### ATTENTION HUNTERS!

The DOW has released Canada lynx in southwest Colorado, which may be found elsewhere in the state. If you see one, please report it to a DOW office. Bobcat hunters should make sure they don't shoot a lynx. Lynx differ from bobcats in several ways:

- \*The tip of a lynx tail is black all around. On a bobcat, the underside of the tip of its tail is white.
- \*The ear tufts of lynx are more than 1 inch long.
- \*The fur on a lynx belly is tawny colored. On a bobcat, it is white.
- \*Lynx tracks are 3 1/2 to 4 1/2 inches wide. Bobcat tracks are less than 2 1/2 inches wide.

3. It is illegal to discharge a firearm or release an arrow from, on or across a public road.

Hunting with rifles, handguns, shotguns firing a single slug and archery equipment prohibited within 50 feet on each side of the center line of any public road. On a divided road, the prohibition includes the median, and the 50-foot requirement is measured from the center line of both roads.

4. It is illegal to carry or have a firearm, except a pistol or revolver, in or on a motor vehicle unless the chamber is unloaded. While using artificial light from a vehicle, it is illegal to have a firearm with cartridges in the chamber or magazine, or possess a strung bow unless the bow is cased.

5. You must take edible parts of game meat home to eat or provide it for human consumption. Do not leave wounded wildlife (or possibly wounded wildlife) without attempting to track and kill it.

8. You must stop at DOW check stations when told to do so.

9. Violations of Colorado wildlife laws carry point values. You can face suspension of license privileges for up to five years or more if you accumulate 20 or more points in five years.

10. It is illegal to promote, conduct, offer to conduct or participate in a competitive event that involves killing small game or furbearers for which there is no bag and possession limit (including coyotes and prairie dogs). Contests are allowed if no more than 5 of each species are killed by each participant during the event. Contests of marked or tagged small game and game birds for money or valuable prizes also are illegal. Tokens of recognition without significant monetary value are not considered valuable prizes. This does not apply to wildlife parks and field trials licensed by the DOW.

11. During deer, elk, pronghorn antelope and bear seasons, firearms (except handguns) must be unloaded in the chamber and magazine when carried on an OHV. Firearms (except handguns) and bows car-

7. Dogs, artificial decoys, duck calls or goose calls are legal, except recorded or electronically amplified calls or sounds. Recorded or electronically amplified calls are legal to hunt common crows.

## MIGRATORY BIRD HUNTING LAWS

In Colorado, the Pacific Flyway is west of the Continental Divide, and the Central Flyway is east of the Continental Divide. Federal and state laws apply.

1. The Wildlife Commission sets waterfowl seasons in August. See the DOW's waterfowl brochure for hunting information.

2. You cannot hunt migratory birds on a federal reservation, federal land set aside as a wildlife reservation, breeding ground or refuge or federal land closed by the Migratory Bird Treaty Act, except as permitted.

3. It is illegal to hunt migratory birds from, on or across a highway, road, trail, public or private right-of-way in national wildlife refuges. Stricter regulations may apply on wildlife refuges. Contact: Alamosa and Monte Vista National Wildlife Refuges, (719) 589-4021; Browns Park NWR, (970) 365-3613; Arapaho NWR, (970) 723-8202.

4. In the areas bounded on N by Wyoming; E and S by Hwy. 71, US 36 and I-70; and W by the Continental Divide and Larimer-Jackson county line; and in Bent, Crowley, Kiowa, Mesa, Otero and Prowers counties:

a. It is illegal to hunt waterfowl within 50 yards on either side of center line of a public road.

b. It is illegal to hunt waterfowl within 150 yards of a dwelling, including directly above it, without first obtaining permission from owner, occupant or person in charge of the dwelling.

5. The most restrictive state or federal laws apply.

6. You cannot kill, have, transport, import or export migratory birds, their parts, nests or eggs that were taken, bought, sold, transported, possessed or exported illegally.

7. It is illegal to have or transport live migratory birds or waterfowl, including wounded birds. You must kill migratory birds immediately after you injure them, and they become part of your bag limit.

8. You don't need a permit to have and transport plumage or skins of legally taken migratory birds for your use.

9. You don't need a permit to have, dispose and transport feathers from wild ducks and wild geese legally killed, or from birds seized and condemned by wildlife authorities. It is legal to use feathers to make fishing flies, bed pillows, mattresses and similar commercial items, except millinery or ornamental use.

10. It is illegal to buy, sell, barter or offer to buy or sell feathers or mounted specimens of migratory birds.

11. It is illegal to receive or have someone else's migratory birds unless they are tagged as required.

12. *Attention sandhill crane hunters:* Whooping cranes are federally endangered and illegal to hunt. They may be in Colorado during sandhill crane season.

## NONTOXIC SHOT

1. It is illegal to use or have toxic (lead) shot, either in shotshells or as loose shot for muzzleloading, while taking or attempting to take ducks, geese or coots in Colorado. This includes national wildlife refuges open to hunting. Toxic shot, either in shotshells or as loose shot for muzzleloading, cannot be in a hunter's gun, on his/her person or near a hunter taking or attempting to take waterfowl. Store lead shot in your vehicle. You can store lead shot elsewhere if it's not readily accessible while hunting waterfowl.

2. Nontoxic shot required in commercial wildlife parks, field trials and dog-training while hunting captive-reared mallards.

3. Nontoxic shot is any type approved by the U.S. Fish and Wildlife Service. Go to:

[www.fws.gov/migratorybirds/issues/nontoxic\\_shot/nontoxic.htm](http://www.fws.gov/migratorybirds/issues/nontoxic_shot/nontoxic.htm).

4. It is illegal to have or use nontoxic shot larger than size T to hunt ducks, geese or coots.

## MIGRATORY BIRD TRANSPORTING, SHIPPING

You must tag migratory birds or packages of birds before transporting them, including to a taxidermist or someone else for picking, cleaning, processing and storage. You must sign the tag and include your address, number and species of birds, harvest date and license number. You don't need to tag birds you have at home. You can ship migratory birds only if you mark the package outside with name and address of sender, name and address of recipient, and number of birds by species.

## MIGRATORY BIRD IMPORTING

During a week (beginning on Sunday), you cannot import more than 25 doves and 10 pigeons from a foreign country. You also cannot import more than 10 ducks and 5 geese from a foreign country, except Canada and Mexico. Doves and waterfowl imported from Canada and Mexico cannot exceed Canadian and Mexican export limits. Export limits vary among provinces and states. One fully feathered wing must stay attached to migratory game birds transported between ports of entry and a person's home or migratory game bird facility. It is illegal to import someone else's migratory game birds.

## PRESERVATION FACILITIES

It is illegal to receive or have someone else's migratory birds to pick, clean, freeze, process, store or ship without records showing number of each species, date birds were received, date birds were disposed, name and address of person receiving the birds. You must keep records for 1 year after the last entry on them. Officers authorized to enforce this regulation can enter facilities at reasonable hours to inspect records and premises.

## SPECIES IDENTIFICATION

A fully feathered wing or head must be attached to all birds, except turkeys, doves and band-tailed pigeons, in transit to hunter's home or commercial processor. For pheasants, a foot with visible spur can be substituted. **NOTE:** While in the field or during transport, all dressed (not fully feathered) doves count against the daily bag and possession limit for mourning and white-winged doves during the Sept. 1-Oct. 30 dove season. During the special Eurasian collared-dove season, Dec. 1-end of February, all birds must be fully feathered while in the field or during transport.

## SMALL GAME SURVEYS

The DOW conducts several small game harvest surveys annually to estimate harvest, hunter numbers and recreation days, in addition to assessing satisfaction and crowding. In many cases, surveys represent the primary means of monitoring populations of several species, especially those difficult to survey by observation. Harvest surveys also are valuable to hunters wanting to learn more about small game in Colorado. Past surveys are available on our website, and updated reports are available after surveys conclude. Hunters are selected randomly to participate. Small game surveys are by telephone; however, some are by email. If contacted, your participation is not required, but responding, even if you did not hunt or harvest an animal, helps us manage small game.

## WEAPONS RESTRICTIONS

Colorado and federal laws prohibit people convicted of certain crimes, such as domestic violence, from possessing weapons even for hunting. If you've been convicted of a crime, check with the appropriate law enforcement authority to find out how these laws apply to you.

# 2008 SMALL GAME HUNTING

## TAGGING REQUIREMENTS

After you kill wildlife requiring a carcass tag, you must immediately sign and date carcass tag, then attach it to the animal. The tag must be attached while the animal is transported, in camp, at a residence, in storage or in your possession. If you accidentally detach the tag from your license, lose or destroy it, you must get a duplicate tag before hunting. You can get a duplicate after providing proof of accidental detachment, loss or damage to the DOW. To transport wildlife not requiring a carcass tag, license holders must accompany the animal. Wildlife shipped by common carrier must be accompanied by the license, photocopy of license or carcass tag.

## BOBCAT SEALS

You must seal bobcats or their pelts with a tag from the DOW within 30 days after harvest. Bobcats or pelts harvested after Feb. 5 must be sealed no later than March 5. Contact a DOW office.

## DONATING WILDLIFE

You can donate edible parts of wildlife to a like-license holder anywhere or to anyone at recipient's home. Bag and possession limits apply to donors and recipients.

## WILDLIFE CAUSING DAMAGE

Colorado law allows landowners to protect private property from most wildlife damage. For information, call (303) 297-1192.

## CHILD SUPPORT DELINQUENCY

State law requires Social Security numbers to buy all licenses. It is not displayed on the license but is provided, if requested, to Child Support Enforcement authorities. Hunting and fishing licenses are not issued to people delinquent in child support.

## DOVE IDENTIFICATION

White-winged doves are relatively uncommon in Colorado and occur primarily along the Front Range, while Eurasians occur sporadically throughout the state. The white-winged dove is pioneering new habitats north of its historic range in the southwest U.S. The Eurasian collared-dove is an exotic introduced into the U.S.

The (4) extended walk-in properties are open from the start of pheasant season through the end of March. WIA properties allow hunting small game, furbearers migratory game birds and Eurasian collared-doves but only during established season dates. Properties are closed to hunting Gambel's quail, Gunnison's sage grouse and greater sage grouse. Foot access only. Hunters ages 18 and older must buy a \$20 access permit to hunt WIA lands, in addition to a small game license, and must comply with Habitat Stamp regulations. Access permits cannot be transferred to anyone. Hunters under age 18 must obtain a free access permit to hunt WIA lands. Other people may accompany hunters without buying an access permit or habitat stamp if they do not hunt. Properties enrolled are posted with Walk-In Access signs and published in a WIA atlas. Two atlases for 2008-09 will be published. An early version will be available in late August and includes properties open Sept. 1. A second atlas will be available in late October and includes all properties.

## **SAFE HANDLING OF GAME MEAT**

Concern has grown recently about diseases affecting wild animals that could potentially make humans sick. Most of the time, properly handled and prepared game meat poses no greater risk than domestic meat of causing disease in humans. Hunters are encouraged to contact their local public health department or DOW office for information on wildlife diseases that may be present where they plan to hunt. Public health officials recommend the following precautions when handling and preparing game meat:

- 1.** Do not handle animals that are obviously sick or found dead. Report sick or dead animals you find to a DOW office.
- 2.** Keep game cool, clean and dry.
- 3.** Do not eat, drink or smoke while dressing game.
- 4.** Use disposable gloves when cleaning game.
- 5.** Wash your hands with soap and water, or use alcohol wipes after dressing game.
- 6.** Clean all tools and surfaces immediately afterward. Use hot soapy water, then disinfect with a 10% chlorine bleach solution.
- 7.** Cook game meat to an internal temperature of at least 165° F to kill disease organisms and parasites. Juices from adequately cooked game meat should be clear.
- 8.** Do not eat any raw portions of wild game.
- 9.** Do not feed raw wild game to domestic pets.
