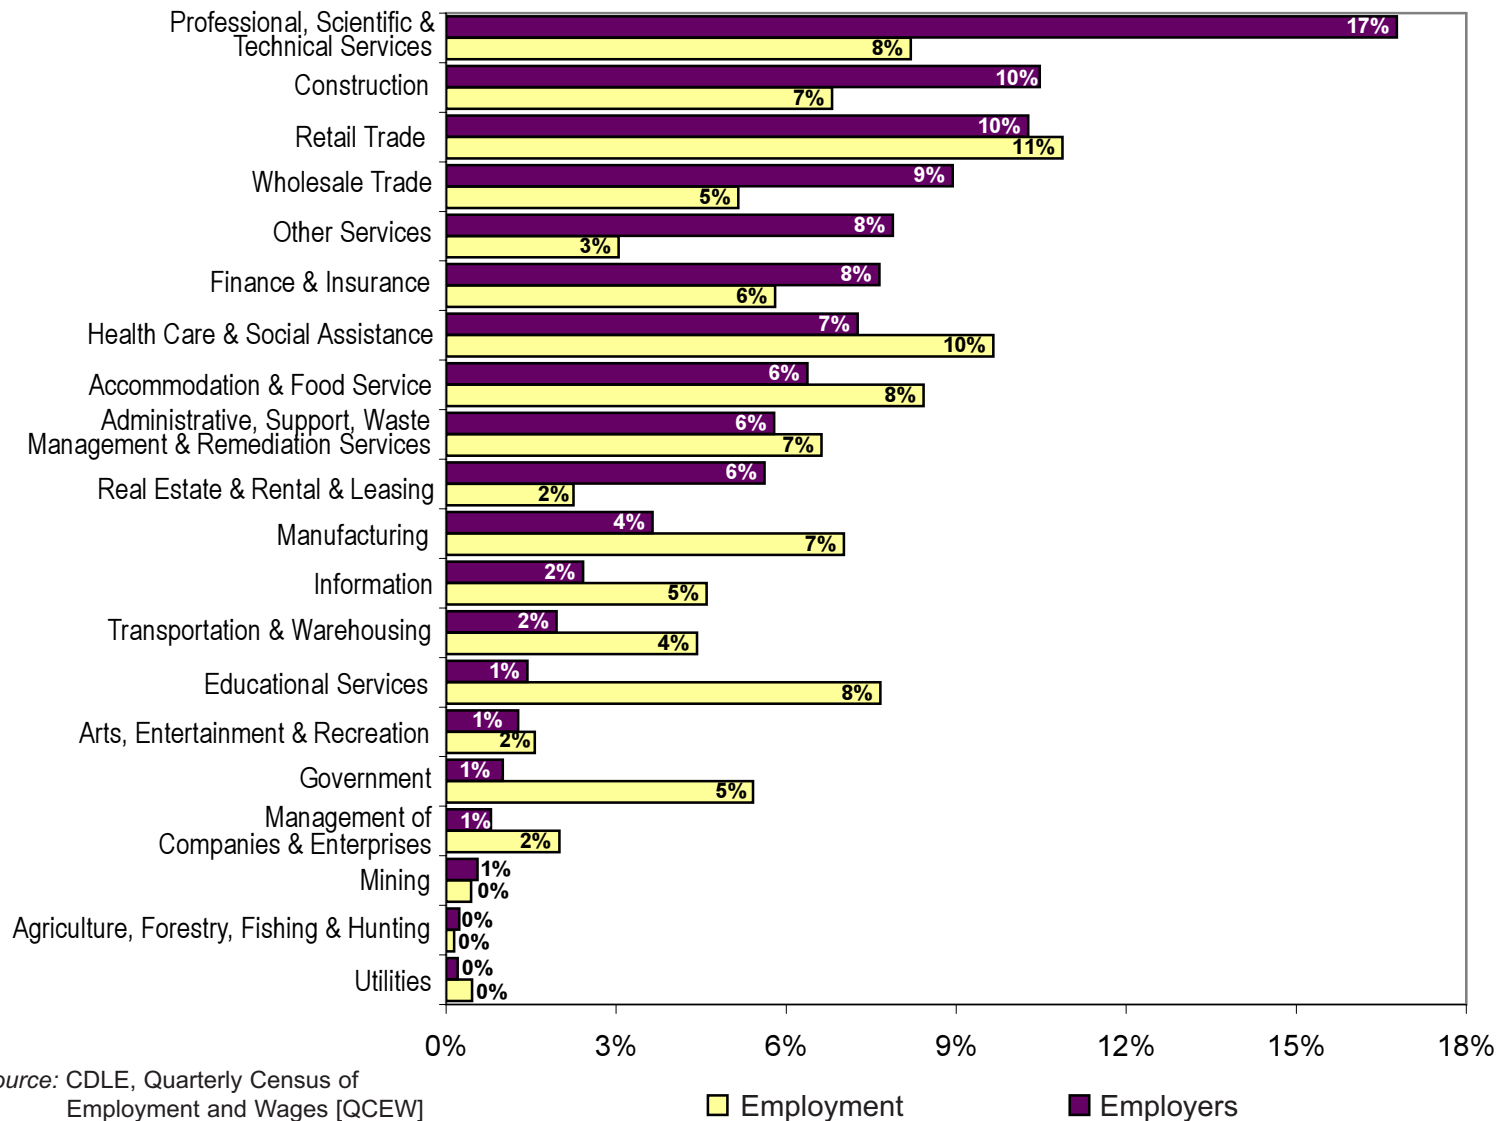

Job Vacancies

	Fall 2000	Spring 2001	Fall 2001	Spring 2002	Fall 2002	Spring 2003	Fall 2003	Spring 2004	Fall 2004	Spring 2005	Fall 2005

Denver Metro Employers and Employees, 4th Quarter 2004

Estimated Vacancies by NAICS Sectors*

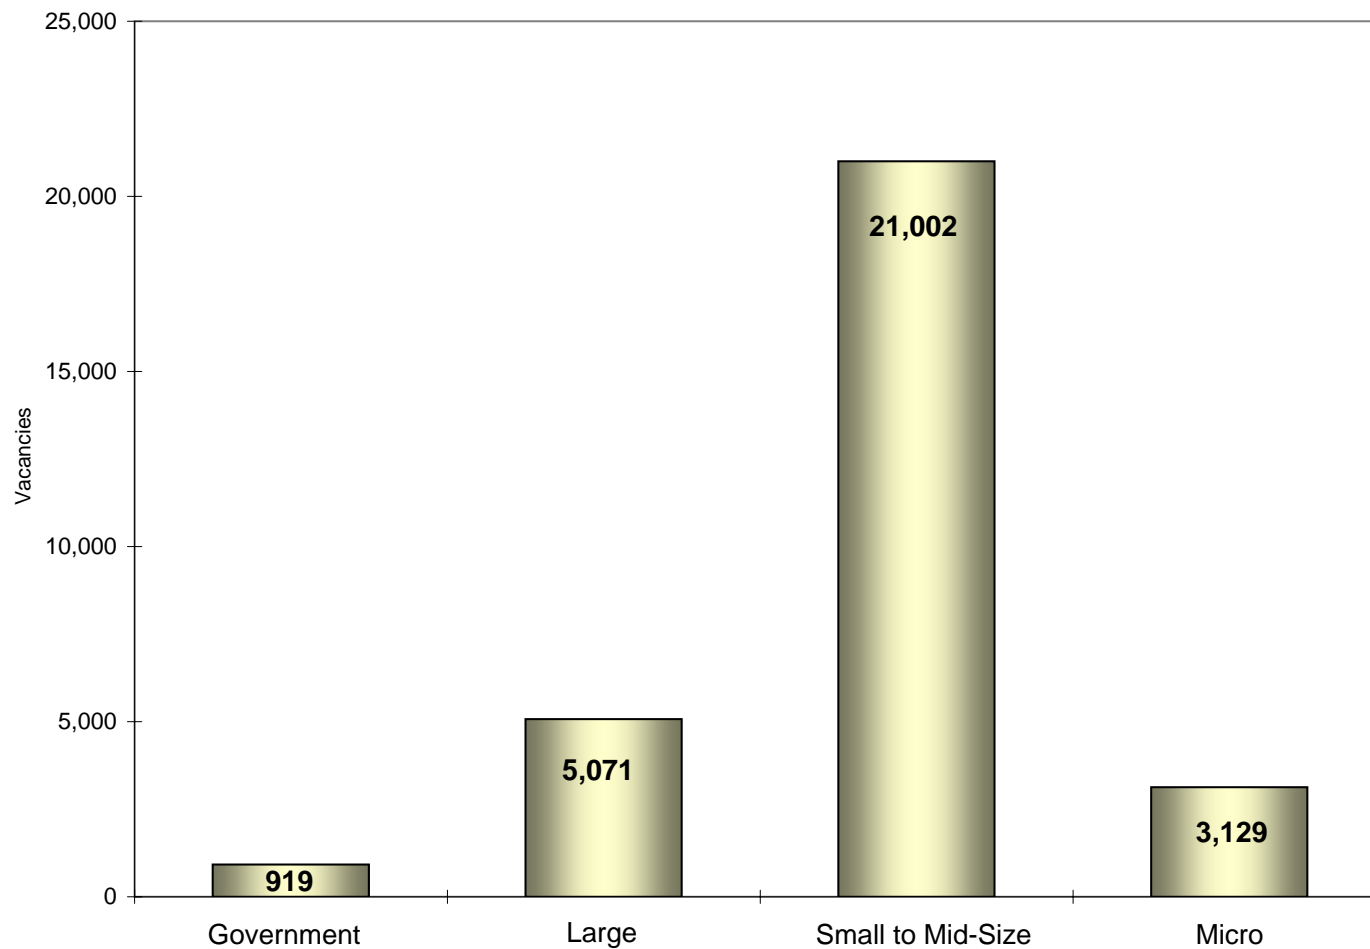

The North American Industry Classification System (NAICS) classifies industries into 20 sectors based on similar production processes. The above diagram shows estimated vacancies in each of these sectors.

With the exception of Government, all sectors have more estimated vacancies this survey than at the same time last year. The top three in terms of vacancies last year – Retail Trade, Health Care & Social Assistance, and Accommodation & Food Services – also make up the top three this survey, but in reverse order. These three sectors make up almost half of Denver Metro’s total vacancies.

*Excludes firms with fewer than 5 employees

Estimated Vacancies by Employer Size

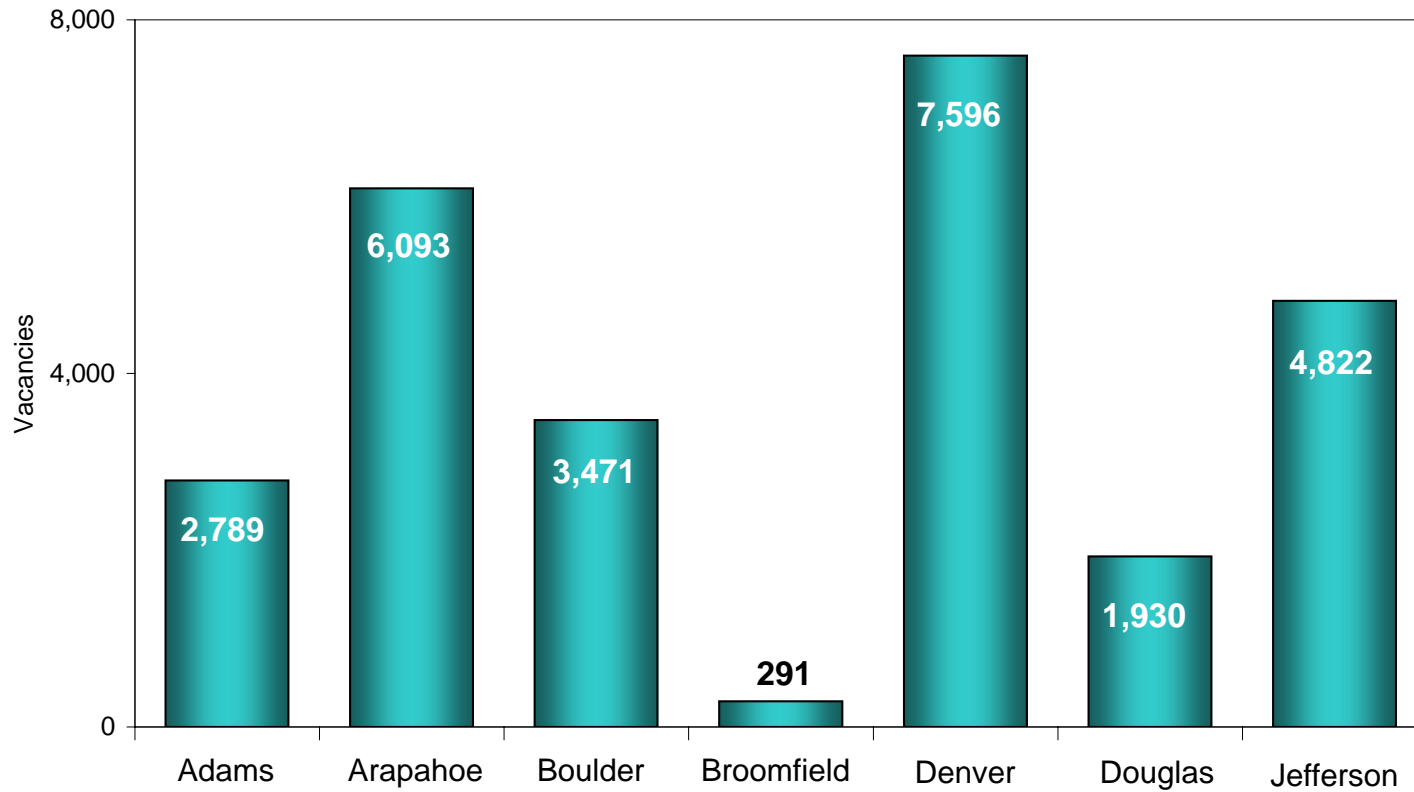

Employer Sizes:

Large = Firms with 250 or more employees

Small to Mid-Size = Firms with 5 to 249 employees

Micro = Firms with fewer than 5 employees

Vacancies by County*

*Excludes firms with fewer than 5 employees
