MEMBER
International Association
of Assessing Officers

ANTHONY G. FERRARO
Director of Appraisals

February 15, 1978

The Honorable Richard D. Lamm
Governor of Colorado
and
The General Assembly of the
State of Colorado

Gentlemen:

This report includes the statistical information concerning property taxes and property tax revenues involving local governmental agencies.

The Property Tax Administrator submits this in compliance with 1973 C.R.S. 39-2-119, as amended.

Respectfully submitted,

RAYMOND E. CARPER
Property Tax Administrator

SECTION II

ADMINISTRATION

II. ADMINISTRATION

Assessment of Public Utilities

The Tax Administrator, in Chapter 39, C.R.S., is required annually to value and assess all public utilities. The statute defines public utilities as those entities which do business in this State as a railroad company, airline company, electric company, telephone company, telegraph company, gas company, gas pipeline carrier company, domestic water company, pipeline company, coal slurry pipeline, or private car line company.

Each year the Administrator develops a series of valuation indicators, for the various classes of property. The utilization of these indicators, as directed by statute, establish a "unit" valuation for each property. The actual value factors within the statutes provide for tangible property consisting of the plant; specific intangibles; gross and net operating revenues, capitalized; average market values of outstanding securities. In the judgment of the Tax Administrator, any other operating financial data needed to determine the entire value of the property may be secured from the taxpayer.

The 1978 tax year required the valuation and assessment for 311 companies. They consisted of:

Transportation	176
Power	36
Communications	50
Gas Companies	36
Water Companies	13

Public Utilities had an assessed valuation of \$1,198,955,780 for the tax year 1978. This represents an actual value as of December 31, 1977 of \$3,996,520,000 at the statutory assessment ratio of 30%.

The per cent change of assessed value for the past three (3) years is as follows:

1978	+ 10.5%
1977	+ 12.5
1976	+ 14.6

Assessment Year	Assessed Valuation	Increase
1978	\$1,198,955,780	\$113,444,140
1977	1,085,511,640	121,013,390
1976	964,498,250	123,044,340

Public Utility assessment values are apportioned to the sixty-three counties as required by Colorado Statutes.

County Assessors, County Boards of Commissioners, and the Utility companies have the statutory right to protest to the Tax Administrator and then to the Board of Assessment Appeals the assessment determination of the Property Tax Administrator. There were fourteen (14) protests filed during 1978, involving nineteen (19) companies and fifty (50) counties. Two appeals to the Board of Assessment Appeals were made by one county that involved seven (7) companies and forty-nine (49) counties. There were no court actions initiated against Public Utility valuation, assessments, allocations, or apportionments.

Application for Abatement or Refund of Taxes

The Property Tax Administrator received 2,907 applications for abatement or refund of taxes. The refunds or abatements totaled \$1,987,140, and the denials amounted to \$660 of tax monies. The Administrator continues to review and conduct limited field audits to determine the status between the county board and the assessor's recommendation on the issue of refunds or abatements.

Property Tax Exemptions

The Administrator is required by 1973 C.R.S. 32-2-117 to determine the exemption from general taxation of property owned and used solely and exclusively for religious worship, for schools, and for strictly charitable purposes.

During the year 1978 the Division received 468 applications for exemption from general taxation, 259 were for property claimed to be used for religious worship, 182 were for property claimed to be used for strictly charitable purposes, and 27 were for property claimed to be used for schools.

The Division processed 475 applications for exemption; 312 were granted, 36 were granted in part, 117 were denied, 10 were returned to the respective county assessors or to the claimant as not being subject to determination by the Administrator, and at year end there were 66 applications in various stages of processing.

The Division also has the responsibility of examining the annual reports required to be filed by the owners of property which has previously been granted exemption as being owned and used for religious worship, for schools, and for strictly charitable purposes to determine if such property continues to qualify for such exemption.

The Division mailed 6,180 pre-printed reporting forms to owners of exempt property followed by 528 second notices to those who had failed to return the reports by the due date. Field investigations were made in a number of instances where exemption of the property appeared questionable. Orders were issued revoking the exemption of 32 parcels of property having an estimated actual value of \$856,900.

The Division issued 189 notices declaring a forfeiture of the exemption of property for which the owner had failed to file a report. Of these, 153 were rescinded upon adequate showing by the owner that the property was eligible for continued exemption. The remaining 36, representing property which was returned to the tax roll, had an estimated value of \$1,951,250.

1973 C.R.S. 39-3-101 (1)(g)(B)(C) makes specific provisions for exemption of certain senior citizen apartment projects. The Division reviewed 59 such projects, having 6,405 apartments. Of these 4,067 or 63½% were found to be eligible for exemption.

Hearings were held by the Administrator on 24 petitions for reconsideration. Two appeals were heard by the Board of Assessment Appeals relative to applications for exemption which had been denied; one was granted and one was denied.

Technical Services to Counties

It is the duty of the Property Tax Administrator to assist and cooperate in the administration of all laws concerning the valuing of taxable property, the assessment of the same, and the levying of property taxes. The exercise of this authority is contained in C.R.S. 39-2-109 (1) (b).

The varying assessors requested appraisal assistance in the valuation of many types of properties. Some of the types of appraisal that were made for assessors are: residential lands,

including subdivision lands, open-space lands, and improvements thereon; commercial land and improvements; industrial plants; agricultural lands and building improvements; producing metallic and non-metallic properties; producing coal properties; oil and gas equipment; leased equipment; oil and gas drilling rigs and mobile homes.

Assistance was also requested and rendered by the Division of Property Taxation personnel in training assessment personnel in all types of property; training of office personnel in installation and control of office systems; review of mapping contracts; instruction in mapping and parcel identification systems; appearances and testimony for counties before the State Board of Assessment Appeals and the county boards of equalization.

A narrated slide cassette program "Orientation for New Assessors" was prepared and presented to the 20 newly elected assessors in the State.

Training and Certification

The Division conducted several area schools and seminars in 1978 on mapping, land valuation, mobile homes, personal property, oil and gas drilling rigs, solar energy and guidelines for appraisal procedures and instructions. There were over seven hundred assessors and employees in attendance at these area schools and seminars throughout the year.

In addition to area schools and seminars, individual training of assessment personnel was accomplished by request.

The division sponsored a specialized I.A.A.O. course on "Fundamentals of Real Property Appraisal" in May of 1978. Twenty-four students were in attendance.

The 19th Annual Assessors School that was to be held in October was postponed until January of 1979 to accommodate new assessors and new personnel.

Valuation Guidelines and Publications

The primary responsibility and objective of the appraisal section was to prepare and publish appraisal manuals, procedures and instructions for utilization by county assessors during 1978. These manuals, procedures and instructions were approved prior to publication by the Advisory Committee to the Property Tax Administrator. They are to be used by assessors to implement the 1977 base year.

The manuals that were issued in 1978 by the Division are noted as follows:

- AH 300 Appraisal Instructions & Procedures
- AH 302 R.E. Parcel Identification & Mapping Specifications
- AH 307 Property Classification & Identification
- AH 412 Mobile Home Manual
- AH 426 Investment in Goods & Turnover Factor Information
- AH 505 Cost Factoring Information & Percent Good Tables
- AH 513 Residential Replacement Cost Manual
- AH 523 Commercial & Industrial Replacement Cost Manual
- AH 526 Commercial Personal Property Manual
- AH 538 Mobile Equipment Manual
- AH 547 Agricultural Equipment Manual
- AH 565 Oil & Gas Equipment Replacement Cost Manual

In compliance with Senate Bill 505 (1977) appraisal records were completely revised for the purpose of positively or negatively applying each of the statutory criteria set for in 39-1-103 (5). Also, the appraisal records were developed for use in data processing counties as well as those that use them manually.

Intercounty Equalization Surveys

The Appraisal Section conducted a county audit in conjunction with the assessors to determine the methods and procedures that were to arrive at the valuations for 1978 and also to determine whether the provisions of recently passed legislation were being implemented. Investigations were conducted on equalization requests by taxpayers and recommendations were made of the findings. At

the request of assessors, the Division valued all of the oil and gas drilling rigs that were located in the State during 1978.

Sales Valuation Programs

The 1977 statutory change by HB 1452 requires that assessors submit to the Property Tax Administrator sales that are screened, verified, and coded. The Division is developing a program to analyze sales and assessments through the use of a terminalized computer. At present, the computer and necessary programming is being supplied by a commercial contractor.

Data Processing by the Division

The State Division of A.D.P. provides central services for three (3) subsystems of processing information for this Division. These subsystems are: The commodity price annual report; the exempt properties records and reports; and, the summation and comparison reports from the abstracts of assessment.

During 1977, the same commercial vendor was awarded contracts to develop and operate a system of statistical analysis. This system will provide valuable statistical and comparative data for use by county assessors and this Division and will include the sales/assessment ratio study.

During 1978, the STACO programs and the statistical analysis system were under development by the contractor. The Division began testing some parts of the system.

County Maps of Parcels of Land

The 1973 C.R.S. 39-5-103 (5) provides that "prior to January 1, 1981, each assessor shall prepare and maintain full, accurate, and complete maps showing the parcels of land in his county." A further provision is that "guidelines shall be established by the administrator to produce uniformity throughout the State." These guidelines were approved by the Statutory Advisory Committee to the Property Tax Administrator and are contained in 1977 publication AH 302, Real Estate Parcel Identification and Mapping Specification.

Fifty-two counties currently are in various stages of implementation. Twenty-two of these are at full map inventory. Twenty-seven are in different stages of production and three are in active planning or cost study category. There are eleven counties that have made no plans to implement 1973 C.R.S. 39-5-103 (5) prior to January 1, 1981.

Contractor involvement has increased somewhat over the previous in-house trend. As a result, a continuing audit program has been established to monitor compliance with specifications. There are some counties where parcel numbering and map scale deficiencies have been found.

SECTION III

STATE-COUNTY COST SHARING

III. STATE COUNTY COST SHARING ASSOCIATION

Concept of STACO

The State-County (STACO) System is a cooperative effort whereby the State and individual counties participate in utilizing data processing programs for valuing properties in each county in the State of Colorado. The State and counties share the cost for development and implementation of programs.

Status of Operations

The STACO service center is housed with a commercial contractor. Programs for cost analysis, multiple regression, and sales analysis are presently operative and can be utilized by counties.

STACO Membership

The STACO valuation system has become a reality for all counties desiring to obtain and implement specified data processing programs for valuing properties, while sharing the costs of program development. The system allows for the storing, updating of property characteristics and valuation of property in accordance with Colorado statutes.

Membership of STACO

The security provision of the system allows any member to maintain absolute control of the property records. The application programs may be used by the county to update and establish maintenance of all property records. Access to the system may be by document, tape, or terminal. The system can also provide the abstract, certification, tax roll and tax billing for any size operation.

SECTION XI

CERTIFICATION OF REVENUES AND LEVIES BY COUNTY AS OF JANUARY 1, 1979

FOOTNOTES:

- (A) Excess Levy approved by Division of Local Government.
- (B) Excess Levy Revenue voted at Special Election
- (C) Head — Per Head
- (D) Acres — Per Acre
- (E) Acre Feet — Per Acre Feet
- (F) Wells — Per Well

Exceptions by County:

- (1) Pitkin — County Library Fund does not encompass entire County.
(See Basalt Regional District in Local Improvements and Service Districts)
- (2) Douglas — Law Enforcement Administration does not include Castle Rock and Littleton.
- (3) Saguache — Board of Assessment Appeals Case.
- (4) El Paso — The following revision, as of February 6, 1979, has been made: Total of Revenue - \$72,852,616. See Page 145 for detail of revised assessed valuation and revenue.
- (5) Larimer — Local Improvement & Service Districts - Revision as of January 29, 1979 (Pinewood Springs General Improvement District #2) increases revenue for this district from \$887 to \$5,325 with a mill levy adjustment from .50 to 3.00. This revision will *not* appear in this Annual Report on Page 165.

School District Coding:

Unique School District *within* a county:

Designated by the last position of the code which is assigned either an "0" or a "5."

Joint School Districts *between* counties:

Designated by the last position of the code consisting of the numbers "1" through "4." The Headquarter County is designated by the code number "1." The adjoining counties are indicated by a code number of "2," "3," or "4," assigned to the counties alphabetically.

(1) Averages will not add to the Total Average County Levy because denominators (Assessed Valuation) are not common to all.

(2) Municipal Revenues are divided by the sum of Municipal Assessed Valuations.

(3) Special District Revenues are divided by the sum of all Special District Assessed Valuations.

PETITIONS FOR ABATEMENT, REBATE AND REFUND OF TAXES PASSED UPON BY
THE DIVISION OF PROPERTY TAXATION
FROM JANUARY 1, 1978 to DECEMBER 31, 1978
