KIOWA-BIJOU DESIGNATED GROUNDWATER BASIN 2020

This report contains the basic groundwater-level data collected from wells in the North Kiowa-Bijou Ground Water Management District during early March of 2020. Acquisition and publication of this information is a cooperative effort between the North Kiowa-Bijou Ground Water Management District, private land owners, and the Colorado Division of Water Resources. The project is part of a statewide groundwater-level monitoring program funded by Senate Bill 200 (1987 legislative session). This legislation directed that a portion of the fees collected for water well permit applications be used for the establishment of a program to monitor water-level trends throughout the state.

A total of 33 wells were measured in 2020. These wells are part of an observation well network that has been measured for many years. Records on at least one well date back to 1936, however, measurements from most of the wells date from the 1950's and 1960's. For 2020, depth to groundwater below ground surface ranged from approximately 11 feet in the southern portion of the basin near Strasburg to 162 feet in the northern region, near Wiggins. Water levels in excess of 100 feet deep were reported in wells KB-12, KB-14, KB-15, and KB-41, which are located in the northernmost portion of the Bijou Creek drainage.

A map is included showing the locations of the monitoring wells included in this publication. The wells in this report are listed by name in numerical order. Tabular data are presented for each well for the previous ten measurements. Graphical data are presented for the entire period of record. Measurements for the full period of record may be accessed from the CDSS webpage (link below).

Analyses of changes of groundwater levels in the aquifer are complicated by unknown pumping schedules. Overall, groundwater levels were relatively stable between 2019 and 2020, with an average decrease of approximately 0.1 foot. Because of the distribution of the alluvium in this basin, analysis of groundwater levels by drainage is more revealing. Groundwater levels in the Kiowa Creek drainage have risen approximately 0.5 feet from 2019, about 3.5 feet from 2015, and 1 foot from 2010. Groundwater levels in the Bijou Creek drainage have decreased approximately 0.5 feet since 2019, have risen by 2.5 feet since 2015, and are down 0.25 feet since 2010. Individual wells, however, vary significantly. The long-term trend over most of the basin shows a diminishing water-level decline.

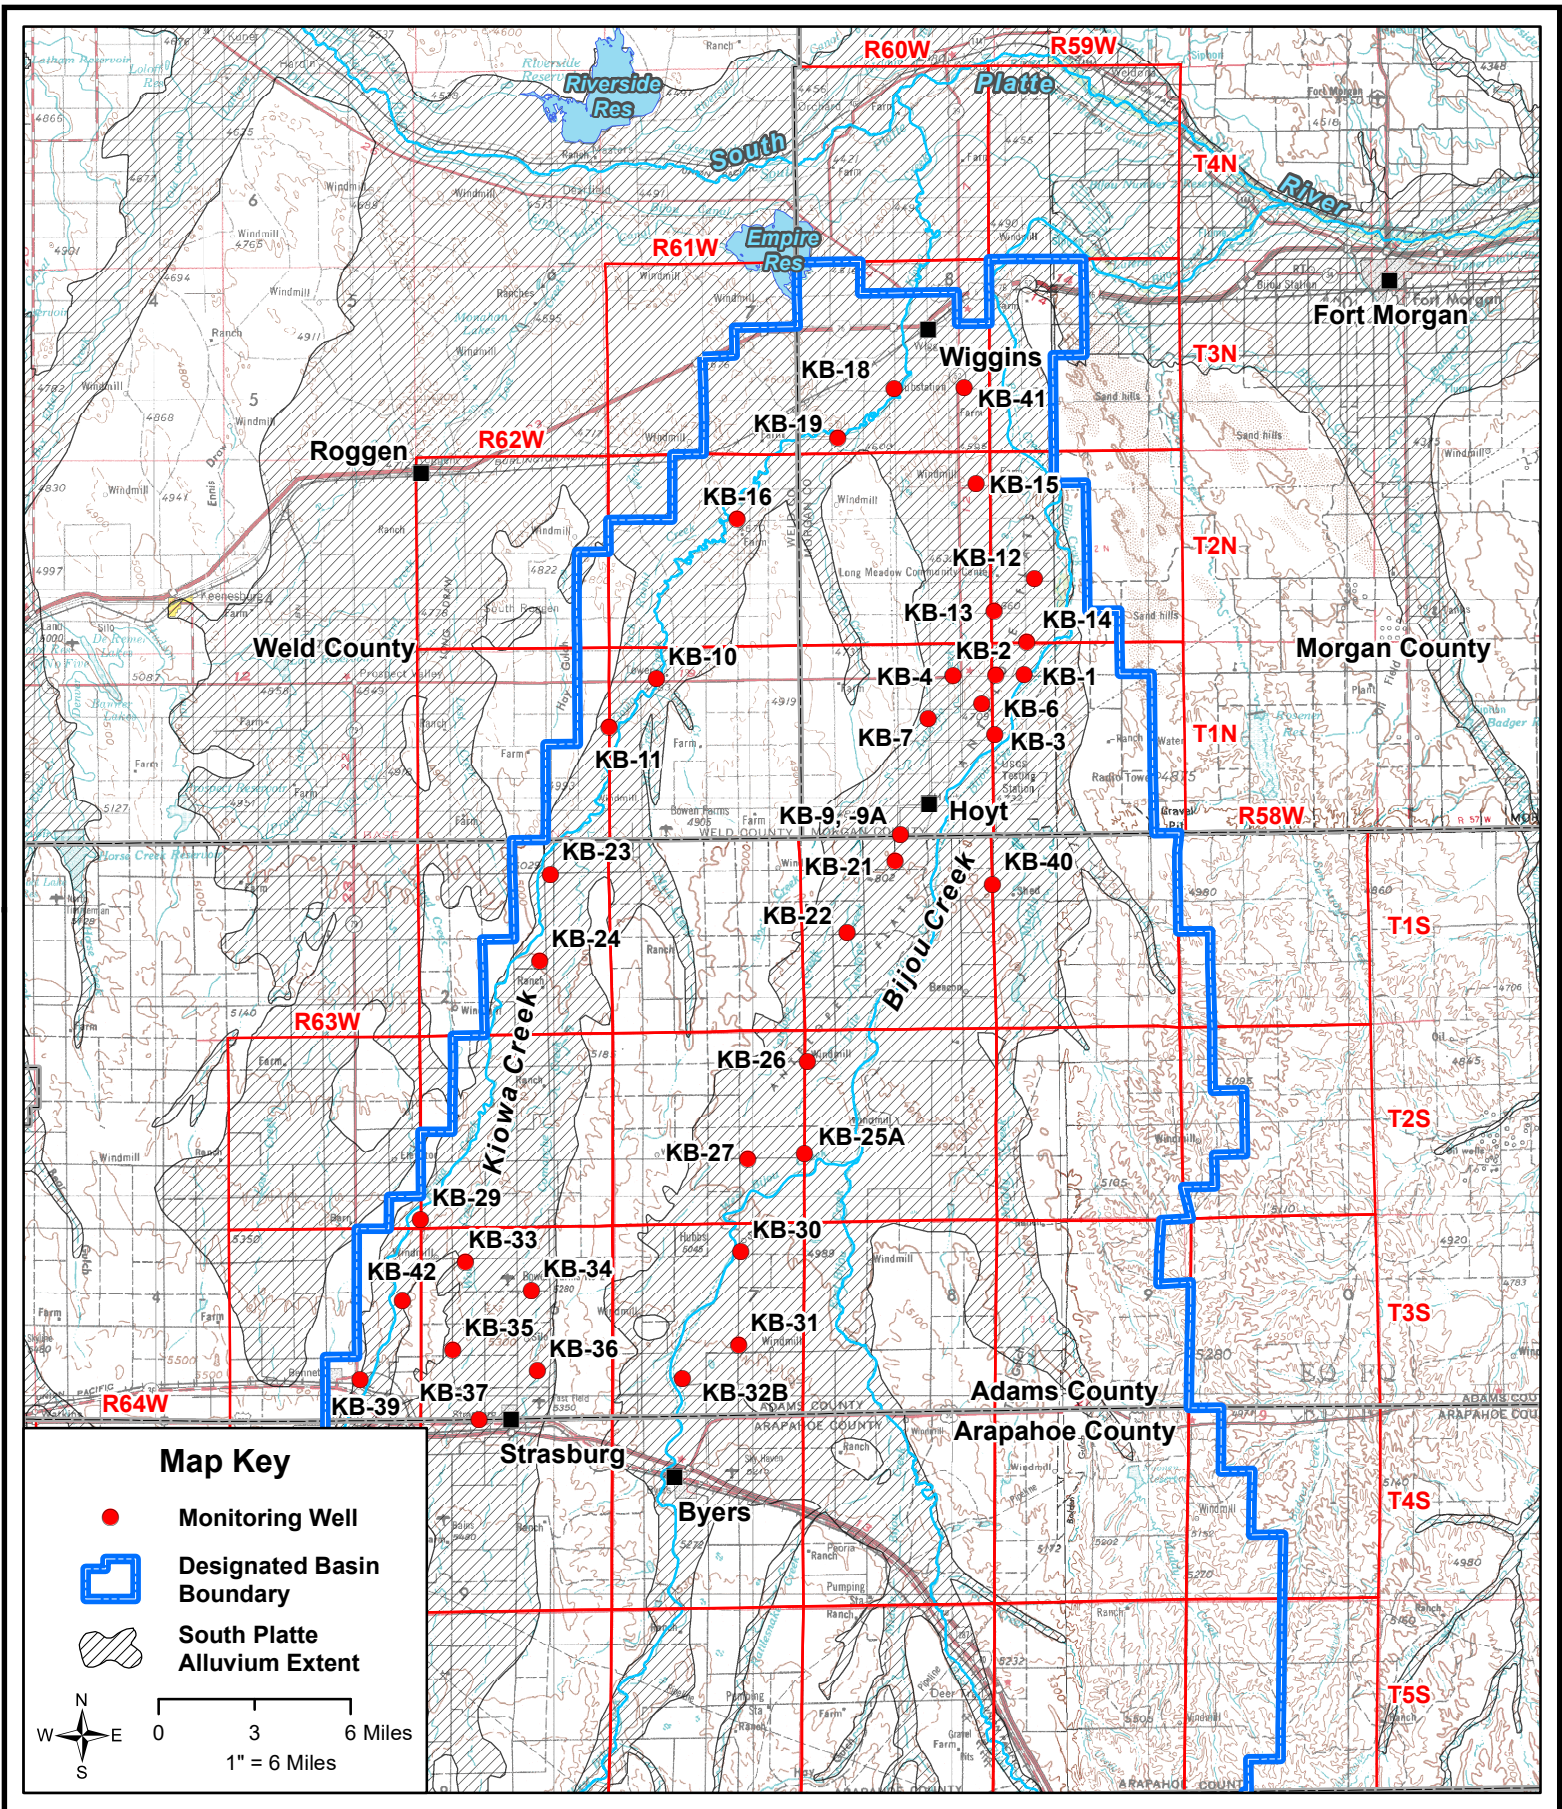

An electronic copy of this report is available on the Division of Water Resources website:
<https://dwr.colorado.gov/services/well-construction-inspection#groundwater-levels>

The direct link to the Kiowa-Bijou Publication Area on the CDSS webpage:
<https://dwr.state.co.us/Tools/GroundWater/WaterLevels?submitButton=Submit&SelectedGeoValue=countyDiv&SelectedPublicationAreaName=KIOWA-BIJOU&SelectedAquiferName=All>

Additionally, all groundwater level data may be accessed and exported using the tools available on the Colorado Decision Support System:
<https://dwr.state.co.us/Tools/GroundWater/WaterLevels>

or the Colorado Decision Support System MapViewer
<https://dwr.colorado.gov/services/data-information/gis>

If you have any questions regarding groundwater in the Kiowa-Bijou Designated Groundwater Basin and the information in this report, please contact the Groundwater Information Desk at (303) 866-3587 or through AskDWR, <https://dwr.state.co.us/Portal/dwr/AskDWR?topicNum=31&officeNum=8>

Construction Information

Surface Elevation (ft): 4788.00
 Well Depth (ft): 132.00
 Depth to Base of Grout (ft):
 Depth to Top of Perforated Casing (ft):
 Depth to Bottom of Perforated Casing (ft):
 Source Aquifer(s): QUATERNARY ALLUVIUM

Well Measurement Summary

Start Date: 03/31/1989 End Date: 03/03/2020
 Number of Measurements: 30

GROUNDWATER DETAILS

Well Name: KB-41
Permit Number:
WDID:
Data Source: DWR

Location Number: SB00306024CCD
USGS Site ID:
Applicant/Contact: KAMMERZELL

Physical Location

Dist N/S	Dist E/W	Q10	Q40	Q160	Sec	Township	Range	PM	UTMx	UTMy	Location Accuracy
