

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN THE DRAINAGE BASIN OF THE SAN JUAN RIVER (EXCEPTING
THE PIEDRA AND NAVAJO RIVERS) LOCATED IN FORMER WATER DISTRICT NO.
29 AND IN WATER DIVISION NO. 7.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile, Division Engineer

Jeris A. Danielson, State Engineer

FORMER WATER DISTRICT NO. 30 AND IN WATER DIVISION NO. 7.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile, Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN THE DRAINAGE BASIN OF THE PINE RIVER LOCATED IN
FORMER WATER DISTRICT NO. 31 AND IN WATER DIVISION NO. 7.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile , Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN THE DRAINAGE BASIN OF STREAMS TRIBUTARY OF THE SAN
JUAN RIVER OUTSIDE OF THE STATE BOUNDARY WHICH ARE NOT TRIBUTARY
IN COLORADO TO THE SAN JUAN, RIO LAS ANIMAS, LOS PINOS, LA PLATA,
RIO MANCOS, OR THE DOLORES LOCATED IN FORMER WATER DISTRICT NO. 32
AND IN WATER DIVISION NO. 7.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile , Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN THE DRAINAGE BASIN OF THE LA PLATA RIVER LOCATED
IN FORMER WATER DISTRICT NO. 33 AND IN WATER DIVISION NO. 7.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or
W Well	SP Spring	M Mine	P Surface Pump	O Other	more of the preceding

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township, TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four
M Municipal	N Industrial	P Fishery	D Domestic	O Other	or more of the preceding

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile , Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN THE DRAINAGE BASIN OF THE MANCOS RIVER LOCATED IN
THE SOUTHERN HALF OF FORMER WATER DISTRICT NO. 34 AND IN WATER
DIVISION NO. 7.)
)
) WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or
W Well	SP Spring	M Mine	P Surface Pump	O Other	more of the preceding

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four
M Municipal	N Industrial	P Fishery	D Domestic	O Other	or more of the preceding

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile, Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL WATER RIGHTS IN THE DRAINAGE BASINS OF THE SIEMBRIAS ARROYA AND OTHER ARROYAS, THE WATERS OF WHICH DRAIN INTO THE SAN JUAN RIVER BELOW THE JUNCTION OF THE SAN JUAN RIVER AND THE RIO PEIDRA AND ABOVE THE JUNCTION OF THE SAN JUAN RIVER AND THE LOS PINOS RIVER AND LOCATED IN FORMER WATER DISTRICT NO. 46 AND IN WATER DIVISION NO. 7.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile, Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN THE DRAINAGE BASIN OF DISAPPOINTMENT CREEK LOCATED
IN FORMER WATER DISTRICT NO. 69 AND IN WATER DIVISION NO. 7.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 1, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile , Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL)
 WATER RIGHTS IN THE DRAINAGE BASIN OF THE DOLORES RIVER LOCATED IN) WATER RIGHTS TABULATION
 FORMER WATER DISTRICT NOS. 69 AND THE NORTH HALF OF 34 AND IN WATER)
 DIVISION NO. 7.

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile, Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN THE DRAINAGE BASIN OF THE NAVAJO RIVER LOCATED IN
FORMER WATER DISTRICT NO. 29 IN WATER DIVISION NO. 7.)
WATER RIGHTS TABULATION)

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

/1=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile, Division Engineer

Jeris A. Danielson, State Engineer

THE TABULATION LISTING ALL DECREED WATER RIGHTS AND CONDITIONAL
WATER RIGHTS IN THE DRAINAGE BASIN OF THE PEIDRA RIVER LOCATED
IN FORMER WATER DISTRICT NO. 29 AND IN WATER DIVISION NO. 7.

WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. 1973, the Division Engineer of Water Division No. 7, with the approval of the State Engineer, has made such revisions as he deems proper to the July 1, 1978 tabulation of all decreed water rights and conditional water rights in the Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1981 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1981. The 1981 tabulations may not include certain water rights in those proceedings not concluded under Section 37-92-601, C.R.S. 1973.

The 1981 tabulations list all decreed water rights and conditional water rights in the entire division but do not establish relative priorities for compact administration. These tabulations, when concluded by judgment and decree, shall be prima facie evidence as to the date of adjudication, the date of appropriation, and the volume or amount of the water rights listed and conclusive as to water rights determined to have been abandoned. The listing of the water rights in the tabulations shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulations shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights.

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request at the cost to the State of Colorado.

The 1981 tabulation may be inspected after July 1, 1981 in the offices of each Division Engineer, Water Commissioner, and County Clerk and Recorder at any time during the regular office hours. A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part, and separate priority lists as necessary, may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of a tabulation to anyone requesting the list upon a payment of a fee of five dollars (\$5.00).

Any person who wishes to protest the manner in which a decreed water right or conditional water right is listed in the tabulation or the omission of a decreed water right or conditional water right from such tabulation shall file a statement of objection with the Division Engineer no later than January 1, 1982. The fee for filing such objection shall be twenty dollars (\$20.00); except that no fee shall be required for any such filing to correct any clerical error.

EXPLANATION OF CODES USED IN THE WATER RIGHTS TABULATION

Column (1) - This column indicates the type of STRUCTURE and is coded as follows:

D Ditch	R Reservoir	SE Seeps	PL Pipeline	PP Power Plant	*Combination of two or more of the preceding
W Well	SP Spring	M Mine	P Surface Pump	O Other	

Column (WD) - The number signifies the former Water District. The following eight exceptions signify portions of the former Water Districts:

71=District 34	72=District 42	73=District 42	76=District 48
77=District 29	78=District 29	79=District 16	80=District 23

Column (PM) - Code of the Principal Meridians required for LOCATION.

S Sixth Principal Meridian	U Ute Principal Meridian
N New Mexico Principal Meridian	C Costilla Survey

Column (TWN) or (RNG) - An (H) following either a township TWN or range RNG number indicates a half township or range, and a (U) indicates a Ute section

Column (160) - The 160 acre quarter section

Column (40) - The 40 acre quarter-quarter section

Column (10) - The 10 acre quarter-quarter-quarter section

Column (2) - The type of USE is coded as follows:

I Irrigation	C Commercial	R Recreation	F Fire	S Stock	***Combination of four or more of the preceding
M Municipal	N Industrial	P Fishery	D Domestic	O Other	

If an "A" appears in the column just before, and next to, the use, this particular action is part of a Plan for Augmentation.

Column (Amount) - The units are coded: CFS Cubic feet per second, AF Acre feet

Column (3) - This column contains a code describing the TYPE OF ADJUDICATION

O Original	S Supplemental	C Conditional	CA Conditional to Absolute
TF Transfer From	TT Transfer To	AP Alternate Point	AB Abandonment

Dated this 1st day of July 1981.

Daries Lile, Division Engineer

Jeris A. Danielson, State Engineer
