For third quarter of 2015, the total absorption was 149 units. Absorption is the net change in the number of apartment units rented in the current time period (quarter/year) compared to the previous time period (quarter/year).

❑ OVERALL COMMENTS

The third quarter of 2017 saw the addition of 711 units to the inventory, as compared to a total of 108 in third quarter 2016. For all of 2016 there were a total of 528 new additions and for 2015, 753. For all of 2014 there were 716 new additions. For 2013 there were 568 additions. 2012 was the first year of significant inventory additions since 2009 (299), and the most since 2003 (1449), which represented a historic high during a prior economic cycle. With a limited number of new additions the prior two years, a somewhat lowering of the unemployment rate, continued immigration, and an increase in metro area natural population, a continued low vacancy rate this quarter was expected. Historically there is a downward movement in the vacancy rate during the second and third quarters of the year, which we have seen again in 2017. The overall average rent for the last ten years has increased from around \$660.00 in 2002 to \$1,133.23 this quarter.

The Colorado Springs Area Apartment Vacancy and Rent Survey reports median and average rates, and, as a result, there are often differences in rental rates and vacancy rates by apartment type, size, location, and age of building/complex. All information is based on data received for the month of September, except for resident turnover and rental losses, which is for August.

This survey is conducted via online submissions. It includes only those units with a certificate of occupancy. This quarter's Survey includes information on 22,150 apartment units. The Survey is possible because of the excellent participation and help of professionals in the apartment industry and the consistent support of the Survey sponsors. Comments on the Survey are welcome at VonStrohHousingSurvey@gmail.com

REPORT METHODOLOGY

The purpose of the Colorado Springs Metropolitan Area Apartment Vacancy and Rental Survey is to show vacancy and rental rates by type of apartment (efficiency; one bedroom; two bedroom, one bath; two bedroom, two bath; three bedroom; other; and totals) and by location, age, size of unit, and size of building. The Survey includes all multi-family rental, two units and up.

The survey covers seven market areas: northwest; northeast; far northeast; southeast; Security/Widefield/Fountain; southwest; and central.

The boundaries for the Colorado Springs Metropolitan Area are:

- Northwest: on the east, I-25 and on the south, Cimarron Street, Eighth Street and Lower Gold Camp Road;
- Northeast: on the west and southwest, I-25, Nevada Avenue, Austin Bluffs Parkway, Union Blvd., and Circle Drive and on the south, Platte Avenue; on the north, northeast, and east, Academy Boulevard;
- Far Northeast: on the west and northwest, Academy Boulevard and I-25; on the south, Platte Avenue;
- Southeast: on the north, Platte Avenue, on the west, Circle Drive and I-25 and on the south, Drennan Road;

- Security/Widefield/Fountain: on the north, Drennan Road and on the west, I-25;
- Southwest: on the east, I-25 and on the north and west, Cimarron Street, Eighth Street, and Lower Gold Camp Road; and
- Central: on the north and east, Austin Bluffs Parkway, Union Blvd, Circle Drive and on the south and west, Circle Drive and I-25.

Market area reports are labeled by one of the above seven market areas. With the reports for each market area, the following format is used for each type of apartment by rent level:

9 = number of units vacant (first figure)
 194 = total number of units reporting (second figure)
 4.6% = vacancy rate (third figure)

When no figures are shown, no apartments of that specific size and rent level were reported. With the summary tables, there may be no data or there may be only a limited number of complexes and disclosing the information would reduce confidentiality. All vacancy and rental rates are as of the 10th of February for the first quarter, 10th of June for the second quarter, 10th of September of the third quarter and the 10th of December for the fourth quarter. The data for resident turnover is from the respective months of February, May, August and November. The market samples are based on the assumption that the rates were for unfurnished rental units with tenants paying electricity and gas. Apartment complex/building lists were developed from official lists. Returned survey forms were checked for completeness, then coded and entered into the computer for processing. Tabulations are performed by the use of a computerized program. The cumulative totals have a confidence interval of +/-1 percent at the 95 percent confidence level.

The information for this survey was obtained from participating apartment managers, owners, and property managers. All information collected on each building/complex is TOTALLY CONFIDENTIAL. Only survey totals are published. Information furnished by participants is considered reliable. The sponsors and author make no warranty, express or implied, and assume no legal liability or responsibility for the inclusion of data from the participants in the survey or for the use of the data from the Survey. Since 1995 the Division of Housing of the State of Colorado has funded the Colorado Multi-Family Housing Vacancy and Rental Survey for various Colorado communities. These surveys cover the first and third quarters. A public/private partnership has committed to sponsor the Colorado Springs Metropolitan Area Apartment Vacancy and Rental survey for the Second and Fourth Quarters. In the spirit of cooperation, all sponsors share in the credit for this combined effort to provide information on the apartment industry. The intent is to provide information that will be used by all individuals associated with the industry.

The excellent industry cooperation by various apartment associations, county and local officials, apartment owners and managers is appreciated. Survey management and analysis was done by Dr. Ron L. Throupe of The University of Denver and Jennifer L. Von Stroh of Colorado Economic and Management Associates.

The sponsors and author of this report view it as a work in progress. The intent is to make this Survey consistent in methodology and scope with the other multi-family housing surveys that are conducted for the remainder of the state. The goal is to have multi-family rental market data that is comparable statewide. As the sample size increases and the research procedures become fixed, new market areas will be added to the report. The market areas selected for the report were determined on the basis of market size. Changes in format, tables and graphs are possible if user recommendation indicate a change is warranted.

The accuracy and reliability of this Survey can be improved by increasing the size of the sample returns for each market area. If you are an owner or manager of multi-family rental housing in the listed market areas, and would like to participate in the Survey, please contact Jennifer Von Stroh at VonStrohHousingSurvey@gmail.com, or write to her at 2581 Wynterbrook Drive, Highlands Ranch, Colorado, 80126.

The Division of Housing provides financial and technical support to organizations throughout the state that are committed to serving Colorado's most vulnerable citizens. We offer funding opportunities for rehabilitation and new construction of housing to public housing authorities, local governments, and private developers. We support, license, and regulate the factory-built construction industry, including the provision of building department services where none exist, and the adoption and enforcement of building codes for factory-built structures. In concert with local housing authorities and non-profit service organizations, we provide rental subsidies and down-payment assistance to bridge the gap between household income and the cost of living. We create a safety net for those most at-risk, with foreclosure prevention initiatives and funding for senior and special needs housing. Our mission is to ensure that all Coloradans have access to safe, affordable housing.
