WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-402, C.R.S. (1973 & 1983 supp.) the Division Engineer of Water Division No. 7, in consultation with the State Engineer, has made such revisions as determined to be necessary or advisable to the July 1, 1978, tabulation of all decreed water rights and conditional water rights in the Water Division, including the omission or modification of water rights which he has determined to have been abandoned in whole or in part. The 1984 tabulations also reflect the judgments and decrees of the Division Water Judge entered prior to January 1, 1984. The tabulation may not include certain water rights claimed in proceedings not concluded under Section 37-92-601, C.R.S. 1973.

A separate supplement to this tabulation, listing the decreed water rights which the Division Engineer has determined to be abandoned in whole or in part may be inspected in these same offices and at the same times. The Division Engineer will furnish or mail a copy of the abandonment list to anyone requesting the same upon payment of a fee of five dollars (\$5).

Separate priority lists of decreed water rights and conditional water rights which take or will take water from the same source and are in a position to affect one another will be on the same priority list and will be available on request and payment of the cost to the State of Colorado.

The tabulation may be used by the Division Engineer, the State Engineer and their staffs for administrative purposes. The listing of the water rights in the tabulation shall not create any presumption against abandonment and the relative listing of water rights in the tabulations shall not create any presumption of seniority. The tabulation shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights. The tabulation may be inspected after July 1, 1984, in the offices of the Division Engineer, each Water Commissioner and each County Clerk and Recorder at any time during the regular office hours. The Division Engineer will furnish or mail a copy of the tabulation to anyone requesting the same upon a payment of a fee of five dollars (\$5).

Dated this 1st day of July 1984.

Daries C. Lile, Division Engineer
Jeris A. Danielson, State Engineer
