LETTER OF TRANSMITTAL

Denver, Colorado, March 1, 1972

To the HONORABLE JOHN A. LOVE, Governor, and the members of the General Assembly of the State of Colorado:

In compliance with 1963 CRS, 137-3-19, (1970 Perm. Supp.), the Property Tax Administrator herewith submits his annual report for the year 1971.

RAYMOND E. CARPER,
Property Tax Administrator

FIRST ANNUAL REPORT
of the
PROPERTY TAX ADMINISTRATOR
to the
GOVERNOR AND THE LEGISLATURE

Chapter 90 of the 1970 Session Laws of Colorado, effective July 1, 1971, abolished the Colorado Tax Commission and created the Division of Property Taxation, the head of which shall be the Property Tax Administrator. The Division of Property Taxation, which is a Type I Transfer under the Department of Local Affairs, exercises all the powers, duties and functions previously exercised by the Colorado Tax Commission. This includes the valuation of the property and plant of all public utilities doing business in this state; the assistance and cooperation in the administration of all laws concerning the value of taxable property; the review of the methods used by assessors in appraising and valuing taxable property in the several counties of the state, and the methods used by county boards of equalization in equalizing valuations for assessment; the approval of the form and size of all personal property schedules and notices used by county assessors; the approval of all field books, plat and block books, maps and appraisal cards used in the office of the assessor, and the requirement of exclusive use of the same to insure uniformity; the preparation and publication, after consultation with a committee from the Colorado Assessors Association, of manuals and instructions covering methods of appraising and valuing land, improvements, and personal property; the conduct of an annual school for assessors and their employees; and the investigation of all written complaints wherein it is alleged that a class or subclass of taxable property in a county has not been appraised or valued as required by law, or has been improperly or erroneously valued, or that the property tax laws have in any manner been evaded or violated.

The review of methods used by assessors in appraising and valuing taxable property may result in a petition to the Board of Assessment Appeals, as provided in 137-3-14, for an order of reappraisal of any class or subclass of taxable property in any county, or in any town, city, school district or special district located therein.

The review of methods used by assessors in appraising and valuing taxable property and the methods used by county boards of equalization in equalizing valuation for assessments, may result in a complaint being filed with the Board of Assessment Appeals, as provided in 137-3-15, specifying the percentage increase or decrease in any class or

subclass of property appearing in the Abstract of Assessment filed with the Administrator.

During the 1971 tax year, because of the newness of the Board of Assessment Appeals, no such petition or complaint was filed with the Board of Assessment Appeals. However, this is not to be accepted or construed as a criteria for future years.

ABATEMENT PETITIONS

1,592 petitions for abatement or refund of taxes totaling \$1,059,365.54 were approved, and 15 were denied totaling \$9,803.70.

SCHOOL BONDS

29 applications to incur school bonded indebtedness subject to favorable elections were approved by the Administrator aggregating \$25,946,000.

APPRAISAL SECTION

Since the newly created Board of Assessment Appeals didn't begin to function until late in the year, the Section's efforts were again devoted primarily to research, aid and assistance programs for assessors, and training and educational programs for assessors and their staffs.

New Publications

The Commercial Replacement Cost Manual was updated with the assistance of a private consulting engineering firm. The extensive research covered all parts of the State. The research covered such topics as new materials, and methods of construction and erection. Various industries and associations were consulted in regard to their specialty properties and valuations.

The Agricultural Equipment Manual was completely researched and republished after an extensive check for farm equipment prices throughout the State.

The Mobile Equipment Manual, Class F personal property, was revised and published. This manual lists the value of mobile machinery and self-propelled construction equipment and is used by the Colorado Department of Revenue and the county clerks.

The Section completely researched and updated all previous Tax Commission circulars, dating back through 1942. These circulars provide guidelines for the valuation of various classes of property. Those that were pertinent were re-issued as an instruction from the Division of Property Taxation.

Area schools were held throughout the State to explain the proper use and application of these revised publications.

Data Processing

The Section is working cooperatively with counties in establishing a statewide data bank and in developing uniform systems and programs for the accumulation and processing of cost data. It is anticipated that appraisal cards may be computed through Automatic Data Processing Methods in the very near future.

The supporting data for all manuals researched and published is stored in data processing equipment to aid in future revisions when price changes occur.

Mapping

The Section is encouraging more counties to install mapping systems for complete inventory control. This control is maintained using the State parcel identification numbering system. The Section is also promoting a pilot mapping project with a county, utilizing data processing equipment. If this pilot program is successful, it could revolutionize mapping—especially for smaller counties.

Sales Valuation Report

This Section, acting on the request of the State Board of Equalization, completed the fifth annual sales assessment analysis. This report was published, consisting of residential and commercial properties.

The sales were categorized by county and by property type. Graphs were presented to compare the ratios. The sales ratio results indicate that some counties are making progress towards equalization. Specifically, they indicate that there is a wide disparity among the average sales ratios as between classes of property, and that ratios for improved properties are higher than those for unimproved. In most cases they are still below the 30 percent level, and in many counties there is little or no change from 1970 to 1971. In most counties, commercial lands indicate a low level of assessment. Commercial-improved property ratios are higher than residential-improved property ratios. Most counties have an extremely low assessment on unimproved urban lands.

Annual School for Assessors

The Annual School for Assessors and their staff was held October 4-8, 1971 at the University of Colorado, Boulder, Colorado. The attendance in the courses was 170. There were six courses offered. The courses offered consisted of Basic, Residential, Commercial, and Agricultural Lands. The two advanced courses were Subdivisions and Office Procedures.

EXEMPT PROPERTY

CRS 137-3-17 provides that the Administrator must determine the exemption from general taxation of property owned and used solely and exclusively for religious worship, for schools, and for strictly charitable purposes.

During the year the Division received 313 applications for the exemption of property from general taxation; 173 were for property claimed to be used for religious worship; 121 were for property claimed to be used for strictly charitable purposes; and 19 were for property claimed to be used for schools.

The Division processed 311 applications for exemption, and investigations were made of 294 claims; 205 were granted exemption; 26 were granted exemption in part; and 63 were denied exemption. Seventeen applications were returned to the respective county assessors or to the claimant as not being subject to determination by the Division. Sixteen appeals were heard by the Administrator—six were granted and ten were denied. At year end there were 59 applications in various stages of processing.

The Division also has the responsibility of examining the annual reports required to be filed by the owners of property which has previously been granted exemption as being owned and used for religious worship, for schools, and for strictly charitable purposes to determine if such property continues to qualify for such exemption.

The Division mailed 5626 pre-printed reporting forms to owners of exempt property, followed by 930 second notices to those who had failed to return the reports by the due date.

A total of 4970 reports were returned by the owners and were reviewed by the Division. Field investigations were made in a number of instances where exemption of the property appeared questionable and orders were issued revoking the exemption of 55 parcels of property located in 18 counties and having an estimated actual value of \$7,860,000.

The Division issued 328 notices declaring a forfeiture of the exemption of property for which the owner had failed to file a report for three or more years. Ninety-one of these were rescinded upon ade-

quate showing by the owner that the property was eligible for continued exemption.

CRS 137-2-1 (8) (a) (iv) makes specific provisions for exemption of Senior Citizen apartment projects. The Division reviewed 29 such projects providing 2887 apartments, the exemption of which is dependent upon the occupants meeting with the limitations provided as to age, income and assets. On the basis of certifications filed by the project owners, the Division determined that 1106 apartments were rented by qualified occupants resulting in 39% of the actual value of such projects being

entitled to exemption; and that 1781 apartments, or 61% of the actual value of the 29 projects was subject to assessment at the rate of 18% of such proportion of the actual value.

Forty-four counties have requested that the Division review on their behalf the continued exemption of property used as rectory, parsonage, manse, etc.

Statistical information developed by the Division indicates that presently exempt property subject to annual review by the Division has an estimated actual value of \$775,000,000.

DISTRIBUTION OF REVENUE

The following graph shows the distribution of \$492,007,621 derived from the direct taxation by Levies on a total assessed valuation for the year 1971 of \$5,464,256,510 as compiled from the reports of county commissioners certifying levies and revenues. (Special Improvement District Funds of \$21,249,444 are included in County Funds figure.)

FIRST ANNUAL REPORT

TAX LEVIED

The following shows the tax levied for State, County, Municipal, County Public School, General School and Special Improvement Districts, together with the total of all taxes levied for the above purposes:

	State	** County	Municipal	County Public School	General School	Total Revenue
1930	\$ 5,710,519	\$10,088,346	\$ 9,353,494	\$ 5,786,907	\$ 18,267,450	\$ 49,206,716
1931	5,505,622	8,733,128	8,753,895	5,557,516	16,768,640	44,863,801
1932	4,482,057	7,411,658	7,897,828	5,280,083	14,926,305	39,997,921
