LABOR MARKET INFORMATION SECTION  
WILLIAM LAGRANGE, DIRECTOR

LABOR MARKET INFORMATION-ES202  
TOWER 2 SUITE 300  
1515 ARAPAHOE STREET  
DENVER, COLORADO 80202-2117  
303-318-8863

This report, published each quarter, is a compilation of employment and wage data from the Colorado ES202 program. The information is compiled from reports submitted to the Colorado Department of Labor & Employment by employers subject to the Unemployment Insurance tax law under the Colorado Employment Security Act. Also, included in this report are employment and wage data for federal government employees in Colorado.

**This issue of *Colorado Employment and Wages* contains the first quarter of data published under the North American Industrial Classification System. Historical time series data is not available.**

Employment and wage information is compiled by county and industry for private business and government. Some data items are not available for public disclosure in accordance with U.S. Department of Labor guidelines.

The publication of this data is delayed because of time constraints imposed by the filing of the Unemployment Insurance Tax Report that is not due until 30 days following the end of the quarter. Posting, processing, editing and writing add an additional six months to the wait time.

This publication is now available on the internet at:

## ALL INDUSTRIES

Colorado employment at 2,193,127 in first quarter 2001 fell from the fourth quarter 2000 level by 28,261 employees. While decreases in employment generally occur in first quarter this loss is more than double what is normally anticipated. Typically, losses are seasonal with the growing season at its end, the Christmas buying season past and tourism down. Retail and Construction sustained heavier than normal seasonal losses. Temporary help, computer services and research and development activities slowed over the quarter. Decreases in banking employment due to accounting revisions, the conversion of insurance sales representatives to independent contractors and cutbacks in the communications industry also affected first quarter employment levels.

*AG, FORESTRY, FISHING & HUNTING*  
*(11)*

Employment in this industry was splintered with two of the largest sectors under SIC moving to newly defined sectors under NAICS. Lawn & Garden Services, which covers lawn mowing and fertilizing services, is now reported in ADMIN AND WASTE SERVICES (56), specifically Admin & Support Services (561). About 8000 employees were moved into the new category. The other large chunk of employment covering Veterinary Services is now a part of PROFESSIONAL/TECHNICAL SVS (54), transferring about 5000. Another 800 employees involved in the provision of pet care, not veterinary related, were moved to OTHER SERVICES (81).

Taking the businesses that are now coded on the file in AG, FORESTRY, FISHING & HUNTING and projecting them back a quarter resulted in a current quarter decline of 1632 employees for a loss of 11.9%. Crop Production (111) down 1247 suffered the largest loss with employment in Vegetable and Melon Farming constituting the greatest share of the loss. Losses were seasonal following the end of harvest and market shipping. Ag and Forestry Support (115) fell by 254 due to the seasonal downturn in demand for farm labor and crop services such as spraying.

## *MINING*

### *(21)*

Under the SIC system Mining had averaged 12,928 employees in 4Q2000. Most of the employment remained in this sector, also titled MINING. About 500 were reclassified to Geophysical Surveying & Mapping Services within PROFESSIONAL/TECHNICAL SVS (54) and 100 to CONSTRUCTION (23).

Taking the current codes back in time, MINING employment increased 1.4% adding 170 employees. Mining Support Activities (213), which includes contract drilling, rose by 196. Heavy gains realized this quarter due to increased energy prices were offset by losses in Mining Except Oil & Gas (212). Losses of 193 in Mining Except Oil & Gas were somewhat seasonal declining as a result of weather related slowdowns in stone quarrying and sand and gravel processing.

## *UTILITIES*

(22)

This new industry is comprised mainly of businesses formerly classified in the SIC system under Transportation, Communication and Public Utilities in Electric, Gas and Sanitary Services (49). Employment in Electric, Gas and Sanitary Services was 14,036 in fourth quarter 2000. The SIC subsectors Refuse Systems (4953) and Sanitary Services Not Elsewhere Classified (4959) covering almost 5100 employees were not part of the move to this industry, moving instead to the new industry ADMIN and WASTE SERVICES. The SIC subsector Natural Gas Transmission (4922) with 115 employees moved to the NAICS industry TRANSPORT & WAREHOUSING.

Between fourth quarter 2000 and this quarter UTILITIES dropped by 60 employees. Acquisition of one company with many Colorado locations resulted in layoffs of about 60 as the new owner streamlined operations. About 24 employees were moved into Local Government with the reclassification of an Indian establishment from private enterprise. Minor expansions mitigated losses.

## *CONSTRUCTION*

*(23)*

Overall, the Construction industry remained relatively similar in the SIC to NAICS conversion. Construction management, which had been classified in Management Consulting Services (8742) under the Services industry in SIC, is now a part of this new industry. The fourth quarter average monthly employment for SIC construction was 164,835. The monthly employment average for this quarter is 168,156. Coding changes moved approximately 625 employees out of the Construction field in January. About 442 were added to Heavy Construction and 977 moved out of General Building.

Taking the industry code for each employer in CONSTRUCTION in first quarter 2001 and assigning it to the same account for fourth quarter 2000 resulted in an employment decline over the quarter. Employment is down 7656 employees a drop of 4.6%. The largest loss occurred in Specialty Trade Contractors down 4942 employees. Losses between fourth quarter and first quarter are typical due to weather, but this drop is substantial. Most of the loss, 3344, occurred in the Balance of State. Of that, 517 occurred in Boulder County, possibly related to the completion of projects surrounding the new Flatiron Crossing Mall and cessation of projects in Interlocken Park.

## *MANUFACTURING*

### *(31)*

For the most part Manufacturing employment under NAICS is similar to the SIC structure. Some changes are the movement of publishing to INFORMATION and the movement of auxiliary units to a designation that identifies their actual function. An example would be a business that has only their warehouse or administrative operations in Colorado. Under the SIC system the Colorado operation would have been coded in the specific industry but under NAICS the business would be coded in TRANSPORT & WAREHOUSING or MANAGEMENT OF COMPANIES.

Taking a snapshot of Colorado MANUFACTURING, applying the current codes to fourth quarter 2000 data and measuring the change gives a picture of decline. Employment fell by 3384 for a quarterly drop of 1.8%. All but one of the 21 sectors lost employment. The largest loss occurred in Food Manufacturing (311) down 518. The employment drop in Food Manufacturing was seasonal related to the end of the sugar beet processing cycle and cutbacks in candy making following the holiday season. Small increases in a number of firms in Beverage & Tobacco Mfg (312) generated the only growth in the industry, rising by 71. Gains were strictly beverage related as there is no tobacco production in Colorado.

## *WHOLESALE TRADE*

*(42)*

Most of the employees reported in Wholesale Trade in the SIC system remained within WHOLESALE TRADE under NAICS. About 4500 employees were moved to RETAIL TRADE, and 400 to MANUFACTURING. Under NAICS auxiliary units are now coded based on the activity they perform rather than the activity of the company. Some previously coded Wholesale businesses are now coded by their function moving them into the new industries TRANSPORT & WAREHOUSE and MANAGEMENT OF COMPANIES.

Applying NAICS codes to fourth quarter for businesses currently classified in WHOLESALE TRADE resulted in a picture of decline this quarter. Employment fell by 710 for a quarterly loss of 0.7%. The majority of the loss occurred in Nondurable Goods. Seasonal cutbacks in produce packing and sorting generated many layoffs. Within Durable Goods seasonal slowing in construction related supply affected its decline.

## *RETAIL TRADE*

*(44)*

The most notable change in RETAIL TRADE was the breakout of Eating & Drinking under SIC to the new NAICS industry ACCOMMODATION & FOOD SERVICE. Approximately 162,000 employees were moved, paring down an industry that topped 420,000. Identification of a number of establishments or units providing specialized service strictly to its company such as warehousing, management or accounting contributed to the movement of about 5200 to the new industry TRANSPORT & WAREHOUSING and another 5200 to MANAGEMENT OF COMPANIES.

Taking the NAICS code for each business this quarter, applying it to fourth quarter data and comparing changes showed a decline of 11,763 employees in RETAIL TRADE over the quarter, a drop of 4.6%. Typically, retail activity and employment decline in first quarter following heavy Christmas buying. The 4.6% change is higher than under SIC but the stability of restaurant activity and corporate office staffing, which has been removed, lends more volatility to this new industry. All sectors within the industry registered employment losses with General Merchandise (452) leading the way, dropping by more than 4700. Approximately 350 of the decline in General Merchandise was caused by closure of a large department store chain.

## *TRANSPORT & WAREHOUSING*

(48)

TRANSPORT & WAREHOUSING is a new industry comprised of businesses formerly classified in the transportation section of the SIC industry Transportation, Communication and Public Utilities (TCPU). Employment in this new industry also includes auxiliary units engaged in trucking and or warehousing, formerly classified under the main SIC code of the operating business. One large employer with about 480 employees was reclassified to ADMIN & WASTE SERVICES in January.

Comparing the data using this quarter's NAICS codes and applying them to fourth quarter data reflects an employment loss of about 1900 resulting in a decline of 2.8% over the quarter. Truck Transportation fell by 1138 employees and Couriers & Messengers fell by 1019. Both employment losses were seasonal falling after heavy demand for holiday delivery abated. Transit & Passenger Ground Transportation seasonally advanced by 371, as did Air Transportation up 229. Warehousing & Storage, a new sector created in large part from auxiliary units, registered an employment level of 9281. Self-storage is classified in REAL ESTATE.

## *INFORMATION*

*(51)*

This new industry is a conglomeration of businesses brought together from Printing-Publishing, Communication, Business Services, Motion Pictures, Amusement & Recreation and Educational Services under the SIC system. Businesses classified into this NAICS industry, INFORMATION, are engaged in producing and distributing information and cultural products and providing the means to transmit or distribute these products as well as data or communications. Businesses that process data are also classified here.

Comparing this quarter to last quarter by applying the same codes presently assigned to a business results in INFORMATION rising by 2137 employees. The numbers, however, are misleading, as the application of codes to fourth quarter data are negated by predecessor/ successor actions tied to new multiple worksite breakouts. Nearly 1100 employees were involved in this action.

## *FINANCE & INSURANCE*

(52)

FINANCE & INSURANCE is basically a breakout from the SIC industry Finance, Insurance & Real Estate (FIRE). Businesses found in this classification are involved in taking deposits, issuing securities, underwriting insurance and annuities and providing specialized services that support financial intermediation, insurance and employees benefit programs. Pawnshops, formerly classified in Retail Trade, Misc Retail, under the SIC system can now be found in this industry.

Applying NAICS codes to fourth quarter data for business currently classified in this industry and comparing this quarter to fourth quarter shows a gain of 146 or 0.1% in FINANCE & INSURANCE. Reporting changes by one large banking firm resulted in a drop of 230. Losses were offset by gains in mortgage banking and other credit lending institutions resulting in an overall increase of 216 in Credit Intermediation & Related Activity. Insurance Carriers & Related Activity reported a loss of 84 due to the reassignment of insurance agents as employees to independent contractors.

## *REAL ESTATE, RENTAL, & LEASING*

(53)

This new industry is comprised of businesses involved in rental and leasing and related services. Employment in this industry is derived from the real estate sector in SIC in the Finance, Insurance & Real Estate (FIRE) industry, which covered real estate rental, leasing, buying, selling and managing. Employment also comes from a number of sectors in the SIC industry, Services. Business performing rental services for products such as vehicles, videos, appliances, electronics, recreational goods, medical equipment and self-storage are classified here. Oil and gas royalty lessors and patent owners formerly in FIRE are also in this classification.

REAL ESTATE, RENTAL & LEASING reported employment increases of 786, a gain of 1.7% over fourth quarter 2000. Employment numbers for comparison purposes were established by applying this quarter's NAICS code to last quarter's employment. Quarterly gains appear to be seasonal, advancing in the rental of recreational gear and property management. Both business focuses are influenced by the ski industry.

## *PROFESSIONAL/TECHNICAL SERVICES*

(54)

The PROFESSIONAL/TECHNICAL SERVICES industry is comprised of business that specialize in activities that require a high degree of expertise and training in performing professional, scientific and technical services. This industry covers a wide range of activities such as: medical advice, legal advice, research & development, accounting, bookkeeping, computer, veterinary, advertising, photographic, translation, design and engineering services. Employment had been classified in the SIC industries Agriculture, Wholesale, FIRE and Services.

Employment in this industry fell from fourth quarter dropping by 668. Assigning first quarter NAICS codes to fourth quarter data enabled a comparison. However, glitches in the back-coding process involving predecessor/successor actions tied to new multiple worksite reporters results in misleading numbers. Definitively, employment was added for tax preparation and engineering services. Employment losses of undetermined amount were shown in computer services and research & development.

*MANAGEMENT OF COMPANIES*  
(55)

Establishments that perform essential in-house activities such as administering, managing and overseeing other establishments of the company and/or hold the securities for the purpose of controlling or influencing management decisions will be found in this new NAICS industry. Many units previously classified as a central administrative, corporate, district, or regional management offices are now classified here. Establishments involved in day-to-day office services such as billing, record keeping and personnel can be found in the industry, ADMIN & WASTE SERVICES.

Applying NAICS codes from this quarter to last quarter's data and comparing the data, showed first quarter 2001 with an employment gain of 402 or 2.3%. While this increase was defined solely by expansions in Corporate, Subsidiary & Regional Managing Offices, a portion of the increase can be attributed to realignment of employment from other worksites related to the establishments classified here.

*ADMINISTRATIVE, SUPPORT, WASTE & REMEDIATION SERVICES*  
(56)

This new industry is a conglomeration of activities that include: office administration, temporary help and job placement, clerical services, document preparation, travel agencies, telemarketing, collection, security and surveillance services, lawn mowing and fertilizing, janitorial and disposal services. Most of the 136,491 employees came from the Agriculture, Services and TCPU industries in the SIC system.

A comparison of first quarter 2001 to fourth quarter 2000, after applying current codes to historical data shows an industry employment decline of 11,731 or 7.9%. Almost all of the loss occurred in Admin & Support Services. Nearly 825 of the loss were a problem with predecessor/successor actions tied to new worksite breakouts in the back-coding application. More than 7000 of the loss resulted from declines in temporary help services and about 2800 were seasonal losses in lawn services.

*EDUCATIONAL SERVICES*  
*(61)*

Establishments in this industry provide instruction and training in a wide variety of subjects. Employment is derived mainly from Educational Services in the Service industry under the SIC system. Other activities that are classified here and had also been in Services are cosmetology and barber schools, dance studios, sport and recreation instruction and education related consulting.

Comparing this quarter's employment to fourth quarter 2000 by applying the NAICS code to past data resulted in employment remaining the same. Within the industry, though, private colleges, universities and professional schools declined due to holiday closures and sports and recreation instruction seasonally increased.

## *HEALTH CARE & SOCIAL ASSISTANCE*

(62)

The new industry HEALTH CARE & SOCIAL ASSISTANCE is essentially a merger of employment formerly reported in the SIC system in Health Services (80) and Social Services (83). This industry also includes some employment from TCPU for air and road ambulance service.

After applying NAICS codes to fourth quarter employment data, from accounts active in this industry this quarter and making comparisons, the industry reported a gain of 1249 up 0.7%. Increased staffing at numerous hospitals generated more than half of the industry gain. Temporary increases in child day care and individual and family services within Social Assistance also contributed to the rise. Some losses due to fluctuations in home health care cut into industry gains.

## *ARTS, ENTERTAINMENT & RECREATION*

*(71)*

This industry includes establishments that operate facilities or provide services for cultural, entertainment and recreational interests. Live presentations of music, dance, singing or spectator sporting events, amusement parks, casinos, golf courses, skiing facilities and fitness centers are some of the activities classified here. Employment for this industry came primarily from Amusement & Recreation Services within the Services industry under the SIC system. Many formerly classified in Misc Services also in the SIC Services industry as independent artists, authors or related technical specialists will be found here. Motion picture theatres, which provide a form of entertainment, are classified in the industry, INFORMATION, in the Motion Picture Industries sector.

Using this quarter's NAICS code and applying it to an establishment's fourth quarter data created a picture of employment growth for the ARTS, ENTERTAINMENT & RECREATION industry. Employment rose 9.5% adding 3909 over the quarter. Most of the growth was in the Gambling, Recreation, Amusement sector and related to high season for the ski industry. Seasonal losses occurred at golf courses and country clubs and amusement parks. Casinos reported an employment decline due in part to the movement of about 720 from private industry to Local Government.

## *ACCOMMODATION & FOOD SERVICES*

(72)

The ACCOMMODATION & FOOD SERVICES industry is comprised of business providing long or short-term lodging and meals, snacks and beverages. Lodging establishments are classified here even if the provision of complimentary services generates more revenue as in casino and ski hotels. Employment in this industry is derived from Eating & Drinking in Retail and Hotels & Lodging in Services under the SIC system.

Employment in this industry rose from last quarter by 0.4% adding 752. These statistics were made available by taking this quarter's employers and NAICS codes and applying the codes to last quarter's data. Slightly more than half of the employment gain occurred in Accommodation due to seasonal hiring for ski hotels. All of the employment gain in Food Service & Drinking took place outside Denver Metro primarily in counties involved in skiing.

## *OTHER SERVICES*

*(81)*

OTHER SERVICES contains a wide variety of activities coming from three SIC industries. Establishments in this industry are engaged in activities covering car repair, shoe repair, electronics repair, appliance and computer repair, religious activities, grant making, drycleaning and laundry services, hair salons, weight reduction centers, funeral homes, pet care services, photofinishing, bail bonding, parking services, membership organizations and private households. The SIC industries that feed into this new NAICS industry are FIRE, Agriculture and Services. Businesses that rebuild or remanufacture machinery and equipment, retail establishments that provide after-sale services and repair and repair of transportation equipment are classified in other industries.

Comparing this quarter's employment to fourth quarter by applying this quarter's NAICS codes to historical data resulted in a picture of increased employment in the OTHER SERVICES industry. Employment increased by 618 or 0.9%. Repair & Maintenance seasonally increased with gains occurring primarily in car washes. Membership Assn & Organizations grew due to a large January increase for the National Western Stockshow & Rodeo and some seasonal staffing for homeowner associations in the ski counties.

## *GOVERNMENT*

This industry is basically unchanged from its structure in the SIC system. The only difference is the movement of about 1600 employees in Native American owned businesses to Local Government from a variety of private industry SIC codes.

GOVERNMENT employment rose by 1768 a 0.6% increase over fourth quarter 2000. Local Government gained 3136 employees over the course of the quarter. About 1600 of the gain was due to employees moving into the sector from private industry. The bulk of the remaining increase occurred in education. State government employment fell by 638. Decreases were due to seasonal January closures of institutions of higher education. Employment in Federal government fell by 730. Seasonal cutbacks following heavy demand for Christmas mailing at the Postal Services caused employment to drop. Cutbacks at the Bureau of Reclamation also contributed to some of the employment loss in Federal government.

D - Not Disclosable due to Colorado Employment Security Act and BLS guidelines

\* - Wages in Size Class 0 may be result of severance pay or bonuses in establishments which were sold or closed during the quarter.

## *DEFINITIONS*

### AVERAGE QUARTERLY EMPLOYMENT (AQE)

AQE is the addition of the three months of employment divided by three.

### AVERAGE QUARTERLY WAGES (AQW)

AQW is derived from the division of gross wages by the average quarterly employment.

### AVERAGE WEEKLY WAGES (AWW)

AWW is derived from the division of AQW by thirteen (the average number of weeks each quarter).

### BALANCE OF STATE (BOS)

BOS includes all counties in the state excepting those that comprise Metro Denver.

### COVERED EMPLOYER

A covered employer is an employer who is required to pay unemployment insurance because of meeting any of the following criteria:

1. Employ one worker at any time
2. Acquire all or a substantial portion of a covered employer
3. Is subject to the Federal Unemployment Tax Act
4. Is a non-profit organization and has four or more employees for 20 weeks during the calendar year
5. Is a State agency, State operated hospital or school of higher education or a political subdivision
6. Is and employer of agricultural labor and pay \$20,000 or more in any one quarter of a calendar year or employ 10 workers for 20 weeks during the year
7. Pay cash wages of \$1000 or more in any calendar year for domestic help in a private home

The following are specific exclusions from coverage:

1. Agriculture employment not defined above.
2. Sole proprietors
3. Railroad workers
4. Children under 21 in the employ of a parent
5. Elected officials
6. Students or inmate workers
7. Commissioned real estate, insurance and direct seller salespeople
8. Drivers of taxis or limousines under a contract or lease with a taxi or limousine motor common carrier
9. Church employees
10. Work relief program participants

### DISCLOSURE RESTRICTIONS

Publication of employment and wage data is withheld for any 2-digit subsector, which consists of fewer than three reporting units or in which a single unit accounts for 80 percent or more of an industry's employment. In the event that only one 2-digit subsector is restricted the next smallest 2-digit subsector (by number of units) will also be restricted to allow disclosure of total industry information. A "D" in the data tables indicates restricted data.

## EMPLOYMENT

The number of covered workers who earned wages during the pay period that includes the 12<sup>th</sup> of the month. Workers on the payroll of more than one firm during the period are counted each time they are reported.

## ES202

The ES202 is a statistical report summarizing employment, gross wage, taxable wage and contribution information for employers subject to State unemployment insurance laws under the Colorado Employment Security Act. The report also includes employment and wage information for Federal civilian workers covered by UCFE.

## GROSS WAGES

As reported on the Unemployment Insurance Tax Report, gross wages are the total amount of compensation paid by the employer during the quarter.

## METRO DENVER

Metropolitan Denver consists of the following counties: Adams, Arapahoe, Denver, Douglas and Jefferson.

## NAICS (NORTH AMERICAN INDUSTRIAL CLASSIFICATION SYSTEM)

A six-digit industrial classification system used to describe the nature of a business. This system will replace the SIC in 2002.

## SIC (STANDARD INDUSTRIAL CLASSIFICATION)

Each business is assigned a four-digit SIC code that describes the nature of the business in accordance with the Standard Industrial Classification Manual, 1987.

## SIZE CLASS

Units are categorized by the number of employees working in the third month of each quarter.

## UNIT

A unit is an establishment, generally at a single physical location, where business is conducted or where services or industrial operations are performed.
