

Education Pays

Education and training can benefit workers in their careers. Typically, more education results in higher weekly earnings and lower unemployment rates.

2016 Median Annual Earnings in Colorado

Graduate or Professional degree	\$70,121
Bachelor's degree	\$51,676
Some college or Associate degree	\$35,406
High school graduate	\$29,969
Less than high school	\$21,839

Based on Population 25 years and over with earnings

Colorado Labor Market Information

Labor Market Information (LMI) in the Colorado Department of Labor and Employment collects and analyzes information about labor market trends throughout Colorado. Data are presented in a variety of ways: industry employment and wages, current and projected industry and occupation levels, occupation wages, and labor force employment and wages. LMI conducts various research projects and assists workforce centers and others with customized regional information requests.

Long-Term Training: 12 plus months training or combined work experience/formal classroom instruction

Start Using This Information

Are you:

- Trying to decide what kind of job or career you would like?
- Considering a change in your current career direction?
- Interested in exploring further education or training but need a goal in mind?

Then the labor market information in this brochure could be helpful to you!

There are two Colorado Careers brochures:

- Jobs Requiring Higher Education
- Jobs Requiring On-The-Job Training

Each brochure is divided into levels of education and training required for entry-level employment in the listed occupations. You will want to begin your career decision making process by evaluating your interests, skills, and experience. Next, you will want to consider the number of job opportunities likely to be available to you. That's where this brochure can help.

First, review the lists of growing occupations as you narrow down your potential job choices. Second, look at the wage figures. This information comes directly from Colorado businesses in the geographic locations specified on your brochure. Wage information is important because your wages can determine your lifestyle. Notice that increased education and training can strongly affect wages.
