2010 Abandonment Lists

Notice is hereby given that pursuant to Section 37-92-401, C.R.S. (2009), the Division Engineer for each Water Division, in consultation with the State Engineer, has developed a abandonment list which contains those water rights that the Division Engineer has determined to have been abandoned in whole or in part. The abandonment list, when concluded by judgment and decree, shall be conclusive as to the water rights determined to have been abandoned.

Any person who wishes to protest the inclusion of any water rights on the abandonment list shall file a written statement of objection with the Division Engineer in accordance with the procedures set forth in Section 37-92-401(3), C.R.S.(2009). Statements of objection must be filed no later than July 1, 2011. The fee for filing such a protest shall be ten dollars (\$10), except that no fee shall be required for any such filing to correct any clerical error.

The abandonment list is available to print or download from our website under the Publications section at <http://water.state.co.us/pubs/abandonment.asp>

2010 Official Tabulations Now Available

Pursuant to Section 37-92-401, C.R.S. (2009), the Division Engineer of each Water Division, with the approval of the State Engineer, makes such revisions as were determined to be necessary or advisable to the previous tabulation of all decreed water rights and conditional water rights in each Water Division. The official tabulation also reflects the judgments and decrees of the Courts entered prior to January 1 of the publication year. This tabulation may not include certain water rights claimed in pending or recently concluded proceedings. Official tabulations are generated every two years.

This tabulation lists the current status of decreed water rights in order of seniority. The current status is represented by the net amounts of absolute and conditional water rights, along with alternate points of diversion and exchanges.

The official tabulations are available to print or download from our website at <http://www.water.state.co.us/pubs/tabulation.asp>
