

IN THE MATTER OF THE TABULATION LISTING
ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN WATER DIVISION 4.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 4, with the approval of the State Engineer, has prepared a new tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1978 tabulation also reflects the judgments and decrees of the Division Water Judge entered prior to January 1, 1978. The 1978 tabulation may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1978 tabulation reflects a listing of all decreed water rights and conditional water rights in the entire division but does not establish relative priorities for intrastate and compact administration. This tabulation, when concluded by judgment and decree, shall be conclusive as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and as to water rights determined to have been abandoned. The listing of the water rights in the tabulation shall not create any presumption against abandonment and the relative listing of water rights in the tabulation shall not create any presumption of seniority. The tabulation shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1978 tabulation may be inspected after July 10, 1978 in the offices of each Division Engineer, Water Commissioner and County Clerk and Recorder at any time during regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a 1978 tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than July 1, 1980. The fee for filing such objection shall be ten dollars (\$10.00); except that no fee shall be required for any such filing to correct any clerical error.
