LETTER OF TRANSMITTAL

Denver, Colorado, March 1, 1973

To the HONORABLE JOHN A. LOVE, Governor, and the members
of the General Assembly of the State of Colorado:

In compliance with 1963 CRS, 137-3-19, (1970 Perm. Supp.) the
Property Tax Administrator herewith submits his annual report for the
year 1972.

RAYMOND E. CARPER,
Property Tax Administrator

SECOND ANNUAL REPORT
of the
PROPERTY TAX ADMINISTRATOR
to the
GOVERNOR AND THE LEGISLATURE

1963 C.R.S. 137-3-19, as amended, provides: "As soon after the end of each calendar year as may be practicable, the Property Tax Administrator shall prepare a report covering the activities of the Division of Property Taxation during such calendar year. Such report shall set forth the aggregate valuation for assessment of all taxable property in the State and in each county thereof, by classes and subclasses, for the two latest calendar years, the levies imposed by each political subdivision during the preceding calendar year, and the aggregate amount of taxes produced by such levies in the State and each county thereof, together with such other information as the Administrator deems necessary. Such report shall be published in accordance with fiscal rules promulgated by the Controller pursuant to the provisions of Section 3-3-17, C.R.S., 1963. Copies of the report shall be furnished to the Governor and members of the General Assembly, and made available for distribution to the public."

PUBLIC UTILITIES

For the tax year 1972 the Property Tax Administrator assessed 14 railroad companies, 2 miscellaneous railroad companies, 88 private car lines, 11 air lines, 5 electric companies, 32 rural electric companies, 47 telephone companies, 1 telegraph company, 10 gas companies, 6 gas pipe line carrier companies, 14 pipe line companies, 8 domestic water companies, and 2 irrigation water companies. These 240 utilities have a total assessed value for the year 1972 of \$616,893,410. This was an increase of \$55,686,780, or 9.92% increase over 1971.

ABATEMENT PETITIONS

1,467 petitions for abatement or refund of taxes totaling \$1,045,630.12 were approved, and 13 were denied totaling \$17,058.37.

SCHOOL BONDS

Twenty-four applications to incur school bonded indebtedness in excess of 10% of the assessed value of the school district as provided by 1963 C.R.S. 25-30, as amended, were approved by the Administrator aggregating \$86,950,000.

APPRAISAL SECTION

The efforts of the Appraisal Section were devoted to research; aid and assistance programs for assessors and employees of the assessor's office; the education and training of assessors and employees; and equalization of values.

Assistance To Assessors

The Appraisal Section assisted the Gilpin County Assessor's office in its reappraisal of all residential and commercial property within the county. Garfield County was reappraised and requested assistance in a consultant capacity as to procedures and valuations during the period of owner's protest and review of requests.

An audit of procedures and techniques was made to determine compliance with state statutes of selected subclasses of property. Specific valuation techniques used by assessors in subclasses of property were analyzed in all counties of the state. New valuation guidelines and procedures were issued along with recommendations for property that represents a current problem in valuation to the assessors. The research of improvement valuation was largely confined to all aspects of multi-family living units.

Equalization Audit

Area schools were held throughout the state regarding the valuation of agricultural land and the correct procedures to be followed. The greatest effort of the Appraisal Section was devoted to the auditing of 36 counties to determine compliance with the agricultural land factors and procedures, as adopted by the State Board of Equalization, to determine actual value of agricultural lands. The Property Tax Administrator filed petitions with the Board of Assessment Appeals on four counties for not using the required procedures in the valuation of agricultural lands within the respective counties. These counties were: Las Animas, Kiowa, Cheyenne and Jackson. Orders were issued by the Board of Assessment Appeals directing reappraisal of either classes or subclasses of property within these counties. The Appraisal Section will continue next year to audit the remainder of counties for proper procedure in the valuation of agricultural land.

This is the second year of operation of the Board of Assessment Appeals, which is an appeal board for those protesting valuations reviewed by the County Board of Equalization. Appeals from decisions of the Property Tax Administrator are also heard by this Board. The Appraisal Section has assisted numerous assessors in making appraisals and representing or assisting the counties as to valuations before the Board of Assessment Appeals.

Sales Valuation Report

The Appraisal Section, acting on the request of the State Board of Equalization, completed the sixth annual sales assessment analysis. This report was published, consisting of residential and commercial properties. The sales analysis aids assessors in determining classes of property that require revaluation.

The sales were categorized by county, by property type, and by age grouping. Graphs were presented to compare the ratios. There is a wide disparity among the average sales ratios as between classes of property. Ratios for improved properties are higher than those for unimproved. In most cases they are still below the 30 percent level, and in many counties there is little or no change from 1971 to 1972. In most counties, commercial lands indicate a low level of assessment. Commercial-improved property ratios are higher than residential-improved property ratios. Most counties have an extremely low assessment on unimproved urban lands.

Mapping

The Appraisal Section completed and published a Mapping Specification and Example Manual. This manual was issued to all counties and current contractors of mapping systems. It provides for the specifications and parcel identification numbering system that this Division recommends be used to provide for complete inventory control of all real estate. A pilot project utilizing data processing equipment for mapping is now in the process of being evaluated as to the cost, application and feasibility of use.

Data Processing

The Appraisal Section has completed the Cost Calculation Programs for residential properties, and this will be maintained and kept current by supporting data submitted for all Improvement Cost Manuals. The supporting data for all manuals researched and published is stored by data processing equipment to facilitate future revisions when price changes occur. The Sales Valuation Report is stored and retrieval is provided for breakdowns of sales and specific information for areas of a county as small as sub-

divisions analyzing the sales activity. The Appraisal Section is continuing to work cooperatively with counties in establishing a state-wide data bank and a uniform cost system.

Annual School For Assessors

The Annual School for Assessors and employees was held October 2-6, 1972, at the University of Colorado, Boulder, Colorado. The attendance in the courses was 219. Seven courses were offered. The courses offered consisted of Basic, Residential, Commercial, and Agricultural Lands. The three advanced courses were Office Procedures, Income Analysis and Report Writing. The Student response and participation was most gratifying.

EXEMPT PROPERTY

C.R.S. 137-3-17 provides that the Administrator must determine the exemption from general taxation of property owned and used solely and exclusively for religious worship, for schools and for strictly charitable purposes.

During the year the Division received 417 applications for the exemption of property from general taxation; 233 were for property claimed to be used for religious worship, 159 were for property claimed to be used for strictly charitable purposes, and 25 were for property claimed to be used for schools. This is an increase of 104 applications (33-1/3%) over the number received in 1971.

The Division processed 338 applications for exemption; 238 were granted exemption, 27 were granted exemption in part, and 51 were denied exemption. Twenty-two applications were returned to the respective county assessors or to the claimant as not being subject to determination by the Division. Thirteen appeals were heard by the Administrator; 4 were granted, 4 were granted in part, and 5 were denied. At year end there were 138 applications in various stages of processing.

Six denials of exemption were appealed to the Board of Assessment Appeals; 4 appeals were denied, 1 was resolved by stipulation between the Administrator and the Appellant, and 1 was remanded to the Administrator.

The Division also has the responsibility of examining the annual reports required to be filed by the owners of property which has previously been granted exemption as being owned and used for religious worship, for schools and for strictly charitable purposes to determine if such property continues to qualify for such exemption.

The Division mailed 5,343 pre-printed reporting forms to owners of exempt property followed by 651 second notices to those who had failed to return the reports by the due date.

A total of 5,005 reports were returned by the owners and were reviewed by the Division. Field investigations were made in a number of instances where exemption of the property appeared questionable, and orders were issued revoking the exemption of 46 parcels of property located in 22 counties and having an estimated actual value of \$1,327,500.

The Division issued 90 notices declaring a forfeiture of the exemption of property for which the owner had failed to file a report for two or more years. Fifty-six of these were rescinded upon adequate showing by the owner that the property was eligible for continued exemption.

C.R.S. 137-2-1 (8) (a) (iv) makes specific

provisions for exemption of senior citizen apartment projects. The Division reviewed 31 such projects providing 3,331 apartments, the exemption of which is dependent upon the occupants meeting with the limitations provided as to age, income and assets. On the basis of certifications filed by the project owners, the Division determined that 1,353 apartments were rented by qualified occupants, and that 43% of the actual value of such projects was entitled to exemption.

Forty-six counties have requested that the Division review on their behalf the continued exemption of property used as rectory, parsonage, manse, etc.

DISTRIBUTION OF REVENUE

The following graph shows the distribution of \$532,036,700 derived from the direct taxation by Levies on a total assessed valuation for the year 1972 of \$5,984,840,720 as compiled from the reports of county commissioners certifying levies and revenues. (Special Improvement District Funds of \$24,074,725 are included in County Funds figure.)

TAX LEVIED

The following shows the tax levied for State, County, Municipal, County Public School, General School and Special Improvement Districts, together with the total of all taxes levied for the above purposes:

	State	** County	Municipal	County Public School	General School	Total Revenue
1930.	\$ 5,710,519	\$10,088,346	\$ 9,353,494	\$ 5,786,907	\$ 18,267,450	\$ 49,206,716
