## The Larimer Weld Region Survey

The summer 2005 Larimer Weld Job Vacancy Survey (JVS) was conducted from August 1st through August 24th, 2005. The goal of the survey is to provide current information on the demand for workers. This information can serve as input into the decision making process for employers, job seekers, economic developers, educators, and workforce centers in the region.

Over the survey period, all large and government employers as well as a random sample of private employers with five or more employees were contacted. Employers were asked if they were actively hiring, and the number of positions they were seeking to fill.

The Larimer Weld Job Vacancy Survey is conducted twice a year to provide frequent and timely analysis of the demand for labor. Previous surveys collected occupational and wage information. Beginning with this survey, the Job Vacancy Survey will not be reporting at this level of detail but will still give the estimate of total job vacancies in the region to the same degree of accuracy as before, only faster.

A total of 1,886 employers, representing approximately 43 percent of the region's employment responded to the survey. Of these, 126 are government agencies, 43 are large employers and 1,717 are small to mid-size employers. The survey has a response rate of 88 percent. The margin of sampling error for the overall vacancy estimate is plus or minus 1.6 percent or about 75 vacancies.

**Job Vacancy Survey Regions**

### Findings of the Survey:

- ◆ An estimated 4,752 jobs were available for hire during the survey period, up from 1,720 vacancies last summer.
- ◆ Leisure and hospitality has the highest number of estimated vacancies, followed by trade, transportation and utilities and health care and social assistance.
- ◆ Small to mid-size companies provide the most vacancies with 3,466. However, since there are more small to mid-size firms, there are actually fewer vacancies per employer compared to government or large employers. There are on average 22 vacancies per large private employer compared to an average of 3 vacancies per government employer and 2 vacancies per small to mid-size firm.
- ◆ Twenty percent of surveyed employers reported at least one job vacancy.

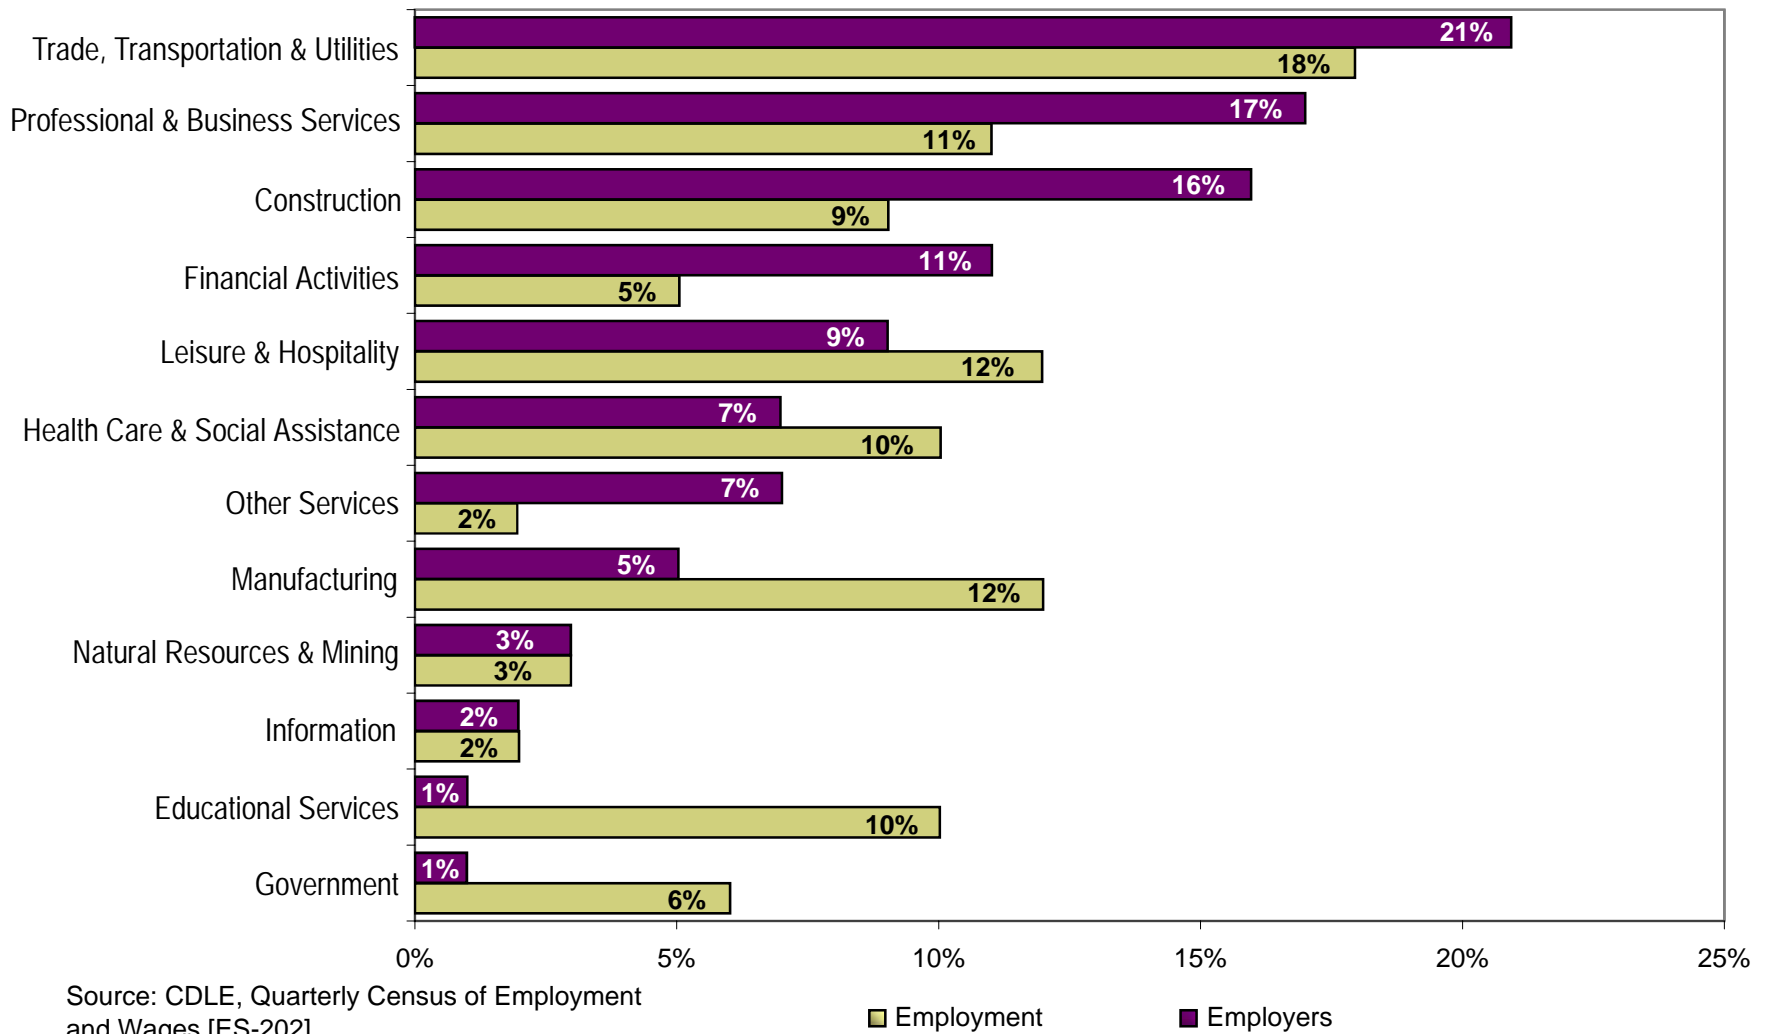

## Job Vacancies

	Spring 2001	Fall 2001	Spring 2002	Fall 2002	Spring 2003	Summer 2003	Spring 2004	Summer 2004	Spring 2005	Summer 2005
Vacancies	4,170	2,870	3,070	2,020	1,160	1,810	1,790	1,720	2,894	4,752
Employment	221,739	238,541	233,265	239,733	242,703	249,426	250,205	251,641	261,508	263,805

## Larimer Weld Employers and Employees, 3rd Quarter 2004

## Estimated Vacancies by NAICS Supersectors

The North American Industry Classification System (NAICS) classifies organizations into different industries based upon how the organization produces goods and services. The 20 NAICS sectors have been combined into 10 supersectors for this survey as shown in the chart on this page. The education and health services supersector is divided into its two sectors — health care and social assistance, and educational services.

Leisure and hospitality provides the most vacancies for Larimer and Weld counties with five times as many as last summer. Government, which accounted for the most openings last year, reported a drop in estimated vacancies from 416 to 319. Every other sector and supersector saw an increase in job opportunities compared to last year.

## Estimated Vacancies by Employer Size

---

**Employer Sizes:**

Small to Mid-Size = Firms with less than 200 employees

Large = Firms with 200 or more employees
