SENATE BILL 09-247 REPORTING REQUIREMENTS

Senate Bill (SB) 09-247 required the Colorado Department of Labor and Employment to submit the following report by December 31, 2011, providing status on the:

- Total accumulated federal stimulus money expended as of November 30, 2011, addressing the expansion of unemployment insurance benefits alternative base period and separations due to compelling family reasons.
 - Title 8 of Article 72, Section 113 of the Colorado Revised Statutes.
- Enhancement of unemployment insurance benefits associated with an approved-training program and the resulting outcomes.
 - Title 8 of Article 73, Section 114 of the Colorado Revised Statutes.

This report complies with the requirements.

PART I. OVERVIEW AND SUMMARY

Public Law 111-5: The American Recovery and Reinvestment Act

On February 7, 2009, President Obama signed into law the American Recovery and Reinvestment Act (ARRA). The ARRA was to promote job growth and provide economic stimulus to a nation mired in recession.

Unemployment Insurance Modernization. One significant portion of the ARRA encouraged states to modernize state unemployment insurance laws by expanding the circumstances under which an individual could become eligible for unemployment compensation. The ARRA set aside a total of **\$7,000,000,000** in federal incentive funding to states to enact specified modernization provisions.

In order to receive modernization payments, a state must have enacted the implementation of an alternative base period for the calculation of unemployment insurance eligibility **and** adopted two of four other unemployment insurance-benefit-eligibility provisions. The four available provisions were to:

1. Allow eligibility for individuals seeking part-time work
2. Not disqualify an individual who became separated from employment due to any of the following compelling family reasons:
 - Domestic violence
 - Illness or disability of a family member
 - The need to accompany a spouse to a new place of employment
3. Allow the continuance of benefits for individuals who make satisfactory progress in a state approved-training program
4. Pay an additional dependents' allowance to individuals at a minimum of **\$15** per week per dependent

Upon passage of the alternative base period, a state would receive one-third of its allocated modernization incentive funding. If a state elected to enact two of four other provisions, the state would receive the remaining two-thirds of its allocation. However, to collect the remaining two-thirds of the allocated funding, a state must already have in place provisions allowing use of an alternative base period.

SENATE BILL 09-247 ANNUAL REPORT

State Extended Benefits. A second provision of the ARRA encouraged states to establish a period of extended unemployment insurance benefits to allow individuals to receive additional weeks of state benefits beyond the normal 26 weeks authorized by state law. In return for enacting a state-extended-benefits program, the federal government would change the federal reimbursement rate for benefits paid under this program from 50 percent to 100 percent for a specified timeframe.

Unemployment Insurance Administrative Funding. Another provision of the ARRA provided a special administrative transfer of **\$500,000,000** to all states' unemployment insurance trust funds. The administrative transfers were made regardless of whether a state qualifies for a modernization incentive funding for benefit expansion. Even though these federal dollars were deposited in state unemployment insurance trust funds, moneys can be used only for specified administrative purposes.

Colorado

In Colorado, SB 09-247 became law on July 1, 2009. In order to receive the first one-third of incentive funding available under the ARRA, this legislation established an alternative base period to determine unemployment insurance benefit eligibility. In order to receive the remaining two-thirds, the legislation authorized benefit payments for individuals who quit employment for certain compelling family reasons. Since Colorado already authorized benefits for individuals seeking part-time employment, the state was not required to enact further changes in order to receive its full share of federal incentive dollars.

Additionally, SB 09-247 also modified existing state-extended-benefits law to conform to federal ARRA requirements for full federal reimbursement of extended benefits paid by Colorado.

Colorado's total share of the unemployment insurance modernization funding equaled **\$127,469,762**, and its share of the special administrative transfer was **\$9,104,983**.

In addition, SB 09-247 also established an "enhanced unemployment insurance benefit" program that was not a part of the ARRA. Under the enhanced unemployment insurance benefit program, an individual is eligible to supplement additional unemployment insurance benefit payment by an amount equal to 50 percent of regular state unemployment insurance weekly benefit if the individual is preapproved to participate in a job-training program in renewable energy or other high-demand occupation.

Summary of Federal Funds Received and Expended Under SB 09-247. The tables below summarize the total federal dollars received and expended under the provisions of SB 09-247, as well as the number of unique individuals benefiting from this legislation. Additional information for these provisions is provided in subsequent sections of this report.

SENATE BILL 09-247 ANNUAL REPORT

FEDERAL DOLLARS RECEIVED AND ADMINISTRATIVE EXPENDITURES				
Federal Funding Description	Amount Received	Senate Bill 09-247 Appropriation	House Bill 10-1304 Appropriation	Total Expended Through 11/30/2011
Administrative Transfer - Modernization	\$9,104,983			\$9,104,983

Total	\$9,104,983	\$1,555,392	\$7,549,591	\$9,104,983

As of November 30, 2011, the Federal Funds allocated to Colorado Department of Labor and Employment in the amount of \$9,104,983 has been expended. The total \$9,104,983 was originally appropriated in two separate bills. The first was SB 09-247 for \$1,555,392 as detailed above. The second was HB 10-1304 which appropriated the remaining \$7,549,591 to support the ongoing heavy workload in the Unemployment Insurance Program. The appropriation of \$500,000 in SB 09-247 did not comply with the U.S. Department of Labor's parameters for the use of funds. The funds were reappropriated for Program Costs in Senate Bill 11-209, and the total amount has been expended.

Federal Policy

Based on the requirements of the ARRA, the U.S. Department of Labor provides state unemployment insurance programs with implementation requirements via Unemployment Insurance Program Letters (UIPLs). The Colorado Unemployment Insurance Program then determines what steps must be taken to properly identify, implement, and administer programs and initiatives funded under the ARRA. The U.S. Department of Labor issued the following UIPs related to the ARRA:

- **UIPL 12-09, Extended Benefits Program–Temporary Changes Made by the Assistance for Unemployed Workers and Struggling Families Act.** This UIP and its subsequent change advises state unemployment insurance programs of temporary changes to the permanent federal-state extended-benefits program.
- **UIPL 14-09, Special Transfers for Unemployment Compensation Modernization and Administration and Relief from Interest on Advances.** This UIP and its subsequent changes advises state unemployment insurance programs of unemployment insurance modernization incentive payments, special administrative transfers, and relief from interest on advances to state unemployment funds.

PART II. EXPANSION OF UNEMPLOYMENT INSURANCE BENEFITS

Based on the provisions of the ARRA and guidance provided in UIP 14-09, SB 09-247 was introduced and passed, which enabled the Colorado Unemployment Insurance Program to apply for and receive additional ARRA funds (unemployment insurance modernization incentive payments). Colorado was awarded a total of **\$127,469,762** in federal unemployment insurance modernization incentive payments.

Because of establishing an alternative base period, the Unemployment Insurance Program received one-third of the unemployment insurance modernization funds (**\$42,489,921**) on September 10, 2009. Because of establishing provisions related to paying benefits for certain compelling family reasons and clarifying, by rule, benefit eligibility for part-time workers, the Unemployment Insurance Program received the remaining two-thirds of the unemployment insurance modernization funds (**\$84,979,841**) on October 19, 2009.

SB 09-247 authorized the Unemployment Insurance Program to expend up to **\$1,555,392** for state extended-benefit implementation and for outreach to unemployed workers, with emphasis on traditionally underserved populations, to inform them of the availability of enhanced unemployment benefits.

The Unemployment Insurance Program implemented the following programs because of SB 09-247, either through the receipt of unemployment insurance modernization funds or as federally funded programs, such as state extended benefits. Colorado modified its statutes and regulations to include qualifying provisions to make unemployment insurance benefits payable to individuals who:

- Have not earned sufficient wages in insured work during the standard base period to qualify for unemployment insurance benefits (use of an alternative base period).
- Separate from a job because of specific compelling family reasons.

Alternative Base Period

SB 09-247 created an alternative base period for an unemployed individual who has not earned sufficient wages in insured work during the standard base period to qualify for unemployment insurance benefits. To determine monetary eligibility for unemployment compensation using the standard base period, the Unemployment Insurance Program calculates an individual's wages earned in four previous calendar quarters, not including the current calendar quarter or the most recently completed calendar quarter. Under this calculation, older wages, instead of the individual's most recent wages, are used to determine unemployment insurance benefit eligibility. Occasionally, this results in an individual being deemed ineligible for benefits simply because the individual has not earned enough wages during the designated standard base period.

Because of SB 09-247, if an individual does not qualify using the standard base period, the Unemployment Insurance Program can use the alternative base period to determine that individual's monetary eligibility for unemployment insurance benefits.

As of November 30, 2011, **10,247** individuals have received **\$12,250,780** in benefit payments using the alternative base period.

Compelling Family Reasons

SB 09-247 also modified Colorado statutes to allow the payment of unemployment insurance benefits when an individual separates from a job for the following compelling family reasons:

- **Domestic Violence.** The individual must meet specific requirements, including reasonably believing that continued employment jeopardizes the individual's safety or that of the individual's immediate family or providing documentation of the domestic violence.
- **Relocate to Accompany a Spouse.** To relocate in order to accompany a spouse because the spouse's location of employment has changed. Benefits are dependent upon the individual's being unable to practically commute to the individual's current job from the new place of residence and upon the individual's being available for suitable work upon arrival at the new place of residence.

- **Care for an Immediate Family Member.** To care for an ill or disabled immediate family member who requires care for a period longer than allowed under the individual's employer's medical leave of absence policy or the federal Family and Medical Leave Act of 1993.

As of November 30, 2011, **372** individuals received **\$341,270.43** in benefit payments for a separation related to domestic violence. A total of **1,625** individuals received **\$3,630,916.32** in benefit payments for a separation related to a change in spouse's employment location. Additionally, **1,552** individuals received **\$1,641,525.70** in benefits for a separation related to caring for an immediate family member.

State Extended Benefits

The ARRA and UIPL 12-09 encouraged state unemployment insurance programs to enact an optional total unemployment rate trigger for state extended benefits. For states who adopted the new provision, the federal government would pay 100 percent of the benefit costs. SB 09-247 enacted the optional total unemployment rate trigger and authorized the Colorado Department of Labor and Employment to expend **\$1,055,392** from the administrative special transfer fund to implement state extended benefits.

During periods of high unemployment, state extended benefits provides up to 20 additional weeks of benefits to individuals who have exhausted all regular unemployment insurance and federal emergency unemployment compensation benefits. State extended benefits become available when the total unemployment rate, averaged over three months, reaches the following levels.

- If the average total unemployment rate reaches 6.5 percent, up to 13 weeks of state extended benefits may be paid to the unemployed individual.
- If the average total unemployment rate reaches 8 percent, up to 20 weeks of state extended benefits may be paid to the unemployed individual.

As of November 30, 2011, **121,771** individuals received state extended benefits for a total amount of **\$409,600,336.86**.

PART III. ADMINISTRATIVE FUNDING AND EXPENDITURES

The Colorado Department of Labor and Employment received an administrative transfer of **\$9,104,983** on March 2, 2009, from the federal government for certain administrative activities.

Allowable expenditures include:

- Improved outreach to individuals who may benefit from unemployment insurance modernization.
- Improved operations for unemployment insurance benefit and tax functions.

SENATE BILL 09-247 ANNUAL REPORT

- Staff-assisted reemployment services for unemployment insurance claimants.
- Implementation and administration of the provisions of state law that qualify the state for the modernization incentive payments.

SB 09-247 authorized the Unemployment Insurance Program to expend up to **\$1,555,392** for state-extended-benefit implementation and for outreach to unemployed workers, with emphasis on traditionally underserved populations, to inform them of the availability of enhanced unemployment benefits.

PART IV. ENHANCED UNEMPLOYMENT INSURANCE BENEFITS—APPROVED TRAINING

SB 09-247 established the Enhanced Unemployment Insurance Benefits Program, which allows unemployment insurance benefits to be paid to individuals who make satisfactory progress in a state approved-training program. SB 09-247 provides **\$15,000,000** for state fiscal years 2009-2010 through 2011-2012 for individuals enrolled and making satisfactory progress in an approved-training program. The total enhanced unemployment insurance benefit amount equals up to 20 weeks of benefits on the individual's regular unemployment insurance claim or 40 percent of the maximum benefit amount on the individual's regular claim, whichever is less.

As of November 30, 2011, **2,513** individuals were approved to receive enhanced unemployment insurance benefits and job-training program with total expenditures of **\$5,801,598**.
