

ANNUAL REPORT

Fiscal Year 2008/2009

SUMMARY AND STATUS REPORT OF THE COLORADO SEARCH AND RESCUE FUND

Susan Kirkpatrick, Executive Director

Department of Local Affairs

Strengthening Colorado Communities

October 2009

Introduction

Responsibility for the Colorado Search and Rescue Fund lies with the Colorado Department of Local Affairs. It is administered out of the department's Northwest Regional Office in Grand Junction and operates pursuant to C.R.S. 33-1-112.5. The fund was created in 1987 for the purpose of reimbursing political subdivisions and search and rescue organizations for the costs incurred in conducting search and rescue operations; and to provide funding for the purchase of search and rescue related equipment and training.

The Department of Local Affairs is assisted with administration of the fund by a group of individuals making up the Search and Rescue Advisory Council. The Executive Director of the Department of Local Affairs appoints members of the council. The council is comprised of individuals knowledgeable and interested in search and rescue in the State of Colorado. By rule, the council must have a minimum of eleven members and maximum of fifteen and at all times, at least three members must be county sheriffs and at least two must also be members of the Colorado Search and Rescue Board. In addition, the Director may request nominations from search and rescue teams, county commissioners, CORSAR card vendors, the Colorado Division of Wildlife, the Colorado Division of Parks and Recreation, hunters, fishermen, wildlife advocates, off-highway vehicle users, boaters, snow-mobile enthusiasts, backpackers, hikers, mountain bikers, equestrians, and cross-country skiers. The Search and Rescue Advisory Council membership is attached as Exhibit A.

C.R.S. 33-1-112.5 establishes a tiered system for reimbursing county sheriffs for search and rescue (SAR) missions. The highest priority is the reimbursement of mission costs for rescues of persons having paid into the fund through surcharges on hunting and fishing licenses, habitat stamps, registrations of boats, off-highway vehicles, and snowmobiles; and the voluntary purchase of Colorado Outdoor Recreation Search and Rescue (CORSAR) cards. If funds remain after all missions for these "licensed" persons have been reimbursed, the fund pays for missions for relatives of licensed persons. A third tier of funding is available at the end of the year for costly missions for unlicensed individuals.

Accomplishments

The Search and Rescue Fund makes payments to county sheriffs for mission expenses. Much of the funding is utilized to reimburse volunteer expenses. Mission costs range from a few hundred dollars to pay for mileage, meals, and equipment, to thousands of dollars when aircraft is mobilized or searches continue for extended periods. The Search and Rescue Fund is not an insurance program. Victims are not paid by the fund. Persons having purchased licenses, registrations, or CORSAR cards are considered "licensed persons" for purposes of fund payments. Since taking over administration of the fund in 1996, the Department of Local Affairs has reimbursed \$1,127,353 for 934 missions conducted under the supervision of Colorado's county sheriffs and submitted to the fund for reimbursement.

Another important component of the program is funding for SAR related equipment and training. If funds remain following reimbursement of all direct mission expenses, the department invites county sheriffs to apply for needed equipment or training. Payments are made following Advisory Council recommendations and Executive Director's approval and are based on mission load, the county's geography, visitor impacts, local commitment, and the degree the request responds to the nature of missions conducted. The Colorado Search and Rescue Fund has awarded \$5,055,460 to ensure Colorado's search and rescue volunteers have access to some of the best equipment and training in the nation.

Revenues

The fund is financed with a \$.25 surcharge on hunting licenses, fishing licenses, habitat stamps, boat registrations, snowmobile registrations, off-highway vehicle registrations, and by the sale of the Colorado Outdoor Recreation Search and Rescue (CORSAR) card. A one-year CORSAR card contributes \$2.00 into the fund and five-year cards, which went on sale in July of 2002, contribute \$9.00 into the fund. In state fiscal year 2009, revenue to the fund from these sources was \$439,164.

CORSAR Card Program

The fund was initially established in recognition of the impacts hunters and other sportsmen have on small, under-funded, sheriffs' departments. Often counties with the fewest resources are the location of extensive hunting activity. Severe weather during big game season often results in significant demand for SAR services, hence the surcharge on hunting and fishing licenses. In recent years, however, more hikers, mountain bikers, rock and ice climbers, cross-country skiers, kayakers, and other non-sportsmen (both residents and visitors alike) have discovered Colorado's backcountry. The CORSAR card program, initiated in 2002 is an attempt to create equity between sportsmen and other users of the backcountry in funding search and rescue.

The CORSAR card program is the voluntary mechanism for hikers, mountain bikers, climbers, kayakers, and other non-sportsmen to participate in the fund. A one-year CORSAR card costs the buyer \$3.00, places \$2.00 in the SAR fund and pays \$1.00 to the vendor. A five-year CORSAR card costs \$12.00, with \$9.00 going in to the SAR fund and paying \$3.00 to the vendor. In 2009, CORSAR sales generated \$61,573 in revenue. This represents a small decrease in from 2008. However, five-year card sales now represent approximately 38% of all cards sold, which is an increase of 5% over the previous year.

Despite mostly flat sales, CORSAR card sales remain a significant proportion of total revenues. In years 1996 through 2001, less than one percent of total revenues came from the sale of hiking certificates. In 2002, the first year of the CORSAR card, 4.1% of revenues came from voluntary purchases. In 2009 CORSAR card sales represented 14% of revenue. The revenue generated from CORSAR card sales has become a significant contribution toward the total fund balance.

CORSAR card internet sales have increased substantially since becoming available in 2006. In FY2006 internet sales accounted for 357 cards sold. In FY2007 internet sales accounted for 1,394 cards sold (466-one year cards and 928-five year cards). In FY2008 the state internet portal took over internet sales, and the access was quicker and easier to use. The data goes directly into our database which reduces the data entry required and improves the efficiency of our system. In FY2009 internet sales accounted for 2,500 cards. This represents a 19% increase over last year. Out of state buyers represented nearly 40% of internet sales in FY2009.

The DoLA IT department also created an automatic renewal notice e-mail for cards sold on the internet, as well as providing the mechanism to send renewal post cards for those buyers who purchased their card from a vendor and did not provide an e-mail address.

Vendor bulletins are published periodically to help keep vendors informed about the program and the specifics of card sales. In addition, a SAR team bulletin with information specific to their needs is published as needed. Search and rescue missions of interest are highlighted in both publications as well as information on the use of funds to help readers understand the benefits of the SAR fund and acknowledge their contributions to search and rescue in Colorado.

Payments

Payments out of the Search and Rescue Fund are made to county sheriffs' offices for distribution to search and rescue agencies and their vendors. Victims of search and rescue missions receive no payments from the fund. Payments are made on a prioritized basis with three tiers of funding. Tier I is the immediate reimbursement of operational expenses incurred on searches for "licensed persons". Sheriffs file requests with the department and provide proof that the victim is licensed along with invoice documentation of expenses. In fiscal year 2009, the department made 60 Tier I payments totaling \$61,490.64. Requests for payment are received from county sheriffs and entered directly into the state accounting system by personnel in the Northwest Regional Office. On requests with no errors, the fund makes payments within approximately 14 days of submission of a mission report.

Funding for tiers II and III is made only if funds remain following complete payment of all tier I expenses. Tier II encompasses end-of-year payment of operational expenses incurred on searches for relatives of "licensed persons". A relative is defined as a parent, sibling, spouse, child, or grandchild of a licensed person. Only three (3) tier II payment totaling \$1,110.34 were requested in fiscal year 2009. Tier III encompasses end-of-year payment of operational expenses incurred on searches for "unlicensed persons". Tier III payments are not made automatically but are considered at the end of the program year. Tier III payments are taken into account when making funding decisions for end-of-year training and equipment. Ten (10) tier III requests were recommended for reimbursement by the SAR Advisory Council for a total of \$5,597.48. A summary of tier I, tier II, and tier III activity is shown in Table 2.

End-of-year payments are made on a competitive application basis for search and rescue training and equipment. The department received applications from 42 counties requesting end-of-year payments totaling \$669,940.00. Forty-one (41) applicants received full or partial funding for a 2009 end-of-year payment total of \$256,880.00. The end-of-year payment summary is attached as Exhibit B.

The 2009 fiscal year appropriation was \$615,000.00. The department is allocated 1.3 full time equivalent (1.3 FTE) positions from the fund for personnel. Staff salary and benefits and other operating expenses were \$122,695.05. As a result, total administrative expenses were 27.4% of total annual expenditures. Other than these administrative costs, no funds are transferred to the Department of Local Affairs or used for any purpose other than search and rescue expenses. Detailed expenditures are shown in Table 3.

Reports from county sheriffs' departments indicate that there may be as many as 1,400 searches per year in Colorado. The vast majority of these searches are not submitted to the fund for reimbursement either because costs are minimal or because the victims are not "licensed persons". With changes to the law, counties may now submit searches for "unlicensed persons" for reimbursement at the end of the year. The Department of Local Affairs continues to be interested in increasing the number of persons participating in the Colorado Search and Rescue Fund in order to make more SAR missions eligible for direct reimbursement.

Actual Operational Expenses: Are those reasonable costs incidental to SAR activities including, but not necessarily limited to: fuel, operating costs, repair and rental, of motor vehicles, fixed-wing aircraft, helicopters, snowmobiles, boats, horses, generators and any other equipment necessary or appropriate for conducting SAR activities; reimbursement of mileage at the appropriate state rate; meals and room rental for personnel and any other similar expenses. Operational expenses do not include any salary, overtime or stipend paid to any person permanently employed by a SAR agency or political subdivision of the state. Operational expenses do not include indirect operating expenses, such as stand-by costs, of vehicles and equipment owned by a unit of local government.
 - b. Colorado Outdoor Recreation Search and Rescue (CORSAR) Card: A card authorized by CRS 33-1-112.5(1)(c) and issued by the Colorado Department of Local Affairs or one of its licensed vendors.

 - d. Eligible agency: Is a public or private entity or volunteer association providing specialized search and rescue services and resources authorized by a county sheriff or political subdivision.
 - e. Eligible person: Is a person in possession of: a current and valid Colorado Division of Wildlife (CDOW) hunting or fishing license; a current and valid CDOW hiking certificate; a vessel, snowmobile or off-highway vehicle currently registered through the Division of Parks and Outdoor Recreation (DPOR) or a current and valid Colorado Outdoor Recreation Search and Rescue Card. As used herein, "hunting or fishing license" includes all those licenses listed in subsections 33-4-102(1) through 33-4-102(1.5), C.R.S. as may be amended. Vessel, snowmobile, and off-highway vehicle registrations include all those listed in Section 33-12-102(1.2)(e), (1.2)(h), (1.2)(i), (1.2)(l), (1.3)(a), (1.3)(d), and (1.3)(e) as may be amended.
 - f. Eligible Search and Rescue Mission: Mobilization of persons or agencies with specialized search and rescue skills authorized by a County Sheriff's Office or statutorily designated search and rescue political subdivision of the State of Colorado for the purpose of locating or rescuing a person within the State of Colorado from an area beyond the boundaries of normally available emergency services.

3. LIMITATION OF PAYMENT OF CLAIMS.
 - a. The Colorado Search and Rescue Fund will make no payment for SAR expenses already paid or reimbursed by another source such as victims, private insurance, or donations made for the purpose of paying for a specific search. Donations of a general nature, not covering expenses of a specific search, shall be excluded from this limitation. Should an authorized SAR agency receive payment from another source after having received payment from the Colorado Search and Rescue Fund for the same SAR mission, that agency shall reimburse the Colorado Search and Rescue Fund an amount equal to the amount of payment received from the other source.

- b. No claims shall be paid for SAR activities for which a river outfitter is liable pursuant to the provisions of section 33-32-108(2), C.R.S., unless such liability has been lawfully discharged.
- c. Searches for or recovery of property are not eligible missions.
- d. Reimbursement for recovery of bodies is limited to one of the following circumstances:
 - i. The recovery is incidental to missions begun in earnest to rescue live persons where recovery of such deceased person(s) is necessary and appropriate to avoid delays, higher costs, or additional exposure to persons involved in such recovery to increased risks to life and limb (e.g. deteriorating weather conditions) and which may be accomplished at "de minimus" additional cost.
