The Pikes Peak Region Survey

The Winter 2006 Pikes Peak Region Job Vacancy Survey (JVS) was conducted from February 10th through the 27th, 2006. The goal of the survey is to provide current information on the demand for workers. This information can serve as input into the decision making process for employers, job seekers, economic developers, educators, and workforce centers in the region.

Over the survey period, all large and government employers as well as a random sample of private employers with five or more employees were contacted. Employers were asked if they were actively hiring, and the number of positions they were seeking to fill.

The Pikes Peak Job Vacancy Survey is conducted twice a year to provide frequent and useful analysis of the demand for labor. Previous surveys collected occupational and wage information. Beginning with this survey, the Job Vacancy Survey will not be reporting at this level of detail but will still give the estimate of total job vacancies in the region to the same degree of accuracy as before, only faster.

A total of 2,064 employers, representing 38 percent of the region's total employment responded to the survey. Of these, 93 are government agencies, 60 are large employers and 1,911 are small to mid-size employers. The survey has a response rate of 91 percent. The margin of sampling error for the overall vacancy estimate is plus or minus 0.06 percent.

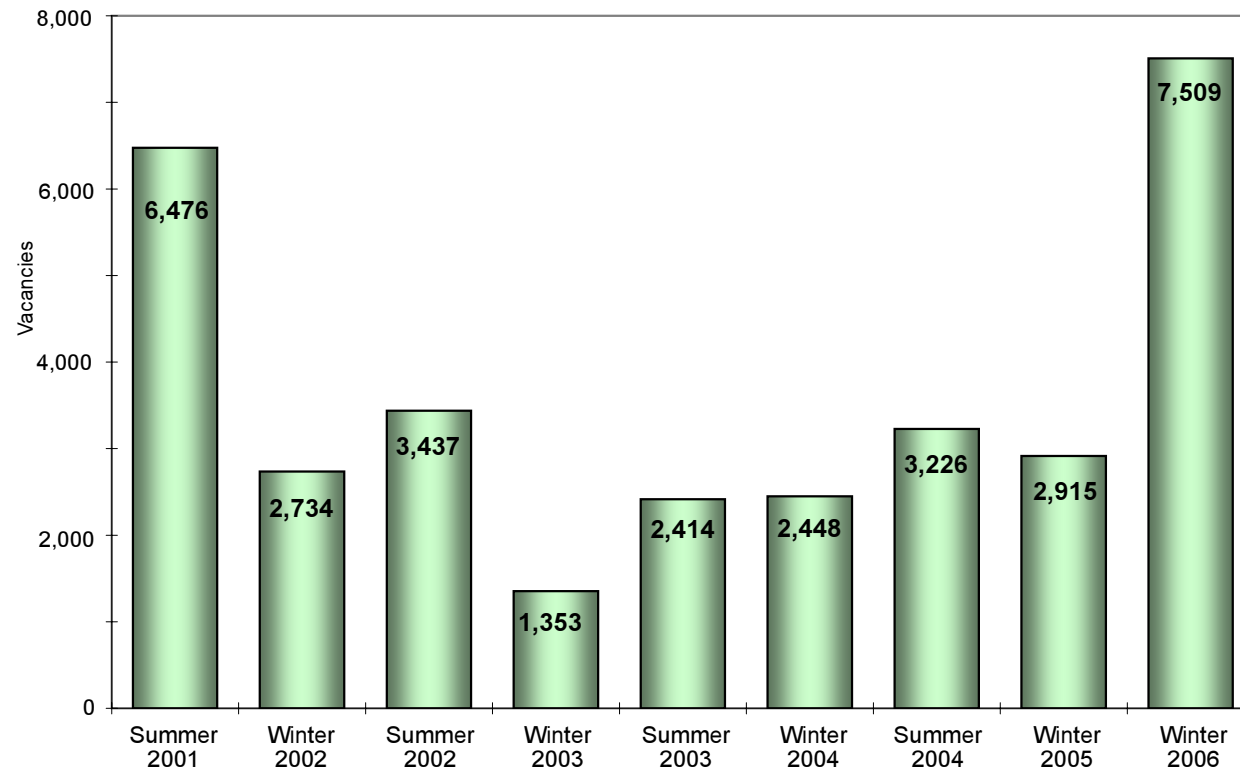

Job Vacancy Survey Regions

Findings of the Survey:

- ◆ An estimated 7,509 jobs were available for hire during the survey period, more than double the 2,915 vacancies found a year ago.
- ◆ Leisure and hospitality has the highest number of estimated vacancies (1,753), followed by trade, transportation and utilities (1,346) and health care and social assistance (1,151).
- ◆ All groups of supersectors report more vacancies in this survey than a year ago.
- ◆ Small to mid-size companies provide the most vacancies with 5,804. However, since there are more small to mid-size firms, there are actually fewer vacancies per employer compared to large and government employers. There are more than 22 vacancies per large private employer and four openings per government entity compared to an average of three vacancies per employer for small to mid-size firms.
- ◆ Twenty-six percent of surveyed employers reported at least one job vacancy.

Job Vacancies

Pikes Peak Region Employers and Employees, 1st Quarter 2005

Estimated Vacancies by NAICS Supersectors

The North American Industry Classification System (NAICS) classifies organizations into different industries based upon how the organization produces goods and services. The 20 NAICS sectors have been combined into twelve groups of supersectors for this survey as shown in the chart on this page.

Leisure and hospitality supplied the most job opportunities last winter and the most this survey. Health care and social assistance, which had fewer than 300 vacancies in last year's survey, offers the third most openings this year with 1,151. These two supersectors, along with trade, transportation and utilities, make up 57 percent of Pikes Peak's estimated vacancies. All groups of supersectors report more job openings this survey compared to the last.

Estimated Vacancies by Employer Size

Employer Sizes:

Small to Mid-Size = Firms with less than 250 employees

Large = Firms with 250 or more employees
