**CAMP CREEK DESIGNATED GROUND WATER BASIN
WATER LEVEL MEASUREMENTS
2014**

This report contains the basic ground water level data collected from wells in the Camp Creek Designated Ground Water Basin during the period from 1993 through 2014. Acquisition and publication of this information is a cooperative effort between the well owners and the Colorado Division of Water Resources. The project is part of a statewide ground water level monitoring program funded by Senate Bill 200 (1987 legislative session). This legislation directed that a portion of the fees collected for water well permit applications be used for the establishment of a program to monitor water level trends throughout the state.

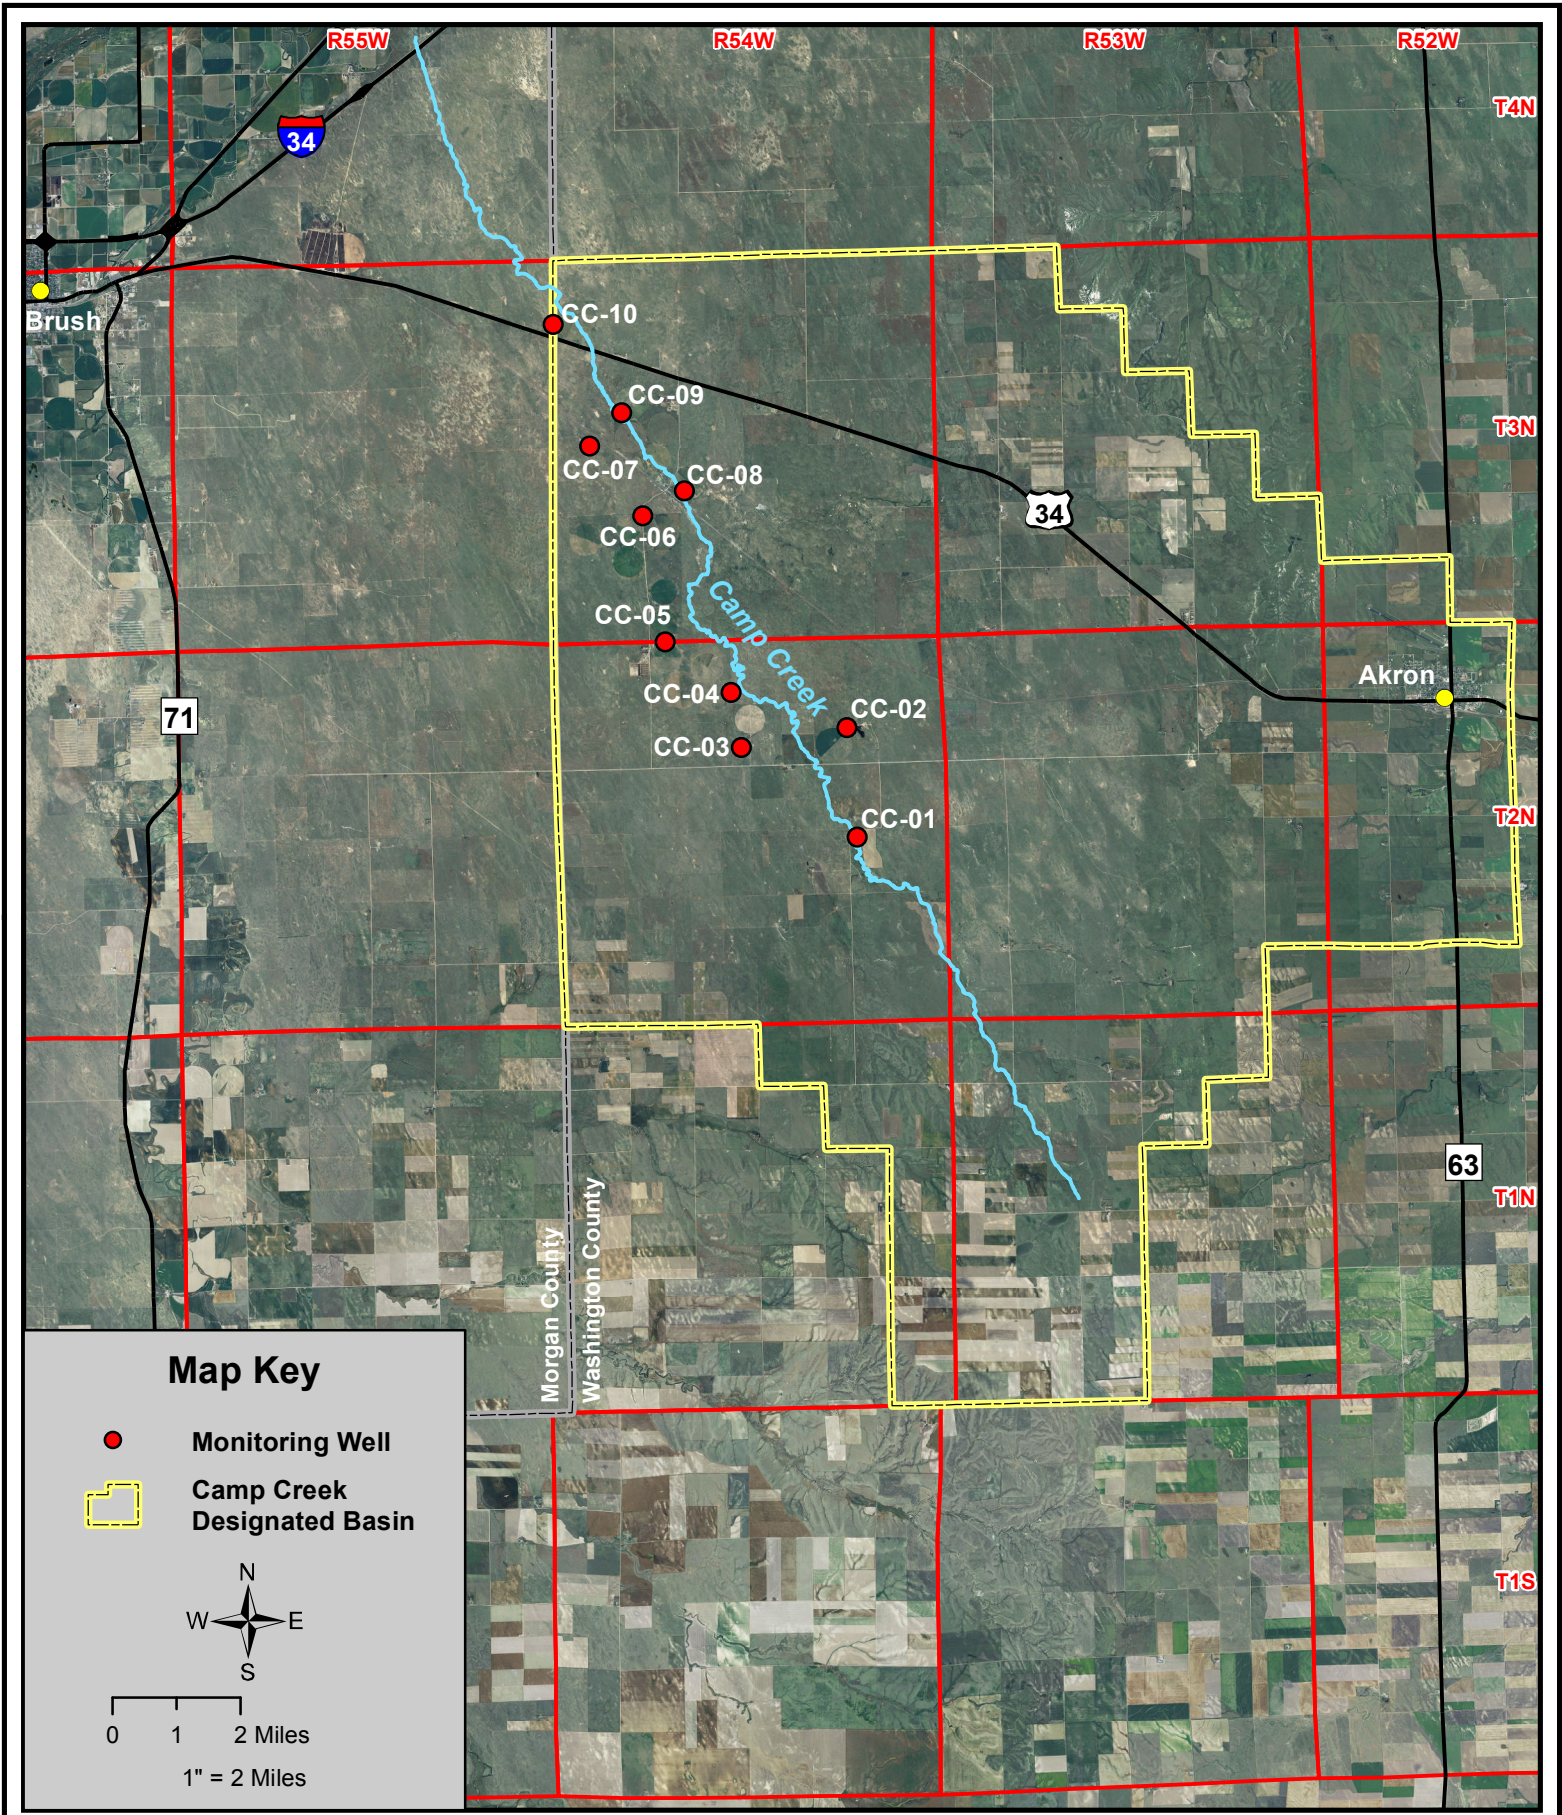

The report contains water level measurements for ten wells measured March 6, 2014. The locations of those wells in context of the designated basin are shown on the following map. All of the Camp Creek wells that are monitored are located in Townships 2 and 3 North, Range 54 West of the 6th P.M. Depth to ground water, below land surface, ranged from 16 to 39 feet. Only two wells, CC-01 and CC-02, in the upper reaches of Camp Creek had water levels less than 20 feet below ground surface.

Tabular and graphical data are presented for each well for the available period of record. Analyses of changes in the water level in the aquifer are complicated by unknown pumping schedules.

On average, ground water levels in wells in the Camp Creek Designated Basin have remained the same for the past year. Basin wide, water levels have declined approximately 9 feet since 1993, when the Division of Water Resources began the monitoring program.

Copies of this report can be purchased from the Office of the State Engineer, Records Section, 1313 Sherman St., Room 821, Denver, CO 80203, (303) 866-3581. Additionally, digital versions of this report, in Adobe PDF format, may be viewed or downloaded from the Division's website, <http://water.state.co.us/groundwater/Pages/HydroGeo.aspx>. The data may be accessed on the internet at the Colorado Decision Support System website <http://cdss.state.co.us> and can be exported to in number of different formats.
