

2017 Biennial Report

Direct Distribution

Local Government Energy and Mineral Impact Assistance Program

January 1, 2018

COLORADO

Department of Local Affairs

COLORADO
Department of Local Affairs
Office of the Executive Director

January 1, 2018

Colorado General Assembly
Colorado State Capitol
200 East Colfax Avenue
Denver, CO 80203

Dear Members of the General Assembly:

The Colorado Department of Local Affairs in partnership with the Energy and Mineral Impact Advisory Committee annually distributes revenue derived from energy and mineral extraction statewide. These revenues come from State Severance Tax receipts and Federal Mineral Lease non-bonus payments.

Effective July 1, 2008, the General Assembly passed and Gov. Ritter signed SB08-218 and HB08-1083, which authorized this current method and formula to determine the direct distribution of energy impact dollars from the severance tax, as well as federal mineral leases. The legislation also established this Biennial Report to the General Assembly on the Direct Distribution.

The following factors are considered in the formulaic distribution: permits, production, employee residence, as well as, for subcounty distribution, population and highway user miles (HUTF). Low oil and natural gas prices and ad valorem tax credits contributed to the 2016 Severance Tax distribution of \$13,105,850 and the 2017 distribution of \$10,459,407 was impacted by amended tax returns following the Colorado Supreme Court's decision in *BP America v. Colorado Department of Revenue*. The total for the Federal Mineral Lease Revenue Direct Distribution to counties, federal mineral lease districts, municipalities and school districts was \$24,795,920 in 2016 and \$21,309,307 in 2017. Oil and gas prices also reflect the lower 2016 and 2017 distribution amounts compared to prior years.

The dollars distributed through this program are vital to helping communities provide services to Colorado citizens. We are committed to working with our local government and association partners and legislators in advocating for the preservation of this critically important source of funding.

Sincerely,

Irv Halter

Executive Director

Executive Summary

This biennial report evaluates the effectiveness of the allocation and distribution of moneys from the Local Government Severance Tax Fund to counties and municipalities impacted by mineral and mineral fuel development. The report is submitted to the General Assembly pursuant to C.R.S. 39-29-110(1)(c)(VI). The report also evaluates the direct distribution of federal mineral lease (FML) moneys from the Local Government Impact Fund.

The statutory Severance Tax and Federal Mineral Lease direct distribution formulas help provide an equitable system for allocating money to communities socially or economically impacted by energy and mineral development, processing or energy conversion of minerals and mineral fuels. The combination of various measures of impact and their respective weightings help distribute Severance Tax and Federal Mineral Lease revenue to the communities experiencing various types of industry impacts. As illustrated by the maps of the factors and the distributions detailed in this report, communities in significantly impacted areas are receiving the greatest proportion of the distribution. The Department does not recommend legislative changes to the Direct Distributions at this time.

Background

Severance Tax Direct Distribution

The formulaic distribution of State Severance Tax considers several impact measure factors, including employee resident count, mining and well permits, mineral production, population, and road miles. The moneys are first allocated by factor into “county pools” and these pools are then distributed to the municipalities and the county government within each county. For an illustration of how state severance tax revenue is allocated, please see [Exhibit A](#). For an illustration of the severance tax direct distribution formula, see [Exhibit B](#).

Federal Mineral Lease Receipts Direct Distribution

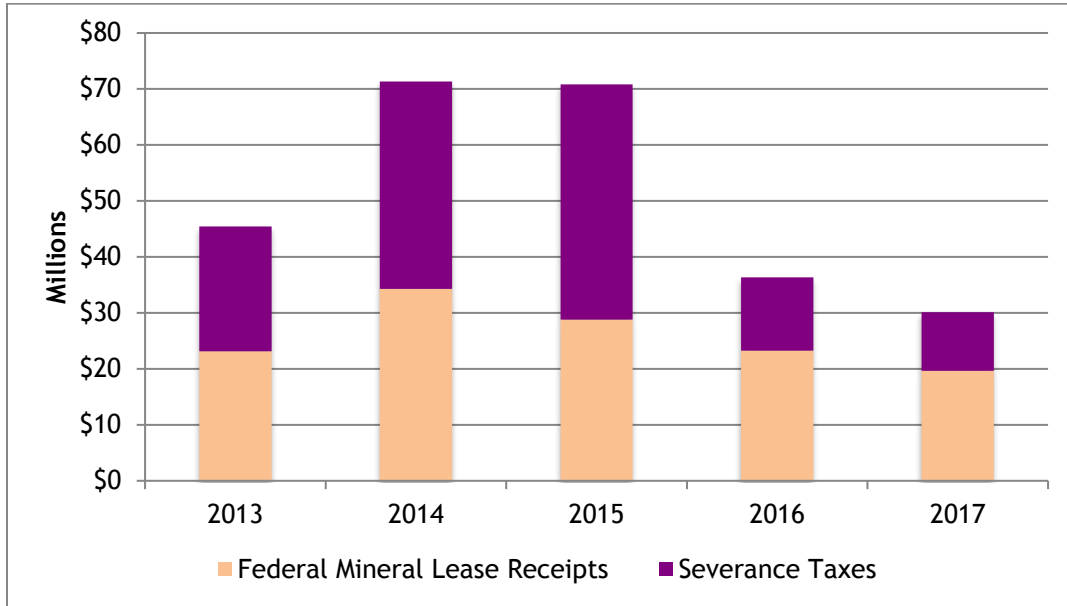

The Department administers two direct distributions of Federal Mineral Lease (FML) revenue: one distribution to counties (or Federal Mineral Lease districts where created by a county) and municipalities, and one distribution to school districts. Revenue generated under the Federal Mineral Leasing Act within each county, employee resident count, population, road miles and pupil count determine the distribution to counties, municipalities, school districts and Federal Mineral Lease districts. Like the Severance Tax Distribution, the moneys are first allocated into county pools and then distributed to the entities therein. For an illustration of the federal mineral lease direct distribution formula, see [Exhibit B](#). For a description of how federal mineral lease receipts are allocated through the state, see [Exhibit C](#).

Distribution Trends

Low oil and natural gas prices during FY15-16 and the beginning of FY16-17 and amended returns following the Colorado Supreme Court decision in *BP American v. Colorado Department of Revenue* contributed much lower Severance Tax distribution amounts than the previous two years.

The distribution amounts of Federal Mineral Lease revenue are from rents and royalties paid on leased federal lands. While generally less volatile than Severance Tax revenue, the FY15-16 and FY16-17 distribution amounts were still influenced by low energy prices.

Total Direct Distribution to Counties and Municipalities

Severance Tax Direct Distribution

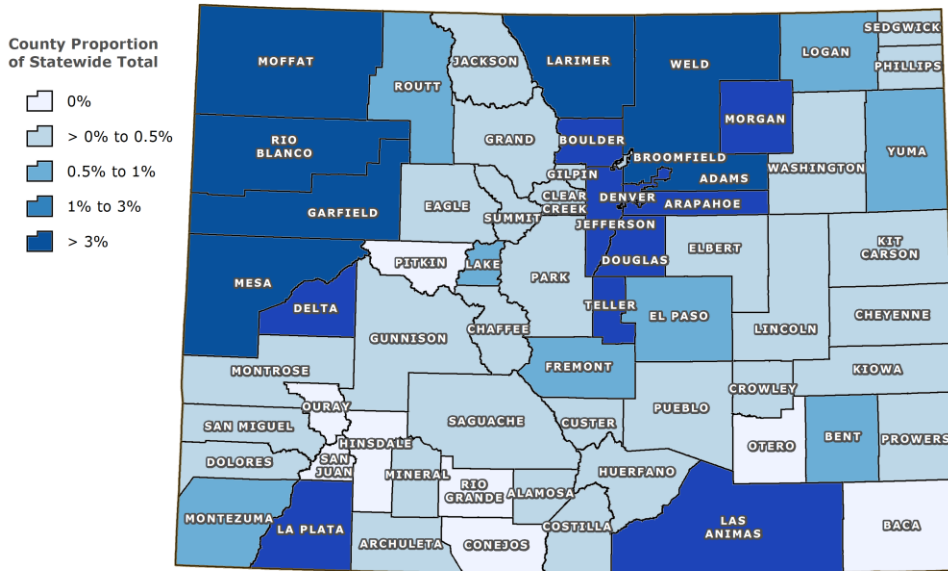

Thirty percent of the Severance Tax revenue credited to the Local Government Severance Tax Fund from July 1, 2015 to June 30, 2016 resulted in the total distribution of \$13,105,850.43 to 333 counties and municipalities. For the 2017 state fiscal year, the Department distributed \$10,459,407.35 to 316 counties and municipalities. See [Exhibit D](#) for county pools and distribution amounts to counties and municipalities for 2016 and 2017.

Moneys were first allocated into county pools based on each county's proportion of industry employee residence, mining and well permits, and mineral production compared to the totals statewide. CRS 39-29-110(1)(c)(II)(B) directs each factor to be weighed at 30% and the Executive Director, in consultation with the Energy Impact Assistance Advisory Committee, determines the assignment of the remaining 10%. The county pool factors were weighed in 2016 and 2017 as follows:

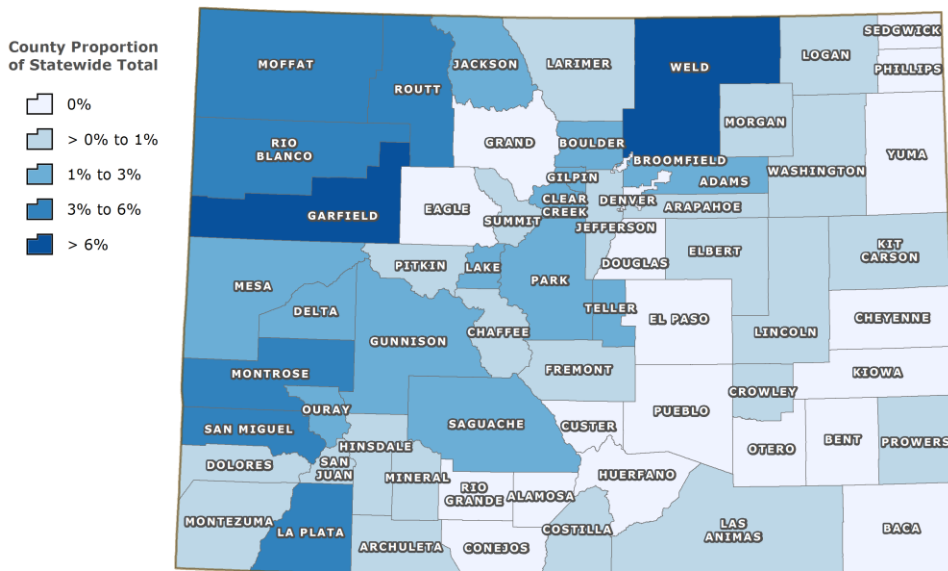

County Pool Factor	2016	2017
Colorado Employee Residence Reports	40%	40%
Mining and Well Permits	30%	30%
Mineral Production	30%	30%

The following three maps illustrate county proportion of each factor for the 2017 direct distribution of Severance Tax.

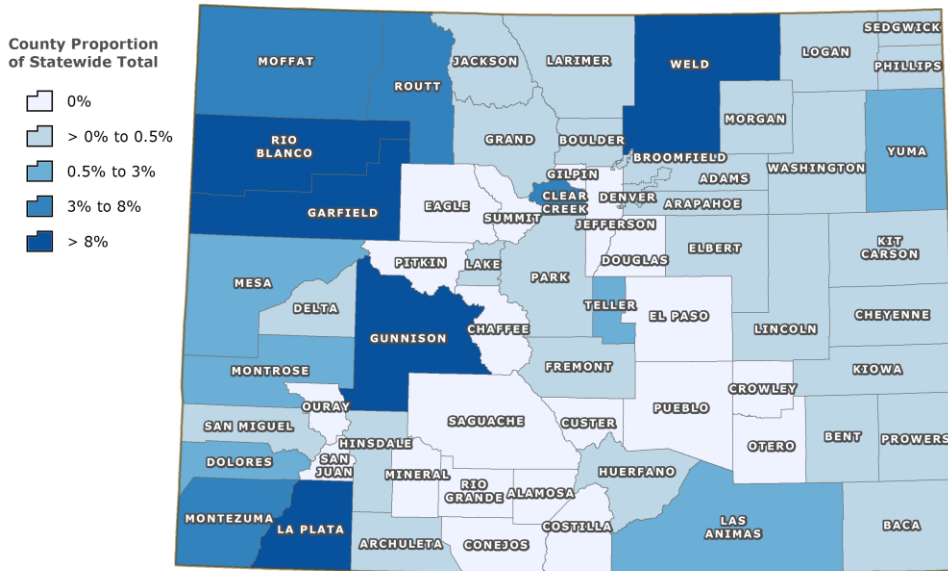

2017 Severance Tax Direct Distribution Colorado Employee Residence Report Index

2017 Severance Tax Direct Distribution Mining and Well Permits Index

2017 Severance Tax Direct Distribution Production Index

The Department distributed each county pool to the county government and each municipality therein based on the unincorporated and municipal proportions of resident industry employees, population, and road miles compared to the total in the county. Statute directs the Executive Director, in consultation with the Energy and Mineral Impact Advisory Committee, to set the weights of these factors statewide. The Executive Director set the factor weights as follows:

Subcounty Pool Factor	2016	2017
Colorado Employee Residence Reports	33%	33%
Population	34%	34%
Road Miles	33%	33%

Details on individual county and municipal proportions of each factor for the 2016 and 2017 distributions are available online [here](#). The [Direct Distribution Guidelines](#) document has additional information about the Severance Tax distribution process and each factor.

The Executive Director may accept a memorandum of understanding (MOU) from the county and all municipalities therein requesting an alternative distribution and/or factor weights for distribution of a county pool. The Department did not receive any MOUs for the 2016 and 2017 distributions and the above weights determined all county pool allocations.

Federal Mineral Lease Receipts Direct Distribution

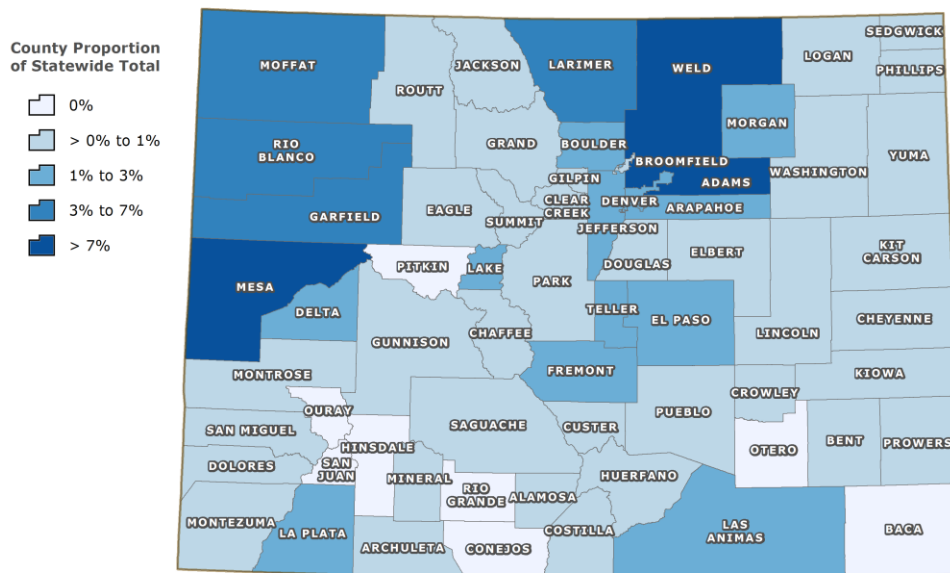

County and Municipal Direct Distribution

Fifty percent of the Federal Mineral Lease (FML) revenue credited to the Local Government Mineral Impact Fund during FY2016 resulted in the total distribution of \$23,265,235.88 to 331 counties (or federal mineral lease districts) and municipalities. For FY2017 the Department distributed \$19,639,914.34 to 313 entities. See [Exhibit E](#) for the 2016 and 2017 county pools and distribution amounts.

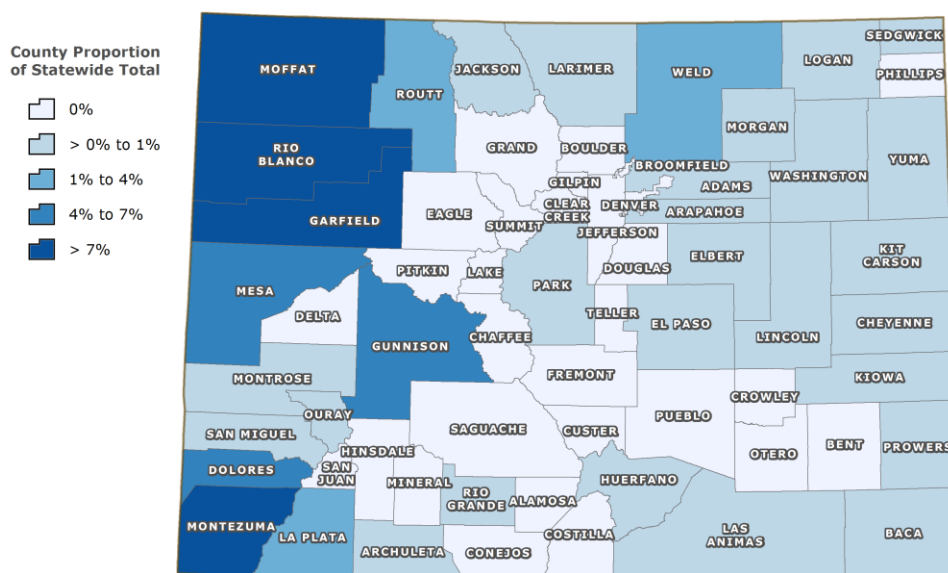

Moneys were first allocated into county pools based on each county's proportion of employee residence and federal mineral lease revenue generated compared to the total generated statewide. CRS 34-63-102(5.4)(c)(III) specifies the Employee Residence Report factor cannot be weighted more than 35%. The county pool factors were established by the Executive Director, in consultation with the Energy and Mineral Impact Advisory Committee as follows:

County Pool Factor	2016	2017
Colorado Employee Residence Reports	35%	35%
FML Revenue Generated	65%	65%

**2017 Federal Mineral Lease Direct Distribution
Colorado Employee Residence Report Index**

2017 Federal Mineral Lease Revenue Generated by County

The Department distributes each county pool to the county government and each municipality therein based on the unincorporated and municipal proportion of resident employees, population, and road miles compared to the total in the county. Statute directs the Executive Director, in consultation with the Energy and Mineral Impact Advisory Committee, to establish weights of these factors statewide. The Executive Director set the factor weights as follows:

Subcounty Pool Factor	2016	2017
Colorado Employee Residence Reports	33%	33%
Population	34%	34%
Road Miles	33%	33%

Details on individual county and municipal proportions of each factor for the 2016 and 2017 distributions are available online [here](#). The [Direct Distribution Guidelines](#) document contains additional information about the FML revenue distribution process and factors.

Like the Severance Tax distribution, the Executive Director may accept an MOU from the county and all municipalities therein requesting an alternative FML distribution and/or factor weights for the subcounty pool. The Department did not receive any MOUs for the 2016 or 2017 Federal Mineral Lease distributions.

Supplemental Distribution

The General Assembly may appropriate funds from the Local Government Permanent fund to “backfill” the county and municipal FML Direct Distribution in the event the December forecast by Legislative Council projects at least a 10% decline in annual revenue deposited into the Mineral Leasing Fund. The December 2015 forecast projected a 20.6% decline, and the General Assembly appropriated funds in HB16-1405 to

backfill the FY15-16 direct distribution. The 2016 distribution included \$4,478,306 transferred from the Local Government Permanent Fund.

Roan Plateau Lease Refund

A November 2014 settlement of a federal lawsuit regarding leases on the Roan Plateau resulted in the cancellation of several Federal mineral extraction leases. The recoupment of the leaseholders’ “bonus” payments caused withholding of FML revenue to Colorado during FY15-16, FY16-17 and FY17-18. The General Assembly enacted SB15-244 to backfill these withheld funds and held the FY16 and FY17 Direct Distributions harmless.

Federal Mineral Lease Districts

Counties may choose to create a Federal Mineral Lease District for the purpose of re-directing FML payments in an effort to maximize the amount of PILT funding counties receive from the U.S. Department of Interior. HB11-1218 did not change the direct distribution formula, but enables a county government to instead have the payment otherwise calculated for the county government directed to its Federal Mineral Lease District.

For the 2016 and 2017 Direct Distributions, five counties had FML distributions directed to a Federal Mineral Lease District. Payment details contained in [Exhibit E](#) include the payments to these districts. For additional information on federal mineral lease districts and federal PILT calculations, click [here](#).

FML Districts
Garfield County Federal Mineral Lease Act District
Huerfano County Federal Mineral Lease District
Mesa County Federal Mineral Lease District
Park County Federal Mineral Lease District
Weld County Federal Mineral Lease Act District

School District Direct Distribution

The school district FML distribution occurs in similar fashion to the county/municipal distribution. Statute directs the Department to calculate county pools based on the same weights set by the Executive Director for the FML county/municipal distribution. Each county pool is then distributed based on the proportion of each school district’s pupil count to the total county pupil count. See [Exhibit B](#) for an illustration of the school district direct distribution.

The total distribution to school districts for 2016 was \$1,530,683.84 to 177 school districts. The Department distributed \$1,669,393.00 to 169 school districts in 2017. See [Exhibit F](#) for details on the 2016 and 2017 payments to school districts.

Evaluation of Effectiveness

The Department does not propose legislative changes to the Direct Distributions at this time. Both the severance tax and federal mineral lease statutory formulas allow for flexibility on a year-by-year basis for the continued pursuit of effective distribution. The Executive Director, in consultation with the Energy and Mineral Impact Advisory Committee, has authority to adjust the weights of the factors in the formula each year. The Department continually evaluates these factors and solicits feedback from the Advisory Committee, local governments recipients and the Mineral Production Employee Residence Report Oversight Committee.

Colorado Employee Residence Report Process

The Department created the Employee Residence Report Oversight Committee in 2006, to help make the process of employee residence reporting transparent to local governments and the mineral industry. The committee is chaired by the Executive Director and is comprised of local government, industry and Energy and Mineral Impact Advisory Committee representatives. The Oversight Committee continues to provide the Executive Director, Energy and Mineral Impact Advisory Committee and Department valuable feedback about the Employee Residence Reporting process.

During 2016 and 2017 the Department continued efforts to make the Employee Residence Reporting process easier for the industry and local governments. The Department initiated several changes to the Colorado Employee Residence Report Online System and began designing and implementing improvements to the system to automatically review the accuracy of the attribution of employee residency to local governments. Once fully implemented for the 2018 distributions, the number of requests for corrections received from local governments is expected to decline by up to ninety percent.

Exhibit A: How Severance Tax in Colorado is Allocated

Fiscal Year 2017-2018

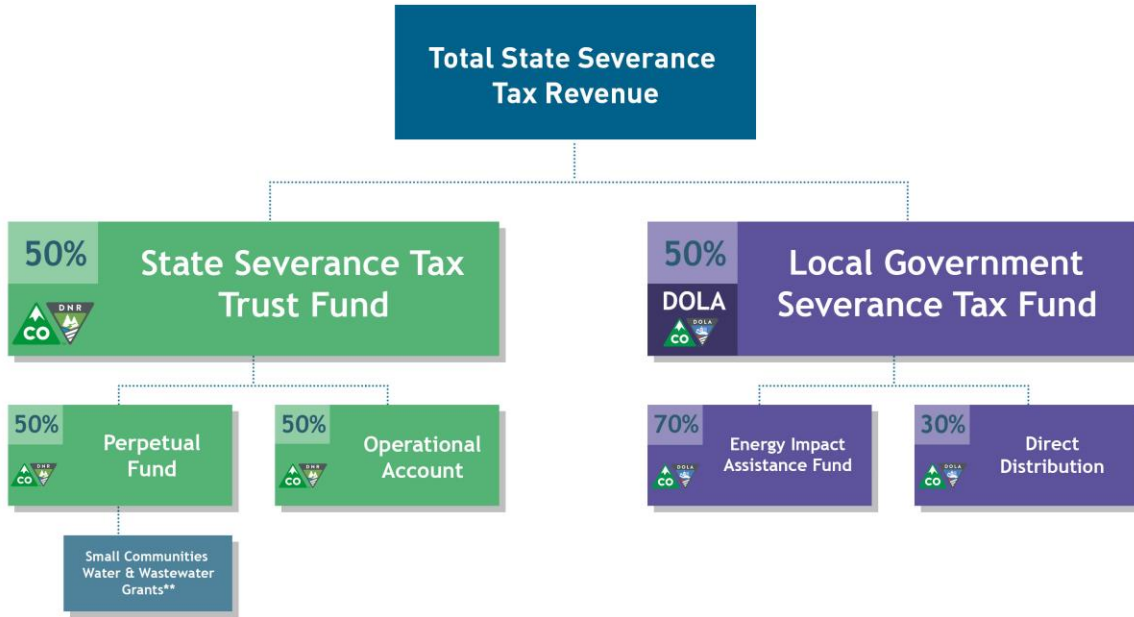

Exhibit B: Illustration of 2016 and 2017 Direct Distribution Formulas

Separate Distribution of Federal Mineral Lease to School Districts

Direct Distribution

The Federal Mineral Lease Direct Distribution for will be allocated to County Pools based on statewide share of the following factors:

Factor	Percentages
Colorado Employee Residence Reports (CERR)	35%*
Federal Mineral Lease Revenue Generated	65%*

*County Pool percentages to school districts will be identical to those used for County Pool under "DOLA Portion of Federal Mineral Lease".

The Sub County Pool will be determined based on the School District split of the following factor:

Factor	Percentages
Pupil Counts (most recent)	100%

Annual distribution of revenues to School Districts by August 31.

DOLA portion of Federal Mineral Lease

Direct Distribution

The Federal Mineral Lease Direct Distribution for will be allocated to County Pools based on statewide share of the following factors:

Factor	Percentages
Colorado Employee Residence Reports (CERR)	35%*
Federal Mineral Lease Revenue Generated	65%*

*Percentages, with a maximum of 35% for CERRs and the remaining percent from generated federal mineral lease revenue, to be determined by the executive director, based on recommendation from the Energy and Mineral Impact Advisory Committee.

The Sub County Pool will be determined based on the County/Municipal split of the following factors:

Factor	Percentages
Colorado Employee Residence Reports (CERR)	33%**
Population	34%**
Road Miles	33%**

**P percentages may be based on recommendation from the Energy and Mineral Impact Advisory Committee or memorandum of understanding between county and all of its municipalities, with final determination by the executive director.

Annual distribution of revenues to Counties and Municipalities by August 31.

DOLA portion of State Severance Tax

Direct Distribution

The State Severance Tax Direct Distribution will be allocated to County Pools based on statewide share of the following factors:

Factor	Percentages
Colorado Employee Residence Reports (CERR)	40%*
Mining and Well Permits	30%*
Mineral Production	30%*

*No single factor of the three listed above will be less than 30%, with the remaining 10% variably allocated among the three factors at the discretion of the executive director, based on recommendation from the Energy and Mineral Impact Advisory Committee.

The Sub County Pool will be determined based on the County/Municipal split of the following factors:

Factor	Percentages
Colorado Employee Residence Reports (CERR)	33%**
Population	34%**
Road Miles	33%**

**P percentages may be based on recommendation from the Energy and Mineral Impact Advisory Committee or memorandum of understanding between county and all of its municipalities, with final determination by the executive director.

Annual distribution of revenues to Counties and Municipalities by August 31.
