DIRECT DISTRIBUTION BIENNIAL REPORT Local Government Energy and Mineral Impact Assistance Program January 1, 2024

This biennial report evaluates the effectiveness of the allocation and distribution of moneys from the Local Government Severance Tax Fund to counties and municipalities impacted by mineral and mineral fuel development. The report is submitted to the General Assembly pursuant to C.R.S. 39-29-110(1)(c)(VI). The report also evaluates the direct distribution of federal mineral lease (FML) receipts from the Local Government Mineral Impact Fund.

The statutory Severance Tax and Federal Mineral Lease direct distribution formulas help provide an equitable system for allocating money to communities socially or economically impacted by energy and mineral development, processing or energy conversion of minerals and mineral fuels. The combination of various measures of impact and their respective weightings help distribute Severance Tax and Federal Mineral Lease revenue to the communities experiencing various types of industry impacts. As illustrated by the maps of the factors and the distributions detailed in this report, communities in significantly impacted areas are receiving the greatest proportion of the distribution. The Department does not recommend legislative changes to the Direct Distributions at this time.

Background

Mineral Leasing Act

The Mineral Leasing Act 30 USC sec 191, located within the Department of the Interior, directs that revenue "shall be paid by the Secretary of the Treasury to the State...within the boundaries of which the leased lands or deposits are or were located...to be used by such State and its subdivisions, as the legislature of the State may direct giving priority to those subdivisions of the State socially or economically impacted by development of minerals leased under this chapter, for (i) planning, (ii) construction and maintenance of public facilities, and (iii) provision of public service."

Severance Tax Direct Distribution

The formulaic distribution of State Severance Tax considers several impact measure factors, including employee residence, mining and well permits, mineral production, population, and road miles. The monies are first allocated by factor into "county pools" and these pools are then distributed to the municipalities and the county government within each county. For an illustration of the severance tax direct distribution formula, see Exhibit A.

Federal Mineral Lease Receipts Direct Distribution

The Department administers two direct distributions of Federal Mineral Lease (FML) revenue: one distribution to counties (or Federal Mineral Lease districts where created by a county) and municipalities, and one distribution to school districts. Revenue generated under the Federal Mineral Leasing Act within each county, employee residence, population, road miles and pupil count determine the distribution to counties, municipalities, school districts and Federal Mineral Lease districts. Like the Severance Tax Distribution, the monies are first allocated into county pools and then distributed to the entities therein. For an illustration of the federal mineral lease direct distribution formula, see Exhibit A.

Distribution Trends

After low net severance tax revenues and a correspondingly low severance direct distribution in 2021, severance revenues rebounded to high levels in both 2022 and 2023. Severance revenues were helped by a

robust recovery in oil and gas prices after the initial pandemic shock. While federal mineral lease revenues were lower in 2020 and 2021, they did not decrease to the extreme degree that severance revenues experienced in 2021. Federal mineral lease revenues, which are rents and royalties paid on leased federal lands, increased throughout 2022 and 2023.

Severance Tax Direct Distribution

Thirty percent of the Severance Tax revenue credited to the Local Government Severance Tax Fund from July 1, 2021 to June 30, 2022 resulted in the total distribution of \$46,530,193 to 348 counties and municipalities. For the 2023 state fiscal year, the Department distributed \$54,006,294 to 346 counties and municipalities. See Exhibit B for county pools and distribution amounts to counties and municipalities for 2022 and 2023.

Funds were first allocated into county pools based on each county's proportion of industry employee residence, mining and well permits, and mineral production compared to the totals statewide. CRS 39-29-110(1)(c)(II)(B) directs each factor to be weighed at 30% and the Executive Director, in consultation with the Energy Impact Assistance Advisory Committee, determines the assignment of the remaining 10%. The county pool factors were weighted in 2022 and 2023 as follows:

County Pool Factor	2022	2023
Colorado Employee Residence Reports	40%	40%
Mining and Well Permits	30%	30%
Mineral Production	30%	30%

The following three maps illustrate county proportion of each factor for the 2023 direct distribution of Severance Tax.

2023 Severance Tax Direct Distribution Mining and Well Permits Index

2023 Severance Tax Direct Distribution **Production Index**

2023 Severance Tax Direct Distribution Colorado Employee Residence Report Index

The Department distributed each county pool amount to the county government and each municipality therein based on the unincorporated and municipal proportions of employee residence, population, and road miles compared to the total in the county. Statute directs the Executive Director, in consultation with the Energy and Mineral Impact Advisory Committee, to set the weights of these factors statewide. The Executive Director set the factor weights as follows:

Subcounty Pool Factor	2022	2023
Colorado Employee Residence Reports	33%	33%
Population	34%	34%
Road Miles	33%	33%

The Executive Director may accept a memorandum of understanding (MOU) from the county and all municipalities therein requesting an alternative distribution and/or factor weights for distribution of a county pool. The Department did not receive any MOUs for the 2022 and 2023 distributions and the above weights determined all county pool allocations.

Additional information about the Severance Tax Distribution process and the Direct Distribution Guidelines is available on the Department's website.

Federal Mineral Lease Receipts Direct Distribution

County and Municipal Direct Distribution

Fifty percent of the Federal Mineral Lease (FML) revenue credited to the Local Government Mineral Impact Fund during FY2022 resulted in the total distribution of \$24,872,011 to 340 counties (or federal mineral lease districts) and municipalities. For FY2023 the Department distributed \$34,474,005 to 343 entities. See Exhibit C for the 2022 and 2023 county pools and distribution amounts.

Moneys were first allocated into county pools based on each county's proportion of employee residence and federal mineral lease revenue generated compared to the total generated statewide. CRS 34-63-102(5.4)(c)(III) specifies the Employee Residence Report factor cannot be weighted more than 35%. The county pool factors were established by the Executive Director, in consultation with the Energy and Mineral Impact Advisory Committee as follows:

County Pool Factor	2022	2023
Colorado Employee Residence Reports	35%	35%
FML Revenue Generated	65%	65%

2023 Federal Mineral Lease

Revenue Generated by County

2023 Federal Mineral Lease Direct Distribution Colorado Employee Residence Report Index

The Department distributes each county pool to the county government and each municipality therein based on the unincorporated and municipal proportion of employee residence, population, and road miles compared to the total in the county. Statute directs the Executive Director, in consultation with the Energy and Mineral Impact Advisory Committee, to establish weights of these factors statewide. The Executive Director set the factor weights as follows:

Subcounty Pool Factor	2022	2023
Colorado Employee Residence Reports	33%	33%
Population	34%	34%
Road Miles	33%	33%

Like the Severance Tax distribution, the Executive Director may accept an MOU from the county and all municipalities therein requesting an alternative FML distribution and/or factor weights for the subcounty pool. The Department did not receive any MOUs for the 2022 or 2023 Federal Mineral Lease distributions. Additional information about the FML distribution process and the Direct Distribution Guidelines is available on the Department's website.

Federal Mineral Lease Districts

Counties may choose to create a Federal Mineral Lease District for the purpose of re-directing FML payments in an effort to maximize the amount of PILT funding counties receive from the U.S. Department of Interior. The payment otherwise calculated for the county government is directed to its Federal Mineral Lease District. Five counties had a Federal Mineral Lease District. Payment details contained in Exhibit C include the amounts distributed to these districts.

2023 FML Districts
Garfield County Federal Mineral Lease Act Distric
Huerfano County Federal Mineral Lease District
Mesa County Federal Mineral Lease District
Park County Federal Mineral Lease District

Weld Federal Mineral Lease Act District

School District Direct Distributions

The school district FML distribution occurs in a similar fashion to the county/municipal distribution. Statute directs the Department to calculate county pools based on the same weights set by the Executive Director for the FML county/municipal distribution. Each county pool is then distributed based on the proportion of each school district's pupil count to the total county pupil count. See Exhibit A for an illustration of the school district direct distribution.

The total distribution to school districts for 2022 was \$2,114,121 to 233 school districts. The Department distributed \$2,930,290 to 234 school districts in 2023. See Exhibit D for details on the 2022 and 2023 payments to school districts.

Evaluation of Effectiveness

The Department does not propose legislative changes to the Direct Distributions at this time. The State effectively distributes funds per federal and state requirements. Per C.R.S. 34-63-101, and "in accordance with the provisions of section 35 of the federal 'Mineral Lands Leasing Act' of February 25, 1920," the state successfully distributes funds to "public schools, and political subdivisions of the state." Further, the Mineral Leasing Act directs moneys to "be used by such State and its subdivisions, as the legislature of the State may direct giving priority to those subdivisions of the State socially or economically impacted by development of minerals leased under this chapter, for (i) planning, (ii) construction and maintenance of public facilities, and (iii) provision of public service." C.R.S. 39-29-110(b)(1) directs the state to distribute these funds to political subdivisions, "for the planning, construction, and maintenance of public facilities and for the provision of public services."

Both the Severance Tax and Federal Mineral Lease statutory formulas allow for flexibility on a year-by-year basis for the continued pursuit of effective distribution. The Executive Director, in consultation with the Energy and Mineral Impact Advisory Committee, has authority to adjust the weights of the factors in the formula each year. The Department continually evaluates these factors and solicits feedback from the Advisory Committee, and local government recipients.
