2018 Elk Harvest, Hunters and Recreation Days for 3 <sup>rd</sup> Season Limited Either-sex Seasons .....	59

## Methodology

Colorado Parks and Wildlife (CPW), utilizes an annual Big Game Harvest Survey of Colorado hunting license holders as part of managing the deer, elk and pronghorn herds and allocating licenses. In 2018 the sale of hunting and fishing licenses resulted in more than \$75 million in revenue for the CPW. Of these license revenues more than 70% are from the sale of deer, elk and pronghorn licenses. CPW contracts with a third party vendor who conducts the annual harvest survey using an email/online based survey in conjunction with live operator telephone based survey. The annual Big Game Harvest Survey is designed to collect general harvest and participation data for all seasons and manners of take at a Data Analysis Unit (DAU) level. Each DAU represents a geographic area that a herd will utilize throughout the year and consists of one or more Game Management Unit (GMU). GMUs are used to manage hunter distribution through established hunts and licensing levels. This annual survey is designed to support DAU population modeling. By collecting and analyzing survey responses at the larger herd management-based scale, errors in data reporting and standard error estimates are reduced.

CPW sold approximately 352,000 deer, elk and pronghorn licenses for nearly 2,800 different hunts. Hunts held between August 15, 2018 and January 31, 2019 that were available to the general public through the limited license draws, Landowner Preference Program (LPP) vouchers, Over-The-Counter, and Leftover sales were included in the annual Big Game Harvest Survey. To ensure all hunts were included in the DAU estimates, the Big Game Harvest Survey used stratified random sampling of licenses based on hunt code, residency and/or hunter age group. This voluntary sample based survey allows CPW to estimate harvest more cost effectively and without the penalties for noncompliance necessary with a mandatory survey. In total, 331,370 licenses were sold for hunts included in the 2018 harvest survey resulting in 171,780 deer, elk and pronghorn licenses being sampled overall.

In addition, 216,840 licenses were sold for the 1,037 elk hunts include in the annual harvest survey. 91 of those licenses had invalid contact information at the time of sampling and were not included in the sample. The stratified random sampling resulted in 115,227 elk licenses being selected for the annual harvest survey. At the end of data collection, 53,452 elk surveys had been completed resulting in a 46 percent overall response rate.

The harvest figures are estimates of harvest and participation extrapolated by comparing survey responses to licenses sold. The DAU estimates are followed by the standard error (SE) of the estimate which is a measure of the precision of the estimate. The 95% Lower Control Limit (LCL) and 95% Upper Control Limit (UCL) columns provide the upper and lower values for the 95% confidence limits around the estimate. For example, we estimated total harvest of elk for DAU E-6 at 7,206 with a SE of 190. The 95% confidence interval range estimates that between 6,844 and 7,588 elk were harvested in E-6 during the 2018 big game season.

## 2018 Elk Hunters, Harvest and Recreation Days for All Seasons By DAU with 95% Confidence Intervals

DAU	Total Hunters				Total Harvest				Percent Success	Total Recreation Days				Sample Rate	Response Rate
