CONCERNING THE TABULATION OF)
WATER RIGHTS IN WATER DIVISION 5) WATER RIGHTS TABULATION

Notice is hereby given that pursuant to Section 37-92-401, C.R.S. (1990 & 1995 Supp.) the Division Engineer of Water Division No. 5, with the approval of the State Engineer, has made such revisions as were determined to be necessary or advisable to the July 1, 1996, tabulation of all decreed water rights and conditional water rights in Water Division No. 5. The 1998 tabulation also reflects the judgements and decrees of the Courts entered prior to January 1, 1998. The tabulation may not include certain water rights claimed in pending or recently concluded proceedings.

This tabulation lists the current status of decreed water rights in order of seniority. The current status is represented by the net amounts of absolute and conditional water rights, along with alternate points of diversion and exchanges. These net amounts are determined by adding the total of original or supplemental water rights to transfers made to the structure, and subtracting transfers made from the structure and abandonments. Conditional rights made absolute are added into the net absolute amount, and subtracted from the net conditional amount. Net amounts are computed and reported by structure and priority date.

This tabulation may be used by the Division Engineer, the State Engineer, and their staffs for administrative purposes. The relative listing of water rights in the tabulation shall not create any presumption of seniority, nor shall the listing of water rights in the tabulation create any presumption against abandonment. The tabulation shall not be construed to modify special provisions of court decrees adjudicating, changing, or otherwise affecting such water rights or to modify contractual arrangements governing the interrelationship of such water rights. This tabulation may include additional information regarding the water rights herein for purposes of identification and description, but this additional information is neither conclusive nor presumptive as to the truth and accuracy of the matters obtained therein. The tabulation may be inspected after July 1, 1998, in the offices of the Division Engineer, the State Engineer, each Water Commissioner and the Water Clerk at any time during regular office hours. The State Engineer or Division Engineer will furnish or mail a copy of the tabulation to anyone requesting the same upon a payment of a fee of ten dollars ($10).

Dated this 1st day of July 1998.

Orlyn J Bell

Orlyn J Bell, Division Engineer

H. D. Simpson

Harold (Hal) D. Simpson, State Engineer

SPECIAL NOTICE

This Tabulation does not include these water rights that are commonly referred to as "federal reserved rights on national forests" that were recently adjudicated for primary forest purposes (timber management and watershed protection).

Because of the number of reserved rights that have been decreed it was not possible to include them within this Tabulation by the publication deadline. They will be included in the Tabulation that will be published July 1, 2000.

There are water rights and augmentation plans in Water Districts 36, 37, and 38 there were adjudicated prior to December 31, 1997 that are not included within this Tabulation. They will be included in the Tabulation that will be published July 1, 2000.
