GROUND WATER LEVELS  
IN THE  
NORTH KIOWA-BIJOU GROUND WATER  
MANAGEMENT DISTRICT  
KIOWA-BIJOU  
DESIGNATED BASIN

1997

OFFICE OF THE STATE ENGINEER  
COLORADO DIVISION OF WATER RESOURCES

Hal D. Simpson  
State Engineer

George D. VanSlyke  
Project Manager

This report represents water level measurement data for the North Kiowa-Bijou Ground Water Management District for the 1997 season. This project was done in cooperation with the Management District and with local well owners. Funding for the project is supplied in part from well permit fees collected and managed by the Office of the State Engineer as a cash fund designated for use in obtaining ground water information throughout the state.

A total of 34 wells were measured During the month of April, 1997. These wells are all part of the observation well network which has been measured for many years. Records on at least one well date back to 1936. However, most of the wells date from the 1950's and 1960's. Water level changes between 1996 and 1997 range from a decline of 2.63 feet in T2N, R60W, Sec 1, to a rise of 0.97 feet in T1N, R59W, Sec 18. The ten year period from 1987 to 1997 shows a range from a decline of 16.20 feet in T2N, R59W, Sec. 20, to a rise of 6.79 feet in T1N, R61W, Sec 5. The average change for the 1996 to 1997 period is a decline of 0.65 feet compared to a decline of 0.09 feet between 1995 and 1996. For the 1987 to 1997 period, the average change has been a decline of 5.01 feet or approximately 0.50 feet per year. Generally water levels in the southern half of the basin show either a steady or slightly rising trend. The northern half of the basin exhibits declining water levels with the greatest declines being in the most northerly portion of the basin.

Information concerning bedrock wells for the Denver Basin Aquifers will be available in June of this year and can be obtained from the Office of the State Engineer.

Included in this report are water level data from 1980 to 1997 for all the wells in the monitoring network. Also included are hydrographs of most of the wells.

Copies of this report are being made available to all well owners whose wells were measured as part of this project. Additional copies of the report can be purchased from the Office of the State Engineer.
