

Strategic Policy Initiatives (SPI)

The Department of Natural Resources (DNR) identified several strategic policy initiatives for FY 2018-19 and beyond. For this performance evaluation, DNR updated its progress on the initiatives identified in the FY 2018-19 Performance Plan that capture the Department's strategic and operational priorities and reflect the overall direction as identified by Department leadership. The updates reflect data as of **March 31st, 2018**.

DNR SPI #1: Implement regulatory changes to improve safety

This strategic policy objective is directly supported by three DNR agencies: Division of Reclamation, Mining, and Safety (DRMS), Division of Water Resources (DWR), and the Oil and Gas Conservation Commission (OGCC). DRMS SPI goals include increasing its inspections of high priority mines. DWR SPI goals include ensuring the safe operation of dams and increasing the accuracy of its water rights records. OGCC SPI goals include quick response to citizen complaints as well as identifying and resolving issues on oil and gas wells.

DNR SPI #2 Implement programs to improve habitat and public access

This strategic policy objective is directly supported by two DNR agencies: Colorado Parks and Wildlife (CPW) and State Land Board (SLB). CPW SPI goals include decreasing invasive species and increasing land and water conservation as well as building world-class recreational facilities that encourages the next generation outdoor recreationalists. SLB supports this SPI through increasing the long term economic and environmental ability of its public trusts to support generations of beneficiaries.

DNR SPI #3 Implement Colorado's Water Plan

This strategic policy objective is directly supported by the Colorado Water Conservation Board (CWCB). CWCB's Colorado water plan goal is to responsibly close the long term water demand water supply gap through increasing water storage (i.e. reservoir) and water conservation, protecting rivers and streams, and minimizing water development's negative impacts on agriculture.

DNR SPI #4 Increase customer service through public engagement programs and formal feedback mechanisms

This strategic policy objective is supported by all DNR agencies. DNR seeks to increase the number of participants in outdoor programs and conduct customer surveys to identify and implement improvements.

Operational Measures

DNR SPI #1: Implement regulatory changes to improve safety

Division of Reclamation, Mining, and Safety (DRMS)
 Mineral Regulatory Program

Measure	FY14 Actual	FY15 Actual	FY16 Actual	FY17 Actual	FY 18 Actual	FY 19 YTD Q3	Target FY 19
# of high priority hardrock mine inspections completed		7	31	32	52	41	50

Division of Water Resources (DWR)
 Dam Safety

Measure	FY14 Actual	FY15 Actual	FY16 Actual	FY17 Actual	FY 18 Actual	FY 19 YTD Q3	Target FY 19
% dams with EAPs (Emergency Action Plan)						99%	99%
% EAPs updated(< 5 yrs old)						82%	75%

Oil and Gas Conservation Commission (OGCC)
 Field Inspection, Environmental, Engineering, and Hearings

Measure	FY14 Actual	FY15 Actual	FY16 Actual	FY17 Actual	FY 18 Actual	FY 19 YTD Q3	Target FY 19
% of complaints received via online tool		70%	84%	98%	99%	91%	98%
% of high-priority wells inspected each year			80%	87%	98%	96%	100%
% of citizen complaints resolved or subject to enforcement action within 30 days		22%	73%	73%	93%	87%	75%

DNR SPI #2 Implement programs to improve habitat and public access

Colorado Parks and Wildlife (CPW)
