ADMINISTRATION

II. ADMINISTRATION

PROPERTY TAXATION IN THE STATE OF COLORADO

Colorado property taxes provide revenue for local government. The state does not impose a levy for statewide use, although by law it could do so. A large share of property tax revenue goes to support the state's public schools. County government claims the next largest share, followed by special districts and municipal governments.

The authority for property taxation in Colorado lies in Article X of the State Constitution, which states that the laws shall secure just and equalized valuations for assessment of all real and personal property not specifically exempted from taxation. C. R. S. 1973, Title 39, Articles 1 through 13, contains specific laws related to property taxation.

THE PROCESS OF PROPERTY TAXATION

The county assessor is responsible for the assessment of all property within the county. By August 10 of each year, the assessor must submit an "Abstract of Assessment" to the Property Tax Administrator which lists all property valuations for the county by class and subclass for the current year. In September the State Board of Equalization reviews the abstracts of all counties and certifies them. This abstract then becomes the basis for the tax roll, which the assessor sends to the county treasurer before January 1.

In the autumn, each municipality, school board, special district and board of county commissioners hold open meetings to determine their budget for the coming year. They must each determine a levy for their district by dividing the budget of each district by the total assessed value for that district. The resulting figure is called the mill levy.

$$\frac{\text{Property Tax Revenue Required}}{\text{Total Assessed Value of the District}} = \text{Mill Levy}$$

The taxing jurisdictions then certify their levies to the county commissioners. In some cases, the budget is determined by a special election. There are statutory limitations to increases in the budgets of taxing jurisdictions.

Everyone lives in a county and within a school district; therefore, there will be at least two mill levies on each tax bill. Beyond this, there are many variations among levies in different tax areas. One taxpayer, for example, may live within a city, a fire

protection district, a recreation district, and a sanitation district. There will be a mill levy on his tax bill for each of these services. Another taxpayer may live in an unincorporated area with a volunteer fire department, but his area may be in a pest control district and have a cemetery which is maintained through a cemetery district. His tax bill will reflect different mill levies from the city dweller's.

All of the mill levies on a taxpayer's statement will be totalled. The total mill levy, multiplied by the assessed value of the taxpayer's property determines the amount to be paid to the county treasurer.

The Assessed Valuation of a property multiplied by the Mill Levy equals the amount of tax due on the property.

DIVISION OF PROPERTY TAXATION

The Division of Property Taxation, under the leadership of the Property Tax Administrator, coordinates and administers the implementation of property tax legislation throughout the 63 counties. It is the Division's responsibility to promote equalization of property valuation throughout the state. The Property Tax Administrator and the Division of Property Taxation are subject to the supervision and control of the State Board of Equalization.

Activities of the Division toward the fulfillment of that goal include:

- (1) publication of manuals and procedures for assessors's use;
- (2) review and approval of all forms used by assessors;
- (3) research of data for such purposes as legislative impact studies, manuals, replacement cost factors, studies specifically requested by assessors;
- (4) field studies;
- (5) providing consultant services on the appraisal of highly specialized and complex properties, at assessor's request;
- (6) providing consultant services on such administrative functions as reorganization, mapping, and data processing, at assessor's request;
- (7) development of a statewide public relations program in cooperation with assessors;

- (8) providing field staff, each of whom works closely with assessors in a specific area of the state towards the administration of property tax laws;
- (9) conducting an annual school for assessors (Law Seminar) and regional assessment education programs for assessors and their staffs throughout the year;
- (10) providing an orientation school for new assessors;
- (11) providing special purpose seminars for assessors and their staffs to update appraisal techniques in the counties;
- (12) publication of the Annual Report and the Yearly Report to the State Board of Equalization;
- (13) review and determination of abatement petitions;
- (14) investigation and response to taxpayer complaints;
- (15) legislative impact studies;
- (16) data processing;
- (17) valuation and apportionment of all public utilities and rail transportation properties doing business in Colorado;
- (18) assistance to the counties and the taxpayers with inquiries on the assessment of utilities and rail transportation properties;
- (19) the hearing of protests and the defense of appeals pertaining to utilities and rail transportation properties;
- (20) examination of all applications for exemption from property taxation for schools, strictly charitable organizations, and property for religious worship;
- (21) providing an annual report of all continued exemptions;
- (22) the hearing of protests and the defense of appeals pertaining to exemptions from property taxation
- (23) assistance to counties and taxpayers with inquiries on exemptions from property taxation;

1982 CONSTITUTIONAL AMENDMENT AFFECTING PROPERTY TAXATION

In 1982, the voters of Colorado approved an amendment to the State Constitution which affected the way in which property is assessed. This amendment was proposed in anticipation of implementation of the 1977 level of value during 1983.

Since the amendment and the change of base year level of value will affect taxpayers during the coming year (**not** during the 1982 tax year for which statistics appear in this report) a brief outline of the changes in Colorado law is given here.

The Amendment requires appropriate consideration of the three approaches to value: cost, market and income. There are two exceptions to this requirement. Residential property is valued on market and cost only. Agricultural land is valued solely on the earning or productive capacity of such lands.

All property is assessed at 29% of actual value. Residential property, the first exception, is assessed at 21% of actual value. Producing mines and oil and gas leaseholds are the second exception, they are assessed at a portion of annual production.

Exemption from property taxation is mandated for the following classes of property:

"Household furnishing and personal effects which are not used for the production of income at any time;

"Inventories of merchandise and materials and supplies which are held for consumption by a business or are held primarily for sale;

"Livestock; agricultural and livestock products; and

"Agricultural equipment used on the farm or ranch in the production of agricultural products."

Beginning in 1983, the State Board of Equalization will review assessments for conformance to the Constitution. The State Board will order revaluations for counties whose valuations do not reflect the 1977 level of value.
