THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF THE RIO GRANDE RIVER LOCATED IN FORMER WATER DISTRICT NO. 20 AND IN WATER DIVISION NO. 3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF ALAMOSA CREEK AND LA JARA CREEK LOCATED IN FORMER WATER DISTRICT NO. 21 AND IN WATER DIVISION NO. 3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF THE CONEJOS RIVER LOCATED IN FORMER WATER DISTRICT NO. 22 AND IN WATER DIVISION NO. 3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF THE CONEJOS RIVER LOCATED IN FORMER WATER DISTRICT NO. 22 AND IN WATER DIVISION NO. 3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF COSTILLA CREEK AND CULEBRA CREEK LOCATED IN FORMER WATER DISTRICT NO. 24 AND IN WATER DIVISION NO. 3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF SAN LUIS CREEK LOCATED IN FORMER WATER DISTRICT NO. 25 AND IN WATER DIVISION NO. 3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF SAGUACHE CREEK LOCATED IN FORMER DISTRICT NO. 26 AND IN WATER DIVISION NO. 3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF TUTTLE, CARNERO, LA GARITA, AND ALL OTHER CREEKS AND THEIR TRIBUTARIES WITH SOURCE IN THE LA GARITA MOUNTAINS THAT FLOW EASTWARD INTO THE SAN LUIS VALLEY LOCATED IN FORMER WATER DISTRICT NO. 27 AND IN WATER DIVISION NO.3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASIN OF TRINCHERA, MEDANO, BIG SPRING, LITTLE SPRING, NORTH ZAPATO, SOUTH ZAPATO AND SIERRA BLANCA CREEKS, ALL TRIBUTARIES OF SAID CREEKS AND ALL OTHER STREAMS BETWEEN SAID TRINCHERA CREEK AND SAID MEDANO CREEK LOCATED IN FORMER WATER DISTRICT NO. 35 AND IN WATER DIVISION NO. 3.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 3, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars ($5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars ($20.00); except that no fee shall be required for any such filing to correct any clerical error.
