Schedule 9.B Compliance Plan	
Action	Fee Reduction
Plan Description	<p>New installation training requirements have been added to the program and estimate that about \$75,000 of our cash funds in this fiscal year will be used to meet this requirement. We did not achieve balancing the fund as originally proposed because we correctly forecasted the slump in the factory-built housing market but did not anticipate the 370% growth since 2003 in the factory-built commercial market that is largely being driven by the oil, gas, and mineral exploration industry.</p> <p>DOLA will be seeking authority for 3rd party inspection and plan review. Third party Plan and Inspection Rule Making should take 90 days. Next year we will be submitting a fee reduction plan once we have a definite idea of what are the approved 3rd party review rules, process and the staff necessary to manage the program.</p>
Assumptions and Calculations	Will be based on rule changes.

Schedule 9.B Compliance Plan

Action	Improve monitoring fee revenue and expenditures.
Plan Description	<p>The amount and timing of the PAB program's fee income is unpredictable, based on the number of applications and on the timing of recipients' bond closings. Therefore it is very difficult to manage the program's income to match its spending authority within each fiscal year, and some years could have sharply lower actual income than others.</p> <p>For example, during the last fiscal year, a collection oversight was identified stemming back to 2005. The oversight was corrected and payment was collected from the Liberty Creek Project, leading to collection of funds above the allowable spending authority. Therefore, the department will seek legislative changes to assist it with managing revenue fluctuations.</p>
Assumptions and Calculations	Assume the state legislature will pass a bill to assist department with fluctuating revenue.
