DRAINAGE BASIN OF THE SAN LUIS CREEK AND	)	
LOCATED IN FORMER WATER DISTRICT 25	)	

Pursuant to Section 148-21-27, Colorado Revised Statutes 1963, as amended, the Division Engineer of Division No. III, with the approval of the State Engineer, hereby publishes a tabulation of all absolute and conditional decreed water rights in order of their priority, as said water rights appear of record in Court Decrees on file in the Office of the Division Engineer which decrees were entered in the various former water districts and derive their water supply from one common water source as set forth in the caption above. All information on the list is as decreed except locations which are adjusted to conform to re-surveys or known locations and amounts which are converted to cubic feet per second or acre feet.

NOTICE IS HEREBY GIVEN

That not later than September 10, 1970, any person wishing to object to the manner in which an absolute or conditional decreed water right is listed in the tabulation or to the omission of an absolute or conditional decreed water right from such tabulation shall file a statement of objection in writing with the Division Engineer, Wayne M. Crosby, 1015 Fourth Ave., P.O. Box 269, Alamosa, Colorado 81101.

After considering matters raised by statements of objection and consultation with interested parties, the Division Engineer shall make such revisions, if any, that he deems proper in such tabulation on or before October 10, 1970.  LOCATED IN FORMER WATER DISTRICT 26)

Pursuant to Section 148-21-27, Colorado Revised Statutes 1963, as amended, the Division Engineer of Division No. III, with the approval of the State Engineer, hereby publishes a tabulation of all absolute and conditional decreed water rights in order of their priority, as said water rights appear of record in Court Decrees on file in the Office of the Division Engineer which decrees were entered in the various former water districts and derive their water supply from one common water source as set forth in the caption above. All information on the list is as decreed except locations which are adjusted to conform to re-surveys or known locations and amounts which are converted to cubic feet per second or acre feet.

NOTICE IS HEREBY GIVEN
