The Western & Southwest Region Survey

The Winter 2006 Western & Southwest Region Job Vacancy Survey (JVS) was conducted from January 11th through the 24th, 2006. The goal of the survey is to provide current information on the demand for workers. This information can serve as input into the decision making process for employers, job seekers, economic developers, educators, and workforce centers in the region.

Over the survey period, all large and government employers as well as a random sample of private employers with five or more employees were contacted. Employers were asked if they were actively hiring, and the number of positions they were seeking to fill.

The Western & Southwest Job Vacancy Survey is conducted twice a year to provide frequent and useful analysis of the demand for labor. Previous surveys collected occupational and wage information. Beginning with this survey, the Job Vacancy Survey will not be reporting at this level of detail but will still give the estimate of total job vacancies in the region to the same degree of accuracy as before, only faster.

A total of 1,244 employers, representing 42 percent of the region's total employment responded to the survey. Of these, 130 are government agencies, 63 are large employers and 1,051 are small to mid-size employers. The survey has a response rate of 97% percent. The margin of sampling error for the overall vacancy estimate is plus or minus 0.05 percent.

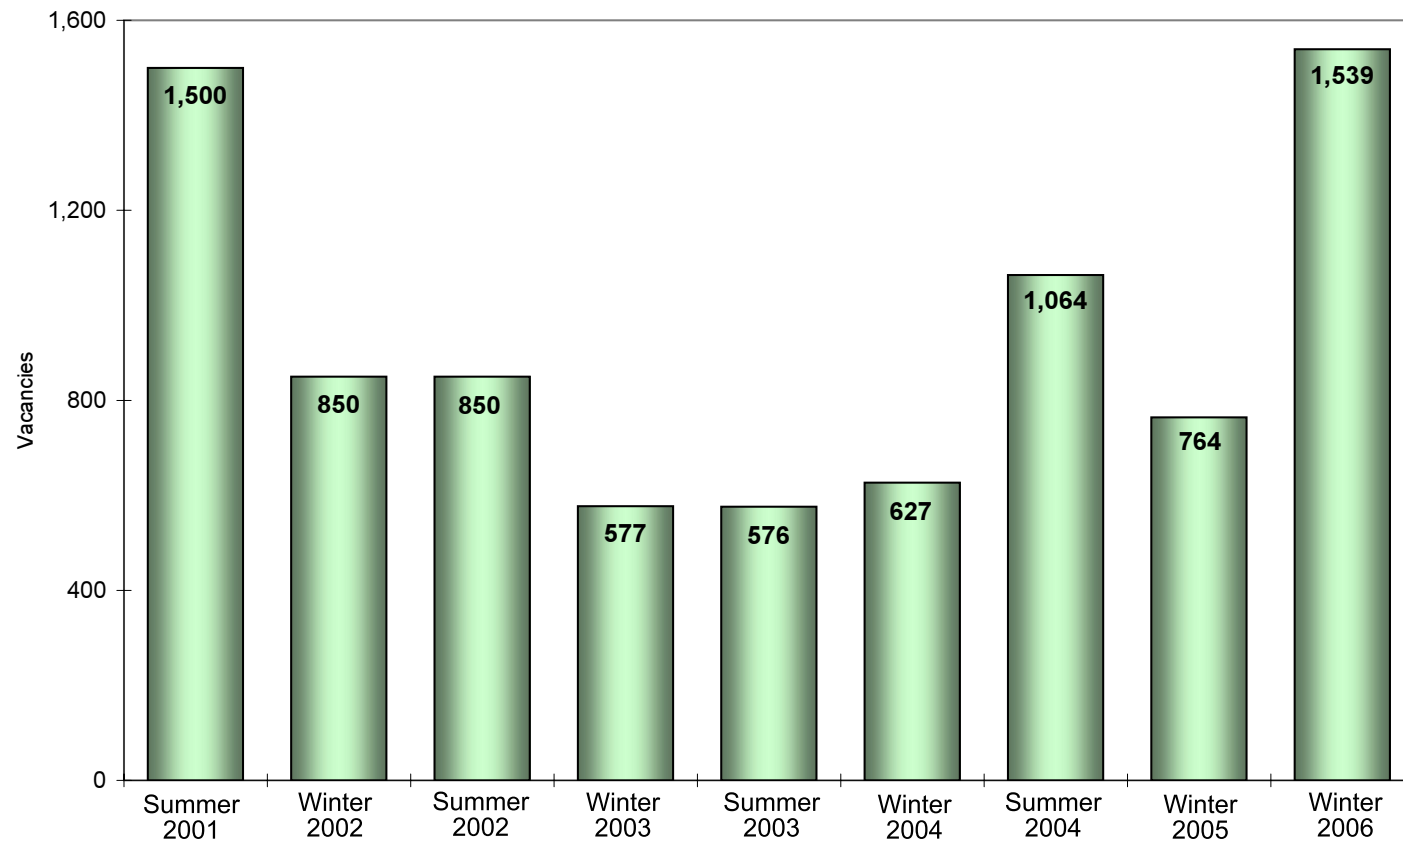

Job Vacancy Survey Regions

Findings of the Survey:

- ◆ An estimated 1,539 jobs were available for hire during the survey period, up from 764 vacancies a year ago.
- ◆ Trade, transportation, utilities and other services has the highest number of estimated vacancies (392), closely followed by leisure and hospitality (352).
- ◆ All groups of supersectors report more vacancies in this survey than a year ago.
- ◆ Small to mid-size companies provide the most vacancies with 914. However, since there are more small to mid-size firms, there are actually fewer vacancies per employer compared to large and government employers. There are more than seven vacancies per large private employer and more than one vacancy per government entity compared to an average of less than one vacancy per employer for small to mid-size firms.
- ◆ Twenty-one percent of surveyed employers reported at least one job vacancy.

Job Vacancies

	Summer 2001	Winter 2002	Summer 2002	Winter 2003	Summer 2003	Winter 2004	Summer 2004	Winter 2005	Winter 2006

Estimated Vacancies by NAICS Supersectors

The North American Industry Classification System (NAICS) classifies organizations into different industries based upon how the organization produces goods and services. The 20 NAICS sectors have been combined into six groups of supersectors for this survey as shown in the chart on this page.

Note:

Construction, manufacturing, natural resources and mining in this survey is the same as the goods-producing JVS sector in the previous surveys.

Trade, transportation, utilities and other services, which reported fewer than 150 vacancies in last year's survey, offers the most openings this year. Leisure and hospitality supplied the most job opportunities last winter. Construction, manufacturing, natural resources & mining and trade, transportation, utilities & other services report the biggest jumps in vacancies; from 23 to 276 and from 138 to 392. All groups of supersectors report more vacancies this survey compared to the last.

The above groups of supersectors include the following NAICS sectors:

- Educational Services
- Health Care & Social Assistance

- Agriculture, Forestry, Fishing & Hunting
- Mining
- Construction
- Manufacturing

- Public Administration

- Information
- Finance & Insurance
- Real Estate & Rental & Leasing
- Professional, Scientific & Technical Services
- Management of Companies & Enterprises
- Administrative & Support & Waste Management & Remediation Services

- Accommodation & Food Services
- Arts, Entertainment & Recreation

- Utilities
- Wholesale Trade
- Retail Trade
- Transportation & Warehousing
- Other Services (except Public Administration)

Estimated Vacancies by Employer Size

Employer Sizes:

Small to Mid-Size = Firms with less than 100 employees

Large = Firms with 100 or more employees
